OTHER LOCATIONS	& CONTACTS			

Attach a list of sales offices, representatives, or agents that act for your organization. For each location include the names, address, primary sales contact and title, and communications information similar to that furnished above. For each authorized representative or agent also state the extent to which they are authorized to act for your organization.

2.0 BIDDER'S PACKAGE SPECIFIC QUALIFICATIONS

WP 001.06 - Architectural and Structural Precast Panel Design, Fabrication, and Erection - Qualification Criteria:

Work package consists of Architectural and Structural Precast Concrete systems work for five (5) Passenger Stations, six (6) Entrance Pavilions, and two (2) Ventilation Structures. Bidder shall provide all the necessary data and back-up information and any other substantiating evidence to demonstrate the following:

- 1. Regularly engaged in the design, engineering, fabrication, transportation and erection of Architectural and Structural Precast Concrete systems and components, including:
 - Structural precast platform support girders (bulb tee and rectangular configurations)
 - Structural precast platform decking
 - Structural precast stair towers integral walls, stairs, and landings
 - Hollow core plank decking
 - · Exposed precast stair stringers
 - Exterior insulated wall and soffit panels including embedded thin brick and light sandblast finishes
 - Architectural precast interior wall panels
- 2. Evidence of design and/or design management experience related to successfully completed or in-progress projects of similar scope and complexity to the Dulles Corridor Metro Project (DCMP), within the last 5 years.
- 3. Capability to produce and/or manage the design and coordination process using experienced personnel, including the ability to provide design documents and supporting calculations signed and sealed by a Professional Engineer licensed in the Commonwealth of Virginia. Ability to prepare drawings in Micro-Station or Auto-Cadd format as required.
- 4. Capability to perform the required construction as a licensed contractor in the Commonwealth of Virginia.
- 5. Details of current design / fabrication / installation projects for the next three (3) years. Provide tentative duration of

7.0 QUALITY MANAGEMENT SYSTEM BIDDER is requested to complete the following questionnaire regarding the controls which are in place to assure the quality of their Work/Products. Answer the questions by Yes (Y); No (N); or Not Applicable (N/A). Does your Company have a currently valid ISO 9001 Certificate, for the relevant Scope of Work/Services? If yes, please provide a copy. Does your Company currently implement a Quality Management System (QMS), per ISO 9001:1994, or a more recent equivalent Quality Standard (e.g., ISO 9001:2000)? Please provide a copy of the document used to implement the QMS; e.g., Quality Management System Plan or Manual. Does your Company use a "Project" or a "Contract Specific" Quality Plan or Manual (i.e., a customized document 3. that reflects specific Customer requirements) to execute relevant Scope of Work/Services? If yes, please provide a copy of such a document currently being implemented or used on a recently executed project. If no, please attach an explanation describing how QMS is implemented on a "Project" or a specific "Contract"? Does your Quality Management System (QMS) include appropriate controls pertaining to the following: Provisions for review of Customer's Procurement documents and implementation of appropriate controls to ensure compliance with specified requirements? Preparation, checking and approval of design documents? Coordination of design documents with other engineering disciplines? Verification of computer software? 8. ____ Specifying QMS requirements in procurement documents? Review of Supplier's and Subcontractor's design and quality related documents? 10. ___ Document controls associated with issuance of engineering documents to internal and external organizations? 11. ___ Retention of engineering documents associated with checking and inter-discipline coordination? 12. Processing of design changes? 13. Design verification/validation? 14. ___ **Design documents Configuration management?** 15. ___ Are Suppliers and Subcontractors selected on the basis of their capabilities to comply with the specified QMS requirements? 16. ___ Are Suppliers and Subcontractors required to submit, for review, their technical and/or quality related documents? Are inspections performed and/or tests witnessed, at the Supplier's facilities, during fabrication/manufacturing of 17. purchased equipment/products? Are Suppliers required to provide quality verification documentation for equipment/products supplied by them? 18. Is documentary evidence maintained to provide objective evidence that the Products will conform to the Purchase Order requirements? Are controls in place to ensure design/fabrication information and changes are controlled and incorporated in a timely manner? Are controls in place for the selection, evaluation and source inspection of procured items to ensure compliance to Purchase Order requirements? 26. ___ Are controls in place to assure that nonconforming material is promptly identified and removed from normal

production to prevent inadvertent use?

27 A	Are controls in place	to address cor	rective action a	nd follow-	up activitie	es to avo	id repetitiv	e non-con	formities?
