Issue No. 131

A Publication for Westinghouse Retirees

July 2014

The President's Message

Maury Fey

(724) 327-5594 mgfey@comcast.net

SURE Volunteers! Please collect the information on the number of hours you've spent in your volunteer activities (including travel time) since January 1, and submit it to your project coordinator when he/she contacts you this month. You'll find the list of all SURE's projects starting on page **12** of this Newsletter. Are you doing volunteer work for an organization but not receiving SURE credit for it? Perhaps the coordinator doesn't have your name because you're new, changed home address, email address etc. Please call or send your contact an email with your volunteer information. Without your selfless efforts, SURE would have no reason to exist! Please note that we have one program that gathers information on very worthy Volunteer activities that involve too few members to merit a Project and Project Coordinator. That program – termed Diversified Community Services – is now coordinated by Nick Sowko. You may reach Nick at 412-678-7309 to discuss your activity with him.

Our Silver Anniversary Annual Meeting, held at the Comfort Inn in Penn Hills on June 11, was an excellent event. We traced the 25- year history of the organization and reported past year's events. Awards were presented for outstanding performance and officers were elected for the upcoming 12 months. We welcomed Rich Ekstrom as SURE's Vice President, replacing John Tortorice who has agreed to become our Office Manager, and Diane Whittier Neely who becomes SURE's Projects Director, replacing Nick Sowko who has carried the Projects activity for the past several years. Best wishes to Rich and Diane as they take up their new duties and sincere thanks to both John and Nick for jobs so well done!

Rich Ekstrom, will be chairing a six-person team to examine SURE's strengths, weaknesses and opportunities. The goal is to map out a strategic plan to address several issues confronting our aging SURE organization and carry it forward in the best manner possible. We'll keep you informed of the progress.

If you haven't done so already, please sign up for SURE's fifth annual Golf Outing at Willowbrook Country Club in Apollo on July 14. It will be a scramble event starting at 12:30 pm. Willowbrook is a challenging, and very enjoyable experience. The modest charge includes a great picnic-style dinner and prizes. Read the details page 14. Send the registration form to Chuck Hanks along with your \$65 asap.

A Happy and Safe July 4 from the SURE Staff!

East Pittsburgh PA 15112

SURE will match donations to any organization served by a SURE project.

To be eligible, SURE 2014 dues must be current. This is indicated on your mailing label as: DUES CURRENT, Paid to 12/31/2014

SURE will match donations between \$100 and \$250. Individual matching gifts from SURE will not exceed \$250.

Members (including spouses) may make only one donation to be matched per quarter.

Matching gifts will be disbursed on a first come-first served basis. Donations not matched due to insufficient funds will be served in the following quarter.

Matching funds will be available at the rate of **\$1,250** per quarter.

Spotlight Award for July 2014

Nicholas Sowko, Project Director

(412) 678-7309

nickgsowko@msn.com

Tom Prezel is the SURE Spotlight Volunteer for July. He started volunteering for the Montour Trail in 1999 by helping to clear the old Montour Railroad right-of-way that had been abandoned. He volunteered for work parties twice a month to get things ready for a contractor to construct the trail. Once the trail was prepared, the volunteers work twice a month to maintain it.

After retiring in 2006, Tom attended the monthly Engineering and Construction Committee (E&CC) meetings of the Montour Trail Council (MTC) the trail was slowly being built from Coraopolis to Clairton with a total length of the mainline trail of 47 miles. Including the branches, the trail will be 60 miles. Tom worked with the volunteer crews that laid the trail base and the final finished surfaces. He even learned how to operate a large roller that is used to compact the materials that are laid.

Tom has held offices as Co-chair, member of the Board of Directors, and Vice President of the E&CC.

In 2008, he volunteered to take the lead for a bridge project on the Bethel Branch of the trail by representing the MTC as the project manager for the joint Allegheny County and PennDOT's \$1.6 M project. The bridge known as the JR Taylor Memorial Bridge was opened on September 9, 2011. Another bridge, in Library PA will soon be under reconstruction at a cost of \$2.6 M, and is expected to be finished in April 2015.

Tom is now involved in the rehabilitation of the Viaduct in the town of Library, PA. The 506 feet steel bridge was built in 1918 and has been abandoned for about 40 years. Federal Transportation funds were approved in 1993 for the project. After taking over the design in 2011, MTC has now completed the design and is near placing the contract for construction.

