THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

4C-4.001 Purpose.

The purpose of this rule chapter is to specify procedures for the establishment of a credit card, charge card, and debit card operation, and acceptance of credit card, charge card, and debit card payments by state agencies and the judicial branch for

goods, and services, and information and to provide for the availability of the standard contract for use by local governments.

Specific Authority 215.322(3) FS. Law Implemented 215.322(1) FS. History--New 12-22-83, Formerly 4C-4.01, Amended 12-26-88, 1-27-99.

4C-4.002 Scope.

These rules govern the acceptance of credit cards, charge cards, and debit cards by state agencies and the judicial branch, and establish procedures for the following functions:

(1) Providing a process for state agencies and the judicial branch to request approval from the Treasurer upon the recommendation of the Office of Planning and Budgeting for credit card, charge card, and debit card acceptance, and procedures for obtaining a recommendation from the State Technology Office when the Internet or other related collection media are used;

(2) Providing a methodology for agencies to complete a cost-benefit analysis;

(3) Utilizing a standardized contract between the financial institution or other appropriate intermediaries service provider and the state agency and judicial branch. The standard contract will be adopted by the Treasurer. The Treasurer may also approve a substitute agreement developed by an agency if the terms of the substitute agreement are acceptable. Although the Treasurer supports the concept of standardization of credit card acceptance within Florida government, the Treasurer may also approve a substitute agreement developed by an agency if the terms of the substitute agreement are superior to the terms of the standardized contract. The standard contract will be available for use by units of local governments;

(4)(3) Permitting an agency or officer accepting payment by credit card, charge card, or debit card to impose a convenience fee upon the person making the payment;

(5)(4) Submitting information to the Treasurer concerning the acceptance of credit cards, charge cards, or debit cards by all state agencies or the judicial branch.

Specific Authority 215.322(3) FS. Law Implemented 215.322(1),(2),(3) FS. History--New 12-22-83, Formerly 4C-4.02, Amended 12-26-88, 1-27-99.

4C-4.003 Definitions.

As used in this rule chapter, the following terms are defined:

(1) Service Provider. The entity that processes credit cards, charge cards, and debit cards on behalf of merchants. The service provider also provides the service of authorization, settlement, and reimbursement to merchants for their transactions.

(2) Discount rate/service fee. A fee charged by the service provider for the service of processing transactions, authorization, settlement, and reimbursement of transactions.

(1)(3) Financial Institution. A "financial institution" shall mean a qualified public depository as defined in Section 280.02, Florida Statutes.

~~(2)~~(4) Merchant. Any state agency or the judicial branch that accepts credit cards, charge cards, or debit cards.

~~(3)~~(5) Card. A credit card, charge card, or debit card that is accepted by a merchant for payment to purchase goods, ~~or~~ services, or information.

~~(4)~~(6) Convenience Fees. A convenience fee is a fixed rate or variable rate charge assessed by a state agency or the judicial branch to a credit card, debit card or charge card payment to help defray the cost of a unique transaction.

(5) Other Appropriate Intermediaries. Any entity that is contracted to facilitate the processing of credit cards, charge cards, and debit cards payments on behalf of a state agency, the judicial branch, or a unit of local government.

Specific Authority 215.322(3) FS. Law Implemented 215.322(1),(2),(3) FS. History—New 12-22-83, Formerly 4C-4.03, Amended 12-26-88, 1-27-99, \_\_\_\_\_.

4C-4.0035 Procedures for Requesting Approval to Accept Credit Cards, Charge Cards, and Debit Cards.

(1) A state agency or the judicial branch desiring to accept payments by credit card, charge card, or debit card shall submit a written proposal to the State Treasurer Office of Planning and Budgeting. In addition to submission of a written request to accept cards, it is recommended that the requester consult with the ~~Office of Planning and Budgeting~~ and the Treasurer to discuss arrangement of an oral presentation. ~~Upon completion of its review, the Office of Planning and Budgeting will then forward the request with its recommendation to the Treasurer for review and final approval.~~ Each request shall include:

- (a) The type of fees being collected.
- (b) The locations where the card will be accepted.
- (c) The method of acceptance, such as card reader/swipe, Electronic Cash Register/PC, mail, telephone, automated response unit, self service terminal, the Internet, or other.
- (d) The projected annual amount of collections and the projected average transaction amount.
- (e) The projected dollar amount of annual service fees to be paid. Indicate the source of fee payment, e.g., general revenue or specific trust fund.

