

RAFFLE RECORDKEEPING FORMS AND INSTRUCTIONS

This booklet contains recordkeeping forms, instructions for each form, and a completed sample of each form. The instructions are designed to assist an employee in completing a line or section of a form that may not be readily understood by the title or instructions found on the form itself. Instructions for lines that are considered self-explanatory, such as simple math computations, are not included.

Sample forms have been provided to illustrate the proper completion of this office's standard forms. The instructions will answer the most commonly asked questions about the recordkeeping forms. Please remove the master forms from the booklet and make copies for your site(s). Note that some forms are two sided.

*If you have any questions or comments, please contact this office
in writing or by calling 1-800-326-9240.*

Raffle Ticket Distribution Log - Single Tickets (SFN 9873)

This form is used to account for the sales of all single raffle tickets for a raffle. Single tickets all sell for the same price, for example, \$1 each.

Each time tickets are given to a person or entity to sell, record the range of ticket numbers and quantity issued to that person or entity.

When cash and/or tickets are returned, enter the quantity of tickets returned and the amount of cash turned in.

See sample form on page 7.

Raffle Ticket Distribution Log - Discounted Tickets (SFN 9942)

This form is used to account for the sales of discounted raffle tickets for a raffle. A discounted ticket is one that sells for less than the price of a single ticket. For example, if a single ticket sells for \$1 and a book of 5 sells for \$4, the books of tickets are discounted tickets.

A discounted ticket must be specifically designated as a discounted ticket on the ticket and its stub. Discounted tickets must be predetermined and separately issued and accounted for when issued to a ticket seller. For example, the same ticket cannot sell for either \$1 or 5 for \$4.

Each time tickets are given to a person or entity to sell, record the range of ticket numbers and quantity issued to that person or entity.

When cash and/or tickets are returned, enter the quantity of tickets returned and the amount of cash turned in.

See sample form on page 8.

Prize Register (SFN 9932)

This form is used for raffles to record all prizes awarded.

Raffle Ticket Number – Enter the winning raffle ticket number.

The complete name of each winner is completed for all prizes awarded.

N.D. Admin. Code § 99-01.3-05-02(8) requires that two employees be present for a raffle drawing. Both employees must initial the form verifying that the information recorded is correct.

Cost of Merchandise Prize - Enter the actual cost to the organization, not the retail value of the prize. For example, a donated prize is entered as -0-.

Date of Payout - If the prize is actually paid or transferred to the player on a date other than the date of the raffle drawing, enter the date the player received the prize. Otherwise, the column is left blank.

Totals – Calculate and enter the column totals for the cost of merchandise prizes and cash prizes on the last page of the prize register. If only one page is needed, enter the totals on page one. If two pages are needed, enter the totals on page two only.

See sample form on page 9.

Record of Win (SFN 9939)

This form is used whenever a single cash prize or retail value of a merchandise prize

of greater than \$200 is awarded to a player.

The Record of Win must be pre-numbered.

1. Check the raffle box and record the date of drawing and winning ticket number.
2. The player must sign the Record of Win, unless the prize is being mailed to the player.
3. If a partial payout is made (for example, the player is paid \$500 in cash and will be paid the remaining \$500 of the prize by a check issued from the home office), complete the bottom right section of the form.

See sample form on page 10.

Raffle Summary **(SFN 9871)**

This form summarizes the activity of one raffle. Total Gross Proceeds, Prizes, and Adjusted Gross Proceeds are reported on the tax return for raffle activity.

If the person summarizing the game has conducted the game, has access to the total receipts or cash profit, or has sole signatory authority of the gaming account, the summarization must be audited by someone independent.

If the game is summarized by a person who meets the requirements listed above and is independent, the summary does not need to be reaudited.

Schedule of Bank Deposits

This section is used to record deposits made for the raffle that the summary corresponds to.

An employee who did not have access to the bank deposit funds must verify to the bank statement that the amount recorded as the "Deposit Amount" was actually deposited in the gaming account.

This person initials each deposit and records the date verified indicating that the verification has been completed.

See sample form on page 11.

Raffle Summary With **Nongaming Activity** **(SFN 54065)**

This form summarizes the activity of one raffle which relates to admission for a meal or other nongaming activity. Any amounts claimed for the nongaming activity, such as the cost of the meal, must have adequate documentation retained to support the amount claimed. This form allocates the amounts between gaming and nongaming activity. Only the gaming related Gross Proceeds, Prizes, Adjusted Gross Proceeds and Cash Profit are reported on the tax return as raffle activity.

If the person summarizing the game has conducted the game, has access to the total receipts or cash profit, or has sole signatory authority of the gaming account, the summarization must be audited by someone independent.

If the game is summarized by a person who meets the requirements listed above and is independent, the summary does not need to be reaudited.

Schedule of Bank Deposits

This section is used to record deposits made for the raffle the summary corresponds to.

An employee who did not have access to the bank deposit funds must verify to the bank statement that the amount recorded as the "Deposit Amount" was actually deposited in the gaming account.

This person initials each deposit and records the date verified indicating that the verification has been completed.

See sample form on page 12.

