## INTRODUCTION

Explore Excel Charter School (“Excel”) opened in August of 2011 serving 240 Kindergarten through third grade scholars. Excel opened as an alternative option for PS 114, a local district school located in community school district 17 that earned an “F” on the NYC Progress Report the year before Excel opened. An admissions preference was given to scholars who were attending or zoned to attend a “failing school.”

Excel’s mission is to provide our students with the academic skills and critical-thinking abilities they need to succeed in a college-preparatory high school. Excel offers a co-teaching model that allows for small group and more differentiated instruction. During the 2013-2014 academic year Excel served the following percentages of at-risk groups:

- 5% of students designated as English Language Learners
- 19% of students with IEPs
- 79% of students eligible for free and reduced lunch

## ENGLISH LANGUAGE ARTS

### Goal 1: English Language Arts

Excel students will meet grade level expectations in English.

### Background

In the 2013-2014 schools year we used the Journeys Anchor curriculum and unit tests for grades K-1, and Interim assessments in ELA provided by the Achievement Network in grades 2-5. We had four data days during the year that were used to review data to drive instruction and provide additional professional development for teachers.

### Goal 1: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State English language arts examination for grades 3-8.<sup>1</sup>

### Method

The school administered the New York State Testing Program English language arts assessment to students in 3<sup>rd</sup> through 5<sup>th</sup> grade in April 2014. Each student's raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year's test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

**2013-14 State English Language Arts Exam  
Number of Students Tested and Not Tested**

3	60				60
4	64				64
5	62				62
6					
7					
8					
All	186				186

<sup>1</sup> Because of the state's new 3-8 testing program, aligned to its high school college and career readiness standards, the Institute is no longer using Time Adjusted Level 3 cut scores. Please report results for previous years using the state's published results for scoring at proficiency.

<sup>2</sup> Students exempted from this exam according to their Individualized Education Program (IEP), because of English Language Learners (ELL) status, or absence for at least some part of the exam.

## Results

Of the students enrolled in at least their second year (150 out of 186) 18.7% achieved proficiency on the NYS English Language Arts Exam. In 3<sup>rd</sup> grade 17.0% were proficient, in 4<sup>th</sup> grade 15.1% were proficient and in 5<sup>th</sup> grade 24.0% were proficient.

### Performance on 2013-14 State English Language Arts Exam By All Students and Students Enrolled in At Least Their Second Year

5	21.0%	62	24.0%	50
6				
7				
8				
All	17.8%	186	18.7%	150

## Evaluation

We did not meet the first absolute measure.

For students enrolled in at least their second year, in 3<sup>rd</sup> grade students fell short of the goal by 58 percentage points, 4<sup>th</sup> grade fell short by 59.1 percentage points, in 5<sup>th</sup> grade students fell short by 51 percentage points and hence overall Excel fell short by 56.0 percentage points. We will discuss our plans to address that gap in the Action plan located in the ELA summary section of this report.

## Additional Evidence

Overall, school proficiency increased by 2.2 percentage points in the 2013-2014 school year.

### English Language Arts Performance by Grade Level and School Year

All			16.5%	85	18.7%	150

**Goal 1: Absolute Measure**

Each year, the school’s aggregate Performance Level Index (PLI) on the State English language arts exam will meet the Annual Measurable Objective (AMO) set forth in the state’s NCLB accountability system.

**Method**

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient. As a result, the state sets an AMO each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state’s learning standards in English language arts. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the 2013-14 English language arts AMO of 89. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.<sup>3</sup>

**Results**

Our performance index for the 2013-14 academic year in English Language Arts was 73.

**English Language Arts 2013-14 Performance Level Index (PLI)**

Number in Cohort	Percent of Students at Each Performance Level			
	Level 1	Level 2	Level 3	Level 4
	44.1	38.2	15.6	2.2

$$\begin{aligned}
 \text{PI} &= 38.2 + 15.6 + 2.2 = 56 \\
 &+ 17.2 = \underline{73.2} \\
 \text{PLI} &= 73.2
 \end{aligned}$$

**Evaluation**

<sup>3</sup> In contrast to SED’s Performance Index, the PLI does not account for year-to-year growth toward proficiency.

We fell short of the PLI for ELA by 16. We did not meet this goal. We will discuss our plans to address that gap in the Action plan located in the ELA summary section of this report.

**Goal 1: Comparative Measure**

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state English language arts exam will be greater than that of all students in the same tested grades in the local school district.