(2) The justification should include the anticipated economic and other benefits that would accrue to the state, and include:

- (a) Goals and expectations.
- (b) The impact on state revenues and expenditures.
- (c) Effect on the private sector. Describe benefits to the public such as improved customer service and convenience to individuals and businesses.
- (d) Summary of expected improvement in labor and operational efficiencies, customer payment compliance, increase in collections, reduction in bad check losses; or bad debts, staffing considerations, current delays in processing

payments, earlier receipt of funds, and increase in sales, e.g., retail, and any other information deemed appropriate by the proposer to explain the request.

(e) Plan for reducing and/or redirecting resources if operational efficiencies are expected.

~~(3) When the Internet or other related electronic methods are to be used as the collection medium the Treasurer will obtain the recommendation of the State Technology Office as to whether to approve the request with regard to the process or procedure to be used. The Office of Planning and Budgeting and the Treasurer will evaluate each request taking into consideration the processing costs, comparison to other payment methods, economic, and other benefits. The Treasurer's approval will be contingent upon a positive recommendation of the Office of Planning and Budgeting.~~

~~(4) The Office of Planning and Budgeting and the Treasurer will each have a 10 working day period to complete their respective reviews. Depending upon the complexity of the proposal, additional information may be requested. If the documentation accompanying the request is incomplete or additional information is necessary for the review, the 10 working day evaluation period will be suspended and the request will be on "pending until receipt of further information" status.~~

(4)(5) An application package to request approval to accept credit cards, charge cards, and debit cards may be obtained by contacting the Bureau of Banking, Division of Treasury Governor's Office of Planning and Budgeting, The Capitol, Tallahassee, Florida. Requests may be made by electronic mail.

Specific Authority 215.322(3) FS. Law Implemented 215.322(1),(2),(3) FS. History—New 1-27-99, Amended \_\_\_\_\_.

4C-4.004 Standard Contracts with Credit Card Service Providers.

(1) The standard contract, which is hereby adopted and incorporated by reference, established by the Treasurer with a service provider, specifies requirements for operation of an electronic credit card, charge card, and debit card processing system. The mechanisms and systems enable state agencies, the judicial branch, and local governments to accept and process merchant transactions, provide prompt authorizations, and deliver collected funds to the designated bank account of a financial institution. Contractual arrangements with the standard contract service provider are made by completing a Subscription Agreement and Information Profile Form.

(2) A state agency or the judicial branch must use the standard contract established by the Treasurer for acceptance of payments by credit card, charge card, or debit card, or obtain authorization from the Treasurer to use another contractor. If an alternative contractor is desired, the state agency or judicial branch should present justification to the Treasurer as to why the standard contract is not acceptable and receive approval from the Treasurer before seeking an alternative contractor. Or,

who seek to provide professional services to contract with the Department pursuant to Sections 287.055, 337.107, and 337.1075, Florida Statutes.

(2) The provisions of Rule 28-106.103, F.A.C., will be used in computing any period of time prescribed by this rule chapter.

(3) Application for Qualification.

(a) ~~A Professional Consultants or their related firms~~ who desires to ~~qualify obtain qualifications~~ with the Department shall submit a Request for Qualification Package for Professional Consultants, Form No. 375-030-01, Rev. 09/00 05/96. ~~A Request for Qualification Package for Professional Consultants, Form No. 375-030-01, Rev. 05/96, incorporated herein, which~~ may be obtained from the Contractual Services Office, MS 20, Haydon Burns Building, 605 Suwannee Street, Tallahassee, Florida 32399-0450, ~~or from the Department's web page at www.dot.state.fl.us or from the Office of Right of Way, MS 22, Haydon Burns Building, 605 Suwannee Street, Tallahassee, Florida 32399-0450.~~

