* You can also send this postcard to the fax number +32 2 7758254 or mail the FEHRL office to info@fehrl.org by mentioning in the subject line "express of interest in NR2C final workshop"

NR2C (New Road Construction Concepts) is a European Commission co-funded research project designed to anticipate social, economical and technical developments and provide innovative solutions to shape the roads of the future.

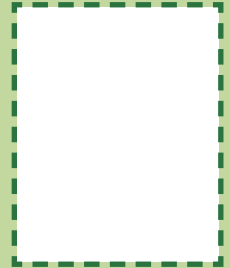

Bringing together representatives from the road related industry, road operators and owners, research institutes, academia and the European Commission, the workshop is aimed at presenting the final results of the project. In particular, the focus will be on selected innovations for urban roadways systems, inter-urban infrastructure and civil engineering structures.

Additional details on the workshop will be available soon on the NR2C web site at www.fehrl.org/nr2c.

NR2C is supported by funding under the Sixth Research Framework Programme of the European Union
