We have reviewed the independent auditor's report of Miami University, Butler County, prepared by KPMG LLP, for the audit period July 1, 2000 through June 30, 2001. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Miami University is responsible for compliance with these laws and regulations.

Independent Auditors' Report

The President and the Board of Trustees
of Miami University
and
The Honorable James M. Petro, Auditor of State of Ohio:

We have audited the accompanying balance sheet of Miami University (the University), a component unit of the State of Ohio, as of June 30, 2001, and the related statements of changes in fund balances and current funds revenues, expenditures, and other changes for the year then ended. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Miami University as of June 30, 2001, and the changes in its fund balances and its current funds revenues, expenditures, and other changes for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 7, 2001 on our consideration of the University's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedule of Current Expenditures-Educational and General is presented for purposes of additional analysis and is not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in our audit of the basic financial statements, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As discussed in note 2 to the financial statements, during the year ended June 30, 2001, the University adopted the provisions of Governmental Accounting Standards Board Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*.

Notes to Financial Statements

June 30, 2001

(1) Summary of Significant Accounting Policies

Miami University (the university) is a land grant institution chartered by the State of Ohio in 1809 and governed by a Board of Trustees (the board). The board consists of 11 members, including two student members. Members are appointed one each year for nine-year terms by the governor with the advice and consent of the state senate. The two student non-voting members are appointed for two-year staggered terms by the governor with the advice and consent of the senate.

The university's financial statements are included as a discretely presented component unit in the State of Ohio's Comprehensive Annual Financial Report.

Accrual Basis

The financial statements of the university have been prepared on the accrual basis except for depreciation of plant and equipment that is not required to be recorded by governmental institutions of higher education. The Statement of Current Funds Revenues, Expenditures, and Other Changes is a statement of financial activities of current funds related to the current reporting period. It does not purport to present the results of operations or the net income or loss for the period as would a statement of income or a statement of revenues and expenses.

Fund Accounting

To ensure observance of limitations and restrictions placed on the use of the resources available to the university, the accounts of the university are maintained in accordance with the principles of fund accounting. Thus, resources for various purposes are classified for accounting and reporting purposes into funds that are in accordance with activities or objectives specified. Separate accounts are maintained for each fund; however, in the accompanying financial statements, funds that have similar characteristics have been recorded and reported by fund group.

Within each fund group, fund balances restricted by outside sources are so indicated and are distinguished from unrestricted fund balances allocated to specific purposes by action of the board. Externally restricted funds may only be utilized in accordance with the purposes established by the source of such funds, and are in contrast with unrestricted funds over which the board retains full control to use in achieving any of its institutional purposes.

Endowment funds are subject to the restrictions of gift instruments requiring that the principal be invested in perpetuity and that the income only be utilized. The board may set aside other assets of the university for the same purposes as endowment funds (quasi-endowment); future expenditures of such funds are permitted only upon board action.

All gains and losses on investments and other non-cash assets are accounted for in the fund which owned the assets. Income derived from investments is accounted for in the fund owning the related assets, except for income derived from investments of endowment and similar funds that is accounted for in the fund to which it is restricted or, if unrestricted, as revenue in unrestricted current funds.

All other unrestricted revenue is accounted for in the unrestricted current funds. Restricted gifts, grants, and other restricted resources are accounted for in the appropriate restricted funds. Restricted current funds, including government grants and contracts, are reported as revenue and expenditures when expended for current operating purposes.

Investments

Investments which are market traded, such as equity and debt securities, mutual funds, and cash equivalents, are recorded at fair value. The fair value of investments is based on quoted market prices. Real estate is recorded at appraised value.

Inventories

Inventories are stated at the lower of first-in, first-out cost or net realizable value.

Land, Buildings, and Equipment

Land, buildings, and equipment are recorded at cost at date of acquisition or market value at date of donation in the case of gifts. To the extent that current funds are used to finance plant assets, the amounts so provided are accounted for as (1) expenditures, in the case of normal replacement of movable equipment and library books, (2) mandatory transfers, in the case of required provisions for principal and interest payments, and (3) as transfers of a non-mandatory nature for all other cases. When plant assets are sold or otherwise disposed of, the carrying value of such assets is removed from the accounts, and the net investment in plant is reduced accordingly. Depreciation on plant and equipment is not recorded.

Deferred Income

Tuition and fees relating to summer sessions that are conducted in July and August are recorded in the accompanying balance sheet as deferred income. These fees will be recorded as revenue in the following fiscal year.

Loan Funds

The allocated portion of loan fund balances represents the university's matching funds provided in accordance with the requirements of the Perkins Loan program. The funds must be retained in the loan fund as long as the university participates in the program.

Tax Status

The university is exempt from federal income taxes under Section 115 of the Internal Revenue Code. As such, the university is subject to federal income taxes only on unrelated business income, if any, under the provisions of Section 511 in the Internal Revenue Code.

Estimates

Management has made, where necessary, estimates and judgments that affect certain amounts reported in the financial statements. The estimates and judgments are based on currently available information, and actual results could differ from those estimates.

(2) Change in Accounting Principle

Effective July 1, 2000, the university adopted Governmental Accounting Standards Board (GASB) Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, which establishes financial reporting standards for nonexchange transactions involving financial or capital resources. As a result of this change the university recorded a receivable and payable from the State of Ohio, and corresponding revenue and expense, for capital appropriations expended but not yet reimbursed. The cumulative effect of this change in accounting principle was \$1,377,121 and was recorded as an increase in the beginning fund balance in the plant funds.