Tom joined Westinghouse Bettis Atomic Power Laboratory in December 1967 as an engineer and then became a manager in the Advanced Submarine Project. His work assignments included reactor design and testing for the SEAWOLF submarine and reactor servicing of the ENTERPRISE, the NIMITZ, and two AIW Prototypes surface ships. He also has helped developed methods of fuel disposal for the Naval Reactors Program.

In 1966, Tom married Linda and they have two daughters, a son, and seven grandchildren. They have enjoyed watching the grandkids growing up and attending many of their activities. Tom's also bikes weekly on Pittsburgh area trails with a group that includes Westinghouse retirees.

Tom said, "Volunteering has always given me a sense of accomplishment. It always amazes me at how hard volunteers work to get a job done."

Westinghouse SURE salutes Tom who has donated so much of his time in helping others.

Varicose Veins Are Treatable

Annette Karnash
724-941-7473

Many people, especially women, experience varicose veins. This condition occurs when tiny valves inside the leg veins are damaged. Blood cannot move efficiently through the vein and back to the heart. Blood then pools and the vein bulges from the strain. Unfortunately, varicose veins are more than just a cosmetic problem; they can become a serious medical situation if a blood clot forms in the vein or if a vein ruptures and leads to excessive bleeding. Accompanying the bluish swollen veins and "spider veins," are tired, aching legs.

A few home remedies can abate the pain and tenderness: Propping feet up. When standing for long periods, gravity works against you and pools the blood in the varicose veins. By propping the feet higher than the hips, the blood has a chance to move out of the legs and return to the heart. Lying on the floor with the legs straight and the feet propped against a wall for a few minutes also helps. Wearing support hose also can prevent blood from pooling; instead it moves into the deep veins for the return trip to the heart. Elastic stockings work on the same principle only more so, but a proper fit is imperative. Wearing low-heeled, comfortable shoes is a must; avoid high heels. Smoking should be stopped. The best thing you can do for your legs is to take them for a walk, especially if you stand or sit for long periods.

A medical procedure, echosclerotherapy, can alleviate most problems, and normal activities can be resumed almost immediately. An ultra sound machine is used to find the deep veins which feed the varicose veins. A tiny tube is inserted into a surface vein and pushed through until it reaches the feeder vein. A tube is used to inject a harmless iodine solution into the vein. The varicose vein collapses and is eventually absorbed into the body. The only side effect is mild, temporary inflammation in the treated leg. Echosclerotherapy, performed in a doctor's office, is less expensive than regular surgery, which is normally done in a hospital.

The Agony of the Feet

Annette Karnash
(724) 941-7473

Did you know nails continue to grow no matter what? Fingernails grow at quadruple the rate of toenails. And like hair, the older you get the slower the nails grow. Illness slows growth; nails grow faster in winter. The middle finger nail grows the fastest and thumb nails the slowest. Dominant hand nails grow the fastest.

Fungus infections are unsightly. Nails get thick, discolored and form pus causing inflammation of the surrounding tissue. The infection can spread to other nails. *Tinea fungus* causes Athlete's foot; *monoliasis* is a yeast-like infection caused by prolonged use of antibiotics and cortisone.

Buy shoes that fit and are well ventilated. If feet swell, have shoes on had that are a ½ size larger. Wear different shoes each day, and alternate regular shoes with tennis shoes. Wear an adequate size sock, preferably cotton, to protect feet from direct contact with leather. Socks absorb perspiration that causes irritation and swelling. *Corns* are little white, saggy. Perspiration aggravates toes when they rub against one other. Narrow shoes make matters worse. Rubbing alcohol, drying powder, and separating affected toes

with padding will reduce discomfort. Removing corns is dangerous because they often extend deep into the joint of the toe.

Calluses are thickened patches of skin located over the bony areas on the fleshy part of the foot. They are the body's way of protecting soft areas from friction and pressure. Calluses can be preceded by blisters. A pumice stone can be used after a soaking if they are not too thick or deep.

Bunions are inflamed, swollen areas at the base of the big toe and are hereditary. Often, they must be surgically removed.

Ingrown toe-nails are the painful result of the edge of the nail penetrating the adjoining soft tissue of the toe. Redness, pain, swelling and discharge may develop. Ill-fitting shoes, cutting toe nails too short, flat feet, or excess curvature of the nails can be causes. Feet should be soaked in luke-warm water prior to cutting nails straight across.

The color, shape and condition of a person's nails can alert a doctor to problems.

