The "Coached" Forest Stewardship Planning Shortcourse is an educational opportunity for owners of private forest land in Washington. The informational, hands on, practical approach of this program will enable landowners to learn useful information about the natural resources. The program is open to all persons. Participants will be able to author their own Forest Stewardship Plan with guidance and "coaching" by natural resource professionals.

Workshop Topics may include:

- Introduction to Forest Stewardship Planning & Personal Goals
- How to Write a Forest Stewardship Plan
- How to Map & Describe Your Property
- How to Maintain Forest Health
- Forest Ecology- How Forests Respond to Disturbance.
- Planting and Taking Care of Your Forest
- Sustainable Timber Harvesting
- Wildlife Habitat Identification and Enhancement
- Forest Resource Inventory
- Native Plant Identification
- Understanding Forest Soils and Fertility
- Riparian, Wetlands, & Water Quality
- Understanding Forest Practices Regulations
- Where to Go for Help - "The Network"

Extension Act— Cooperative Programs.

WHO IS IT FOR?

This eight-session program is designed to help
owners of private forestlands help themselves by
learning what is best for their individual property.
If you want to identify problems and develop
solutions that meet your ownership goals, this
program is for you.

Extension programs and policies are consistent
with federal and state laws and regulation on
nondiscrimination regarding race, color, gender,
national origin, religion, age, disability, and
sexual orientation. Evidence of noncompliance
may be reported through your local Extension
office.
