Introduction to Web Tools

This document contains a Reference Guide to the international label APIs, Priority Mail Express International, Priority Mail International and First Class Mail International. See the Developer's Guide to learn the administrative process for gaining access to the Web Tools APIs as well as the basic mechanism for calling the APIs and processing the results. The Developer's Guide also contains information on testing and troubleshooting.

Note: The Request Parameter sections present the XML input tags for generating live requests along with the restrictions on the values allowed. An error message will be returned if an incorrect value is entered. Also, be aware of the maximum character amounts allowed for some tags. If the user enters more than those amounts, an error will not be generated. **The Web Tool will simply pass in the characters up to the maximum amount allowed and disregard the rest.** This is important since the resulting value could prevent a correct response.

When building the XML request, pay particular attention to the **order and case** for tags. An error message will be returned if an incorrect value is entered. Remember that all data and attribute values in this document are for illustration purposes and are to be replaced by your actual values. For instance, a line of sample code may be:

```
<Pounds>2</Pounds>
```

In this instance, you will replace "2" with the weight in pounds for the package.

Before you get started:

For information on registering and getting started with Web Tools, please refer to the [Step-By-Step guide](#) found on the [Technical Documentation](#) section of the Web Tools page on usps.com/webtools.

Label APIs require extra permissions; contact the Internet Customer Care Center (uspstechnicalsupport@mailps.custhelp.com) to request access. Indicate "Label API Access" in the subject line and explain in the body of the email:

1. How the shipper intends to purchase and apply postage to the labels
2. If the label image provided by the API will be modified in any way by the shipper or the software

Priority Mail Express International Label API

Overview

The Priority Mail Express International Label API lets customers generate Priority Mail Express International labels given the weight and dimensions of the item.

API Signature

Scheme	Host	Path	API	XML
https://	secure.shippingapis.com	/ShippingAPI.dll	?API=ExpressMailIntl	&XML=(see Tag Descriptions below)
https://	secure.shippingapis.com	/ShippingAPI.dll	?API=ExpressMailIntlCertify	&XML=(see Tag Descriptions below)

Note: The "ExpressMailIntlCertify" API signature is for testing purposes and will not generate usable labels and barcodes.

Request Descriptions

Tag Name	Occurs	Description	Type	Validation
ExpressMailIntlRequest	required once		(group)	
ExpressMailIntlRequest / @USERID	required	This attribute specifies your Web Tools ID. See the Developer's Guide for information on obtaining your USERID.	string

Priority Mail Express International™ Service Instructions

Scheduled Delivery Date: 3-5 business days to many major markets^{2,3}

1. Shipping supplies are available online at www.usps.com or your Local Post Office.
2. Verify that all information populated on each of the copies is valid.
3. Select the appropriate category of the item. If the international shipment contains dangerous goods that are approved for mailing, check the box for "Dangerous Goods." Mailability information for international shipments is available in Publication 52, *Hazardous, Restricted, and Perishable Mail* (chapter 6), and in IMM Part 135.
4. Except for shipments to APO/FPO/DPO addresses, enter an Automated Export System (AES) Internal Transaction Number (ITN), AES Exemption, or if applicable, an AES Downtime Citation. This standard may also apply when mailing items to, from, and between U.S. territories, possessions, and Freely Associated States — see DMM 608.2.5. One of these codes must appear in the "AES/ITN/Exemption" block before the Postal Service will accept a package for mailing. In general, mailpieces containing any type of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) valued at more than \$2,500, or requiring an export license under U.S. law, must have an ITN issued by the U.S. Census Bureau or an AES Downtime Citation, subject to certain exceptions. Mailpieces that are exempt from filing must have an AES Exemption. Regardless of exemptions, all mailpieces must have an ITN or AES Downtime Citation if they are destined to certain countries on which the U.S. has a comprehensive embargo. To obtain an ITN and file electronically through the Census Bureau's AES, or for additional information, please visit www.census.gov/foreign-trade/aes or call 800-549-0595. For additional information, refer to U.S. Postal Service® Publication 699, *Special Requirements for Shipping Internationally*, and to IMM Part 520.
- AES Exemption.** In order to comply with U.S. Census Bureau's Foreign Trade Regulations, indicate "NOEEI § 30.37(a)," if applicable. "NOEEI § 30.37(a)" may be used when the value of each class of goods is \$2,500 or less, if an export license is not required. Do NOT use this AES Exemption for items sent to Cuba, Iran, North Korea, Sudan, or Syria. Further information can be found in IMM Parts 526 and 527.
5. Commercial senders: supply the following information to assist Customs in processing the items.
 - a. Enter, if known, the 6-digit Harmonized Tariff Schedule number, which is based on the Harmonized Commodity Description and Coding System developed by the World Customs Organization. "Country of Origin" means the country where the goods originated - i.e., where they were produced/manufactured or assembled.
 - b. Enter License, Certificate, and/or Invoice number, if applicable.
6. Fold or cut all copies in half and arrange in numerical order with "1-Customs Declaration" copy on top. Copies must be placed into the PS Form 2976-E, *Customs Declaration Envelope - CP 91* (plastic envelope).
 - a. Affix the plastic envelope to the package on the address side.
 - b. Package must be large enough that the plastic envelope does not wrap around the package edges.
 - c. Ensure that the entire barcode and all information is visible.
 - d. If using a pickup service, retain Sender's Copy then arrange remaining copies in numerical order with "1-Customs Declaration" copy on top.
7. Express Mail International items bearing a computer-generated customs form with customs data that has been electronically transmitted (e.g., using Click-N-Ship service) may be deposited through any of the following methods, provided postage is paid by a means other than the use of postage stamps: (a) through Package Pickup Service; (b) At a Postal Service retail counter; (c) Into a Postal Service lobby drop; (d) In a collection box; (e) At a Contract Postal Unit (CPU). For additional places of mailing, see IMM Part 225. Items must be mailed on the mailing date selected.
8. Each shipping label number is unique and can be used only once - **DO NOT PHOTOCOPY or FAX - ONLY THE ORIGINAL LABEL CAN BE ACCEPTED.**