Also in accordance with GASB Statement No. 33, as of July 1, 2000, the university has recorded unconditional, expendable promises to give (non-endowment pledges) as gift revenue and accounts receivable. GASB 33 does not require that beginning fund balances be restated for promises to give. The amount of pledges receivable and the associated revenue recorded as of June 30, 2001, was \$1,006,913.

The university plans to adopt GASB Statement No. 35, *Basic Financial Statements – and Management’s Discussion and Analysis – for Public Colleges and Universities*, effective with the fiscal year ended June 30, 2002. The requirements of GASB 35 will have a significant impact on the presentation of the university’s financial statements.

(3) Cash and Investments

The university makes investments in accordance with the board's policy, which conforms with the authority granted in the Ohio Revised Code. The purchase of specific investment instruments is at the discretion of the university treasurer within these policy guidelines.

At year-end, the fair value of the university's cash and cash equivalents was approximately

\$40,328,016. Approximately \$800,000 was covered by federal depository insurance, and the remaining amount was covered by collateral held by third-party trustees pursuant to paragraph 135.181 of the Ohio Revised Code, in collateral pools securing all public funds on deposit with specific depository institutions. The University has compensating balance agreements with several banks.

Investments held by the university as of June 30, 2001 are presented below. Investments are categorized according to the level of custodial credit risk involved. The university's investments in U.S. government securities, common and preferred stocks, and corporate bonds and notes are categorized as credit risk category 1, which includes investments that are insured or registered, or securities held by Miami University or its agent in the university's name. The university holds no investments in credit risk category 2, which includes investments that are collateralized with securities held by a pledging financial institution's trust department or agent in the university's name. Likewise, the university holds no investments in credit risk category 3, which are uninsured and unregistered investments held by a trust department or agent, but not in the university's name. Certain other investments are not required to be categorized.

	Fair Value
Endowment Fund Investments	
Common and preferred stocks	\$ 45,220,048
Mutual funds	44,835,848
Limited partnerships	8,983,132
Real estate and other	965,824
Total	\$ 100,004,852
Investments held by all other funds	
U. S. Government securities	63,198,614
State Treasury Asset Reserve of Ohio (STAR Ohio)	37,271,684
Other	1,035,081
Total	\$ 101,505,379

Due to significantly higher cash flows at certain times during the year, the amount of the university's investment in each of the above investment categories may be substantially higher during the year than at year-end.

STAROhio is an investment pool managed by the state treasurer's office which allows governments within the state to pool their funds for investment purposes. STAROhio is not registered with the Securities and Exchange Commission as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. The investment is valued at STAROhio's share price, which is the price the investment could be sold for on June 30, 2001.

Annually the university establishes a spending rate that defines the total amount of dividends, interest, and realized gains to be distributed from the endowment fund investment pool to other funds. The authorized spending rate for fiscal year 2001 was 4.8 percent of the average quarterly market value of pooled investments for the previous three-year period, or \$4,734,927. Of this amount, \$2,434,024 of accumulated gains was utilized to meet the spending rate. In accordance with donors' stipulations, a portion of the earnings was returned to endowment principal and the balance of \$4,484,046 was distributed to other funds for expenditure.

(4) Indebtedness

Bonds and notes payable consist of university general receipts obligations. The maturity dates, interest rates, and outstanding principal balances as of June 30, 2001, are as follows:

Indebtedness	Maturity Dates	Interest Rates	Outstanding Principal
Bonds Payable			
Series 1998 general receipts	2002 – 2018	3.65% - 4.8%	\$ 32,745,000
Series 1993 general receipts	2002 – 2013	5.0% - 5.8%	17,324,884
Note Payable			
U.S. Department of Education	2002 – 2026	5.5%	2,311,457
Total			\$ 52,381,341

The scheduled maturities of the bonds and note subsequent to June 30, 2001, are as follows:

Year Ended June 30	Series 1998 Bonds	Series 1993 Bonds	U.S. Department of Education Note	Total
2002	\$ 2,620,000	1,300,000	44,713	\$ 3,964,713
2003	2,730,000	1,365,000	47,206	4,142,206
2004	2,840,000	1,430,000	49,838	4,319,838
2005	2,950,000	1,505,000	52,617	4,507,617
2006	2,215,000	1,585,000	55,551	3,855,551
Thereafter	19,390,000	10,139,884	2,061,532	31,591,416
Total	\$ 32,745,000	17,324,884	2,311,457	\$ 52,381,341

The bonds are secured by a pledge of general receipts of the university. The note payable is collateralized by certain quasi-endowment investments of the university. The university may at its discretion use, or pledge, to the extent lawfully authorized, such other resources as are available for use in the performance of its obligation under the various trust agreements.

In September 1998, the university defeased its general receipts bonds dated July 1, 1989. Additionally, in November 1988, the university defeased its dormitory revenue bonds dated May 1, 1972. Because the defeasances effectively relieved the university of its liability for payment on the bonds, the bonds and related investments were removed from the university's balance sheet as of that date. Following the defeasement of the 1989 general receipts bonds, the trustee redeemed the bonds in full. The outstanding balance of defeased bonds at June 30, 2001, was approximately \$ 475,000.