The Consumer Corner

Mary Bach, Consumer Advocate

Schemes, Scams and Frauds-- They're Everywhere, Every Day

In 2013, 12.6 million Americans lost their hard earned money to identity theft, investment fraud, and other scams. While the old ones still work, are many new ones dupe the innocent, including seniors. Ben Franklin said, "Distrust and caution are the parents of security." Fraud persists today and requires us to be very careful in our business dealings whether using the phone, debit/credit cards, or an investment adviser or broker. Here is an update about the latest scams:

- ✚ An automated caller advises that a family member has arranged for you to have a medical alert button should you "fall and can't get up." He directs you to dial '1' to connect with the shipping department to complete required paperwork. **DON'T DO IT!** You will pay dearly.
- ✚ Your email in-box notes the Post Office has a package that it can't deliver. You are directed to click on a link for details. **DON'T DO IT!** Your computer will be virus infected.
- ✚ A caller claims he represents Microsoft technical support and he needs to repair a computer issue. He'll want to take remote control of your system to clear it up. **DON'T DO IT!** He can steal your identity and clean out your financial accounts.
- ✚ You browse the Internet social networks out of loneliness or curiosity, and connect. There may be an exchange requiring money with either plane tickets or expenses to meet the person. Many men and women have lost their life savings with this scam.
- ✚ This from an experienced hotel clerk: After midnight a call asks for a specific guest in a specific room. Most hotels require that info from a caller. A crook may garner these details by sitting near the registration desk. Once connected to a drowsy guest the scammer says: "*Ms. Jones, I am sorry to disturb you at this hour, but this is the front desk and we are having lots of trouble with your credit card information in getting your bill paid. I just need you to confirm the card numbers and expiration date and I'm sure that that will fix the problem. I will not call you unless necessary.*" At least two guests at this clerk's hotel had a lot of explaining to do to the credit card company about fraudulent charges.

In the past I've alerted you to a number of common scams that work so well for crooks they are always in vogue: the "Grandparent Scam," the "Missed Jury Duty Scam," the "Foreign Lottery Scam," the "Sweepstakes Scam." Keep them all in mind when you answer the phone or get that tempting notice in the mail.

When I speak to groups, an attendee will tell me that they wish they heard my warnings before that day, as they had been victims. Sometimes, an audience member admits to being scammed and this helps convince people to remain vigilant and follow that "gut" feeling of "If it sounds too good to be true...."

From the Desk of Bob Miller

412-242-6256 millerri2@verizon.net

Suspect or have evidence of identity theft including credit card fraud? If you are worried about your accounts, because of the increasing amount identity theft news and identity schemes, you can place a **Fraud Alert** on your three credit reports, by calling just one of the three credit bureaus and they will notify the other two. Your **fraud alert** does not cost anything and stays in your file for at least 90 days, and you will receive monthly reports about your credit reports. If you have had an identity theft attempt and filed a report with your police department, you can place an **extended fraud alert**, which will *stay* in your file for seven years. To place either of these alerts, the credit reporting company will require you to provide appropriate proof of your identity, which may include your Social Security number. If you ask for an extended alert, you will have to provide your **identity theft report**. An identity theft report is a copy of the report you filed with a federal, state, or local law enforcement agency when you reported the identity theft or fraud.

Experian: 888-397-3742

Equifax: 800-525-6285

TransUnion: 800-680-7289

Security Freeze: You also have the right based on your concerns to place a "security freeze" on your credit report, which will prohibit releasing any information in your credit report without your express authorization, except to those with whom you have an existing account or a collection agency acting on behalf of the existing account. A security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent; however, using a security freeze may interfere with, or prohibit the timely approval of your subsequent requests or applications regarding a new loan, credit, mortgage, insurance, government services or payments, rental housing. You can lift the freeze temporarily to take care of those items. The fee for placing a security freeze on a credit report is \$10.00.

If you are a victim of identity theft and submit a valid police report the fee will be waived. **If you are 65 years or older, in PA the fee will be waived.** To request security freeze, log on www.experian.com/freeze or call **Experian:** 888-397-3742

Extended date for PA-1000--That's the PA Dept of Revenue form that provides Property Tax/Rent Rebate program for low income Pennsylvanians age 65 and older and people with disabilities age 18 and older. The

deadline to apply for rebates for property taxes or rent paid in 2013 has been extended from June 30 to Dec. 31, 2014. For property owners the total eligibility annual household income was \$35,000 or less in 2013. For renters it's \$15,000 or less in 2013.