**Method**

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.<sup>4</sup>

**Results**

Of the students enrolled in at least their second year (150 out of 186) 18.7% achieved proficiency on the NYS English Language Arts Exam. In 3<sup>rd</sup> grade 17.0% were proficient, in 4<sup>th</sup> grade 15.1% were proficient and in 5<sup>th</sup> grade 24.0% were proficient. Excel did not outperform the district in 3<sup>rd</sup>, 4<sup>th</sup> or 5<sup>th</sup> grades in ELA.

#### Goal 1: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state English language arts exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for students eligible for economically disadvantaged students among all public schools in New York State.<sup>5</sup>

#### Method

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school's performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school's actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools' actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a small degree is the requirement for achieving this measure.

Given the timing of the state's release of economically disadvantaged data and the demands of the data analysis, the 2013-14 analysis is not yet available. This report contains 2012-13 results, the most recent Comparative Performance Analysis available.

<sup>5</sup> The Institute will continue using *economically disadvantaged* instead of *eligibility for free lunch* as the demographic variable in 2013-14. Schools should report previous year's results using reported free-lunch statistics.

**Results**

We are waiting for results from CSI.

**Goal 1: Growth Measure<sup>6</sup>**

<sup>6</sup> See Guidelines for [Creating a SUNY Accountability Plan](#) for an explanation.

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in English language arts for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

## Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score from 2011-12 including students who were retained in the same grade. Students with the same 2011-12 score are ranked by their 2012-13 score and assigned a percentile based on their relative growth in performance (student growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

Given the timing of the state's release of Growth Model data, the 2013-14 analysis is not yet available. This report contains 2012-13 results, the most recent Growth Model data available.<sup>7</sup>

## Results

Our mean growth percentile is 51.6.

### Goal 1: Growth Measure (Optional)

On the 2012-13 NYS ELA exam each grade-level cohort will reduce by one-half the gap between the percent at or above level 3 on the 2011-12 state exam and 75 percent at or above Level 3.

#### Method

This measure examines the change in performance of the same group of students from one year to the next on the NYS ELA exam.

#### Results

The 4<sup>th</sup> grade level cohort (53 students out of 64) achieved a proficiency of 15.1% in 2013-2014 compared to 9.3% in 2012-2013.

The 5<sup>th</sup> grade level cohort (50 students out of 62) achieved a proficiency of 24.0% in 2013-2014 compared to 19.6% in 2012-2013.

**Action Plan**

In the 2013-14 school year Excel revamped its base literacy curriculum as well as implemented a new approach to coaching teachers and supporting lesson-planning. This work had a positive impact on student outcomes. However, we recognize the need for greater gains to ensure our students are successful. This year, Excel is improving its approach through three basic strategies: shifting focus to formative data, improving support for teacher effectiveness and lesson planning, and implementing more writing into the ELA curriculum.

**Shifting focus to formative data:** Excel is shifting its focus to formative data and helping its teachers learn how to collect, analyze and respond to data, such as running records, on a more consistent basis. Existing planning structures such as grade-level team meetings and PLCs (Professional Learning Communities), in which grade-level teachers work together to plan lessons that specifically target students' needs, will help support this approach.

**Improving and supporting teacher effectiveness and lesson planning:** In the 2013-14 school year, Excel launched a coaching program in which teachers were coached for at least a six-week cycle, working on specific goals related to student achievement. Through this experience, school leadership learned that six-week coaching cycles did not allow enough time to result in major improvements in teaching practice. As a result, school leaders will receive support and development from the network with their coaching work and with making strategic decisions about coaching (including teacher selection, duration, and methods). This will improve student outcomes and facilitate effective and timely teacher development. The network will also work with leaders to help them strategically and effectively use this time to help teachers with transferrable skills and thinking that will allow them to make instructional choices and execute

lessons that will improve student outcomes. To ensure teachers are getting frequent individualized professional development, the network has implemented staggered in-service days so that school and network leaders can work with teachers one-on-one or in small groups on teach-backs and guided planning.

**Implementing more writing into the ELA curriculum:** This year, Excel is also implementing a more robust writing curriculum to ensure students are receiving comprehensive, Common-Core-aligned ELA instruction and strengthening their writing skills, which will aid their reading, interpretation and critical-thinking skills. With support from the network, Excel is rolling out the following materials to strengthen the school's writing program and support teacher implementation:

- Writing unit-based assessments
- Writing portfolio guidelines
- Writing prompts and rubrics

These materials are created for each grade level, borrowing from *Teacher's College Writing Pathways: Performance Assessments and Learning Progressions*, and include narrative, informative and opinion/argument writing.