The university has approximately \$6,531,000 in capitalized lease obligations that have varying maturity dates through 2011 and carry implicit interest rates ranging from 4.53 percent to 10.75 percent. The scheduled maturities of these leases as of June 30, 2001, are:

<u>Year Ended June 30</u>	<u>Minimum Lease Payments</u>
2002	\$ 2,320,140
2003	1,888,946
2004	1,364,129
2005	1,195,174
2006	675,682
Thereafter	499,331
Total minimum lease payments	7,943,402
Less amount representing interest	(1,411,928)
Net minimum lease payments	\$ 6,531,474

From time to time the university may establish interfund borrowings. At June 30, 2001, the investment in plant fund had outstanding indebtedness to the auxiliary enterprises fund in the amount of \$1,662,388. This loan was made in fiscal year 1992, for the purpose of acquiring the Miami Inn. Other transactions among funds occur during the normal course of university operations and are recorded as "due to" or "due from" the respective funds.

(5) Retirement Plans

Substantially all non-student employees participate in contributory retirement plans administered by the State Teachers Retirement System of Ohio (STRS) and the Public Employees Retirement System of Ohio (PERS). Both STRS and PERS are cost-sharing multiple-employer defined benefit pension plans. Both plans provide retirement, disability, postretirement health care coverage, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute.

STRS and PERS issue stand-alone financial reports. Copies of these reports may be obtained by writing to STRS, 275 East Broad Street, Columbus, OH 43215-3771 or to PERS, 277 East Town Street, Columbus, OH 43215-4642.

University faculty participate in STRS. Contribution rates for STRS are established by the State Teachers Retirement Board, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Contribution rates for fiscal year 2001 were 9.3 percent for employees and 14 percent for employers. For the fiscal year ended June 30, 2000, the Retirement Board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund (Note 6).

Employees covered by the PERS system are required by state statute to contribute 8.5 percent of their salary to the plan. The PERS Retirement Board instituted a temporary 20% employer contribution rate rollback for calendar year 2000. During calendar year 2000, the university was required to contribute 10.65 percent of covered payroll; 6.35 percent was used to fund pension obligations and 4.3 percent funded the retiree health care program (Note 6). In 1999 and 2001, the employer contribution rate was 13.31 percent.

Beginning in 1999, full-time faculty and unclassified employees with less than five years of service credit became eligible to participate in an alternative retirement program. The Ohio Department of Insurance has designated eight companies as eligible to serve as plan providers for the alternative retirement program. The Board of Trustees has established the employer contribution as an amount equal to the amount which the university would have contributed to the respective state retirement system in which the employee would participate, less any amounts required to be remitted to the state retirement systems.

The payroll for employees covered by STRS and PERS for the year ended June 30, 2001, was \$64,085,000 and \$65,762,000 respectively. The payroll for employees electing the alternative retirement program was \$27,360,000.

The Ohio Revised Code provides statutory authority for employee and employer contributions. The university's contributions each year are equal to its required contributions. University contributions for the current and two preceding years are summarized below.

	Employer Contribution		
	STRS	PERS	Alternative Programs
2001	\$ 8,971,857	\$ 6,906,966	\$ 3,298,704
2000	8,655,826	8,543,517	1,543,141
1999	9,109,936	9,071,109	404,235

(6) Other Postemployment Benefits

In addition to the pension benefits described in Note 5, STRS and PERS provide postretirement health care coverage to retirees and their dependents. Health care coverage for disability recipients and primary survivor recipients is also provided. Coverage includes hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare premiums. A portion of the employer contribution (8 percent for STRS and 4.3 percent for PERS) is allocated to fund the health care benefits.

The STRS health care plan is advance funded, but not on an actuarially determined basis. The net health care costs paid by the plan were \$283 million for the year ended June 30, 2000, the date of its most recent audited financial report. The plan's net assets available to fund future health care benefits totaled \$3.42 billion as of June 30, 2000. At that date there were 99,011 eligible benefit recipients in the STRS plan.

PERS health care benefits are advanced-funded on an actuarially determined basis. The amount of employer contributions actually made to fund postemployment benefits was \$3.6 billion. The actuarial value of the Retirement System's net assets available for other postemployment benefits was \$10.8 billion as of December 31, 1999. At that date the actuarially accrued liability and the unfunded actuarial accrued liability, based on the actuarial cost method used, were \$12.5 billion and \$1.7 billion, respectively. The number of active contributing participants was 401,339.

(7) Compensated Absences

At June 30, 2001, the university's unrestricted liability for compensated absences was comprised of the following balances:

	<u>Total</u>
<u>Educational and General Funds</u>	
Accrued vacation	\$ 3,915,958
Accrued sick leave	4,406,357
Total	\$ 8,322,315
<u>Auxiliary Enterprises</u>	
Accrued vacation	\$ 1,185,348
Accrued sick leave	390,709
Total	\$ 1,576,057

Full-time unclassified staff earn vacation at rates of 18 to 22 days per year, based on the term of their employment contract, with a maximum accrual of 40 days. Classified employees earn vacation at rates ranging from 10 to 25 days per year, based on years of service, with a maximum accrual equivalent to the amount earned in three years. Upon retirement, termination, or death, the employee is compensated at the final rate of pay for unused vacation up to the maximum allowed accrual. Faculty accrue no vacation benefits.

Full-time faculty, unclassified and classified staff earn 15 days of sick leave per year and individuals who work less than full-time earn sick leave on a pro-rata basis. There is no limit on the number of sick leave hours which can be accumulated. Upon retirement a staff member with 10 or more years of Ohio public service is paid for one-fourth the value of earned but unused sick leave not to exceed 30 days, based on the employee's rate of pay at the time of retirement. Persons leaving employment for reasons other than retirement are not compensated for unused sick leave.

