Value-added seminars enhance networking and technology exchange

Electrical Building Technology Symposium 9 June

Seminar Room, inside Hall 6.1

An opportunity to discover building technologies and automation developments in China

A series of seminars cover building technology and automation development topics and are jointly-organised by the Guangdong Association of Automation which is also the new co-organiser of the "Building and Home Automation" section of Electrical Building Technology Guangzhou.

The Guangdong Association of Automation is a professional academic association which focuses on automation technology in China's Guangdong province.

Recommended for: architects, buyers, contractors, designers, electrical engineers, government officials and authorities, academics, manufacturers and planners.

KNX Workshop 9 June

AGORA, Pearl Promenade, opposite Hall 4.1

An opportunity to understand international standards for home and building control

Continuing their support for a second year, the KNX Association is organising a professional building technology related workshop which focuses on the essential building technology standard and the latest worldwide development of the KNX Association.

One of the leaders for the worldwide standard for home and building control, KNX aims to develop and promote an international communication standard for home and building electronic systems.

Speaker:
Mr Joost Demarest
Director,
KNX Association

Recommended for: architects, contractors, designers, electrical engineers, manufacturers and planners.

Product Presentation

An opportunity to network with industrial suppliers and partners

A specialised platform which showcases the latest information and products from key industry exhibitors.

Find new business opportunities in China’s fast-growing building and home automation market

China’s commercial and residential building industry is rapidly moving towards “green” energy-efficiency with an emphasis on integrated building and home automation for greater comfort, safety and efficiency.

Running alongside the Guangzhou International Lighting Exhibition, the show offers you the chance to meet with companies specialising in building and home automation. It’s also the place to establish strategic partnerships with industry counterparts and improve on your market intelligence on state-of-art building technologies.

2011 show highlights

- 10,000 sqm exhibition space, double that of 2010
- Key industry exhibitors include ABB China (Switzerland), BACnet (China), Beckhoff Automation (Germany), Crestron Electronics (USA), DAE Instrument Corporation (Taiwan), Dyalite (Australia), Easeic Sci-Tech (USA), Echelon Technology (USA), ELKO (Czech Republic), JUNG (Germany), LonMark International (USA), Schneider Electric (France), TCL-Legrand (France), Vity Technology (France) and Wieland Electric (Germany) and many more.
- Tailor-made symposium and events featuring the latest industry topics
- Supported by renowned international and Chinese professional building associations

New show supporters

LonMark International is a global membership organisation created to promote and advance the business of efficient and effective integration of open, multi-vendor control systems utilising ISO/IEC 14908-1 and related standards.

The Guangdong Association of Automation is a professional academic association which focuses on automation technology in China’s Guangdong province.

The objective of the Macau Construction Association is to improve the quality of Macau’s construction industry by helping to maintain a steady local growth.

The Macau Institute of Engineers represents professional engineers in Macau and promotes Macau’s sustainable building development.

Source a wide spectrum of building technologies

Building and home automation

- Light control systems
- Safety and access control systems
- Audio and video systems
- Air conditioning and cooling systems
- System integration
- Generic cabling systems

Electrical engineering

- Electrical accessories and materials
- Electricity supply / distribution equipment and electrical products
- Power supply, instruments, gauges and tools
- Electrical energy-efficiency modification equipment
- Control equipment, meter and monitoring and dimmer switches
- Sockets and switches
- Lightning protection systems and equipment

Fair Facts

Opening dates and hours

9 – 11 June 2011 09:30 – 18:00
12 June 2011 09:30 – 14:00

Supported by worldwide and China industry associations

- Asian Institute of Intelligent Buildings
- Building Electricity Magazine Agency
- China Building Decoration Association Electricity Association
- China Real Estate Association
- Electrical Branch of Architectural Society of China
- The Electrical and Electronics Association of Malaysia
- The Federation of Asian and Pacific Electrical Contractors Associations
- The Guangdong Association of Automation
- The Hong Kong Federation of Electrical & Mechanical Contractors Ltd
- The Hong Kong Institution of Engineers - Building Services Division
- Institute of Chinese Architects, ASC
- Intelligent Building Committee of China Construction Industry Association
- LonMark International
- Macau Construction Association
- Macau Institute of Engineers

Register now for China’s “must attend” building technology show

Enjoy hassle free registration

Pre-register online NOW before 31 May 2011 at

www.building.messefrankfurt.com.cn.

An on-site “pre-registration counter” helps you to quickly collect your badge.

Two more ways to register

1. Complete the “Registration Form” at the back page of this invitation and present it to the on-site visitor registration counter.
2. On-site registration.

Admission

- Online pre-registration or with invitation: Free
- On-site registration fee: RMB 50
- Trade visitors aged above 18 only

Follow us on and meet your business associates and partners at Facebook

Don’t forget to “like” Electrical Building Technology Guangzhou
