How did you hear about this course? _____

CALIFORNIA DENTAL PRACTICE ACT AND INFECTION CONTROL TRAINING

The Dental Board of California requires the successful course completion of the California Dental Practice Act overview and proper Infection Control training. This course satisfies the Dental Board's license renewal requirement for all dentists and dental employees.

CALIFORNIA DENTAL PRACTICE ACT

Topics covered will include:

- Highlights and updates of the Dental Practice Act
- Scope of practice for dentists and allied dental health professional
- License renewal requirements, continuing education, laws governing citations and fines
- Laws pertaining to prescriptions
- Dental record keeping
- Acts in violation of the Dental Practice Act including unprofessional conduct.

INFECTION CONTROL TRAINING

Topics covered will include:

- Section 1005
- Disease transmission
- Standard precautions
- Disinfection, sterilization and waste management
- Compliance issues

Diane E. Morgan-Arns, BS holds a Bachelor's degree in International Business from San Francisco State University and a Clear Professional Teaching Credential from California State University Sacramento, with over 12 years experience in education. Diane is an accredited CE Provider with the Dental Board of California, and a member of the California Dental Association's "Recommended Speakers Bureau" since 2006. In addition, Diane is also an Authorized Trainer for Federal OSHA & Cal-OSHA Outreach Training.

In 2001, Diane founded Superior Office Safety to create and present up-to-date, interactive, and relevant continuing education in topics required by the Dental Board of California and compliance regulations set forth by OSHA. Her Continuing Education courses specialize in the areas of Infection Control, California Dental Practice Act, Bloodborne Pathogens, Hazard Communication, and Injury and Illness Prevention Programs. Superior Office Safety also specializes in thorough on-site hazard assessment consultative services, which consist of evaluating the entire dental office environment to insure proper infection control protocol, reduce opportunities for cross-contamination and target health and safety compliance issues.