(8) Related Organization

The Miami University Foundation (the foundation) is a separate not-for-profit entity organized for the purpose of promoting educational and research activities of the university. Forty percent of the members of the foundation's board of trustees are appointed by the university, while 60 percent are appointed by the foundation's board of trustees.

Assets and financial activity of the foundation are not reported in the university's financial statements. Amounts received by the university from the foundation are restricted and are included in private gifts in the accompanying financial statements.

The foundation values its investments at fair value. Summary financial information for the foundation as of December 31, 2000, the date of its most recent audited financial report, is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Net assets at end of year	\$ 967,029	\$ 48,267,747	\$ 98,508,610	\$ 147,743,386
Change in net assets for the year	59,643	(94,424)	7,676,375	7,641,594
Distributions to Miami University	6,707,866	0	0	6,707,866

(9) Commitments

At June 30, 2001, the university is committed to future contractual obligations for capital expenditures of approximately \$32 million. These commitments are being funded from the following sources:

	Contractual Obligations
Approved state appropriations not expended	\$ 13,475,801
University funds	18,174,135
Total	\$ 31,649,936

(10) Risk Management

The university's employee health insurance program is a self-insured plan administered by Anthem Blue Cross/Blue Shield ("Anthem"). The university's risk exposure is limited to 110% of estimated claims in any given year, which reduces its exposure to material financial loss. To further reduce potential loss exposure, the university has also established a reserve for health insurance stabilization of \$1.5 million within the allocated fund balance.

Health insurance claims are accrued based upon estimates of the claims liabilities made by Anthem. These estimates are based on past experience, current claims outstanding, and medical inflation trends. As a result, the actual claims experience may differ from the estimate. An estimate of claims incurred but not reported in the amount of \$2,798,600 is included in the unrestricted accrued salaries and wages as of June 30. The change in the total liability for actual and estimated claims is summarized below:

	2001	2000
Liability at beginning of year	\$ 2,995,642	\$ 2,754,772
Claims incurred	13,994,949	12,179,649
Claims paid	(13,779,458)	(12,371,779)
Increase in estimated claims incurred but not reported	363,000	433,000
Liability at end of year	\$ 3,574,133	\$ 2,995,642

Of the total liability at June 30, 2001, \$3,140,909 is recorded in the unrestricted educational and general fund, and the remainder in the auxiliary enterprises fund.

The university participates in a consortium with other state-assisted universities for the acquisition of commercial property and casualty insurance. The property insurance program has been in place for more than six years and has had no material losses. The casualty program has been in place for two years and has had no material losses. The university also carries commercial insurance for liability and other risks.

(11) Contingencies

The university receives grants and contracts from certain federal, state, and local agencies to fund research and other activities. The costs, both direct and indirect, that have been charged to the grants or contracts are subject to examination and approval by the granting agency. It is the opinion of the university's administration that any disallowance or adjustment of such costs would not have a material effect on the financial statements.

The university is presently involved as a defendant or codefendant in various matters of litigation. The university's administration believes that the ultimate disposition of any of these matters would not have a material adverse effect upon the financial condition of the university.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON INTERNAL CONTROL
OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Board of Trustees
Miami University:

We have audited the financial statements of Miami University (a component unit of the State of Ohio) (the University) as of and for the year ended June 30, 2001, and have issued our report thereon dated September 7, 2001. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control over financial reporting. Our consideration of internal control over financial reporting would not necessarily disclose all matters in internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Trustees and University management, the Auditor of State of Ohio, Federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

The Board of Trustees
Miami University:

Compliance

We have audited the compliance of Miami University (a component unit of the State of Ohio) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2001, except those requirements discussed in the third following paragraph. Miami University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Miami University's management. Our responsibility is to express an opinion on Miami University's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Miami University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Miami University's compliance with those requirements.

In our opinion, Miami University complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2001, other than those requirements discussed in the following paragraph. However, the results of our auditing procedures disclosed one instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as Finding 01-1.

We did not audit Miami University's compliance with requirements governing the reporting and the student loan repayment functions of the Federal Perkins Loan Program. Those requirements govern functions that are performed by University Accounting Service, Inc. (UAS), a third party servicer. Since we did not apply auditing procedures to satisfy ourselves as to compliance with those requirements, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on compliance with those requirements.

UAS compliance with the requirements governing the functions that it performs for Miami University was examined by other accountants whose report has been furnished to us. The report of the other accountants

indicates that compliance with those requirements was examined in accordance with the Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. Based on our review of the service organization accountants' report, we have determined that all of the compliance requirements included in the *Compliance Supplement* that are applicable to the major programs in which Miami University participates are addressed in either our report or the report of the service organization accountants. Further, based on our review of the service organization accountants' report, we have determined that it does not contain any findings of noncompliance that would have a direct and material effect on Miami University's major programs.

Internal Control Over Compliance

The management of Miami University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Miami University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Requirements governing accuracy of FISAP data and due diligence and repayment records for Perkins Loans are performed by UAS. Internal control over compliance relating to such functions was reported on by other accountants in accordance with the Department of Education's Audit Guide, *Compliance Audits (Attestation Engagements) of Federal Student Financial Assistance Programs at Participating Institutions and Institution Servicers*. A copy of the service organization accountant's report has been furnished to us. However, the scope of our work did not extend to internal control maintained at UAS.

