WELCOME!

Welcome to our third Lily's Luau. Whether you've been to the luau before or are new to the scene, strap on your coconut bra, grab your lei and have some fun!

And while chatting with friends, bidding on auction items, and enjoying the coconut shrimp, remember why we're here...

- To support and celebrate cutting-edge epilepsy research at the University of Wisconsin-Madison,
- To take away the fear and the stigma of epilepsy,

L4 Skydiving Adventure

Donor: Seven Hills Skydiving

Ever wonder what it feels like to fly? You will! Choose a solo (instructor-assisted) or tandem (with an instructor) skydiving jump. For the SOLO flight, the chute will open almost immediately upon leaving the aircraft (about 4-5 seconds of freefall). You are never attached to the plane (like static-line) and the deployment sequence is identical to the way experienced skydivers open their own parachutes, except the instructor throws your pilot chute for you, which opens your main parachute. This thrilling, solo, 'do it by yourself' method is *also* a way to train to become a licensed skydiver. TANDEM is a 30 second free fall, as you jump with an instructor. Both include radio contact to assist you in landing your parachute safely (about 4-5 minute canopy ride). A color photo of your exit is available for purchase. Reservations required.

LILY'S LUNCHES AT WID

Hats Off to Findorff and Mortenson

As many of you know from the news coverage, the Wisconsin Institutes for Discovery is open for business. This will be the home of groundbreaking research in so many fields...maybe even epilepsy.

But do you know the story of how two generous companies and thousands of construction workers raised \$45,000 for Lily's Fund along the way? This was a partnership that built not only a world-class building, but also helped jumpstart a Lily's Fund research fellow too.

Every month, between 200-300 workers came together to attend a Lily's Lunch. Their \$5 donation earned them a much-deserved meal, which was sponsored by Findorff/Mortenson, or one of the WID subcontractors. All money donated by the workers was then matched by Findorff/Mortenson and given to Lily's Fund.

Every lunch we came upon unexpected, inspirational stories, from a welder who has epilepsy, or a window installer whose mom suffers from seizures.

We are so grateful to have met the thousands who worked on WID, and to the forward thinking companies, Findorff/Mortenson, and their supportive subcontractors.

THANK YOU!!!!

LILY'S FUND FOR EPILEPSY RESEARCH

About Lily's Fund

Did you know that one in 26 people will develop epilepsy during their lifetime?! Seizures affect our family, friends, neighbors, seniors, military veterans, infants and children.... including a teenage girl named Lily.

With her as our inspiration, Lily's Fund is working to bring epilepsy out of the shadows and into the spotlight in hopes of more investment in research...both private and public.

In just three years, Lily's Fund for Epilepsy Research has grown tremendously. Volunteers, donors, businesses.... all have rallied around the cause and the need to support funding for more research. If you haven't already, come join us. Here's how:

Wear Purple Proudly

Show your support for those living with epilepsy on Purple Day, March 26, 2011. Follow Lily's Fund for more details.

Have a Lemonade Stand

So easy and fun. Have a Lily's Lemonade Stand in your neighborhood, at your business or in your school to raise awareness of epilepsy. Everything you need is on our website.

Help Fund a Fellow

Donate to Lily's Fund for Epilepsy Research at the UW-Madison. We are thrilled to announce the first Lily's Fund Fellow, a post doc position solely dedicated to epilepsy research. A call for applications is underway. This is just the first step towards bigger and better epilepsy research.
