Title:	Title of my Master's Thesis or Research Report
---------------	--

Summary:

This Thesis will cover the basic hospital management theory proposed by Dr. So-and-so, and its application to a small clinic in Beppu.

1. Abstract and questions about this theory. For example, comparison between the clinic in Beppu and the hospital in which the theory was originally based.
2. Background information on the clinic in Beppu
 - a.) When established
 - b.) No. of employees
 - c.) Departments and No. of patients
3. Raw Data
 - a.) type of questions / surveys conducted
 - b.) number surveyed
 - c.) possible survey flaws / errors
 - d.) evaluation of data
4. Application of the theory and results
5. Conclusion

*Further notes

*The summary should be a brief (concise) outline of your topic. A separate summary may be attached if it does not fit in the above space; however, at the very least a bulleted outline must be completed within this form. See the example on the Graduate homepage for reference.
