

GPA Calculation Form

List the credit value for all the courses you have completed with a grade of A-F and/or WF. Courses in which you earned a grade of S, WD, U, and/or any developmental course is not included in the GPA calculation.

Multiply the credits you have earned with a certain grade by the point value of that grade to get your total grade points earned. Divide your total grade points earned by the total credits earned to determine your grade point average in those courses.

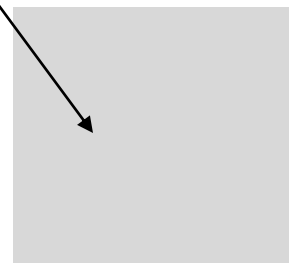

Please note: Transfer credits from other colleges are not figured into your JCC GPA.