We noted a certain matter involving internal control over compliance and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control over compliance that, in our judgment, could adversely affect Miami University's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts and grants. The reportable condition is described in the accompanying schedule of findings and questioned costs as Finding 01-1.

A material weakness is a condition in which the design or operation of one or more internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected in a timely period by employees in the normal course of performing their assigned functions. Our consideration of internal control over compliance would not necessarily disclose all matters in internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are considered to be material weaknesses. However, we do not believe the reportable condition referred to above is a material weakness.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of Miami University, as of and for the year ended June 30, 2001, and have issued our report thereon dated September 7, 2001. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Trustees and management of Miami University, the Auditor of State of Ohio, federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

MIAMI UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2001

(1) Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) reflects the disbursements/expenditures of Miami University (the University) under programs of the Federal government for the year ended June 30, 2001 using the accrual basis of accounting. Because the Schedule presents only a selected portion of the operations of the University, it is not intended to, and does not, present the financial position, changes in fund balance and current funds, revenues, expenditures and other changes of the University for the year ended June 30, 2001.

Expenditures for non-financial aid awards include facilities and administrative costs, relating primarily to facilities operation and maintenance and general administration services, which are allocated to direct costs (including Federal awards) based on negotiated formulas commonly referred to as indirect cost rates. Facilities and administrative costs allocated to such awards for the year ended June 30, 2001 were based on predetermined fixed rates negotiated with the cognizant federal agency, the Department of Health and Human Services.

The activity in the Perkins Loan Program and the Nursing Student Loan Program is recorded in the loan fund of the University's basic financial statements. The revenues and expenses of other programs including facilities and administrative costs and recoveries of those costs under sponsored programs of the federal awards listed on the accompanying Schedule of Expenditures of Federal Awards are recorded in the restricted current fund in the University's basic financial statements.

For purposes of the Schedule, federal awards include all grants, contracts and similar agreements entered into directly between the University and agencies and various departments of the federal government and federal monies passed through state governments and other organizations.

(2) Summary of Significant Accounting Policies for Federal Award Expenditures

Expenditures for federal student financial assistance programs are recognized as incurred and include Pell grants to students, Federal Supplemental Educational Opportunity Grants, College Work Study earnings, administrative cost allowances and required University match, where applicable. The University also makes loans to certain eligible students under the federal student loan programs; however, these loans are not included in total federal award expenditures (see Note 3).

(3) Federally-Guaranteed Loans

Federally-guaranteed loans issued to students during the year ended June 30, 2001 are summarized as follows:

Guarantee programs (CFDA number 84.268):	
Subsidized Direct Student Loans	\$ 17,937,719
Unsubsidized Direct Student Loans	15,161,779
PLUS	<u>7,350,117</u>
	\$ <u>40,449,615</u>

MIAMI UNIVERSITY

Notes to Schedule of Expenditures of Federal Awards

Year Ended June 30, 2001

The University is responsible only for the performance of certain administrative duties with respect to the federally-guaranteed student loan programs and, accordingly, the Direct Student Loans and PLUS Loans are not included in the University's financial statements. It is not practical to determine the balance of loans outstanding to students and parents of students of the University under these programs at June 30, 2001.

Additionally, as of June 30, 2001, the balances of loans outstanding under the Nursing Student Loan program (CFDA number 93.364) and the Perkins Loan Program (CFDA number 84.038) were approximately \$2,903 and \$7,588,825, respectively. Total loan advances for the year ended June 30, 2001 were \$1,210,473 for the Perkins Loan program. There were no new loan advances for the Nursing Student Loan program.

MIAMI UNIVERSITY

Schedule of Findings and Questioned Costs

Year Ended June 30, 2001

(1) Summary of Auditor's Results

- (a) Type of report issued on the financial statements: Unqualified opinion
- (b) Reportable conditions in the internal control structure that were disclosed by the audit of the financial statements: None reported
Material weaknesses: No
- (c) Noncompliance which is material to the financial statements: None
- (d) Reportable conditions in the internal control structure over major programs: Yes, see Finding 01-1.
Material weaknesses: No
- (e) Type of report issued on compliance for major programs: Unqualified opinion
- (f) Any audit findings which are required to be reported under Section .510(a) of OMB Circular A-133: Yes, see Finding 01-1.
- (g) Major programs for the June 30, 2001 audit: Student Financial Assistance Cluster; Research and Development Cluster; National Science Foundation CFDA Number 47.076; Department of Education CFDA Number 84.281
- (h) Dollar threshold used to distinguish between Type A and Type B programs: \$300,000
- (i) Auditee qualified as a low-risk auditee under Section .530 of OMB Circular A-133: Yes

(2) Findings Relating to the Financial Statements Reported in Accordance with *Government Auditing Standards*

None

MIAMI UNIVERSITY

Schedule of Findings and Questioned Costs

Year Ended June 30, 2001

(3) Findings and Questioned Costs Relating to Federal Awards

Finding 01-1; Research and Development Cluster; CFDA Number 47.076, National Science Foundation; CFDA Number 84.281, U. S. Department of Education

Compliance Requirement: Allowable Costs/Cost Principles

Criteria:

The distribution of individual employee compensation to Federally sponsored research projects must follow the guidance as stated in Office of Management and Budget Circular A-122, *Cost Principles for Non-Profit Organizations* (OMB Circular A-122). Attachment B, paragraph 7(m)(1) of OMB Circular A-122 states, "Charges to awards for salaries and wages, whether treated as direct costs or indirect costs, will be based on documented payrolls approved by responsible officials of the organization. The distribution of salaries and wages to awards must be supported by personnel activity reports." Paragraph 7(m)(2)(a) of Circular A-122 states, "budget estimates (i.e. estimates determined before the services are performed) do not qualify as support for charges to awards."

