

DOE SECTION 75 EQUALITY OF OPPORTUNITY SCREENING ANALYSIS FORM

Section 1

Introduction

This form is intended to help you to consider whether a new policy (either internal or external) or legislation will require a full equality impact assessment (EQIA). Those policies identified as having significant implications for equality of opportunity must be subject to full EQIA.

The form will provide a record of the factors taken into account if a policy is screened out, or excluded for EQIA. It will provide a basis for consultation on the outcome of the screening exercise and will be referenced in the Annual Report to the Equality Commission. Copies of completed forms should be retained on file within business areas (**and a copy sent to the Equality Unit**) and reference should be made to the outcome of the screening exercise and subsequent consultation in any submission made to the Minister.

Background

The Legal Background

Under section 75 of the Northern Ireland Act 1998, the Department is required to have due regard to the need to promote equality of opportunity:

- between persons of different religious belief, political opinion, racial group, age, marital status or sexual orientation;
- between men and women generally;
- between persons with a disability and persons without; and
- between persons with dependants and persons without.

The main groups within each of the nine categories, highlighted above, are identified at Appendix 1.

In addition, without prejudice to its obligations above, the Department is also required, in carrying out its functions relating to Northern Ireland, to have regard to the desirability of promoting good relations between persons of different religious beliefs, political opinion or racial group.

Advice on Completion of the Screening Form

It is important that the screening form is completed carefully and thoughtfully. Your Divisional or Agency Equality Officer and the Department's Equality Unit in room 413A Clarence Court (ext 40203/40813) will be happy to assist with all aspects of the screening process and will help with the completion of the form, if required.

Further advice on the screening process can be accessed at Section 4 of the Equality Commission's Guide to the Statutory Duties.

Policies included for EQIA

If, after screening, it is decided that a policy will require a full EQIA, a decision will be required on the priority and timing of the assessment. The screening form should be noted accordingly, signed off and copied to the Equality Unit for inclusion in the EQIA programme.

Policies excluded for EQIA

If a decision is taken to screen out the policy or where there is ambiguity about the equality implication of the proposal, the screening form should be signed off by a senior officer responsible for the policy and a copy sent to the Equality Unit. Copies of all screening out forms will be placed on the Department's website.

Section 2 – Policy to be Screened

Definition of Policy

There have been some difficulties in defining what constitutes a policy in the context of Section 75. To be on the safe side it is recommended that you consider changes to or any new initiatives, proposals, schemes or programmes as policies. The policies covered in the Equality Scheme EQIA programme are a reasonable guide both to the nature of external departmental policies and the level at which they should be considered.

The revised Guidance from The Equality Commission emphasises that the Statutory duties apply to **internal** policies (relating to people who work for the organisation) as well as **external** policies (relating to those who are, or could be, served by the organisations).

It is important to remember that even if a full EQIA has been carried out in respect of an “overarching” policy or strategy, it will still be necessary for the policy maker to consider if a further EQIA needs to be carried out in respect of those policies cascading from the overarching strategy.

OFMDFM Guidance on Legislative Procedures (Primary and Subordinate) sets out clearly the stages at which equality of opportunity considerations should be taken into consideration in the development of legislation.

Overview of Policy Proposals

The aims and objectives of the policy must be clear and well defined. You must take into account any available data or evidence that will enable you to come to a decision on whether or not a policy may or may not have a differential impact on any of the S75 categories. Evidence may be qualitative and or quantitative and may include research or internal information and or experience in relation to service and customer monitoring exercises. Where appropriate, arrangements should be made to obtain any data necessary to assist screening. The Equality Unit or Central Statistics & Research Branch (Stephanie Harcourt ext 40878 or Michael Bennett ext 40916) are available to provide advice on data requirements.

2.1 Please insert below a brief description of the policy/legislation, including the title and all the main aims and objectives

Title	Draft Waste Management Strategy Regulations (Northern Ireland) 2009
Aims	<p>To transpose in full the public participation rights of Article 2 of EC Directive 2003/35/EC (the “Public Participation Directive”, PPD). Article 2 of the PPD lays down general rules for ensuring public participation rights in the preparation or review of relevant plans or programmes relating to the environment as listed in annex 1 of the PPD. In particular the draft Regulations apply the public participation rights of Article 2 to the preparation and modification or review of certain waste related plans and programmes required to be drawn up – in particular NI’s Waste Management Strategy.</p> <p>To include additional provisions as required by Article 14 of the Packaging Waste Directive, Article 6(1) of the Hazardous Waste Directive and Article 7(1) (indent (iv)) of the Waste Framework Directive. They are-</p> <ul style="list-style-type: none">• the inclusion in NI’s Waste Management Strategy of a chapter on the management of packaging and packaging waste;• the inclusion in NI’s Waste Management Strategy of provisions relating to the management of hazardous waste; and• the inclusion in NI’s Waste Management Strategy of provisions relating to suitable disposal sites or installations for the management of waste.

It is essential that all the aims/objectives of the policy be clearly and fully defined.

2.2 On whom will the policies/legislation impact? Please specify

The waste industry/general public. The legislation will have very little impact on any particular stakeholder group other than ensure that they will be consulted as per the provisions of the PPD.

2.3 Who is responsible for (a) devising and (b) delivering the policy, eg is it DOE, a Whitehall Department or EU? What is the relationship and have they considered this issue and any equality issues?

- | | |
|------------|---|
| (a) | Transposition of article 2 of the Directive (2003/35/EC). UK Government departments are responsible for devising the implementation policy and DOE(NI) are responsible for delivering it in NI. Equality issues have been considered by UK Government departments and there are none. |
| (b) | As (a). |

2.4 What linkages are there to other NI Departments/NDPBs in relation to this policy/legislation?

There are linkages to the Northern Ireland Environment Agency (formerly EHS). There are no linkages to NDPB's.

2.5 What data are available to facilitate the screening of this policy/legislation?

The Department undertook a three month consultation process between 28 November 2008 and 27 February 2009. All respondees were in agreement supporting the Department's proposals (see also 3.3).

2.6 Is additional data required to facilitate screening? If so, give details of how and when it will be obtained.

No.

See Appendix 4 of the Equality Commission Practical Guidance on EQIA which provides a list of Sources of S75 data or speak to Central Statistics and Research Branch (Stephanie Harcourt, ext 40878, or Michael Bennett, ext 40916) or Equality Unit (Alex Boyle, ext 41194, or Laura McAleese, ext 40203).

Section 3 – Screening Analysis

In cases where there is no available quantitative evidence, you will need to take a pragmatic, common sense judgement as to whether the policy/legislation you are screening may have a particular/differential impact on any of the groups. Discussions with Equality Unit, Statistics Branch and organisations representing the Section 75 Groups will be important and helpful at this stage in obtaining qualitative evidence of impacts. Every effort should be made to ensure that assessments are evidence based.

The following criteria must be considered when screening.
