# PLEASE READ BOTH SIDES OF DOCUMENT – DO NOT DISCARD THIS FORM

## CALIFORNIA STATE UNIVERSITY IMMUNIZATION REQUIREMENTS

**ALL** students born after January 1, 1957, **ALL** students residing in the campus residence halls, and **ALL** education and nursing majors (regardless of age) are required to present proof of two immunizations against **measles, mumps and rubella (MMR)**. The immunizations must have been received after January 1, 1968, and after 12 months of age. *You will NOT be able to register for your SECOND SEMESTER until you have completed this requirement.*

**ALL** new students who are 18 years of age or younger are required to present proof of immunization against **hepatitis B**. The hepatitis B immunization is a series of three shots, usually given over a period of six months. *You will NOT be able to register for your second semester until you have presented proof to Student Health Services that you received at least one shot.* You must **complete** the series prior to your second year of enrollment. *You will NOT be able to register for your second year until you complete this requirement.*

**Students enrolled in a California public middle school or high school after July 1, 1999 will have satisfied this requirement.**

### FREQUENTLY ASKED QUESTIONS

**1. How am I supposed to get proof that I have had these shots?**

You may be able to get proof:

- ◆ By checking with your personal physician or the pediatrician who took care of you when you were a child
- ◆ From your personal immunization records (must be certified by MD/RN)
- ◆ From your primary or secondary school immunization records
- ◆ From your immunization records obtained from another college that you attended
- ◆ From your military immunization records

**2. What if I never had these shots or cannot get any records?**

- ◆ You may receive the MMR and hepatitis B vaccines at CI Student Health Services.
- ◆ You may receive the vaccines from your personal physician.
- ◆ You may receive the vaccines at a clinic in your area. Contact your local public health department.

**3. Is there another way to show proof of immunity without getting the shots?**

Yes, if you have ever had these diseases or an effective immunization, you will have immunity. To prove this, have your doctor order the necessary blood test that will show immunity.

**4. These shots are against my personal or religious beliefs. What should I do?**

You may be granted an exemption. Waivers for exemption are available at Student Health Services.

**5. I have a medical condition that prohibits me from receiving some vaccines. What should I do?**

You may be granted an exemption. Waivers for exemption are available at Student Health Services.

**6. I need another copy of this form. Where can I get one?**

You can get additional copies from Student Health Services.

**7. I understand the hepatitis B immunization is a series of shots. What if there isn't enough time to get all three doses before I come to school?**

Students are required to have at least one dose prior to enrolling for their second semester. Subsequent doses may be given at Student Health Services.

**8. I will be away from home at the time my next hepatitis B shot is due. What should I do?**

Students may obtain the hepatitis B immunization at Student Health Services.

**9. I think I had hepatitis B infection a while back. Do I still need to get the shots?**

No. You do not need to get the immunization if you have had the disease. **However**, you do need to present proof of acquired immunity by having had the disease. You can do this by asking your doctor to order the blood test that will show immunity.

**10. I turned in documentation that I started the series; now how do I show that I have finished the series?**

Once you have received all three doses, use this form to document completion. Have your health care provider complete the form, or attach a **copy** of your immunization record. Take the form to Student Health Services or mail it to CSU Channel Islands, Student Health Services, One University Drive, Camarillo, Ca., 93012; or FAX it to Student Health Services at (805) 437-8829. Additional forms are available at the Student Health & Counseling Center.

**11. I just can't figure this all out. Is there someplace I can go for help?**

Yes. If you have questions not answered by this form or if you need help interpreting your immunization records, you can get help from the Student Health Services staff or by calling (805) 437-8828.

### RECOMMENDED IMMUNIZATIONS (not required)

- ◆ Current Tetanus/Diphtheria (within the last ten years)
- ◆ Meningococcal disease
- ◆ Current TB test (within two years)
