# CITY OF BEVERLY HILLS CLASSES

## STAR EDUCATION CLASSES

### ECO STATION: EWW...ANIMALS DO WHAT?!

This session will focus on all the weird and wild things that animals can do, either to protect themselves, attract or repel other animals, or seemingly just for fun! Students will learn about bug-eating lizards, stinky turtles, hairy tarantulas, and more! Each class, students will also meet one of the STAR Eco Station's rescued exotic wildlife. Join us for some tail-dropping fun as we explore the smelliest, grossest, and strangest creatures of the animal kingdom. **No class 11/3.**

### LEGO ROBOTICS: INTRODUCTION TO ROBOTICS

Build robots and make them come alive! In our introductory class, we'll learn how robots think, sense, and act using LEGO® MINDSTORMS® NXT 2.0 robotics. Our instructors will guide you through the exciting world of robotics step-by-step, from making a motor move to using sensors that understand their own environment. Watch in excitement as your robot obeys your programming commands to solve a variety of exciting challenges! At the end of the session, invite friends and family to your final class for a robotics showcase! This class is part of the STAR STEAM Initiative (Science, Technology, Art, Engineering, and Math). **No class 9/25.**

### LEGO ROBOTICS: ADVANCED CHALLENGES SESSION

Ready for a challenge? Progress your understanding of robots in this new and exciting class! Design, build, and program a LEGO® MINDSTORMS® NXT 2.0 robot with your teammates to conquer challenges on our Challenge Board. From basic movement to feedback, switches, and loops, this class will have you learning advanced building and programming techniques in no time! At the end of the session, invite friends and family to your final class for a robotics showcase! This class is part of the STAR STEAM Initiative (Science, Technology, Art, Engineering, and Math). **No class 9/25.**