By implementing these improvements to curriculum, teacher support and use of formative data, Excel expects to make greater gains in student proficiency in ELA.

## MATHEMATICS

### **Goal 2: Mathematics**

Excel students will meet grade level expectations in Math.

### **Background**

In the 2013-14 school year we used the TERC/Investigations anchor curriculum in math school-wide and interim assessments in Math created by the Explore Schools Network Math Specialist for grades K-5. We had four data days during the year that were used to review data to drive instruction and provide additional professional development for teachers.

### **Goal 2: Absolute Measure**

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State mathematics examination for grades 3-8.

### **Method**

The school administered the New York State Testing Program mathematics assessment to students in 3<sup>rd</sup> through 4<sup>th</sup> grade in April 2014. Each student's raw score has been converted to a grade-specific scaled score and a performance level.

The table below summarizes participation information for this year’s test administration. The table indicates total enrollment and total number of students tested. It also provides a detailed breakdown of those students excluded from the exam. Note that this table includes all students according to grade level, even if they have not enrolled in at least their second year.

<sup>9</sup> Students exempted from this exam according to their Individualized Education Program (IEP), because of English Language Learners (ELL) status, or absence for at least some part of the exam.

We did not meet the first absolute measure.

For students enrolled in at least their second year, in 3<sup>rd</sup> grade students fell short of the goal by 30.3 percentage points, 4<sup>th</sup> grade fell short by 50.5 percentage points, in 5<sup>th</sup> grade students fell short of the goal by 29 percentage points and hence overall Excel fell short by 36.6 percentage points. We will discuss our plans to address that gap in the Action plan located in the Math summary section of this report.

#### Goal 2: Absolute Measure

Each year, the school's aggregate Performance Level Index (PLI) on the State mathematics exam will meet the Annual Measurable Objective (AMO) set forth in the state's NCLB accountability system.

### Method

The federal No Child Left Behind law holds schools accountable for making annual yearly progress towards enabling all students to be proficient. As a result, the state sets an AMO each year to determine if schools are making satisfactory progress toward the goal of proficiency in the state's learning standards in mathematics. To achieve this measure, all tested students must have a Performance Level Index (PLI) value that equals or exceeds the 2013-14 mathematics AMO of 86. The PLI is calculated by adding the sum of the percent of all tested students at Levels 2 through 4 with the sum of the percent of all tested students at Levels 3 and 4. Thus, the highest possible PLI is 200.<sup>10</sup>

### Results

<sup>10</sup> In contrast to NYSED's Performance Index, the PLI does not account for year-to-year growth toward proficiency.

Our performance index for the 2013-14 academic year in Math was 109.4.

### Mathematics 2013-14 Performance Level Index (PLI)

### Evaluation

We exceeded the PLI for math by 23.6.

#### Goal 2: Comparative Measure

Each year, the percent of all tested students who are enrolled in at least their second year and performing at proficiency on the state mathematics exam will be greater than that of all students in the same tested grades in the local school district.

### Method

A school compares tested students enrolled in at least their second year to all tested students in the surrounding public school district. Comparisons are between the results for each grade in which the school had tested students in at least their second year at the school and the total result for all students at the corresponding grades in the school district.<sup>11</sup>

### Results

Of the students enrolled in at least their second year (150 out of 183) 38% achieved proficiency on the NYS Math Exam. In 3<sup>rd</sup> grade 44.7% were proficient, in 4<sup>th</sup> grade 24.5% were proficient and in 5<sup>th</sup> grade 46.0% were proficient. In 3<sup>rd</sup> and 5<sup>th</sup> grades Excel outperformed the district, and in 4<sup>th</sup> grade we underperformed the district.

### 2013-14 State Mathematics Exam Charter School and District Performance by Grade Level

### Goal 2: Comparative Measure

Each year, the school will exceed its predicted level of performance on the state mathematics exam by an Effect Size of 0.3 or above (performing higher than expected to a small degree) according to a regression analysis controlling for students eligible for economically disadvantaged students among all public schools in New York State.<sup>12</sup>

<sup>12</sup> The Institute will continue using **economically disadvantaged** instead of **eligibility for free lunch** as the demographic variable in 2013-14. Schools should report previous year's results using reported free-lunch statistics.

