

Missing Child Information Form

In the event of a disappearance of your child, after calling police, fill out, or have another family member or friend fill out this form as completely and accurately as possible. In such a difficult time as this it will be difficult to concentrate on tasks, but keep in mind that this information might prove vital to finding your child. Keep this with the brochure, the Child's Personal Information Form, and a current identification kit. Use additional sheets of paper if needed.