Considering Insurance Costs when Buying a New Car? Get approximate insurance rates for any car, any model, or truck in any state at www.insure.com

In September 2014, the Social Security Administration will resume mailing paper estimated benefit statements to workers between 25 and 60 who haven't signed up to view their statements at www.socialsecurity.gov/myaccount Tell your children and grandchildren about this useful information.

To reduce your Cellular service or TV service fees--When you see ads for lower cellular prices, especially from your provider, call and ask for the lower published rate, even if you're locked into a contract and the ad is only for new subscribers. This is reported to work for most folks. Your TV rates going up? Call your provider and say you're **considering discontinuing** their service. You'll be contacted by a customer retention employee and you should be able to get a 15 to 20% discount if you stay.

IRS Audit? Even though there are fewer audits, here are two tips that tax attorneys suggest. (1) Ask the IRS to provide a written list of the paper work you should bring to the audit. Agents are required to provide this list upon request. Don't bring any additional paperwork to the audit as that may expand the scope. (2) When answering a question, don't talk beyond answering the specific question, especially when the IRS agent remains quiet for an extended period of time. They use silence as a means to get you to talk about subjects that may expand the scope of the audit.

Put your car keys with remote beside your bed at night and you'll have a free built-in alarm system. If you hear strange noises outside or sounds that someone is trying to break into your house, press the "red" button on your remote. The horn honking and flashing car lights will also alert your neighbors and frighten the intruder away. Tell your neighbors about this and suggest they do the same and call 911 if they hear an alarm in the middle of the night. You'll have set up a zero cost neighborhood security system.

Monday, August 25 Celebrate the National Park Service's 98th birthday. Parks that usually charge admission will waive the fee for the occasion. Visit www.nps.gov/findapark/feefreeparksbystate.htm to find a park near you.

Tax Court ruling goes into effect 1/1/2015--IRA owners will only be allowed one tax-free rollover every 12 months, even if that owner holds multiple IRAs. A Rollover occurs when IRA money is sent to the owner and then put back by the owner into an IRA with another trustee within 60 days. If you do more rollovers than one in a 12-month period, the Tax Court says all those after the first are taxable distributions and you must pay the tax. IRA trustee-to-trustee transfers are not subject to the 12-month rule because the IRA owner never handles the money.

World's Millionaires--43% live in the USA, 79% are married, 43% are 65 or older, 54% have a professional or graduate degree, 63% are men, 37% are women.

Need more body Energy? Harvard mind-body researcher, H. Benson, MD, found that body energy expenditure dropped by nearly 17% during meditation, and when taking a breath-break. Inhale slowly to the count of 4, wait for a second and exhale slowly to the count of 6. Doing these breath-breaks several times a day, results in having more energy throughout the day.

Garden Help? www.thegardenhelper.com a calendar for monthly planting advice.

Recycle compact fluorescent light-bulbs (CFLs) Home Depot, IKEA, Ace Hardware and True Value have advertised they will accept used CFL's - not broken

Parsley – has higher vitamin C content than citrus fruits

Traveling outside USA? Get the emergency numbers for the countries you plan to visit. eg; Canada -911, Mexico-060, Europe-112, Australia-000, China-110, Switzerland-117. And in some countries you may find that the police, the fire and medical all have separate emergence numbers. So before you travel, check out: www.sccfd.org/travel.html

August 2014 offers something special--Five Fridays, five Saturdays and five Sundays.

From the desk of Bob Miller provides general information only and does not constitute legal or financial guidance or advice.

Welcome New SURE Members!

We welcome these new SURE members who have joined us during the last two months:

Patricia & Thomas Baird
Donna Bankoske
Thomas & Janet Hackley
Harshad & Kalpana Jambusaria
Cheryl & Ron Melinchak
Mark Montrenes
David & Sandy Moon
Gerald & Natasha Roell
Robert & Diana Seidelson

CALENDAR OF UPCOMING EVENTS
Plus special events
July through Sept 2014

Date	Time	Activity	Location	Coordinator(s)	Phone
July 9*	10:00 AM Wednesday	Financial Roundtable	Comfort Inn 1 st Floor Seas Event Ctr.	Jim Ciesar Larry Shockling	(412) 563-8701 (724) 327-6922
July 9	12:45 PM Wednesday	SURE Board & Advisory Council	Comfort Inn Downstairs Meeting Rm	Maury Fey	(724) 327-5594
August 13	12:45 PM Wednesday	SURE Board & Advisory Council	Comfort Inn Downstairs Meeting Rm	Maury Fey	(724) 327-5594