**Method**

The Charter Schools Institute conducts a Comparative Performance Analysis, which compares the school’s performance to demographically similar public schools state-wide. The Institute uses a regression analysis to control for the percentage of economically disadvantaged students among all public schools in New York State. The Institute compares the school’s actual performance to the predicted performance of public schools with a similar economically disadvantaged percentage. The difference between the schools’ actual and predicted performance, relative to other schools with similar economically disadvantaged statistics, produces an Effect Size. An Effect Size of 0.3 or performing higher than expected to a small degree is the requirement for achieving this measure.

Given the timing of the state’s release of economically disadvantaged data and the demands of the data analysis, the 2013-14 analysis is not yet available. This report contains 2012-13 results, the most recent Comparative Performance Analysis available.

### Goal 2: Growth Measure<sup>13</sup>

Each year, under the state's Growth Model, the school's mean unadjusted growth percentile in mathematics for all tested students in grades 4-8 will be above the state's unadjusted median growth percentile.

### Method

This measure examines the change in performance of the same group of students from one year to the next and the progress they are making in comparison to other students with the same score in the previous year. The analysis only includes students who took the state exam in 2012-13 and also have a state exam score in 2011-12 including students who were retained in the same grade. Students with the same 2011-12 scores are ranked by their 2012-13 scores and assigned a percentile based on their relative growth in performance (mean growth percentile). Students' growth percentiles are aggregated school-wide to yield a school's mean growth percentile. In order for a school to perform above the statewide median, it must have a mean growth percentile greater than 50.

Given the timing of the state's release of Growth Model data, the 2013-14 analysis is not yet available. This report contains 2012-13 results, the most recent Growth Model data available.<sup>14</sup>

Our school's mean growth percentile was 55.1.

### Goal 2: Growth Measure (Optional)

On the 2013-2014 NYS Math exam each grade-level cohort will reduce by one-half the gap between the percent at or above level 3 on the 2012-2013 state exam and 75 percent at or above Level 3.

#### Method

This measure examines the change in performance of the same group of students from one year to the next on the NYS Math exam.

#### Results

The 4<sup>th</sup> grade level cohort (53 students out of 63) achieved a proficiency of 24.5% in 2013-2014 compared to 35.2% in 2012-2013.

The 5<sup>th</sup> grade level cohort (50 students out of 61) achieved a proficiency of 46.0% in 2013-2014 compared to 51.0% in 2012-2013.

## **Action Plan**

This year, Excel will continue using Investigations, a curriculum that we believe is aligned to the Common Core Learning Standards. In order to effectively teach this curriculum, Excel will be strategically implementing changes this year to improve teacher effectiveness and responsiveness to student needs.

In the past, Excel relied on interim assessments conducted every few months to respond to student needs. This method did not allow teachers to collect real-time data and thus did not support students' needs urgently enough. This year, instead of waiting to administer interim assessments, Excel is implementing unit-based assessments, which were created internally and made more rigorous to align to common core standards.

To improve implementation of this curriculum through effective instruction that reaches every students' needs, the Explore Schools network will be supporting Excel in the ways described above for ELA – shifting focus to formative data and improving approach to supporting teacher effectiveness and lesson planning. The specific methods for these approaches are outlined above in the Action Plan under ELA-related goals. We believe that our strong foundational work on curriculum and unit-based assessments, combined with greater focus on strategic teacher coaching and intentional lesson-planning will

increase our teachers' capacity to improve their lesson planning and delivery to meet each students' needs.

## SCIENCE

### Goal 3: Science

Excel students will meet grade level expectations in Science.

### Background

We have a Science teacher who works closely with the Academic Directors to plan her lessons and utilize FOSS kits in instruction.

### Goal 3: Absolute Measure

Each year, 75 percent of all tested students enrolled in at least their second year will perform at proficiency on the New York State science examination.

### Method

The school administered the New York State Testing Program science assessment to students in 4<sup>th</sup> grade in spring 2014. The school converted each student's raw score to a performance level and a grade-specific scaled score. The criterion for success on this measure requires students enrolled in at least their second year (defined as enrolled by BEDS day of the previous school year) to score at proficiency.

### Results

Of the students enrolled in at least their second year (53 out of 64) 56.6% achieved proficiency on the NYS Science exam.

### **Action Plan**

We are taking an intentional approach to developing the Science teacher's ability to effectively use FOSS kits in instruction. Our Dean of Culture is coaching the teacher and helping her to further develop her classroom management skills to modify/differentiate her approach for each grade level.

### **NCLB**

#### **Goal 4: NCLB**

Excel will make adequate yearly progress.