PARCEL INDEMNITY COVERAGE: Indemnity for Priority Mail Express International™ parcels, including insured and ordinary (uninsured) parcels, is provided only in accordance with Postal Service™ regulations in the Domestic Mail Manual (DMM®) and the International Mail Manual (IMM®). The DMM and IMM are available online at <http://pe.usps.com>. The addressee must report damage or missing contents to the delivering Post Office™ immediately.

Insurance purchased online cannot be combined with additional insurance purchased at the Post Office. Insured mail service is available for a fee and replaces indemnity on ordinary parcels. Insurance coverage varies by country and is not available to some countries. Indemnity coverage is subject to both U.S. Postal Service® regulations and the domestic regulations of the destination country. Insurance for loss, damage, or missing contents covers the actual (depreciated) value of the contents.

FILING CLAIMS: To initiate an inquiry for loss, damage, or missing contents, call the International Inquiry Center at 800-222-1811. International indemnity inquiries and claims for loss must be filed within the time limits for the service purchased. All claims for damage or missing contents must be filed immediately, and the article, containers, packaging, and all contents received must be presented to the destination Post Office.

Evidence of mailing (e.g., original mailing receipts or wrapper), evidence of insurance, and evidence of value (e.g., sales receipt or repair estimate) must be submitted in support of all claims. For complete regulations, see the IMM at <http://pe.usps.com>.

EXCEPTIONS: No coverage is provided for consequential losses, delay, concealed damage, spoilage of perishable items, articles improperly packaged, articles too fragile to withstand normal handling in the mails, or prohibited articles. See the DMM and the IMM for the specific types of losses that are covered, the limitations on coverage, the terms of insurance or indemnity, and the conditions of payment.

IMPORTANT: Indemnity coverage is not paid for Priority Mail Express International™ or ordinary (uninsured) Priority Mail International parcels containing the following: coins; banknotes; currency notes, including paper money; securities of any kind payable to the bearer; traveler's checks; platinum, gold, and silver; precious stones; jewelry; watches; and other valuable or prohibited articles. See the IMM for complete regulations.

Privacy Act Statement: Your information will be used to satisfy reporting requirements for customs purposes. Collection is authorized by 39 U.S.C. 401, 403, 404, and 407; 13 U.S.C. 301–307; and 50 U.S.C. 1702. Providing the information is voluntary, but if not provided, we may not process your transaction. We do not disclose your information to third parties without your consent, except to facilitate the transaction, to act on your behalf or request, or as legally required. This includes the following limited circumstances: to a congressional office on your behalf; to financial entities regarding financial transaction issues; to a U.S. Postal Service auditor; to entities, including law enforcement, as required by law or in legal proceedings; to contractors and other entities aiding us to fulfill the service (service providers); to domestic and international customs pursuant to federal law and agreements; and to other governmental entities with authority over exportation. INSTRUCTIONS FOR COMPLETING PS FORM 2976-A, CUSTOMS DECLARATION AND DISPATCH NOTE – CP72

