# Alcohol and Drug Counseling

2012-13

## Associate in Arts Degree in Alcohol and Drug Counseling

The ADC program offers a Certificate of Completion and an Associate Degree. A Skills Competency Award: Post-Professional Practice in Alcohol and Drug Counseling is also available for licensed clinicians and other qualified professionals seeking expertise in the field of addictions counseling.

The Alcohol and Drug Counseling Program at Santa Barbara City College seeks to provide current education in the filed of substance abuse/dependence. It is designed to provide students with the theoretical and practical training necessary to develop paraprofessional expertise in this field.

The goal of the ADC Program is to instill in our students basic knowledge and skills in counseling, pharmacology and physiology, case management, legal and ethical issues, cultural diversity awareness, co-occurring disorders, and family issues of those afflicted with substance abuse or dependence.

The required fieldwork component affords students hands-on supervised experience working at facilities dedicated to the treatment of alcohol and drug dependence.

ADC certificate recipients may be employed by inpatient and outpatient treatment clinics, transitional housing centers, mental health clinics, shelters, detoxification units, crisis intervention centers, incarceration facilities, and prevention programs.

SBCC: Your Open Door to Educational Excellence
