ADDENDUM PROCEDURES

1. To implement revisions by addenda, each page of the specification being revised is reissued, showing the revision(s). Each reissued page of an addendum supersedes the corresponding page in the specification.
2. Added or revised material is shown shaded on each revised page.
3. Deleted material is deleted and **** is placed where the deletion started.
4. When a bid item is added or revised on the bid schedule, the entire page containing the bid item is reissued. Added or revised bid items are shaded. Added bid items are inserted at the logical location. Deleted bid items are deleted and **** is placed in each of the columns except the Item No. column.
5. New or replaced sections have the Section Title shaded at the top of each page to denote that the material for the new section is reissued material.
6. When a page in an addendum is revised by a subsequent addendum, the revised information including **** in the previous addendum remains without the shading.
7. When a drawing is revised by words or a sketch in an addendum, but the drawing is not reissued in that addendum; the drawing will be revised and reissued to the successful bidder.