#### **Goal 4: Absolute Measure**

Under the state's NCLB accountability system, the school's Accountability Status is in good standing: the state has not identified the school as a Focus School nor determined that it has met the criteria to be identified as a local-assistance-plan school.

### **Method**

Since *all* students are expected to meet the state's learning standards, the federal No Child Left Behind legislation stipulates that various sub-populations and demographic categories of students among all tested students must meet state proficiency standards. New York, like all states, established a system for making these determinations for its public schools. Each year the state issues School Report Cards. The report cards

indicate each school's status under the state's No Child Left Behind (NCLB) accountability system.

**Results**

The school has not received its NCLB status for the 2013-2014 school year.

## APPENDIX B: OPTIONAL GOALS

The following section contains a Parent Satisfaction optional goal, as well as examples of possible optional measures.

### Goal S: Parent Satisfaction

Excel will have high satisfaction rates from key stakeholders

### Goal S: Absolute Measure

Each year two-thirds of parents will demonstrate satisfaction with the school's program based on a parent satisfaction survey.

### Method

The school used the NYC DOE annual survey.

### Results

Parents demonstrated greater than 90% satisfaction in 3 key survey areas.

#### 2013-14 Parent Satisfaction Survey Response Rate

### Goal S: Absolute Measure

Each year, 90 percent of all students enrolled during the course of the year return the following September.

### Method

Our end of year enrollment will be used to measure this goal.

## Results

Our retention rate was 94.4%.

## Additional Evidence

### Goal S: Absolute Measure

Each year the school will have a daily attendance rate of at least 95 percent.

## Method

Student attendance is taken daily by each homeroom teacher, and is entered into our Student Information System. Then, members of the Operations Team review the attendance and layer in any changes that need to be made to account for tardies and absences. The daily attendance rate is calculated by taking the total days a student is present and dividing it by the total days that student is enrolled in the school for the same year.

## Results

Attendance was successfully taken every day and overall attendance was 95.0%.

### B. Financial Information

This information is required of ALL charter schools. Provide the following measures of fiscal performance of the charter school in Appendix B (Total Expenditures and Administrative Expenditures Per Child):

#### 1. Total Expenditures Per Child

To calculate 'Total Expenditures per Child' take total expenditures (from the unaudited 2013-14 Schedule of Functional Expenses) and divide by the count of students you reported on of BEDS Day. (Integers Only. No dollar signs or commas).

1. Total Expenditures Per Child   Line 1: Total Expenditures	5581564
1. Total Expenditures Per Child   Line 2: BEDS Day Pupil Count	354
1. Total Expenditures Per Child   Line 3: Divide Line 1 by Line 2	15767

#### 2. Administrative Expenditures per Child

To calculate 'Administrative Expenditures per Child' take the relevant portion from the 'personnel services cost' row and the 'management and general' column (from the unaudited 2013-14 Schedule of Functional Expenses) and divide by the BEDS per pupil count. The relevant portion that must be included in this calculation is defined as follows:

Administrative Expenditures: Administration and management of the charter school includes the activities and personnel of the offices of the chief school officers, the treasurer, the finance or business offices, the purchasing unit, the employee personnel offices, the records management offices, or a public information and services offices. It also includes those administrative and management services provided by other organizations or corporations on behalf of the charter school for which the charter school pays a fee or other compensation.

Please note the following:

Do not include the FTE of personnel dedicated to administration of the instructional programs.

Do not include Employee Benefit costs or expenditures in the above calculations.

A template for the Schedule of Functional Expenses is provided on page 21 of the 2012 Annual Report Guidelines to assist schools identify the categories of expenses needed to compute the two per pupil calculations. This template does not need to be completed or submitted on August 1st as it will be submitted November 1st as part of the audited financial statements. Therefore schools should use unaudited amounts for these per pupil calculations. (See the 2013-14 Annual Report Guidelines in "Resources" area of your portal task page).

An Appendix E: Disclosure of Financial Interest Form must be completed for each active Trustee who served on the charter school's Board of Trustees during the 2013-14 school year. Trustees are at times difficult to track down in the summer months. Trustees may complete and submit at their leisure (but before the deadline) their individual form at:

<http://fluidsurveys.com/surveys/vickie-smith/appendix-e-trustee-disclosure-form/>. Trustees may download and/or email their forms to you upon completion.

Trustees who are technologically advanced may complete the survey using their smartphones or other mobile devices by downloading the this bar code link to the survey <https://fluidsurveys.com/account/surveys/540612/publish/qrcode/>. (Make sure you have the bar code application reader on your phone).