(b) ~~Professional Consultants Complete applications for qualifications for those consultants who are not prequalified at the time of advertisement for a consultant project must file with be received by the Department a complete Request for Qualification Package on or before the project's advertised Letter of Response date. Prequalified consultants who lack technical qualification in a project's advertised major types of work may supplement their technical qualifications by relying on the services of other consultants who are technically qualified in the subject type of work, and have an approved accounting system. The cost of such services may not exceed \$250,000, unless the other consultant is fully prequalified. The Department will not be obligated to delay any part of the consultant selection process or the execution of a contract, for a consultant who has not been qualified.~~

(4) Procedure.

(a) Within 30 days after receipt of a completed Request for Qualification Package, the Department shall examine the application and notify the applicant in writing of any apparent errors or omissions, and request any additional information required by the Department to properly evaluate the application. The applicant shall submit any requested information to the Department within 30 days of receipt of the Department's request for such information. The Department shall process the application within 30 days after receipt of the requested additional information or correction of apparent errors or omissions. If the information is not provided within 30 days after receipt of the request, the application shall be processed with the information provided available.

(b) Upon receipt of a complete application, tThe Department ~~shall will~~ make such inquiries and investigations as deemed necessary to verify and evaluate the applicant's statements and determine competency for qualification.

(c) Information Factors which the Department shall consider in determining whether a consultant is qualified to perform the technical qualifications by types of work shall include:

1. Current license or registration as regulated by the State of Florida or national organizations, as appropriate;-

2. Personnel with appropriate experience and training as detailed in the type of work qualifications;-

3. Registration with the Florida Secretary of State, if the applicant is a corporation or limited partnership;

~~4.3. History of current suspension for failure to maintain adequate due to Department's type of work performance grades with the Department in specified types of work;-~~

~~5.4. Integrity and responsibility, which shall include including but not limited to history of debarment or suspension from consideration for work with any other governmental entity.~~

~~6.5. History of conviction for contract crime pursuant to Section 337.165, Florida Statutes, and Rule 14-75.0071, F.A.C., by the applicant or its affiliate, including reapplication or reinstatement under Rule 14-75.0071.~~

~~7.6. Employment of, or otherwise providing compensation to, any employee or officer of the Department.~~

~~8.7. Willfully offering an employee or officer of the Department any pecuniary or other benefit with the intent to influence the employee or officer's official action or judgment.~~

~~(d) Factors which the Department shall consider in determining consultant administrative qualifications shall include the above technical factors and the following:~~

9. An audit report prepared by an independent Certified Public Accountant or governmental agency. The audit report will be no more than six months old and will include the following:

~~a.1. A statement indicating the eExistence of an adequate accounting system that meets the Department's audit requirements, as evidenced by certification by an independent Certified Public Accountant or governmental agency. The system must be adequate to support all billings made to the Department and other clients. The requirement for having an accounting system meeting the Department's audit standards becomes effective at the beginning of each consultant's fiscal year which begins on or after July 1, 1997, for the following types of work: 20.1 Appraisal, 20.2 Appraisal Review, 22 Acquisition Business Damage Estimating and Review, 24 Acquisition Relocation Assistance, and 25 Right of Way Clearing and Leasing.~~

b. An overhead statement and overhead rate for the most recently completed fiscal year.

c. A statement that the consultant's method of estimating costs for proposals is consistent with the accounting system.

d. A statement that the audit was performed in accordance with the criteria required by the Department and applicable generally accepted governmental auditing standards. Criteria

will include compliance with the Department's *Overhead Audit Guidelines*, 2000, and the *Government Audit Guidelines*, Rev. July 1999, published by the U.S. Government Printing Office.

2. Submittal of an annual overhead audit for the most recently completed fiscal year performed by an independent Certified Public Accountant or governmental agency.

