Calculated As Leased 320.000000 160.000000 Cross-Check 0.000000 0.000000 REMARKS At first look, you might think that this lease is not a related lease of Rosa Axelson (Serial Number -1.1). In fact, early in the lease play, it was not. However, a later lease was executed by the Cameron Trust (Serial Number -5.1 and -6.1) which covered 160-101-35: S2 and 159-101-2: N2, thus making it (Cameron) a related lease and "capturing" the section 2 lands appearing in the AgriBank lease you are viewing. This condition happens from time to time and is normal. When it does, Leas Numbers for one or more leases need to be changed. It's a royal pain, but to only way to keep related leases together. By the way, no acreage figure was added to the Gross Master for this lease because it was added with the Cameron lease. Reminder: *** Proper Method for Determining Lease Number ** As leases are executed for a particular prospect, plat their descriptions or						ns not.
