CONTRACT DOCUMENTS SOFTWARE

Based on the widely-accepted Microsoft® Word platform, the new and entirely redesigned AIA Contract Documents software (for Windows OS) lets you create, share, and manage documents with ease.

Even the popular AIA Contract Administration and Project Management Forms, the G Forms, can be completed in Word, making it easy for the project team to collaborate at the construction site or wherever they're located. Given the complexity of today's design and construction projects, shouldn't you be using the best contract document tool available?