10. Consultants who have been in business for less than one complete fiscal year, consultants who have reorganized to the extent that the most recent overhead audit does not reflect a currently valid overhead rate, and consultants who have established and operated an accounting system in accordance with the minimum standards provided in the Department's *Overhead Audit Guidelines Auditing Standards*, 2000 1995, for a period of less than one year, will prepare a projected overhead rate which will be supported by estimated revenues and expenditures for the first fiscal year's operations since organization, reorganization, or implementation of the acceptable accounting system. The Department's Office of Inspector General Internal Audit Section shall review the estimate and establish a provisional combined overhead rate, which may be used in Department contracts until the firm has completed its first fiscal year of operation, at which time the firm shall submit an annual overhead audit performed by an independent Certified Public Accountant or governmental agency. The requirement for the submittal of an annual overhead audit becomes effective at the end of each consultant's fiscal year which begins on or after July 1, 1997, for the following types of work: 20.1 Appraisal, 20.2 Appraisal Review, 22 Acquisition Business Damage Estimating and Review, 24 Acquisition Relocation Assistance, 25 Right of Way Clearing and Leasing. For consultants qualifying solely in type of work 22 Acquisition Business Damage Estimating and Review, an overhead statement certified by a principal will be accepted in lieu of an independent audit.

a. The audit report shall include statements that the audit was performed in accordance with the criteria required by the Department and applicable generally accepted governmental auditing standards. Criteria shall include compliance with the Department's *Overhead Audit Guidelines*, 1995, and the *Government Auditing Standards*, 1994 [GAO/OCG 94-4] published by the U.S. General Accounting Office, which are incorporated herein by reference.

b. The audit report shall describe the consultant's estimating system and state whether estimates are prepared in accordance with the accounting system.

e. The Department reserves the right to perform overhead audits of any consultant under contract to, or desiring to do business with, the Department. These audits will be conducted consistent with the criteria outlined above.

11. Consultants requesting qualification for minor projects only, with contract fees under \$250,000, or consultants qualifying solely as certified public accountants, may submit a

self-certified overhead report and statement describing their accounting system, certified by a principal, in lieu of an audit report and accounting system certification prepared by an independent CPA or governmental agency. Such a report will be in a format prescribed by the Department. The requirements for an overhead audit and accounting system report will be waived for consultants requesting qualification for projects with contract fees under \$250,000 only, and who are individuals or sole proprietorships without employees.

12.3. Submittal of proof of professional liability insurance by one of the following methods:

a. Submittal of a current certificate of professional liability insurance from a company or companies authorized to do business in Florida; or an unequivocal commitment letter from such an insurance company stating that professional liability insurance would be provided to the applicant; or

b. Submittal of a commitment letter from a financial institution meeting the requirements of Section 337.106, Florida Statutes, stating that a nonassignable and nontransferable irrevocable letter of credit, established pursuant to Chapter 675 and Section 337.106, Florida Statutes, and Rule Chapter 14-116, F.A.C., can be provided to the applicant in a minimum amount of \$250,000.

4. Approval of the consultant's annual overhead audit, accounting system, and professional liability insurance in addition to all other technical and administrative requirements enables the consultant to contract with the Department in any amount. The Department may contract with a consultant lacking an approved overhead audit if:

a. The value of the contract is less than \$250,000;

b. The consultant can adequately document and support all proposed costs;

e. All other qualification requirements are met.

(d)(e) If the Department intends to deny the application, or deny qualification for any type of work, the Department shall state in writing and with particularity the grounds or reasons for the denial, and shall inform the applicant of the right to a hearing pursuant to Section 120.57, Florida Statutes. Notice of the Department's intended action will be provided in accordance with Rule 28-106.111, F.A.C. Delivery of the Notice of Intent to Deny shall be made by certified mail or express delivery, return receipt, to the address listed in the applicant's application for qualification. The Department's action will become final unless a timely petition for a hearing is filed in accordance with Rules 28-106.104, 28-106.201, and 28-106.301, F.A.C. In order to be timely, the petition must be filed with the Department's Clerk of Agency Proceedings within 21 days after receipt of the Department's notice, in accordance with Rule 28-106.111, F.A.C.