Scheduled Delivery Date: 3-5 business days to many major markets^{2,3}

1. Complete the declaration fully; otherwise, delay and inconvenience may result for the addressee. A false or misleading declaration may lead to a fine or seizure of the item and additional penalties.
2. Enter the Certification Number, or License Number and/or Invoice Number in the corresponding block on the form. Your goods may be subject to restrictions. It is your responsibility to comply with import and export regulations and restrictions (e.g. quarantine, pharmaceuticals, etc.) and to determine what documents (e.g. commercial invoice, certificate of origin, health certificate, license, authorization for goods subject to quarantine such as plant, animal, or food product, etc.), if any are required in the destination country. Check the country listings at <http://pe.usps.com>, as well as the UPU List of Prohibited Items available at <http://www.upu.int/en/activities/customs/list-of-prohibited-articles.html>
3. Enter the sender's and addressee's full name and full address in the blocks provided on the 2976-A. Incomplete names (e.g., initials) or incomplete address entries on the 2976-A may result in delayed handling by Customs and/or the delivery office. Please provide the addressee's (Importer's) contact information (telephone/fax/email), which may be used to facilitate customs clearance or delivery.
4. Select the option specifying "Nondelivery" instructions in case of nondelivery. Items returned to sender are subject to return charges at the sender's expense.
5. Enter a detailed description for each article – e.g., "men's cotton shirts" General descriptions – e.g., "samples," "food products," or "toiletries" – are not permitted. If there is insufficient space on the form to list all articles, use the continuation sheet as needed. Each article must include the quantity, net weight (in pounds and ounces), and value (in U.S. dollars). Each article must also include the 6-digit HS tariff number (if known) – which must be based on the Harmonized Commodity Description and Coding System developed by the World Customs Organization – and a "Country of Origin" (if known). The "Country of Origin" is the country where the goods originated – e.g., where they were produced/manufactured or assembled.
6. Select the option specifying the description of contents. Enter explanation if "other" is selected.
7. Enter the total weight of the package including packaging, in pounds and ounces. This corresponds to the weight used to calculate postage.
8. Enter an International Transaction Number (ITN), Exemption Legend, or AES Downtime Citation. This standard may also apply when mailing items to, from, and between U.S. territories, possessions, and Freely Associated States — see DMM 608.2.5 for when this applies. One of these codes must appear in the "AES/ITN/Exemption" block before the Postal Service will accept a package for mailing. In general, mailpieces containing any type of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) valued at more than \$2,500, or requiring an export license under U.S. law, must have an ITN issued by the U.S. Census Bureau or an AES Downtime Citation, subject to certain exceptions. Mailpieces that are exempt from filing must have an Exemption Legend. Regardless of exemptions, all mailpieces must have an ITN or AES Downtime Citation if they are destined for certain countries on which the U.S. has a comprehensive embargo. To obtain an ITN and file electronically through the Census Bureau's Automated Export System (AES), or for additional information, please go to www.census.gov/foreign-trade/aes or call 800-549-0595. Please also refer to U.S. Postal Service® Publication 699, *Special Requirements for Shipping Internationally*, and to IMM Part 520 for additional information.
9. Sign and date the form. Your signature certifies that all entries are correct and the items(s) being mailed contains no undeclared dangerous, prohibited, or restricted contents per postal, customs, or destination country regulations. Your signature also certifies compliance with all applicable Federal Export laws, including filing requirements under Foreign Trade Regulations
10. Insert the completed form(s) into PS Form 2976-E, Customs Declaration Envelope – CP 91. Enclose any commercial documents and the continuation sheets (if applicable) into the envelope. Do not fold form(s) or wrap around the package. The entire barcode and all information must be visible. Remove the backing sheet from PS Form 2976-E and affix the envelope to the package on the address side.

Privacy Act Statement: Your information will be used to satisfy reporting requirements for customs purposes. Collection is authorized by 39 U.S.C. 401, 403, 404, and 407; 13 U.S.C. 301–307; and 50 U.S.C. 1702. Providing the information is voluntary, but if not provided, we may not process your transaction. We do not disclose your information to third parties without your consent, except to facilitate the transaction, to act on your behalf or request, or as legally required. This includes the following limited circumstances: to a congressional office on your behalf; to financial entities regarding financial transaction issues; to a U.S. Postal Service auditor; to entities, including law enforcement, as required by law or in legal proceedings; to contractors and other entities aiding us to fulfill the service (service providers); to domestic and international customs pursuant to federal law and agreements; and to other governmental entities with authority over exportation. For more information regarding our privacy policies, visit usps.com/privacypolicy.

PARCEL INDEMNITY COVERAGE: Indemnity for Priority Mail Express International™ parcels, including insured and ordinary (uninsured) parcels, is provided only in accordance with Postal Service™ regulations in *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)* and *Mailing Standards of the United States Postal Service, International Mail Manual (IMM®)*. The DMM and IMM are available for inspection at any post Office™ or online at <http://pe.usps.com>. The addressee must report damage or missing contents to the delivering Post Office immediately.

Ordinary (i.e. uninsured) Priority Mail International parcels include indemnity coverage against loss, damage, or missing contents. Indemnity is limited to the lesser of the actual value of the contents or the maximum indemnity based on the weight of the article. Priority Mail International Flat Rate Envelopes and Priority Mail International Small Flat Rate Boxes are letter-post items and do not include indemnity coverage.

Insured mail service is available for a fee and replaces indemnity on ordinary parcels. Insurance coverage varies by country and is not available to some countries. Indemnity coverage is subject to both U.S. Postal Service® regulations and the domestic regulations of the destination country. Insurance for loss, damage, or missing contents covers the actual (depreciated) value of the contents. Claims for lost ordinary and insured parcels may be payable only to the sender, and claims for damage and missing contents may be payable only to the addressee. The sender or addressee may waive the right of payment in favor of the other.

FILING CLAIMS: To initiate an inquiry for loss, damage, or missing contents, call the International Inquiry Center at 800-222-1811. International indemnity inquiries and claims for loss must be filed within the time limits for the service purchased. All claims for damage or missing contents must be filed immediately, and the article, containers, packaging, and all contents received must be presented to the destination Post Office. Evidence of mailing (e.g., original mailing receipts or wrapper), evidence of insurance, and evidence of value (e.g., sales receipt or repair estimate) must be submitted in support of all claims. For complete regulations, see the IMM at <http://pe.usps.com>.

EXCEPTIONS: No coverage is provided for consequential losses, delay, concealed damage, spoilage of perishable items, articles improperly packaged, articles too fragile to withstand normal handling in the mails, or prohibited articles. See the DMM and the IMM for the specific types of losses that are covered, the limitations on coverage, the terms of insurance or indemnity, and the conditions of payment.

IMPORTANT: Indemnity coverage is not paid for Priority Mail Express International™ or ordinary (uninsured) Priority Mail International parcels containing the following: coins; banknotes; currency notes, including paper money; securities of any kind payable to the bearer; traveler's checks; platinum, gold, and silver; precious stones; jewelry; watches; and other valuable or prohibited articles. See the IMM for complete regulations.

