Dear Parent/Guardian of \_\_\_\_\_

Fairfax County Public Schools (FCPS) is proud to offer an Algebra Boot Camp for rising grade 8 students who will be enrolled in Algebra 1 in the fall. This program is intended for students who would benefit from additional time to work on pre-algebra skills and get a head start on the Algebra 1 curriculum. Students will have the opportunity to use technology, strengthen problem solving skills, and build their mathematics confidence. We believe your child would benefit from participation in this program.

The Algebra Boot Camp will begin on July 13, 2015, and end on July 31, 2015, and meet four hours daily, Monday through Friday from 7:30 a.m. to 11:30 a.m. There is no tuition or fee for this program and bus transportation will be available using modified neighborhood stops.

Please complete the bottom portion of this letter to indicate your commitment to your child's participation. If your child will be participating, the attached registration form will also need to be completed and returned. We hope that your child will be able to take advantage of this wonderful opportunity!

For additional information, please contact your child's counselor. You may also contact Mr. Stokes at South County Middle at (703) 690-5500 or gkstokes@fcps.edu.

Sincerely,

Marsha Manning  
Principal, South County Middle School

### Algebra Boot Camp

Please check the appropriate response and return to the SCMS Main Office by June 8.

\_\_\_\_\_ My child will participate in Algebra Boot Camp. I have also completed the registration form. I understand the expectation is for my child to attend the entire program.

\_\_\_\_\_ My child will not participate in the Algebra Boot Camp.