Condition:

The University's employees participating in activities for which Federal funding is received complete time and effort reports using the "after the fact activity records" method. During our test work, we noted time and effort reports were not reconciled to the actual charges billed to the Federal agency funding the grant. Payroll expense included in billings was based upon budgeted amounts as stated on the employee's appointment form, and not on actual time worked.

Questioned Costs:

The exact questioned cost for these issues are unknown.

Effect:

During fiscal year 2001, the University did not properly reconcile time spent to the charges billed to the respective federal agency.

Cause:

The University implemented a new time and effort reporting system in fiscal year 2001; however, reconciliation of time and effort reports to the amounts billed to the government was not a required activity under the new policy.

MIAMI UNIVERSITY

Schedule of Findings and Questioned Costs

Year Ended June 30, 2001

Recommendation:

We recommend that the University implement a policy to regularly reconcile time and effort reports with charges billed to the Federal granting agency funding the grant project to ensure proper payroll charges are billed to the funding agency.

Management's Response:

The University has developed this policy including procedures that were implemented to ensure that all time and effort reports will be reconciled with the charges billed to Federal granting agencies. This policy and related procedures will eliminate this problem for future time and effort reports and ensure proper payroll charges are billed to the funding agency.

OMB Circular A133
Summary Schedule of Prior Audit Findings
2000/01 Audit

10/19/2001

Reference	Fiscal Year	Finding	Status	Contact Person
00-1	2000	Time & Effort reports were not be collected in a timely manner	Corrected action was taken	Deborah Osborn
00-2	2000	Inconsistent refunding amounts posted to certain student's accounts at one branch campus resulting in inappropriate refunds back to lending institutions	Corrected action was taken	Ginny Layton
00-3	2000	Facilities & Administrative costs calculated incorrectly	Corrected action was taken	Deborah Osborn
00-4	2000	Student status changes where the student withdrew from all classes but did not officially withdraw from the University were not being reported to NSLC in a timely manner	Corrected action was taken	Bob Kubat

MIAMI UNIVERSITY
(A Component Unit of the State of Ohio)
Intercollegiate Athletics Department
National Collegiate Athletic Association
Report on Agreed-Upon Procedures
Year ended June 30, 2001

1600 PNC Center
201 East Fifth Street
Cincinnati, OH 45202

Report on Agreed-Upon-Procedures

Dr. James C. Garland, President
Miami University:

We have performed the procedures enumerated below, which were agreed to by Dr. James C. Garland, President, Miami University, and the management of Miami University (University) solely to assist in evaluating whether the Statement of Revenues and Expenditures of the Intercollegiate Athletics Department of Miami University is in compliance with the National Collegiate Athletic Association (NCAA) Bylaw 6.2.3.1 for the year ended June 30, 2001. This engagement to apply agreed-upon procedures was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Procedures Related to Statement of Revenues and Expenditures

- a. We obtained the Statement of Revenues and Expenditures (the Statement) of the Intercollegiate Athletics Department for the year ended June 30, 2001, as prepared by management and presented as the Exhibit to this report. We recalculated the addition of the amounts on the Statement and compared the amounts on each line of the Statement to the corresponding amounts in the University's general ledger. We found such amounts to be in agreement.
- b. We compared 2001 actual amounts of revenues and expenditures as reported in Schedule 8-C in the internal University financial statements to the corresponding 2001 budgeted amounts. The 2001 budgeted amounts were obtained from the 2000-2001 Miami Auxiliary Enterprises Budget included as exhibit 5 to the Miami University 2001 Budget. The 2001 actual amounts of total revenues, total men's football expenditures, total men's basketball expenditures, total women's basketball expenditures, and total men's and women's other sports and non-program specific expenditures per Schedule 8-C were compared to the corresponding total revenues and expenditures amounts in the Statement. Such amounts were found to be in agreement. We identified the following budget variances greater than \$30,000 and 15% by comparing each budgeted revenue and expenditure line in exhibit 5 of the Miami University 2001 Budget to the corresponding actual revenue and expenditure amounts on Schedule 8-C in the internal University financial statements and obtained the following explanations from University management regarding the reasons for the variances.

Budget Variances

Total Revenues and Total Non-Program Specific Expenditures – The increase of \$909,041 in actual revenues and \$871,223 in actual expenditures over budgeted amounts is due to higher than expected restricted expenditures for equipment purchases, scholarships, and grants, mostly related to women's sports.

- c. We identified the following prior year actual variances greater than \$30,000 and 15% by comparing each line of the revenues and expenditures as reported in the Statement to the corresponding 2000 actual amounts as reported in the Exhibit to the June 30, 2000 Intercollegiate Athletics Department National Collegiate Athletic Association report. We obtained the following explanations from University management regarding the reasons for the variances.

Prior Year Actual Variances

Ticket Sales Revenues – Ticket sales revenues decreased \$224,829 or 24% in fiscal 2001. The variance is a result of a decline in football ticket sales. In fiscal 2000, there were two very popular games, University of Cincinnati and Marshall University, that were both played at home. Also, during fiscal 2001, there were fewer home games than in 2000.