Error Responses

Error conditions are handled at the main XML document level and Package node level. When parsing, it is best to check for an error document first before checking for good data. Error documents have the following format:

```
<Error>
  <Number></Number>
  <Source></Source>
  <Description></Description>
  <HelpFile></HelpFile>
  <HelpContext></HelpContext>
</Error>
```

Where:

- Number = the error number generated by the Web Tools server.
- Source = the component and interface that generated the error on the Web Tools server.
- Description = the error description.
- HelpFile = [reserved for future use].
- HelpContext = [reserved for future use].

An <Error> element may be returned at the top (response) level if there is a problem with the syntax of the request, or if a system error occurs.

If you need assistance with an error response, contact the Internet Customer Care Center uspstechnicalsupport@mailps.custhelp.com.

Priority Mail International Label API

Overview

The Priority Mail Express International Label API lets customers generate Priority Mail Express International labels given the weight and dimensions of the item.

API Signature

Scheme	Host	Path	API	XML
https://	secure.shippingapis.com	/ShippingAPI.dll	?API=PriorityMailIntl	&XML=(see Tag Descriptions below)
https://	secure.shippingapis.com	/ShippingAPI.dll	?API=PriorityMailIntlCertify	&XML=(see Tag Descriptions below)

Note: The “PriorityMailIntlCertify” API signature is for testing purposes and will not generate usable labels and barcodes.

Priority Mail International Service Instructions

Expected Delivery Date: 6-10 business days to many major markets^{2,3}

Priority Mail International - Terms and Conditions (Indemnity)

Indemnity for Priority Mail International® parcels, including insured and ordinary (uninsured) parcels, is provided only in accordance with Postal Service™ regulations in the *Domestic Mail Manual* (DMM®) and the *International Mail Manual* (IMM®). The DMM and IMM are available online at pe.usps.com. The addressee must report damage or missing contents to the delivering Post Office™ immediately.

Ordinary (uninsured) Priority Mail International parcels include indemnity coverage against loss, damage, or missing contents. Indemnity is limited to the lesser of the actual value of the contents or the maximum indemnity based on the weight of the article. Priority Mail International Flat Rate Envelopes and Priority Mail International Small Flat Rate Boxes are letter-post items and do not include indemnity coverage.

Indemnity coverage is subject to both U.S. Postal Service® regulations and the domestic regulations of the destination country. Based on weight, indemnity coverage may be included at no additional charge, and may not be available to some countries. Indemnity for loss, damage, or missing contents is limited to the lesser of the actual value of the contents or the maximum indemnity based on the weight of the article. Claims for damage and loss may be payable only to addressee; indemnity is not paid for valuable or prohibited articles. No coverage is provided for consequential losses, delay, concealed damage, spoilage or perishable items, articles improperly packaged, articles too fragile to withstand normal handling in the mails or prohibited articles. See the DMM and the IMM for the specific types of losses that are covered, the limitations on coverage and conditions of payment. International insurance coverage greater than the indemnity limits for uninsured parcels is available for an additional fee. Refer to IMM Part 232 for additional information.

Priority Mail International - Terms and Conditions (Insurance)

International insurance coverage is available for Priority Mail International® flat rate and variable weight parcels and is subject to both U.S. Postal Service® regulations and the domestic regulations of the destination country. Insurance coverage varies by country and is not available to some countries. Any article received in damaged condition or with some or all contents missing must be taken to any Post Office for inspection. All claims for damage or missing contents must be filed immediately, and the article, containers, packaging, and all contents received must be presented to the destination Post Office. Further information is available in IMM Part 232.

Note: Indemnity and Insurance are not available for the Priority Mail International Flat Rate Envelope and small flat-rate box.

Privacy Act Statement: Your information will be used to satisfy reporting requirements for customs purposes. Collection is authorized by 39 U.S.C. 401, 403, 404, and 407; 13 U.S.C. 301–307; and 50 U.S.C. 1702. Providing the information is voluntary, but if not provided, we may not process your transaction. We do not disclose your information to third parties without your consent, except to facilitate the transaction, to act on your behalf or request, or as legally required. This includes the following limited circumstances: to a congressional office on your behalf; to financial entities regarding financial transaction issues; to a U.S. Postal Service auditor; to entities, including law enforcement, as required by law or in legal proceedings; to contractors and other entities aiding us to fulfill the service (service providers); to domestic and international customs pursuant to federal law and agreements; and to other governmental entities with authority over exportation. For more information regarding our privacy policies, visit usps.com/privacypolicy.

