

## 2014 Make-Up Session Policy

Futures is a talent identification program and is structured to build on skills and tactics as the athlete progress through each session. Athletes are evaluated throughout the Futures sessions leading up to the Futures Regional Tournament. We do realize athletes involved in Futures are also involved in many field hockey activities and high school sponsored athletic teams and cross involvement in other sports can be beneficial.

The Futures Development Program is designed to be covered in nine sessions. Due to the uniqueness of regions, and sites within each region, the site may cover two sessions in one day or the site may have one session a day but meet twice a month. Athletes can have a maximum of two make up sessions.

An athlete may attend make up session(s) at another site if available and will need to coordinate make up sessions through the respective Head Coach. The size of the facility, number of athletes, and age group of the athletes assigned to that site may impact the ability to schedule a make-up session. Athletes should consult with the Head Coach of the site where they would like to make up a session and ask permission to attend. Please be advised that Level 2 athletes may not make up sessions at a Level 1 site and, as much as possible, make up sessions should be age-group appropriate.

You will need to confirm with your own Head Coach the make-up session. Make sure you take an attendance form to be signed by the Head Coach of the site you are attending for a make-up session. Check in with the Head Coach at your make-up site.

## Futures Athlete Attendance Form

**Directions:** Use this form when attending a Futures site other than your original assigned site or to confirm attendance at a USA Field Hockey sanctioned qualifier\*, tournament or High Performance training. This form must be completed and signed by the Head Coach of the make-up site or USA Field Hockey representative. Turn this form into your assigned **Head Coach**.
