

Arc  
after Dark

Celebrating and inspiring change.

The Arc Jacksonville's mission is to provide advocacy and quality services that enable people with intellectual and developmental disabilities to achieve their full potential, enhance their quality of life, and be active participants in their communities.

The Arc Jacksonville's roots in this community began almost 50 years ago with a small gathering of parents, family and educators who met to discuss their hopes and dreams for their children with intellectual and developmental disabilities. At that time, resources and supports for people with disabilities simply did not exist. These meetings were the genesis of today's Arc Jacksonville. Their vision of a community that offers needed support and inclusive opportunities to their children still guides The Arc's philosophy and services.

Today, The Arc Jacksonville provides a multitude of services, supports, training, care and advocacy across the life span to ensure people with disabilities have opportunities to choose how they live, learn, work and play. The Arc is also their voice in the public arena, challenging local, state, and federal law makers to provide the supports required for the individuals we serve to become fully participating members of our community.

Even though The Arc Jacksonville receives local, state, and federal support to provide services to more than 450 individuals, we remain dependent on the financial generosity of individuals, foundations, and corporations to bridge the ever increasing funding gap.

---

The focus of Arc After Dark is to celebrate and inspire change – something The Arc Jacksonville has been about since our founders came together almost five decades ago. And we pledge to continue for decades to come to innovate programming and services so that adults with intellectual and developmental disabilities (I/DD) may live fully within our wonderful community.

Chair for this inaugural year of "Arc After Dark" is Florida Blue CEO Patrick Geraghty, the chief change agent for the transition of Florida Blue from an insurance company to a health care company. His strategy has been to get ahead of the monumental change that the Affordable Care Act will bring this fall – an inspiration to us all!

Today, finding jobs continues to be important, but we have opened other opportunities for adults with I/DD. Because of The Arc Jacksonville, young adults with I/DD have new opportunities in the areas of education, employment, housing, and arts & culture.

The success of these innovations is ensured by you, our friend and supporter. We invite you to partner with us to keep advancing, to keep striving for solutions for today's and tomorrow's adults with I/DD. Please join our "Arc After Dark" event and celebrate where we have come and be inspired for the journey ahead. You are the key ingredient to our success...let's continue together.