- Shipping supplies are available online at www.usps.com or your Local Post Office.
 - Verify that all information populated on each of the copies is valid.
 - Select the appropriate category of the item. If the international shipment contains dangerous goods that are approved for mailing, check the box for "Dangerous Goods." Mailability information for international shipments is available in Publication 52, *Hazardous, Restricted, and Perishable Mail* (chapter 6), and in IMM Part 135.
 - Except for shipments to APO/FPO/DPO addresses, enter an Automated Export System (AES) Internal Transaction Number (ITN), AES Exemption, or if applicable, an AES Downtime Citation. This standard may also apply when mailing items to, from, and between U.S. territories, possessions, and Freely Associated States — see DMM 608.2.5. One of these codes must appear in the "AES/ITN/Exemption" block before the Postal Service will accept a package for mailing. In general, mailpieces containing any type of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) valued at more than \$2,500, or requiring an export license under U.S. law, must have an ITN issued by the U.S. Census Bureau or an AES Downtime Citation, subject to certain exceptions. Mailpieces that are exempt from filing must have an AES Exemption. Regardless of exemptions, all mailpieces must have an ITN or AES Downtime Citation if they are destined to certain countries on which the U.S. has a comprehensive embargo. To obtain an ITN and file electronically through the Census Bureau's AES, or for additional information, please visit www.census.gov/foreign-trade/aes or call 800-549-0595. For additional information, refer to U.S. Postal Service® Publication 699, *Special Requirements for Shipping Internationally*, and to IMM Part 520.
- AES Exemption.** In order to comply with U.S. Census Bureau's Foreign Trade Regulations, indicate "NOEEI § 30.37(a)," if applicable. "NOEEI § 30.37(a)" may be used when the value of each class of goods is \$2,500 or less, if an export license is not required. Do NOT use this AES Exemption for items sent to Cuba, Iran, North Korea, Sudan, or Syria. Further information can be found in IMM Parts 526 and 527.
- Commercial senders: supply the following information to assist Customs in processing the items.
 - Enter, if known, the 6-digit Harmonized Tariff Schedule number, which is based on the Harmonized Commodity Description and Coding System developed by the World Customs Organization. "Country of Origin" means the country where the goods originated - i.e., where they were produced/manufactured or assembled.
 - Enter License, Certificate, and/or Invoice number, if applicable.
 - Fold or cut all copies in half and arrange in numerical order with "1-Customs Declaration" copy on top. Copies must be placed into the PS Form 2976-E, *Customs Declaration Envelope - CP 91* (plastic envelope).
 - Affix the plastic envelope to the package on the address side.
 - Package must be large enough that the plastic envelope does not wrap around the package edges.
 - Ensure that the entire barcode and all information is visible.
 - If using a pickup service, retain Sender's Copy then arrange remaining copies in numerical order with "1-Customs Declaration" copy on top.
 - Priority Mail International items bearing a computer-generated customs form with customs data that has been electronically transmitted (e.g., using Click-N-Ship service) may be deposited through any of the following methods, provided postage is paid by a means other than the use of postage stamps: (a) through Package Pickup Service; (b) At a Postal Service retail counter; (c) Into a Postal Service lobby drop; (d) In a collection box; (e) At a Contract Postal Unit (CPU). For additional places of mailing, see IMM Part 235. Items must be mailed on the mailing date selected.
 - Each shipping label number is unique and can be used only once - **DO NOT PHOTOCOPY or FAX - ONLY THE ORIGINAL LABEL CAN BE ACCEPTED.**

INSTRUCTIONS FOR COMPLETING PS FORM 2976-A, CUSTOMS DECLARATION AND DISPATCH NOTE – CP72

Expected Delivery Date: 6-10 business days to many major markets²

1. Complete the declaration fully; otherwise, delay and inconvenience may result for the addressee. A false or misleading declaration may lead to a fine or seizure of the item and additional penalties.
2. Enter the Certification Number, or License Number and/or Invoice Number in the corresponding block on the form. Your goods may be subject to restrictions. It is your responsibility to comply with import and export regulations and restrictions (e.g. quarantine, pharmaceuticals, etc.) and to determine what documents (e.g. commercial invoice, certificate of origin, health certificate, license, authorization for goods subject to quarantine such as plant, animal, or food product, etc.), if any are required in the destination country. Check the country listings at <http://pe.usps.com>, as well as the UPU List of Prohibited Items available at <http://www.upu.int/en/activities/customs/list-of-prohibited-articles.html>
3. Enter the sender's and addressee's full name and full address in the blocks provided on the 2976-A. Incomplete names (e.g., initials) or incomplete address entries on the 2976-A may result in delayed handling by Customs and/or the delivery office. Please provide the addressee's (Importer's) contact information (telephone/fax/email), which may be used to facilitate customs clearance or delivery.
4. Select the option specifying "Nondelivery" instructions in case of nondelivery. Items returned to sender are subject to return charges at the sender's expense.
5. Enter a detailed description for each article – e.g., "men's cotton shirts" General descriptions – e.g., "samples," "food products," or "toiletries" – are not permitted. If there is insufficient space on the form to list all articles, use the continuation sheet as needed. Each article **must** include the quantity, net weight (in pounds and ounces), and value (in U.S. dollars). Each article must also include the 6-digit HS tariff number (if known) – which must be based on the Harmonized Commodity Description and Coding System developed by the World Customs Organization – and a "Country of Origin" (if known). The "Country of Origin" is the country where the goods originated – e.g., where they were produced/manufactured or assembled.
6. Select the option specifying the description of contents. Enter explanation if "other" is selected.
7. Enter the total weight of the package including packaging, in pounds and ounces. This corresponds to the weight used to calculate postage.
8. Enter an International Transaction Number (ITN), Exemption Legend, or AES Downtime Citation. This standard may also apply when mailing items to, from, and between U.S. territories, possessions, and Freely Associated States — see DMM 608.2.5 for when this applies. One of these codes must appear in the "AES/ITN/Exemption" block before the Postal Service will accept a package for mailing. In general, mailpieces containing any type of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) valued at more than \$2,500, or requiring an export license under U.S. law, must have an ITN issued by the U.S. Census Bureau or an AES Downtime Citation, subject to certain exceptions. Mailpieces that are exempt from filing must have an Exemption Legend. Regardless of exemptions, all mailpieces must have an ITN or AES Downtime Citation if they are destined for certain countries on which the U.S. has a comprehensive embargo. To obtain an ITN and file electronically through the Census Bureau's Automated Export System (AES), or for additional information, please go to www.census.gov/foreign-trade/aes or call 800-549-0595. Please also refer to U.S. Postal Service® Publication 699, *Special Requirements for Shipping Internationally*, and to IMM Part 520 for additional information.
9. Sign and date the form. Your signature certifies that all entries are correct and the item(s) being mailed contains no undeclared dangerous, prohibited, or restricted contents per postal, customs, or destination country regulations. Your signature also certifies compliance with all applicable Federal Export laws, including filing requirements under Foreign Trade Regulations
10. Insert the completed form(s) into PS Form 2976-E, Customs Declaration Envelope – CP 91. Enclose any commercial documents and the continuation sheets (if applicable) into the envelope. Do not fold form(s) or wrap around the package. The entire barcode and all information must be visible. Remove the backing sheet from PS Form 2976-E and affix the envelope to the package on the address side.