(5) Period of Validity of Qualification. Should the applicant be found to possess the prescribed qualification, the consultant will be randomly assigned an expiration date, by which qualification must be renewed annually. The Notice of

Qualification shall be valid for a period not to exceed 12 months from the date of issuance of the Notice of Qualification. The qualification anniversary date shall be within 180 days after the Consultant's Fiscal Year ends.

(6) Changes in Qualification Status.

(a) A consultant shall submit a revised application in the event a ~~significant~~ change in the status of its firm occurs; including a change of ownership, a change in the form of the business entity under which the firm operates, a substantial change in manpower which affects the firm's qualifications to perform any type of work, or any other change which ~~adversely~~ affects an element the Department considers under Rule 14-75.0022 when initially qualifying consultants. A revised application may be the basis for notice of agency action under Rule 14-75.0051.

(b) A consultant need not submit a revised application solely because of any change in the officers or the name of a corporation, but such information shall be certified to the Department within ten days of its occurrence.

(7) A consultant may apply for qualification up to three months prior to the expiration of an existing qualification. ~~Annual Renewals. To remain qualified, a consultant must apply for annual renewal between the 60th calendar day and the 30th calendar day prior to its qualification anniversary date. A complete application for qualification shall not be submitted unless changes as indicated in paragraph 14-75.0022(4)(a) have occurred. In lieu of a complete application for qualification, the consultant shall submit the following:~~

(a) A statement that the employees who were used to qualify the firm for the previous year are still employed by the firm;

(b) ~~A current overhead audit covering the consultant's most recently completed fiscal year. Such fiscal year shall have been closed not more than 150 calendar days prior to submission. The audit must be approved prior to renewal; and~~

(c) ~~Proof of current professional liability insurance (as described in paragraph 14-75.0022(2)(b)10.).~~

Specific Authority 287.055, 334.044(2), 337.105(H), 337.107, 337.1075 FS. Law Implemented 287.055, 337.167 FS. History--New 3-29-89, Amended 1-2-91, 9-29-92, 2-22-94, 8-5-96, 1-17-99.

14-75.003 Minimum Technical Qualification Standards by Type of Work.

The following criteria apply to the qualification of professional consultants:

(1) ~~Any corporation or limited partnership requesting qualification with the Department must be duly authorized to conduct business in the State of Florida and registered accordingly with the Secretary of State.~~

(2) ~~If the practice of work described by a type of work is governed by the Department of Business and Professional Regulation, the individual, firm, and employees thereof whose credentials are presented to establish qualification to perform such work on Department projects must be registered with the~~

governing board designated for the profession by the State and shall have all appropriate licenses and registrations required by Florida law.

(1)(3) No professional or key personnel may be listed as employees of more than one consultant currently qualified with the Department. If a newly listed employee has been employed by a consultant currently qualified with the Department, within the 12 months immediately preceding the application, the application must so indicate and provide the date that such employee was hired by the consultant. The employee shall be deleted from the personnel list of the previous employer's firm, and if such deletion affects the qualification status of the previous employer, notice shall be given to said previous employer pursuant to Rule 14-75.0051.

(2)(4) The Department shall not recognize joint ventures for purposes of ~~annually~~ qualifying consultants to ~~do~~ work for the Department. Each individual or firm will be annually qualified based upon individual or firm capability.

(3)(5) Appropriate type of work codes will be included in each public notice regarding needed professional services in the Florida Administrative Weekly. Persons or firms responding to such notices must be qualified with the Department in the advertised types of work, meet the minimum experience and personnel requirements listed herein unless otherwise specified in the notice. Subconsultants qualified with the Department may be used to meet these requirements, where appropriate, so long as the responding consultant is also qualified with the Department in some standard type of work.

(4)(6) All personnel listed by the consultant in order to qualify for any type of work or sub-category must be bona fide employees of the firm, or under exclusive contract to the firm, must be actively engaged in the type of work for which they are listed, and must have work experience ~~clearly~~ demonstrating an ability to perform the activities normally associated with the particular type of work or sub-category for which qualification is sought. The Department must be notified within 10 days of the departure from the firm of personnel used to prequalify the firm in any type of work.

