

San Diego IRWM Plan Update Workgroup Signup and Nomination Form

Please complete this form and return to Rosalyn Prickett (rprickett@rmcwater.com) by Wednesday December 14th. Note: You may nominate yourself or someone else. Workgroup members do not need to be Regional Advisory Committee members.

Contact Information

Please provide your contact information so that you can be contacted regarding Workgroup participation.

Name: _____

Affiliation: _____

Contact E-mail: _____

Workgroup Ranking

Please indicate your interest in participating in one or more of the Workgroups described on the next page. Rank your interest in the Workgroups on which you would like to serve, with 1 indicating the highest level of interest/preference.

Workgroup attendees will be expected to provide approximately **25 hours** of time participating in meetings, providing information, and reviewing IRWM Plan Update content. For consistency and maximizing input, participants are expected to participate in the Workgroups for the entirety of their duration (approximately 6-9 months in 2012).

If you know someone else who would be well-suited to participate in any of the Workgroups indicated on the previous page, please provide also their contact information below.

San Diego IRWM Plan Update

Workgroup Information and Signup Form

Workgroup Overview and Purpose

1. Governance & Financing Workgroup

- Examine expansion of funding sources for the San Diego IRWM Program.
- Establish membership guidelines for the RAC, including term limits and the process for replacing a member when his or her term expires, or he or she resigns or needs to be replaced.
- Develop RAC charter, including definition of “consensus” and potential voting rules.

2. Priorities & Plan Metrics Workgroup

- Review information received during the Summit and transform it into a draft list of short- and long-term IRWM program priorities.
- Develop a recommended list of Plan metrics that describes the region’s targets.
- Address how the IRWM Program will obtain the data needed to measure progress toward implementation of the Plan.
- Develop recommendations for prioritization of program objectives, project-prioritization criteria, integration strategies and funding application prioritization.
- Develop a strategy that will provide planning opportunities for integration of projects prior to future “calls for projects” when funding opportunities arise.

3. Regulatory Workgroup – Provide guidance for development of the IRWM Plan Study on Collaboration with the Regional Board, which will:

- Explore potential partnership between the IRWM Program and the Regional Board to improve regulatory certainty.
- Identify how the Basin Plan might be supported and improved by the IRWM Program.

4. Climate Change Workgroup – Provide guidance for development of the IRWM Plan Study on Climate Change, which will:

- Identify and evaluate climate change impacts to the region.
- Identify climate change strategies, including “no-regret” adaptation.
- Develop tools for factoring climate change into project selection.

5. Land Use Planning Workgroup – Provide guidance for development of the IRWM Plan Study on Water Management and Land Use, which will:

- Assess local water management plans.
- Identify gaps between water resource management and land use planning.
- Explore relationships between water managers and land use planners.
- Develop policy guidance for land use planners.

6. Integrated Flood Workgroup – Provide guidance for development of the IRWM Plan Study on Integrated Flood Management, which will:

- Characterize regional flood issues.
- Develop guidelines for how land use may affect the health of watersheds.
- Describe how the region may practice integrated flood management.
- Develop strategies for coordination and management of assets and facilities.
