

**BEFORE THE OIL AND GAS CONSERVATION COMMISSION
OF THE STATE OF COLORADO**

IN THE MATTER OF THE APPLICATION OF MINERAL RESOURCES, INC. TO AMEND ORDER NO. 407-816 POOLING ALL INTERESTS IN AN APPROXIMATE 480-ACRE DESIGNATED HORIZONTAL DRILLING AND SPACING UNIT ESTABLISHED FOR SECTIONS 5 AND 6, TOWNSHIP 5 NORTH, RANGE 65 WEST, 6TH P.M. FOR THE CODELL AND NIOBRARA FORMATIONS, WATTENBERG FIELD, WELD COUNTY, COLORADO	CAUSE NO. DOCKET NO.
---	--------------------------------------

APPLICATION

COMES NOW, Mineral Resources, Inc., a Colorado corporation (“Applicant”) by and through its attorney, Thomas J. Kimmell, P.C. and for its application to amend the Commission’s Order No. 407-816 for pooling and spacing as to operations after cost recovery of interests in production from the Niobrara and Codell formations in the lands described below pursuant to CRS § 34-60-116, Rule 318(I)(a)(4)(D), and Cause No. 407, states and alleges as follows:

1. Applicant is duly authorized to conduct business in the State of Colorado and owns an interest in and operates oil and gas leases covering portions of certain lands located in Weld County, Colorado described as follows:

T5N, R65W, 6th P.M., Weld County, Colorado
Section 5: SW $\frac{1}{4}$
Section 6: S $\frac{1}{2}$

The above lands will be referred to the “Subject Spacing and Pooling Unit.”

2. The above-described lands are included within the area governed by the Greater Wattenberg Area Special Well Location Rule, Rule 318A (I) of the Commission rules and the Wattenberg spaced area for the production of oil and gas from the Niobrara and Codell formations.
3. Pursuant to Rule 318A(I)(a)(4)(D), Applicant has designated and by Report of the Commission dated August 27, 2013, the Commission approved a drilling and spacing unit for the proposed horizontal wells, consisting of one 480-acre horizontal drilling and spacing unit and the SW $\frac{1}{2}$ of Section 5 and the S $\frac{1}{2}$ of Section 6 described above.
4. The list of interested parties owning interests in the Subject Spacing and Pooling Unit is attached hereto as Exhibit B and copies of this Application will be sent to all such parties pursuant to Rule 530.
5. Many of the owners have not elected to bear their proportionate share of the costs and risks of drilling and operating the wells to be drilled in the Spacing Unit

and have become non-consenting owners as defined by C.R.S. § 34-60-116(7) and Rule 530 of the rules of the Commission. As mentioned above, on August 27, 2013, the Commission entered its Report, pooling and spacing all the non-consenting interests in the Subject Spacing and Pooling Unit in accordance with the provisions of C.R.S. § 34-60-116. This Order contains numerous provisions dealing with drilling and other operations conducted on the Unit prior to recovery of costs associated with the non-consenting owners. As to the period after cost recovery, the Order provides as follows: "After recovery of such costs, the non consenting mineral owner shall then own his/her proportionate 8/8ths share of the well, surface facility and production, and then be liable for his/her proportionate share of further costs incurred in connection with the well as if he/she had originally agreed to the drilling."

6. Applicant seeks to amend the August 27, 2013 Order entered by the Commission as to the post cost recovery period. The Subject Spacing and Pooling Unit is located in a unique and high density urban area. Mineral ownership is shared among several hundred different owners and most of the owners own a small portion of the Unit, such as 0.1 acres of the 480 acre unit.
7. Under the above language in the Order, it is presumed that a non-consenting mineral owner, who does not lease or otherwise communicate with an operator after cost recovery, automatically owns the proceeds and is liable for the proportionate share of all costs as to that owner's full mineral interest. This creates results that are both unintended and present substantial impediments to operations. The result that even in the absence of an affirmative election to participate as a cost bearing owner, a non-consenting mineral owner upon cost recovery automatically becomes a cost bearing owner responsible and liable for its share of costs and expenses, which could include a massive liability such as in the case of environmental contamination, is rarely understood or desired by mineral owners. Further, the above language does not express the direct relationship intended by the statute (as set forth in C.R.S. Section 34-60-116(8)) between payment of costs and receipt of proceeds: namely, the right to receive all proceeds attributable to the interest goes hand-in-hand and is based on the owner's agreement to pay all applicable expenses. Additionally, other than through utilization of lien foreclosure proceedings, the Operator has no effective mechanism to obtain payment of expenses by non-consenting mineral owners or to escrow their proportionate share of funds needed for future liabilities, such as for reworking or plugging and abandoning wells.
8. In order to ensure a just and equitable share of production to each interest owner, to protect coequal and correlative rights, to protect public health, safety, welfare, the environment and wildlife resources through a fair and more practicable procedure for operations after cost recovery, Applicant seeks to amend the previous Pooling and Spacing Order as follows: Upon cost recovery, Applicant shall conduct an election procedure: namely, the Operator shall notify each non-consenting interest owner in the Subject Spacing and Pooling Unit of such cost recovery and give each such owner the opportunity to affirmatively elect to participate as a cost bearing owner liable for his/her share of all further costs and entitled to receive his/her 8/8ths share of production. Should a non-consenting owner elect to participate as a cost bearing owner, then Applicant will

treat such owner as a cost bearing owner and pay all revenues and invoice all expenses to that owner. However, until and unless the owner makes such election, Applicant as Operator shall continue to treat the owner as a non-consenting royalty owner not liable for any costs.

9. The Commission has authority to grant this Application under the Colorado Oil and Gas Conservation Act and to clarify the intent of the legislature, as set forth in C.R.S. Section 116 (7)(a), that in order “to be entitled to own” the entire interest and receive his full share of production after cost recovery, the non-consenting owner must agree to participate as a cost bearing interest owner.. Pursuant to C.R.S. Section 34-60-116, dealing with drilling units and pooling interests, the Commission can, of course, amend its August 27, 2013 Order as to the post cost-recovery period of operation.
10. Applicant also requests that the Commission allow Applicant to establish a sinking fund for the express purpose of paying for the expected actual costs of reclamation and for plugging and abandonment of each well. This fund may be funded out of the share of production attributable to each non-consenting owner, including during the period of cost recovery. Applicant agrees that in order to fund such costs as to a non-consenting owners’ interest, it will send to each such owner an Authorization for Expenditure (AFE) which will disclose the above reclamation and plugging and abandoning costs.

WHEREFORE, Applicant respectfully requests that this matter be set for hearing, that notice thereof be given as required by law and that upon such hearing, this Commission enter its order as follows:

- a. That the Order dated August 27, 2013, establishing involuntary pooling and designating the SW $\frac{1}{4}$ of Section 5 and the S $\frac{1}{2}$ of Section 6 as the spacing unit for production of oil, gas and associated hydrocarbons from the Niobrara and Codell formations and conduct of oil and gas operations, be partially amended to create an amended and specified procedure for operations undertaken after cost recovery.
- b. Approving the Applicant's right as Operator to conduct and follow an election procedure with non-consenting owners upon cost recovery.
- c. Approving the Applicant’s right to establish a sinking fund for reclamation and plugging and abandonment costs.
- d. For such other and further relief as this Commission deems just and proper.