Sept 10	12:45 PM Wednesday	SURE Board & Advisory Council	Comfort Inn Downstairs Meeting Rm	Maury Fey	(724) 327-5594

*The **July 9** Financial Roundtable will feature Raymond L. Dinkel, Executive Director – Oppenheimer & Co, Inc., a presenter with a long track record of customer service, industry experience and communications with his clients. Mr. Dinkel will present his views on: 1) Wealth Management & Corporate Services; 2) Retirement Distributions; 3) Common Mistakes Investors Make

SURE's Annual Meeting - 2013/14

SURE's Annual meeting was held on June 11. In addition to providing an report on the past year's activities and the election of officers in accordance with our By-Laws, awards were presented to those individuals whose performance is truly exceptional. The following Awards were made at this year's Annual Meeting

SURE's Couple of the Year Award is presented to Bill and Sherry Pierce for their long time Coordination and Volunteer Service to the South Hills Interfaith Ministries. In addition, Bill and Sherry coordinate SURE's volunteer efforts at the Allegheny County Food Bank and all the Food Pantries we serve. Unfortunately, they were unable to attend due to a long planned vacation. They will be presented SURE Certificate commemorating their Award in addition to SURE's check in the amount of \$200 which they may present to the SURE served charities of their choice.

SURE's Recruiter of the Year Award was presented to Ray Frankoski for his development of the working relationship with the Human Resource group at Westinghouse Cranberry, where SURE is recommended and our materials and membership applications are now being distributed to all retiring employees. Ray's initiative has already resulted in a number of newly retired employees joining SURE and it has the potential for many more. Also Ray was presented an Award Certificate and SURE's check in the amount of \$200 which Ray will be able to donate to any of the SURE served charities or non-profit of his choice.

The Bob Lawrence Special Service Award is presented to Howard and Bettyanne Finney for their excellent coordinating together SURE's Trips and Tours.

Some are local one day excursions; others are a week or more to far-away places. Trips and Tours are an important part of SURE's Member service program. They were presented an Award Certificate in addition to a SURE's check in the amount of \$200 for any of the SURE served charities of their choice.

The President's Award This year's President's Award was awarded to SURE's Communications Director John Skooglund. Unfortunately, John is quite ill and was not able to attend. On behalf of every member of the SURE organization, we wish to thank John for his tireless efforts in managing our Database for so many years, in composing and editing the SURE Newsletter, preparing labels, in handling all of SURE's interactions with the Printer and Post Office over the years. In short, John has been SURE's indispensable man and go-to guy when anything was needed. The President's Award certificate will be presented to John as a token of our thanks along with SURE's check in the amount of \$200 which he may donate to any SURE served charity of his choice. We wish John a speedy return to good health.

Charley Ruch Lifetime Achievement Award

It is likely that no other member of the SURE organization can look upon his body of volunteer work and say to himself “I have made life better for almost all of the nation’s Ex- Prisoners of War.” Our winner is Frank Kravetz, who was badly wounded when his B-17 bomber was attacked during a raid over Germany during WWII. Unable to walk as the result of severe wounds in his legs, Frank’s crewmates wrapped a parachute around his body and threw him out of the ill-fated plane. He landed safely and was taken to a German POW Hospital where he recovered enough to be sent to a concentration camp until the end of

the war. Upon his discharge from the Army, Frank and his wife Anne got involved in the several veterans’ organizations, but he was determined to assist other ex-POWs in filing claims for needed benefits. Frank became a founding member of the American Ex-Prisoners of War organization, and for many years served as its National Director and Service Officer. Frank and Anne Kravetz worked side by side for decades, demonstrating the power of a hard working couple with an excellent idea and the enthusiasm to make it happen. Frank’s Lifetime Achievement Award in Volunteering is inscribed: “To Frank Kravetz, whose lifetime of Service to the American Ex- Prisoners of War Organization has Improved Countless Lives.” Frank’s name has been added to the Lifetime Award Plaque that will hang permanently in the SURE office. The award includes SURE’s check in the amount \$1,000 payable to the SURE served charity of Frank’s choice.

Gold Service Awards Twenty Four members achieved the Gold Service Award for Volunteer Service exceeding 500 hours in 2013. Congratulations to all. Some who attended the annual meeting are pictured below.

Leonard Bach	712	Joe Opsitnick	635	Dana Spiardi	558
