GENERAL CONTRACTOR
Prequalification Requirements

Prequalification of General Contractors will be required. General Contractors who wish to work on the Vault Modifications 2011/2012 project shall submit a prequalification request and required information. ENGINEER reserves the right to accept or reject the prequalification request based on OWNER-established criteria including, but not limited to:

Be in good standing with previous work performed for Denver Water.

Minimum of 5 years experience working on industrial or utility grade projects in the Rocky Mountain Region of a similar scope and size as this Project.

General Contractor(s) Required Evidence of Qualifications:

Statement of Experience: List of at least 5 projects comparable to the Vault Modifications 2011/2012 project which have been completed by the prospective General Contractor. Provide Owner's name, address, telephone number and contact name.

Organization Chart: Showing organization structure for the Company and this Project. Identify key personnel who will be assigned to do this Project.

Qualification of Personnel:

Provide resumes giving management and technical qualifications of project manager, superintendent, project foreman and all other key personnel shown on organization chart.

PLUMBING CONTRACTOR
Prequalification Requirements

Prequalification of Plumbing Contractors will be required. Plumbing Contractors who wish to work on the Vault Modifications 2011/2012 project shall submit a prequalification request and required information. ENGINEER reserves the right to accept or reject the prequalification request based on OWNER-established criteria including, but not limited to:

Be in good standings with previous work performed for Denver Water.

Plumbing Contractor: Minimum of 5 years experience working on industrial or utility grade projects in the Rocky Mountain Region of a similar scope and size as this Project.

Plumbing Contractor's Site Representative: Minimum of 5 years experience working on industrial or utility projects of a similar scope and size as this Project.

Plumbing Contractor(s) Required Evidence of Qualifications:

Statement of Experience: List of at least 5 projects comparable to the Vault Modifications 2011/2012 project which have been completed by the prospective Plumbing Contractor. Provide Owner's name, address, telephone number and contact name.

Organization Chart: Showing organization structure for the Company and this Project. Identify key personnel who will be assigned to do this Project.

Qualification of Personnel:

Provide resumes giving management and technical qualifications of project manager, superintendent, project foreman and all other key personnel shown on organization chart.

Project plumbing work shall be performed or supervised by a foreman who is a Colorado Licensed Master Plumber. The foreman on the project shall not be replaced except under extraordinary circumstances with written notice to the ENGINEER.

Submit current copies of the Colorado Master Plumbing License, along with Journeyman or Apprentice registration information/license, for all others that are proposed to work on this Project.

MECHANICAL/HVAC SHEET METAL CONTRACTORS
Prequalification Requirements

Prequalification of Mechanical/HVAC Sheet Metal Contractors will be required. Mechanical/HVAC Sheet Metal Contractors who wish to work on the Vault Modifications 2011/2012 Project shall submit a prequalification request and required information. ENGINEER reserves the right to accept or reject the prequalification request based on OWNER-established criteria including, but not limited to:

Be in good standings with previous work performed for Denver Water.

Mechanical/HVAC Sheet Metal Contractors: Minimum of 5 years experience working on industrial or utility grade projects of a similar scope and size as this Project.

Mechanical/HVAC Sheet Metal Contractor's Site Representative: Minimum of 5 years experience working on industrial or utility projects of a similar scope and size as this Project.

Mechanical Contractor(s) Required Evidence of Qualifications:

Statement of Experience: List of at least 5 projects comparable to the Vault Modifications 2011/2012 Project which have been completed and placed into operation by prospective Mechanical/HVAC Sheet Metal Contractors.

Provide information showing that Mechanical/HVAC Sheet Metal Contractors has had project experience as the Project Manager and Contractor responsible for a Plumbing Contractor, if applicable. Provide 5 complete project examples with Subcontractor's name, address, contact name and number.

Organization Chart: Showing organization structure for the Company and this Project. Identify key personnel who will be assigned to do this Project.

Qualification of Personnel:

Provide resumes giving management and technical qualifications of project manager, superintendent, project foreman and all other key personnel shown on organization chart.

Project mechanical plumbing work shall be performed or supervised by a foreman who is a Colorado Licensed Master Plumber. The foreman on the project shall not be replaced except under extraordinary circumstances with written notice to the ENGINEER.

Submit current copies of the Colorado Master Plumbing Licenses, along with Journeyman or Apprentice registration information/license, for all others that are proposed to work on the Vault Modifications 2011/2012 Project.