(5)(7) ~~Qualification may be sought in any of the following categories or sub-categories:~~ A determination of qualification will be based on information submitted with the application, including résumés; verification of professional registration, certification, and degree requirements where appropriate; and a check of references as needed. Additionally, the Department may require the consultant to submit examples of recently completed work performed by the personnel listed in the application to qualify the applicant to perform the indicated activities. Qualification may be sought in any of the following categories or sub-categories:

(a) ~~Group 1. Reserved.~~

(a)(b) Group 2. Project Development and Environmental (PD&E) Studies.

1. Type of Work. This ~~type of work group~~ involves the study and evaluation of the social, economic, and environmental effects on the human and natural environment by transportation systems and alternate transportation modes in meeting identified community transportation and growth needs. Such work also includes the evaluation of alternate transportation corridors, and location/design alternatives within viable corridors. The work involves preparing engineering studies to address ~~the~~ economic and engineering feasibility of alternatives, level of service, traffic capacity, geometrics, soils, structures, intersection and interchange improvements, etc., to accommodate travel demand at an acceptable level of service. Additionally, the work entails the detailed study and preparation of environmental reports and documents which evaluate the physical, natural, social, cultural, economic, and human impacts of the alternatives under consideration upon the adjacent community. Public involvement and interagency coordination are integral parts of the assessment process. Potential mitigations identified based on the studies and public involvement are evaluated and incorporated into the alternatives as appropriate.

2. Qualification Requirements. Group 2: Project Development and Environmental (PD&E) Studies. This ~~type of work group~~ requires a professional engineer, registered with the Florida State Board of Professional Engineers, having a background or experience in civil engineering, including roadway design, proficiency in environmental engineering and experience ~~in or education in social, economic or environmental impact assessment of transportation projects, involving especially highway projects including experience with public involvement issues; a natural scientist person with a four-year university or college degree and experience in a natural science such as ecology, biology, environmental science, or wildlife management, or geology; and a social scientist person with a four-year university or college degree and experience in a social science such as psychology, sociology, statistics, political science, geography, urban planning demographics, archeology, or economics.~~

~~(b)(e)~~ Group 3. Highway Design – Roadway. This ~~type of work group involves is defined as the production and/or review of competently engineered highway plans, related design studies, creative utilization of roadsides, and the accommodation of utilities and utility crossings (where appropriate), which conform with acceptable design standards and which meet the specific requirements of the Florida Department of Transportation or the Federal Highway Administration. Due to the broad nature of this type of work, the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on the consultant's level of experience.~~

1. This group includes the following sub-categories of qualification:

~~a. Type of Work 3.1: 1. Group 3.1: Minor Highway Design. This type of work group includes roadway design for small and/or rural projects; repair, resurfacing, and rehabilitation projects which do not involve major reconstruction or substantial capacity improvements; and as well as associated activities, such as drainage, utility relocation, minor traffic operations improvements, miscellaneous minor design services, etc.~~

~~b. Type of Work 3.2: 2. Group 3.2: Major Highway Design. This type of work group includes roadway design for urban arterial highways with curb and gutter, including the design of enclosed drainage systems. This type of work may include utility relocation plans, stormwater permits, maintenance of traffic plans, traffic engineering applications, etc.~~

~~c. Type of Work 3.3: 3. Group 3.3: Complex Highway Design. This type of work group is applicable to expressways, limited access facilities, interchanges, and interstate highways. This type of work includes all types of new roadway and reconstruction work on complex projects, including the use of complex geometrics, substantial drainage evaluation and design features, traffic engineering applications, utility relocation plans, and maintenance of traffic plans, etc.~~

2.4. Qualification Requirements.

~~a. Type of Work 3.1: Group 3.1: Minor Highway Design. This type of work group requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having proficiency in civil engineering and demonstrated plans, production, and design experience in the activities normally associated with this category. Sufficient production staff to perform these activities must also be shown.~~

~~b. Types of Work 3.2 and 3.3: Groups 3.2 and 3.3: Major Highway Design and Complex Highway Design. These types of work groups require at least two professional engineers, registered with the Florida State Board of Professional Engineers, having proficiency in civil engineering and demonstrated plans, production, and design experience in the activities normally associated with the category. Sufficient production staff to perform these activities must also be shown.~~

