

Immunization Form Guidelines

The Immunization Form must be filled out by a physician. It will not be approved unless it has an official stamp from a doctor's office, clinic or health department and an authorized signature. The University of Florida will not accept any other form as proof of immunization and the Immunization Form is necessary to attend the 2014 UF SSTP. For your own health, ensure that the Immunization Form is filled out with accurate dates.

Unless a UF SSTP participant has previously dual enrolled at UF, he/she will not have a UF ID number. Leave this line blank. Our office will obtain students' UF ID numbers and fill them in.

Section A: Required Immunizations

1. MMR Vaccine – Required for everyone. Two doses are required. One must have been received at 12 months age. The second dose must have been received at least 30 days after the first dose.
OR: Measles (Rubeola) – Two doses are required. One must have been received at 12 months of age or later and the second dose must have been received at least 30 days after the first dose. AND Rubella (German Measles) – One dose is required. One dose received at 12 months of age or later.
OR: Submit laboratory evidence of immunity to measles and rubella on a laboratory form (titers).
2. Hepatitis B Vaccine – Strongly recommended. Students wishing to decline this vaccine must read the information about Hepatitis B (available in the “Immunizations” section of www.shcc.ufl.edu), then check and sign where indicated on the Immunization Form. Signing the waiver indicates you understand the possible risk in not receiving this vaccine. If you are under the age of 18 and wish to decline this vaccine, a parent must sign for you.
3. Menactra/MCV4 (Meningococcal Meningitis Vaccine) – The Advisory Committee on Immunization Practices (ACIP) currently recommends this vaccine for freshmen planning to live in campus dormitories/residence halls. Students wishing to decline this vaccine must read the information about Menactra/Meningococcal Meningitis (available in the “Immunizations” section of www.shcc.ufl.edu), then check and sign where indicated on the Immunization Form. Signing the waiver indicates you understand the possible risk in not receiving this vaccine. If you are under 18 and wish to decline this vaccine, a parent must sign for you.
4. Tuberculosis Screening – In most cases this not required by UF or UF SSTP. This section is required for international students. We ask that all other students please complete this portion if they have been screened for Tuberculosis in the past. Please note that some research labs involved with Academic Health Programs may also require that students working in their labs complete the Tuberculosis Screening process.

Section B: Recommended Immunizations for Good Health

- The vaccinations in this section are not required. However, we ask that students still complete this section with accurate dates corresponding to the vaccinations they have received in the past. Some labs require students have up to date immunizations in this section.

As stated above, some labs have more specific immunization requirements. Please do not feel that you will ‘miss out’ on a lab by not getting all the immunizations listed on the form. If a lab has any special immunization requirements, we will contact the student to give them the option of receiving this vaccination or placing him/her in another lab.

Important!
Please
Do Not Delay.

Immunization records are **required** for you to participate
in the UF SSTP.

NO OTHER FORMS
WILL BE ACCEPTED!

Mandatory Immunization Health History Form - Please Follow These Directions

Basic Instructions: DO NOT WAIT! Late, incomplete or inaccurate information may delay registration.

- Have a doctor's office, clinic or health department fill out the medical areas of the form.** An "official stamp" AND an official signature from one of these entities must be included for this document to be complete and approved.
- MINORS (students under 18): A parent/guardian signature must be included for waivers and medical treatment.**
- KEEP A COPY FOR YOUR RECORDS.** Should anything be amiss, you can easily refer to what was sent to us.
- Mail or fax only the single records page (and lab reports as needed) directly to CPET** with your other UF SSTP forms.

NOTE: Only the official UF Mandatory Immunization Health History Form will be accepted, along with lab reports as needed. Submissions provided on any other form will be disregarded and shredded.

Visit the "Immunizations" section of the UF Student Health Care Center website at www.shcc.ufl.edu for more information.

Section A: Information about Required Immunizations

- 1. MMR Vaccine** – Required for EVERYONE born after Dec. 31, 1956. This combination vaccine is often given because it protects from measles, mumps and rubella. Two doses are required for entry into the University of Florida. One must have been received at 12 months age or later and in 1971 or later. The second dose must have been received at least 30 days after the first dose and in 1990 or later.
OR: Measles (Rubeola) – Two doses are required. One must have been received at 12 months of age or later and in 1968 or later. The second dose must have been received at least 30 days after the first dose and in 1990 or later. **AND Rubella (German Measles)** – One dose is required. One dose at 12 months of age or later and in 1969 or later.
OR: Submit laboratory evidence of immunity to measles and rubella on a laboratory form (IGG antibody or titer).
- 2. Hepatitis B Vaccine** – You are encouraged to receive this vaccine series. Students in many academic health programs are required to have this vaccine. Students wishing to decline this vaccine must read the information about Hepatitis B (available in the "Immunizations" section of www.shcc.ufl.edu), then check and sign where indicated on the medical records form. Signing the waiver indicates you understand the possible risk in not receiving this vaccine. If you are under the age of 18 and wish to decline this vaccine, a parent must sign for you.
- 3. MCV4 (Menactra/Menveo) / Meningococcal Meningitis Vaccine** – The Advisory Committee on Immunization Practices (ACIP) currently recommends this vaccine for freshmen planning to live in campus dormitories/residence halls. Students wishing to decline this vaccine must read the information about MCV4 (Menactra/Menveo) / Meningococcal Meningitis (available in the "Immunizations" section of www.shcc.ufl.edu), then check and sign where indicated on the medical records form. Signing the waiver indicates you understand the possible risk in not receiving this vaccine. If you are under 18 and wish to decline this vaccine, a parent must sign for you.
- 4. Tuberculosis Screening: Required for International Students and Most Academic Health Programs** – A Tuberculosis Skin Test by PPD or Mantoux (within the last year) is required for international students and most academic health programs. NOTE: If both PPD and MMR are given, they must be given on the same day for the PPD to be accurate or given 30 days apart. PPDs must be read between 48-72 hours of administration. The result must be listed in "mm" and indicated whether negative or positive in the space indicated. **If the PPD is positive**, submit a copy of the chest X-ray report done on or after PPD placement. **If you do the blood test—Interferon-based Assay (QFT or Tspot)**—submit a copy of the laboratory report. **If the PPD is positive or the Interferon-based Assay is positive**, submit a copy of the chest X-ray report.

Section B: Information about Recommended Immunizations for Good Health

- Td (Tetanus)/Diphtheria or/and Tdap (Tetanus/Diphtheria/Pertussis) – Booster shot within last 10 years. Space is provided to record this information.
- Varicella (Chicken pox) – History of disease or vaccine is acceptable. Indicate the date you had chicken pox. OR: Provide proof of two doses of Varivax. OR: Provide results of a blood test on a laboratory form.
- Hepatitis A, HPV, Polio, Other – In the boxes provided in this section you may also list any additional vaccines that were administered. These are not required.
