Welcome to your UnitedHealthcare Pharmacy Benefit Program

The right medications for you

Get the most out of your pharmacy benefit

Access

- ▶ We provide access to a wide variety of U.S. Food and Drug Administration (FDA) approved prescription medications.

Afford

- ▶ Our programs and tools are designed to help you make informed decisions about your choice of prescription medications and pharmacy products.
- ▶ The more you know, the more you may save.

Choose a pharmacy that's in your network

- ▶ There are more than 60,000 retail pharmacies in our network.¹
- ▶ Filling your prescriptions outside our network of pharmacies may cost more.

Find a pharmacy

- ▶ Visit our website at uhcsr.com.
- ▶ Or call the toll-free member phone number on the back of your ID card.

What you pay

- ▶ Simply show your health plan member ID card to the pharmacist. Your pharmacist will tell you how much you owe for the prescription.
- ▶ Or log on to My Account at uhcsr.com to access your Prescription Benefits link.

**Our Network:
Over 60,000 pharmacies**

1. Our network of retail pharmacies includes both chain and independent stores located across the United States.

Make informed decisions

UnitedHealthcare Prescription Drug List (PDL)

The PDL includes brand and generic prescription medications approved by the FDA. Medications are placed on different “tiers” based on our conclusion about their overall value. Tier 1 is the lowest-cost tier option. When selecting a medication, you and your doctor should consult the PDL.

Save money

Look for potential lower-cost alternatives

Log on to My Account at uhcsr.com to look for your lowest-cost options. Ask your doctor if a lower-cost alternative medication may be right for you.

Generic options

Many brand medications have generic equivalents available. Generics contain the same active ingredients (the chemicals that make a medication work) as brand medications. Generic medications must meet the same FDA brand medication standards.