ELECTRICAL CONTRACTOR
Prequalification Requirements

Prequalification of Electrical Contractors will be required. Electrical Contractors who wish to work on the Vault Modifications 2011/2012 Project shall submit a prequalification request with the required information prior to the bid date, as specified in the bidding documents. ENGINEER reserves the right to accept or reject the prequalification request based on OWNER-established criteria including, but not limited to:

Be in good standing with previous work performed for Denver Water.

Electrical Contractors: Minimum of 5 years experience in Industrial Water and Wastewater Systems and projects of a similar scope and size as the Vault Modifications 2011/2012 Project.

Electrical Contractor's Site Representative: Minimum of 5 years experience working on projects of a similar scope and size as the Vault Modifications 2011/2012 Project.

Electrical Contractor(s) Required Evidence of Qualifications:

Statement of Experience: List of at least 5 projects comparable to the Vault Modifications 2011/2012 Project which have been furnished and placed into operation by prospective Electrical Contractor. For each system, provide following information:

1. Project
2. Engineer
3. Owner's name, address, and telephone number. Include an Owner contact and telephone number.
4. Descriptions of electrical systems including major equipment items.
5. Description of control system including major equipment items.
6. Contract amount
7. Dates when Contract was signed, equipment was delivered, and system was accepted by OWNER.

Electrical Contractor has had project experience as the Project Manager and Contractor responsible for I&C Subcontractor. Provide 5 completed project examples with Subcontractor's name, address, contact and telephone number.

The I&C Contractor shall be a subcontractor to the Electrical Contractor. The Electrical Contractor shall be responsible for selecting and managing an I&C Subcontractor that has the experience and capabilities to meet the requirements of the Contract Documents.

A letter describing what is considered the most difficult electrical parts of the Vault Modifications 2011/2012 Project.

An audited or a reviewed financial statement—NOT A COMPILED STATEMENT—is required which must be prepared by a certified public accountant as of a date no earlier than 15 months prior to Bid Opening. The Board may require that the financial statement be updated at any time prior to Bid Opening.

Have the financial resources and bonding required.

Organization Chart: Showing organization structure for the Company and this Project. Identify key personnel who will be assigned to do this Project.

Qualification of Personnel:

Provide resumes giving management and technical qualifications of supervisory, local service representative, and all key personnel shown on organization chart.

Project electrical work shall be performed or supervised by an electrical foreman who is a Colorado Licensed Journeyman or Master Electrician. The electrical foreman on the project shall not be replaced without written notice to the ENGINEER except under extraordinary circumstances. The ratio of electrical apprentices to Colorado licensed journeymen (or masters) shall be no greater than 2:1.

Submit current copies of Colorado Journeyman Electricians License, Master Electricians License or Apprentice registration information/license, for all foreman, electricians and apprentices that are proposed to work on the Vault Modifications 2011/2012 Project

I&C CONTRACTOR/SYSTEMS INTEGRATORS
Prequalification Requirements

Prequalification of I&C Contractors/Systems Integrator Contractors will be required. I&C Contractors/Systems Integrator Contractors who wish to work on the Vault Modifications 2011/2012 Project shall submit a prequalification request with the required information. ENGINEER reserves the right to accept or reject the prequalification request based on OWNER-established criteria including, but not limited to:

Be in good standing with previous work performed for Denver Water.

I&C Contractors/Systems Integrator Contractors: Minimum of 5 years experience in industrial water and wastewater systems and projects of a similar scope and size as the Vault Modifications 2011/2012 Project.

Electrical Contractor's Site Representative: Minimum of 5 years experience working on projects of a similar scope and size as the Vault Modifications 2011/2012 Project.

I&C Contractor/System Integrator's Required Evidence of Qualifications:

Statement of Experience: List of at least 5 projects comparable to the Vault Modifications 2011/2012 Project which have been furnished and placed into operation by prospective I&C Contractors/Systems Integrator Contractor. For each system, provide following information:

1. Project
2. Engineer
3. Owner's name, address, and telephone number. Include an Owner contact and telephone number.
4. Description of control system including major equipment items.
5. Contract amount
6. Dates when Contract was signed, equipment was delivered, and system was accepted by OWNER.

A letter describing what is considered the most difficult I&C parts of the Vault Modifications 2011/2012 Project.

An audited or a reviewed financial statement—NOT A COMPILED STATEMENT—is required which must be prepared by a certified public accountant as of a date no earlier than 15 months prior to Bid Opening. The Board may require that the financial statement be updated at any time prior to Bid Opening.

Have the financial resources and bonding required.

Organization Chart: Showing organization structure for the Company and this Project. Identify key personnel who will be assigned to do this Project.

Qualification of Personnel:

Provide resumes giving management and technical qualifications of supervisory, local service representative, and all key personnel shown on organization chart.