Privacy Act Statement: Your information will be used to satisfy reporting requirements for customs purposes. Collection is authorized by 39 U.S.C. 401, 403, 404, and 407; 13 U.S.C. 301–307; and 50 U.S.C. 1702. Providing the information is voluntary, but if not provided, we may not process your transaction. We do not disclose your information to third parties without your consent, except to facilitate the transaction, to act on your behalf or request, or as legally required. This includes the following limited circumstances: to a congressional office on your behalf; to financial entities regarding financial transaction issues; to a U.S. Postal Service auditor; to entities, including law enforcement, as required by law or in legal proceedings; to contractors and other entities aiding us to fulfill the service (service providers); to domestic and international customs pursuant to federal law and agreements; and to other governmental entities with authority over exportation. For more information regarding our privacy policies, visit usps.com/privacypolicy.

PARCEL INDEMNITY COVERAGE: Indemnity for Priority Mail International® parcels, including insured and ordinary (uninsured) parcels, is provided only in accordance with Postal Service™ regulations in *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)* and *Mailing Standards of the United States Postal Service, International Mail Manual (IMM®)*. The DMM and IMM are available for inspection at any post Office™ or online at <http://pe.usps.com>. The addressee must report damage or missing contents to the delivering Post Office immediately.

Ordinary (i.e. uninsured) Priority Mail International parcels include indemnity coverage against loss, damage, or missing contents. Indemnity is limited to the lesser of the actual value of the contents or the maximum indemnity based on the weight of the article. Priority Mail International Flat Rate Envelopes and Priority Mail International Small Flat Rate Boxes are letter-post items and do not include indemnity coverage.

Insured mail service is available for a fee and replaces indemnity on ordinary parcels. Insurance coverage varies by country and is not available to some countries. Indemnity coverage is subject to both U.S. Postal Service® regulations and the domestic regulations of the destination country. Insurance for loss, damage, or missing contents covers the actual (depreciated) value of the contents. Claims for lost ordinary and insured parcels may be payable only to the sender, and claims for damage and missing contents may be payable only to the addressee. The sender or addressee may waive the right of payment in favor of the other.

FILING CLAIMS: To initiate an inquiry for loss, damage, or missing contents, call the International Inquiry Center at 800-222-1811. International indemnity inquiries and claims for loss must be filed within the time limits for the service purchased. All claims for damage or missing contents must be filed immediately, and the article, containers, packaging, and all contents received must be presented to the destination Post Office. Evidence of mailing (e.g., original mailing receipts or wrapper), evidence of insurance, and evidence of value (e.g., sales receipt or repair estimate) must be submitted in support of all claims. For complete regulations, see the IMM at <http://pe.usps.com>.

EXCEPTIONS: No coverage is provided for consequential losses, delay, concealed damage, spoilage of perishable items, articles improperly packaged, articles too fragile to withstand normal handling in the mails, or prohibited articles. See the DMM and the IMM for the specific types of losses that are covered, the limitations on coverage, the terms of insurance or indemnity, and the conditions of payment.

IMPORTANT: Indemnity coverage is not paid for Priority Mail Express International™ or ordinary (uninsured) Priority Mail International parcels containing the following: coins; banknotes; currency notes, including paper money; securities of any kind payable to the bearer; traveler's checks; platinum, gold, and silver; precious stones; jewelry; watches; and other valuable or prohibited articles. See the IMM for complete regulations.

Error Responses

Error conditions are handled at the main XML document level and Package node level. When parsing, it is best to check for an error document first before checking for good data. Error documents have the following format:

```

<Error>
  <Number></Number>
  <Source></Source>
  <Description></Description>
  <HelpFile></HelpFile>
  <HelpContext></HelpContext>
</Error>
    
```

Where:

- Number = the error number generated by the Web Tools server.
- Source = the component and interface that generated the error on the Web Tools server.
- Description = the error description.
- HelpFile = [reserved for future use].
- HelpContext = [reserved for future use].

An <Error> element may be returned at the top (response) level if there is a problem with the syntax of the request, or if a system error occurs.

If you need assistance with an error response, contact the Internet Customer Care Center uspstechnicalsupport@mailps.custhelp.com.

First Class Mail International Label API

Overview

The First Class Mail International Label API lets customers generate First Class International labels given the weight and dimensions of the item.