If a Trustee is unable to complete the form by the deadline (i.e, out of the country), the school is responsible for submitting the information required on the form for that individual trustee.

Just send the links via email today to your Trustees requesting that they each complete their form as soon as possible.  
Thank you.

Yes, each member of the school's Board of Trustees has received a link to the Disclosure of Financial Interest Form.

Yes

Thank you.

## **Overall Student Recruitment Strategy and English Language Learner Set-Aside Lottery Preference**

Explore Excel Charter Schools's overall recruitment strategy focuses on families in the immediate neighborhood of the school (school's zip code and surrounding areas) in order to best serve the school's geographic community. Given the demographic of the school's neighborhood, by targeting these areas Explore Excel naturally recruits a large portion of students who qualify for free and reduced lunch (almost 80% of the school's current student population qualifies for free and reduced lunch).

In an effort to attract and enroll more English Language Learners, Explore Excel Charter School created a set-aside lottery preference for English Language Learners. The set-aside preference seeks to fill 9 of the available 60 kindergarten seats (15%) with English Language Learners, in order to match or exceed the school district's ELL population (currently about 5%).

Additional efforts to attract and retain students with disabilities and English Language Learners are further outlined in our recruitment tactics below.

### **Family Information Sessions and School Tours**

Explore Excel Charter School hosted four information sessions at different days of the week and times to provide convenient options for interested families to attend. In addition to these three information sessions, families had the option of attending nine other information session dates and times hosted by Explore Excel's charter network, Explore Schools, at different locations. At these information sessions, families had the opportunity to learn more about the school's vision, structure and academic program, as well as its enrollment policies. A portion of this presentation was dedicated to describing what services Explore Excel provides to students with disabilities, and staff were available after the presentation to answer specific questions about services for students with disabilities. The presentation also covered the English Language Learner set-aside lottery preference and how Explore Excel welcomes all ELL students to apply. Fliers and informational materials were available in English and Spanish, and applications were available in English, Spanish and Haitian Creole.

### **Direct Mailing Campaign**

In partnership with Vanguard Direct, Explore Excel Charter School engaged in a direct mailing campaign to encourage Kindergarten enrollment by informing families in the immediate community about Explore Excel as a choice for their student and providing them with information about the school and an application. The mailing went to applicable families in the school's zip code and included information in English and Spanish. Included in the mailing was a flier outlining the school's robust services provided for students with disabilities, as well as an application that included kindergarten lottery information and set-aside preference for English Language Learners.

### **Parent Referral Campaign and Parent Teacher Organization**

In an effort to expand its recruitment reach, Explore Excel leveraged its Parent Teacher Organization (PTO) and current families to spread the word to other families about the school enrollment process. In particular, the school's leadership reached out to PTO leaders, as well as families of English Language Learner students and asked for help engaging other English Language Learner families in the enrollment process. All families at the school were encouraged to bring applications to their community organizations, families and friends. Through this process, the school hopes to attract more families in the profile of the families it serves, who may have otherwise not heard about the school – English Language Learners, students with disabilities, and students who qualify for free and reduced lunch.

**Website, Social Media and Language Accessibility**

Explore Excel Charter School leveraged its website and Facebook page to spread the word about its recruitment efforts. The website offered information about family information sessions, the enrollment process, services provided to students with disabilities, and its set-aside lottery preference for English Language Learners. Applications were available online in English, Spanish and Haitian Creole, and informational fliers and mailings were available in English and Spanish. Families had the option of applying online or requesting an application be mailed or faxed to them. Via its Facebook page, Explore Excel also promoted the information sessions and enrollment information to leverage its community of staff members, families, friends and supporters to get the word out to surrounding families.

**Retaining Students with Disabilities and English Language Learners**

Explore Excel Charter School provides robust support services for students who have a disability or require additional academic support. The school offers a 12-1-1 classroom environment, and employs a social worker, behavior counselor, learning specialist, and support services coordinator that provide services and support for students who need it, as well as maintain communication with families to apprise them of student progress and how families can work with students at home. Additionally, the support services coordinator acts as a resource to families navigating the IEP or 504 process, answering questions and helping families better understand resources available to them.

In addition, to ensure non-English speaking families feel welcomed and informed, the school ensures at least one Haitian-Creole-speaking staff member is available to guide families through paperwork and/or meetings, and requests an interpreter for family meetings upon request.