~~(c)(d) Group 4. Highway Design – Bridges. This type of work group involves is defined as the production and/or review of competently engineered bridge plans which conform with acceptable design standards and which meet the specific requirements of the Florida Department of Transportation or the Federal Highway Administration. Due to the broad nature of this type of work the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on the consultant's level of experience. The intent is to assure that a proper level of professional involvement is available for the responsible, expeditious, and accurate development of bridge plans with minimal participation by Department personnel.~~

1. This group includes the following sub-categories of qualification:

a. ~~Type of Work 4.1: 1. Group 4.1: Minor Bridge Design.~~ This ~~type of work group~~ includes the design of conventional, non-complex bridges and the structural design of other highway-related structures such as non-standard concrete box culverts and retaining walls. Generally, this group is limited to designs utilizing conventional foundation types, simple geometry, and having total estimated bridge(s) plan area(s) no greater than 100,000 square feet (sum of the areas of multiple bridges). Typically, this includes design for the construction, rehabilitation, widening, or lengthening of box culverts, retaining walls, cast-in-place or precast prestressed short span slab type bridges, simple span prestressed concrete beam bridges, and simple span I-beam bridges. Generally, the following type of designs are included:

- a. ~~Box culverts.~~
- b. ~~Retaining walls.~~
- c. ~~Cast in place or precast prestressed short span slab type bridges.~~
- d. ~~Simple span prestressed concrete beam bridges.~~
- e. ~~Simple span steel I-beam bridges.~~
- f. ~~Rehabilitation, widening or lengthening of any of the above bridges.~~

b. ~~Type of Work 4.2: 2. Group 4.2: Major Bridge Design.~~ This ~~type of work group~~ includes the design of structures that cannot be included in Type of Work Group 4.1 because of deck area or complex geometry (curvature, skew, or variable width), complexity of design (including bridges with statically indeterminate superstructure components) spans estimated to be less than 300 feet, non-conventional substructures, substructures requiring ship impact design, and railroad bridges. Typically, this includes design for the construction, rehabilitation, widening, or lengthening of bridges over navigable waters, bridges carrying rail traffic, steel box girders, structurally-continuous superstructures, longitudinally post-tensioned concrete bridges, and curved girder bridges. Generally, the following type of designs are included:

- a. ~~Bridges over navigable waters.~~
- b. ~~Bridges carrying rail traffic.~~
- c. ~~Steel box girders.~~
- d. ~~Structurally-continuous superstructures.~~
- e. ~~Longitudinally post-tensioned concrete bridges.~~
- f. ~~Curved girder bridges.~~
- g. ~~Rehabilitation, widening or lengthening of any of the above bridges.~~

c. ~~Type of Work 4.3: 3. Group 4.3: Complex Bridge Design.~~ This ~~type of work group~~ includes the design of unique, specialized, and uncommon types of designs as determined by the Florida Department of Transportation. Typically, this includes design for the construction, rehabilitation, widening, or lengthening of bridges with estimated span(s) longer than

300 feet, tunnels, cable-stayed bridges, suspension bridges, steel truss spans, concrete arch bridges, and bridges requiring unique analytical methods or other design features not commonly addressed in AASHTO publications. Generally, the following type of designs are included:

- a. ~~Bridges with estimated span(s) longer than 300 feet.~~
- b. ~~Tunnels.~~
- c. ~~Cable-stayed bridges.~~
- d. ~~Suspension bridges.~~
- e. ~~Steel truss spans.~~
- f. ~~Concrete arch bridges.~~
- g. ~~Bridges requiring unique analytical methods or other design features not commonly addressed in AASHTO publications.~~
- h. ~~Rehabilitation, widening or lengthening of any of the above bridges.~~

d. ~~Type of Work 4.4: 4. Group 4.4: Movable Span Bridge Design.~~ This ~~type of work group~~ includes the design of bascule bridges and other movable bridges. The work includes all structural, electrical, and mechanical requirements. Typically, this includes design for the construction, rehabilitation, widening, or lengthening of bascule bridges, swing bridges, and vertical lift bridges. Generally, the following type of designs are included:

