SAFE HARBOR DE-IDENTIFICATION DECLARATION FOR DISCLOSURES FOR NON-RESEARCH ACTIVITIES

WHO SHOULD USE THIS FORM

All faculty, staff, trainees, and students within the University's Covered Entity¹ disclosing² Protected Health Information (PHI)³ for purposes other than treatment, payment, or healthcare operations (as defined by HIPAA) must use this form (Researchers – contact the IRB for the research form).

There are two ways within HIPAA to de-identify protected health information.

- 1. Safe Harbor Method: Removal of the 18 identifiers listed on this form; OR
- 2. **Statistical Analysis Method:** Through a documented statistical analysis submitted on the "Statistical Analysis De-identification Declaration." There is another form for this purpose.

INSTRUCTIONS

- 1. Fill out this form prior to disclosure.
- 2. Acquire appropriate signatures for all documents.
- 3. Maintain a copy with the information request for data.

If you have questions regarding these requirements, please contact the Privacy Office at 587-9241.

3-DIGIT ZIP CODES:

Regular 5-digit zip codes must be removed for Safe Harbor de-identification. However, the first 3 digits of zip codes may be retained, except for 3-digit zip codes where the population is less than 20,000. All data from these zip codes must be recorded under "000." According to the 2000 Census, there are currently 17 such codes: 036, 059, 063, 102, 203, 556, 692, 790, 821, 823, 830, 831, 878, 879, 884, 890, and 893. None of these codes are in Utah. The following codes cover the area around the listed towns in nearby Western states:

823	Rawlins, WY	878	Socorro, NM	890	Alamo, NV
830	Jackson, WY	879	Truth or Consequences, NM	893	Ely, NV
831	Kemmerer, WY	884	Tucumcari, NM
