

Am I required to make estimated income tax payments?

You must make estimated income tax payments if you reasonably expect your 2012 tax liability to exceed \$500 after subtracting your Illinois withholding, pass-through entity payments, and tax credits for

- income tax paid to other states,
- Illinois Property Tax paid,
- education expenses,
- the Earned Income Credit, and
- Schedule 1299-C, Income Tax Subtractions and Credits (for individuals).

You will likely need to make estimated payments if your income is either fully or partially exempt from Illinois withholding.

Complete the Estimated Tax Worksheet to figure your estimated tax and to determine if you are required to make estimated tax payments. If you plan to file a joint income tax return, you must figure your estimated tax on your joint income.

If you determine that you are required to make estimated payments, you should pay 100 percent of the tax. If your income changes during the year, you should complete the amended worksheet.

Note If you do not receive your income evenly throughout the year or if you must begin making estimated payments in midyear, see Form IL-2210, Computation of Penalties for Individuals, for further details on annualizing your income.

When are my payments due?

Your first estimated payment is due by April 17, 2012. You may either pay all of your estimated tax at that time or pay your estimated tax in four equal installments that are due on April 17, 2012; June 15, 2012; September 17, 2012; and January 15, 2013.

Note If you file on a fiscal-year basis, please adjust all the due dates to correspond to your tax year.

Are there any exceptions?

You do not have to make estimated payments if you are

- 65 years or older and permanently living in a nursing home or
- a farmer. We consider you a farmer if at least two-thirds of your total federal gross income is from farming.

What if I do not make my payments?

You may be assessed a **late-payment penalty** if you do not pay the required estimated payments on time. We will apply each payment to the earliest due date until that liability is paid, unless you provide specific instructions to apply it to another period. However, if you pay at least 90 percent of this year's tax or at least 100 percent of last year's tax in four equal timely installments, you may not be subject to this penalty.

For more information about penalties and interest, see Publication 103, Penalties and Interest for Illinois Taxes.