API Signature

Scheme	Host	Path	API	XML
https://	secure.shippingapis.com	/ShippingAPI.dll	?API=FirstClassMailIntl	&XML=(see Tag Descriptions below)
https://	secure.shippingapis.com	/ShippingAPI.dll	?API=FirstClassMailIntlCertify	&XML=(see Tag Descriptions below)

Note: The “FirstClassMailIntlCertify” API signature is for testing purposes and will not generate usable labels and barcodes.

Request Descriptions

Tag Name	Occurs	Description	Type	Validation

Tag Name	Occurs	Description	Type	Validation
FirstClassMailIntlRequest / FirstClassMailType	optional	Used to determine the postage rate. See also FirstClassMailIntlRequest/Machinable. For example: <FirstClassMailType>LETTER</FirstClassMailType>	string	default=PARCEL whiteSpace=collapse enumeration=LETTER enumeration=FLAT enumeration=PARCEL
FirstClassMailIntlRequest / ShippingContents	required once		(group)	
FirstClassMailIntlRequest / ShippingContents / ItemDetail	required once repeating up to 5 times		(group)	
FirstClassMailIntlRequest / ShippingContents / ItemDetail / Description	required once	Description of the item. Non-descriptive wording such as 'Gift' will result in an error. For example: <Description>Policy guidelines document</Description>	string	maxLength=56 minLength=1 whiteSpace=collapse
FirstClassMailIntlRequest / ShippingContents / ItemDetail / Quantity	required once	Quantity of the item. Integer value required. For example: <Quantity>1</Quantity>	integer	whiteSpace=collapse minExclusive=0 maxExclusive=1000
FirstClassMailIntlRequest / ShippingContents / ItemDetail / Value	required once	The data entered with this tag provides the value of the set of items. If the item is 2 boxes of 50 pens and the value of each box is \$10.00, "20.00" (2 boxes x \$10.00) should be entered. If the value of each pen is .25 then "25.00" (100 pens x .25) should be entered. For example: <Value>55.00</Value>	decimal	whiteSpace=collapse minExclusive=0 maxExclusive=100000
FirstClassMailIntlRequest / ShippingContents / ItemDetail / NetPounds	required once	Provide the pounds component of the weight of the individual item listed within this ItemDetail. For example: <NetPounds>1</NetPounds>	integer	default=0 whiteSpace=collapse minInclusive=0
FirstClassMailIntlRequest / ShippingContents / ItemDetail / NetOunces	required once	Provide the ounces component of the weight of the individual item listed within this ItemDetail. For example: <NetOunces>5</NetOunces>	decimal	default=0.0 whiteSpace=collapse minInclusive=0

Tag Name	Occurs	Description	Type	Validation
FirstClassMailIntlRequest / ShippingContents / ItemDetail / HSTariffNumber	required once	For commercial items only. If known, the HS tariff number (6-digit) must be based on the Harmonized Commodity Description and Coding System developed by the World Customs Organization. For example: <HSTariffNumber>490110</HSTariffNumber>	string	whiteSpace=collapse maxLength=6 minLength=0 pattern=\d{6} pattern=\d{0}
FirstClassMailIntlRequest / ShippingContents / ItemDetail / CountryOfOrigin	required once	For commercial items only. Country of Origin means the country where the goods originated, e.g. were produced, manufactured, or assembled. It is recommended you supply this information and attach an invoice to the outside to accelerate customs clearance in processing the items. The country name entered must match an entry from the USPS-approved International Index of Countries and Localities or be "United States". http://pe.usps.gov/text/lmm/lmmctry.htm - click on the link for "International Country Listings.") Using a country name not on the list will result in a request failure. For example: <CountryOfOrigin>United States</CountryOfOrigin>	string	whiteSpace=collapse minLength=0
FirstClassMailIntlRequest / Postage	optional	Use this tag for entering a postage amount, if known. If the tag is present, but the value is blank, the postage will be automatically calculated. For example: <Postage></Postage>	string decimal	length=0 whiteSpace=collapse
FirstClassMailIntlRequest / GrossPounds	required once	Gross pounds and ounces together represent the total package weight, including packing material. For example, a package weighing 3 lbs 8 ounces would have "3" entered here and "8" entered with the "GrossOunces" tag. The Web Tool will check for maximum shipping weight of 70 pounds. Allowable weight may change based on the service used to send package and the destination country. For example: <GrossPounds>4</GrossPounds>	integer	whiteSpace=collapse minInclusive=0
FirstClassMailIntlRequest / GrossOunces	required once	Enter the ounces component of the total package weight with this tag. For example: <GrossOunces>0</GrossOunces>	decimal	whiteSpace=collapse minInclusive=0

Tag Name	Occurs	Description	Type	Validation
FirstClassMailIntlRequest / Machinable	optional	Indicates whether or not the item is machinable. A surcharge is applied to a First-Class Mail International item if it has one or more non-machinable characteristics. See International Mail Manual (IMM) Section 241 for more information. For example: <Machinable>false</Machinable>	boolean	default=true whiteSpace=collapse
FirstClassMailIntlRequest / ContentType	required once	Specifies the content of the package or envelope. For example: <ContentType>DOCUMENTS</ContentType>	string	whiteSpace=collapse enumeration=MERCHANDISE enumeration=SAMPLE enumeration=GIFT enumeration=DOCUMENTS enumeration=HUMANITARIAN enumeration=DANGEROUSGOODS enumeration=CREMATEDREMAINS enumeration=OTHER
FirstClassMailIntlRequest / ContentTypeOther	optional	Required when FirstClassMailIntlRequest[ContentType='OTHER'].	string	maxLength=15 whiteSpace=collapse
FirstClassMailIntlRequest / Agreement	required once	Indicates the requestor's agreement to terms and conditions of mailing. Requires a value of Y to print and in Signature Box along with Current Date (Central Time USA). Any other value returns an error.	string	whiteSpace=collapse enumeration=Y
FirstClassMailIntlRequest / Comments	optional	For future use.	string	maxLength=76 whiteSpace=collapse Restriction enforced via truncation
FirstClassMailIntlRequest / LicenseNumber	optional	For future use.	string	maxLength=24 whiteSpace=collapse Restriction enforced via truncation
FirstClassMailIntlRequest / CertificateNumber	optional	For future use.	string	maxLength=24 whiteSpace=collapse Restriction enforced via truncation

