

With over 11,000 copies sold each year, the *Guide to Housing Benefit and Council Tax Benefit* is the essential reference book for the complicated areas of housing and council tax benefit.

The 2012–13 Guide has been fully revised and updated to incorporate all the changes over the past year, including the April 2012 uprating. It provides answers to some of the most frequent problems and issues including:

- The local housing allowance (LHA) national caps and size limits
- How LHA rates are set based on the bottom third of rents
- The extension of the shared accommodation rate to the under 35s
- All the transitional rules associated with the changes
- The new higher non-dependant deductions
- The transfer of incapacity benefit to employment and support allowance (ESA)
- Developments in commerciality, service charges and 'exempt accommodation'
- The changing rules on persons from abroad.

Order today! You can place your order quickly and easily at shelter.org.uk/publications or complete the form below. A 10% discount applies to orders of 5 or more copies.