Guarantees Revenues – Guarantees Revenues increased \$193,074 or 42%. The variance in guarantees revenues is due to a greater share distribution from the NCAA in 2001.

Advertising, Promotions and Events Revenues – Advertising, Promotions and Events Revenues decreased \$159,186 or 33%. The variance is due to less radio sponsorship in fiscal 2001 primarily due to a decline in tournament play for men's basketball.

Other Revenues – The increase of \$55,545 or 30% in other revenue primarily relates to women's sports. During fiscal 2001, women's sports other revenue increased approximately \$70,000 due to the continued growth of women's programs.

Gift Revenues – Gift revenues increased \$505,078 or 110%. The variance in gift revenues is due to several gifts and grants made during fiscal 2001 to all sports. Also, additional gifts were made during fiscal 2001 to purchase \$200,000 in video coaching equipment.

Tournaments Revenues – Tournaments revenues increased \$153,595 or 32%. The variance in tournament revenues is due to the fact that the University hosted PGSA, CCHA and MAC women's soccer tournaments for the first time in fiscal 2001, raising approximately \$94,000 in additional revenue. Additionally, the University had higher attendance at the Oxford High School tournament generating approximately \$12,000 of additional revenue.

Financial Aid Expenditures – Financial Aid expenditures increased \$606,296 or 29%. The variance is due to approximately \$700,000 in scholarships offered to students in sports during fiscal 2001. Specifically, scholarships increased approximately \$85,000 for men's basketball, \$42,000 for women's field hockey, \$37,000 for women's tennis, \$46,000 for women's track, and \$12,000 for men's swimming.

Travel and Team Travel Expenditures – Travel expenditures increased \$41,972 or 54%. Team travel expenditures also increased \$58,589. The variance in travel expenditures is due to an increase in the number of non-NCAA tournaments attended in fiscal 2001. Women's skating attended a tournament in Finland that resulted in approximately \$45,000 in additional travel expenditures. Also, women's soccer, women's tennis, men's golf, women's track, and women's field hockey had increased travel expenditures of approximately \$36,000 collectively.

Recruiting Expenditures – Recruiting expenditures increased \$125,067 or 54%. The variance is due to expanded efforts to recruit additional staff and students for the athletics program during fiscal 2001.

Equipment and Supplies Expenditures – Equipment and supplies expenditures increased \$276,497 or 36%. The variance is due to the purchase of video coaching equipment for approximately \$200,000 during fiscal 2001.

Maintenance and Administration Expenditures – Maintenance and administration expenditures increased \$72,290 or 48%. The variance is due to the general increase in revenues. Due to increasing participation in tournaments, maintenance and administrative expenditures also increased.

Game Expenses Expenditures – Game expenses expenditures decreased \$46,837 or 15%. The variance is primarily due to fewer NCAA tournaments and home games in fiscal 2001. The decrease is driven by a decrease of approximately \$33,000 in men’s football and \$47,000 in men’s basketball.

Telephone, Printing and Advertising and Hospitality Expenditures – Telephone, printing and advertising and hospitality expenditures decreased \$301,834, or 43%. The variances are due to fewer NCAA tournament games in fiscal 2001, as well as a cost cutting initiative to lower general and administrative expenditures.

Guarantees Expenditures – Guarantees expenditures decreased \$59,916 or 71% during fiscal 2001. The variance is primarily the result of fewer NCAA tournaments in fiscal 2001.

Services Expenditures – Services expenditures increased \$111,273 or 39% during fiscal 2001. The variance is the result of increases in athletic fees, public safety services and other intra-university services due to an increase in new tournaments hosted by the University during fiscal 2001.

No additional procedures were performed with respect to management’s representations as to the reasons for the variances.

- d. We obtained a listing of all gifts to the University Intercollegiate Athletics Department as prepared by University management. The listing contained no contributions received directly by the University which constituted more than 10% of all contributions received for the University Intercollegiate Athletics Department.

Procedures Related to Internal Control Over Financial Reporting

- e. Cash receipts for twenty days during the fiscal year were haphazardly selected from the deposit slips maintained by the Ticket Office. The twenty days were:

July 7, 2000	November 29, 2000
July 24, 2000	December 4, 2000
July 27, 2000	December 7, 2000
August 8, 2000	January 2, 2001
August 30, 2000	January 9, 2001
September 12, 2000	January 24, 2001
September 28, 2000	February 26, 2001
October 27, 2000	March 5, 2001
November 2, 2000	March 12, 2001
November 17, 2000	May 22, 2001

For the twenty days noted, we compared the total dollar amounts per the validated deposit slip to the corresponding dollar amount on the receipt issued by the Bursar's Office upon receipt of the funds. We then selected the largest dollar amount of deposit from each validated deposit slip and agreed the amount on the validated deposit slip to the corresponding amount in the online general ledger system. The information we compared was in agreement.

- f. We haphazardly selected the following twenty cash disbursements (including 10 travel related expenditures) for the year ended June 30, 2001 from the detailed cash disbursements listing provided by University management. For each of these twenty disbursements, we compared the disbursed amount and payee to the corresponding information on the vendor invoice, or a Miami University Travel Expense Report or Team Travel Form, which is authorized by Sharon Tabler, Records Management Specialist. The information we compared was in agreement.

