

TRIMCO makes products which open doors to other worlds. We manufacture commercial/architectural door hardware. We make products that let people into and out of hospitals, hotels, places of worship, restaurants and schools. Our products hold open operating room doors, keep out vandals and shut doors automatically to help keep fires contained.

TRIMCO makes hardware that kills bacteria, assists in access for the disabled, and that withstands daily abuse by school-age children. We manufacture and ship from our plant so we can ship our products anywhere in the world.

TRIMCO makes what matters.
