## Home School Prior Academic History

Use this form to document any kindergarten through 8th grade courses completed at home during the 2011–12 or 2012–13 school year. We use this information to determine the most appropriate course placement for your student. We may ask you to submit additional documentation or have your student complete one or more placement test(s). If the homeschooling curriculum that your student completed issued progress reports or report cards, please submit that documentation. Courses completed at a public or private school should be documented on a report card or unofficial transcript and you are asked to not use this form. Complete one form per student.