Tag Name	Occurs	Description	Type	Validation
FirstClassMailIntlRequest / InvoiceNumber	optional	For future use.	string	maxLength=24 whiteSpace=collapse Restriction enforced via truncation
FirstClassMailIntlRequest / ImageType	required once	For example: <ImageType>PDF</ImageType>	string	whiteSpace=collapse enumeration=PDF enumeration=TIF enumeration=NONE
FirstClassMailIntlRequest / ImageLayout	optional	Specified whether the pages are to be returned one per file or all in one file. The current FCMI label is one page so this tag has no effect. For example: <ImageLayout>ONEPERFILE</ImageLayout>	string	default=ONEPERFILE whiteSpace=collapse enumeration=ONEPERFILE enumeration=ALLINONEFILE
FirstClassMailIntlRequest / CustomerRefNo	optional	Written to Postal Manifest Detail record. For example: <CustomerRefNo>Ref #369246</CustomerRefNo>	string	maxLength=30 Restriction enforced via truncation
FirstClassMailIntlRequest / LabelDate	optional	Date the mail will enter the mail stream. No more than three days in the future. Default is day of request. For example: <LabelDate>09/28/2010</LabelDate>	string	whiteSpace=collapse maxLength=10 pattern=\d{1,2}/\d{1,2}/\d{1,2}?

Instructions

Refer to the *International Mail Manual (IMM)* at ps.usps.com for further information on international shipping and mailing instructions.

- Do not use this form for mailpieces that: (1) Contain items valued over \$400; (2) Require an export license; (3) Contain goods (for documents) destined to Iran, Sudan, or Syria; or (4) Contain goods destined to Cuba or North Korea, other than gift parcels or humanitarian donations as defined by 15 CFR § 740.12.
- Verify that all information populated in the form is correct.
- Select the appropriate category of the item. If the International Shipping Unit contains dangerous goods that are approved for mailing, check the box for "Dangerous Goods." Mailability information for international shipments is available in Publication 52, *Hazardous, Restricted, and Prohibited Mail*, Instruction 6, and in IMM Part 135.
- "Commercial Items" Enter, if known, the 9 digit Harmonized Tariff Schedule number, which is based on the Harmonized Commodity Description and Coding System developed by the World Customs Organization. "Country of Origin" means the country where the goods originated, or where they were produced/manufactured or assembled.
- AES Exemption. In order to comply with the U.S. Census Bureau's Foreign Trade Regulations, check the box "Weight ≤ 20.37 (a) or Total Value ≤ 400 (b)." Further information is available in IMM Part 526 and 527. Use the following explanations to help determine your choice:
 - NOEEI § 30.37(a). Use this AES Exemption when the value of each class of goods is \$2,500 or less. An export license is not required. Do NOT use this AES Exemption for items sent to Cuba or North Korea.
 - NOEEI § 30.37(b). Use this AES Exemption for gift parcels or humanitarian donations destined to certain sanctioned countries (as of September 2012, this includes Cuba and North Korea). If the package complies with the conditions set forth in 15 CFR § 740.12.
- Adhere your label to the package and ensure it does not wrap around the edges. Be sure the edges are secure. A self-adhesive label is recommended. If tape or glue is used, LO1001 TAPE/UNGLUE BARCODE.
- International items bearing a computer-generated customs form with customs data that has been electronically transmitted may be deposited through any of the following methods, provided postage is paid by a means other than the use of postage stamps: (a) Through Package Pickup Service, (b) At a Postal Service retail counter, (c) into a Postal Service lobby, (d) in a collection box, (e) At a Contract Postal Unit (CPI). For additional information, visit www.usps.com. Items must be mailed on the mailing date selected.
- The shipping label is unique and can be used only once.
- Privacy Notice. For information regarding our Privacy Policy, visit www.usps.com/privacypolicy.

Error Responses

Error conditions are handled at the main XML document level and Package node level. When parsing, it is best to check for an error document first before checking for good data. Error documents have the following format:

```
<Error>
  <Number></Number>
  <Source></Source>
  <Description></Description>
  <HelpFile></HelpFile>
  <HelpContext></HelpContext>
</Error>
```

Where:

- Number = the error number generated by the Web Tools server.
- Source = the component and interface that generated the error on the Web Tools server.
- Description = the error description.
- HelpFile = [reserved for future use].
- HelpContext = [reserved for future use].

An <Error> element may be returned at the top (response) level if there is a problem with the syntax of the request, or if a system error occurs.

If you need assistance with an error response, contact the Internet Customer Care Center uspstechnicalsupport@mailps.custhelp.com.