Master Inventory Log - Ticket Rolls
(SFN 9861)

This form is used to account for ticket rolls purchased by the organization for double admission raffle activity. This form accounts for all ticket rolls purchased, regardless of the color.

Note: If an organization has only one site where inventory is stored, it may combine the master and site inventory records. All ticket rolls will be accounted for on the Master Inventory Log – Ticket Rolls. However, if tickets are kept in more than one storage area, for example, the Master Inventory Log – Ticket Rolls would be used for the tickets kept in the main storage area, and the Site Inventory Log – Ticket Rolls would be used for the tickets in the other location. If an organization has more than one site, or if it has inventory at more than one location, the Master Inventory Log – Ticket Rolls and Site Inventory Log – Ticket Rolls must be used.

The first section of the form accounts for the receipt of ticket rolls or the return of ticket rolls.

The second section of the form accounts for the tickets issued to the site or the tickets returned from the site.

The third section is used to compute and maintain a running balance of the total number of tickets in inventory.

See sample form on page 13.

Site Inventory Log - Ticket Rolls
(SFN 9859)

This form is used to account for ticket rolls at a site to account for raffle activity. This form accounts for one ticket roll.

If an organization has only one site which is the home office, only the Site Inventory Log – Ticket Rolls is needed.

For a raffle event:

1. Session/Event - Enter the name of event.
2. Beginning Ticket Number - The beginning ticket number on the roll is recorded by the cashier. If a second employee is on duty, that employee verifies the ticket number recorded. When both persons agree, the cashier and second employee initial the form verifying the accuracy of the number recorded.
3. Ending Ticket Number - After sales are complete, the ticket number left on the ticket roll after sales is recorded by the cashier. For example, if the roll had tickets numbered 1 through 1000, and tickets 1 through 50 were sold, ticket number 51 would be entered on the form. If a second employee is on duty, that employee verifies the ticket number recorded. When both persons agree, the cashier and second employee initial the form verifying the accuracy number recorded.
4. Number Received/(Returned) - This is used to record the receipt of rolls of

tickets at the site from the home office or purchased, or the number of tickets returned to the home office or returned to the place of purchase.

5. Tickets in Inventory - This is used to compute and maintain a running balance of the total number of tickets in inventory at the site.

See sample form on page 14.

Double Roll Ticket Raffle Daily Report & Summary (SFN 18873)

This form summarizes the activity of six double roll ticket raffles. This form is used with Master Inventory Log - Ticket Rolls (SFN 9861) and Site Inventory Log - Ticket Rolls (SFN 9859).

1. At the beginning of the day's activity, the cashier counts the actual starting cash and records the amount.
2. If a second employee is on duty, that employee recounts the starting cash and verifies the amount the cashier recorded. When both persons agree to the amount, the cashier and the second employee initial the form verifying the accuracy of the recorded amounts.
3. At the end of the day's activity, the cashier counts the actual ending cash and records the amount.
4. If a second employee is on duty, that employee recounts the ending cash and verifies the amount the cashier recorded. When both persons agree to the amount, the cashier and the second employee initial the form verifying the accuracy of the recorded amounts.

Ticket Sales

1. Color of Ticket – Enter the color of the tickets on the roll.
2. Ticket Number Remaining on Ticket Roll After Sales – Enter the ticket number left on the roll after sales are complete.
3. Beginning Ticket Number – Enter the ticket number on the roll before sales begin.
4. Tickets Voided – If a ticket cannot be sold for any reason, enter the number of tickets that are voided. These voided tickets must be attached to the session report.

Prize Register

Every cash and merchandise prize awarded must be entered on the prize register. If the prize register section of this form does not have enough lines, use the Prize Register (SFN 9932) provided in this booklet.

Cash Profit and Bank Deposit

- Line 6 Enter only the amount of prizes that are paid by check, including merchandise prizes. Do not include prizes that were paid from the cash bank.
- Line 8 Enter the amount of the deposit for raffles only.

Deposit Amount Verified to Bank Statement

An employee who did not have access to the bank deposit funds must verify to the bank statement that the amount recorded as the "Deposit Amount" was actually deposited in the gaming account.

This person initials each deposit and records the date verified indicating that the verification has been completed.

If the person summarizing the game has conducted the game, has access to the total receipts or cash profit, or has sole signatory authority of the gaming account, the summarization must be audited by someone independent.

If the game is summarized by a person who meets the requirements listed above and is independent, the summary does not need to be reaudited.

See sample form on page 15 and 16.

Reconciliation of Inventories **(SFN 17937)**

This form is used by a person who has not had access to the inventory, for the annual reconciling of games requiring a North Dakota gaming stamp, bingo cards, casino chips, and rolls of tickets to a physical count of these items back to the information on the inventory logs.

This form accounts for the master inventory and up to three additional site inventories.

The serial number field is intended for the reconciliation of bingo cards. However, when reconciling rolls of tickets use this field to document the starting ticket number as required by N.D.A.C. § 99-01.3-03-09(3).

If the physical count of inventory does not match the records, the action(s) taken by management to resolve the discrepancy must be noted.

The person who completes the reconciliation initials the form verifying the information recorded.

See sample form on page 17.