- g. We were informed by University management that on a periodic basis, the Assistant Vice President for Recreational Facilities/Associate Athletic Director reviews the financial activity of the outside organization. We obtained from the Treasurer of the outside organization a detail listing of the outside organization's cash receipts and cash disbursements for the year ended June 30, 2001.

Procedures Related to Outside Organization

h. We obtained the following list of booster organizations and their related balances for the year ended June 30, 2001 from University management:

	<u>Beginning cash balance</u>	<u>Cash receipts</u>	<u>Cash disbursements</u>	<u>Ending cash balance</u>
Blue Line Club \$	1,757	11,479	13,236	—

We were informed by the Blue Line Club’s treasurer and University personnel that the Blue Line Club’s cash was combined with the University’s cash on April 6, 2001. Prior to the transfer of funds on April 6, 2001, the Blue Line Club held cash in the amount of \$679.

i. We compared total cash receipts and cash disbursements to the Treasurer’s Report prepared by the treasurer of the Blue Line Club.

We were not engaged to, and did not, perform an audit, the objective of which would be the expression of an opinion on the Statement of Revenues and Expenditures of the Intercollegiate Athletics Department of Miami University or an examination of Miami University Intercollegiate Athletics Department’s internal control over financial reporting, the objective of which would be the expression of an opinion on its effectiveness. Accordingly, we do not express any such opinions. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of Dr. James C. Garland, President, Miami University, and the management of Miami University and is not intended to be and should not be used by anyone other than these specified parties.

Financial Statements

June 30, 2001

With Independent Auditors' Report Thereon

1600 PNC Center
201 East Fifth Street
Cincinnati, OH 45202

Independent Auditors' Report

The President and The Board of Trustees
of Miami University

and

The Honorable James M. Petro, Auditor of State:

We have audited the accompanying balance sheet of WMUB Radio (a noncommercial public radio station owned and operated by Miami University) as of June 30, 2001, and the related statements of support and revenues, expenses and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of WMUB Radio as of June 30, 2001, and its support and revenues, expenses and changes in fund balances and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

WMUB RADIO
(A Noncommercial Public Radio Station
Owned and Operated by Miami University)
Notes to Financial Statements

June 30, 2001

(1) Organization and Summary of Significant Accounting Policies

Organization

WMUB Radio (Station) is owned and operated by Miami University (University), a governmental institution of higher education. The license for the Station is issued by the Federal Communications Commission to the President and Board of Trustees of the University. The Station is administered as a division of University Communications.

Accrual Basis

The financial statements of the Station have been prepared on the accrual basis. The statement of support and revenues, expenses and changes in fund balances does not purport to represent net income or loss for the period as would a statement of income of a business enterprise operated for profit.

Fund Accounting

The assets, liabilities and fund balances of the Station are reported in two self-balancing fund groups as follows:

- (a) The Current Fund is used for transactions in support of programming, community support, and technical and general support services of the Station.
- (b) The Plant Fund is used for transactions relating to investment in Station properties.

Revenue Recognition

Contributions and grants which are not restricted as to use by the donor are recorded as revenue in the Current Fund when received. Operating grants restricted by the grantor for particular operating purposes are deemed to be earned and reported as revenues of the Current Fund when the Station has incurred expenditures in compliance with the specific restrictions of the grant. Underwriting revenue from other divisions within the University are recorded in the Current Fund when received.

Net Accounts Receivable from Miami University

Miami University maintains cash accounts which support the operations of the Station. All of the Station's receipts and disbursements are reflected in these accounts as the Station does not maintain its own separate account. As a result, the Station has net accounts receivable or payable from Miami University in the Current Fund. For the purposes of the statement of cash flows, the net accounts receivable from Miami University is considered a cash equivalent.

Equipment

Equipment is recorded at cost as of the date of acquisition or fair value at date of donation in the case of gifts. Expenditures for repairs and maintenance are charged to operating expense as incurred. Depreciation of equipment is not required to be recorded by governmental institutions of higher education.

Notes to Financial Statements

June 30, 2001

Donated Facilities and Administrative Support

Donated facilities from the University consist of office and studio space, use of the broadcast tower and occupancy cost, and are recorded as revenues and expenses in the accompanying statement of support and revenues, expenses and changes in fund balances in accordance with allocation guidelines provided by the Corporation for Public Broadcasting (CPB).

Donated facilities support is determined by an assessment of the square footage assigned to the Station and the cost per square foot of providing various types of physical plant support. Administrative support from the University consists of allocated services and certain other expenses incurred by the University on behalf of the Station and an allocation of the University's total institutional support.

In – kind Support

In-kind support provided by the Ohio Educational Telecommunications Network Commission is recorded based upon a statement provided by the agency. Expense is allocated based on the determination of the nature of the in-kind support provided.

Use of Estimates

Management has made estimates in preparing the financial statements based on currently available information that affects certain of the amounts reflected in the financial statements. Actual results could differ from those estimates.

Reclassification

Certain 2000 amounts were reclassified to conform with the 2001 presentation.

(2) Income Taxes

The University is exempt from Federal income taxes under Section 115 of the Internal Revenue Code (IRC). As such, the University is subject to Federal income taxes only on net unrelated business income, if any, under the provisions of Section 511 of the IRC.

(3) Change in Accounting Principle

The University plans to adopt Governmental Accounting Standards No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities* (GASB 35), effective with the fiscal year ended June 30, 2002. GASB 35 will result in the recording of depreciation expense in the WMUB financial statements for the year ended June 30, 2002.