- a. ~~Bascule bridges.~~
- b. ~~Swing bridges.~~
- c. ~~Vertical lift bridges.~~
- d. ~~Rehabilitation or widening of any of the above bridges.~~

#### 2.5- Qualification Requirements.

a. ~~Type of Work 4.1: Group 4.1: Minor Bridge Design.~~ This type of work requires ~~The consultant must have~~ at least one professional engineer, registered with the Florida State Board of Professional Engineers, having a minimum of five years structural bridge design experience; and two structural design engineers/technicians having a minimum of three years each of bridge design experience; ~~and a sufficient number of experienced drafting/technical support staff.~~ The professional engineer shall be responsible for quality assurance of all the design services.

b. ~~Type of Work 4.2: Group 4.2: Major Bridge Design.~~ This type of work requires ~~The consultant must have~~ at least two professional engineers, registered with the Florida State Board of Professional Engineers, having a minimum of five years each of structural bridge design experience in continuous span bridges (steel plate girder and box girder), post-tensioned continuous concrete spans, and foundations subject to significant lateral loads; and three or more structural design engineers/technicians having a minimum of three years each of bridge design experience; ~~and a sufficient number of experienced drafting/technical support staff.~~ The professional

engineers shall be responsible for the quality assurance of all the design services. ~~A firm qualified to do this type of work is automatically qualified to do Minor Bridge Design.~~

~~c. Type of Work 4.3: Group 4.3: Complex Bridge Design. This type of work requires The consultant must have at least three professional engineers, registered with the Florida State Board of Professional Engineers, having a minimum of five years each of structural bridge design experience in categories as listed in Major Bridge Design, as well as spans estimated to be greater than 300 feet consisting of steel truss or arch, or steel or concrete cable-stayed and suspension type structures; and four or more structural design engineers/technicians having a minimum of three years each of bridge design experience, and a sufficient number of experienced drafting/technical support staff. The professional engineers shall be responsible for the quality assurance of all the design services. A firm qualified to do this type of work is automatically qualified to do Minor and Major Bridge Design.~~

~~d. Type of Work 4.4: Group 4.4: Movable Span Bridge Design. This type of work requires The consultant must have at least two professional engineers, registered with the Florida State Board of Professional Engineers, having a minimum of five years each of movable span bridge structural design experience; and also employ one or more professional engineers, registered with the Florida State Board of Professional Engineers, having appropriate experience in electrical power distribution; controls systems; hydraulic drive and control systems; and mechanical gearing, mechanism, and machinery.~~

~~(d)(e) Group 5. Bridge Inspection. This type of work group is defined as the on-site inspection, load rating, and preparation of bridge inspection reports in accordance with approved federal and state statutes, policies, guidelines, and standards. Due to the broad nature of this type of work, the Department has developed the following sub-categories. Consultants may be restricted to certain sub-categories based on the level of experience of their professional engineers, certified bridge inspectors and support personnel. Availability of required equipment will also be considered, along with level of experience in evaluating qualification.~~

~~1. This group includes the following sub-categories of qualification:~~

~~a. Type of Work 5.1: 1-Group 5.1: Conventional Bridge Inspection. This type of work sub-category includes inspection and load rating of all types of bridges except movable bridges, box girders, bulb-tees, suspension, cable stayed, post-tensioned segmental concrete, large steel trusses, high-rise structures, and other complex bridge structures.~~

~~b. Type of Work 5.2: 2-Group 5.2: Movable Bridge Inspection. This type of work sub-category includes inspection and load rating of all types of movable structures (vertical lift,~~

swing span, and bascule), utilizing specialty skills in inspection, load rating, and design of mechanical and electrical equipment.

~~c. Type of Work 5.3: 3-Group 5.3: Complex Bridge Inspection. This type of work sub-category includes inspection and load rating of all complex bridges except the movable bridges. Typical types of structures will include box girders, bulb-tees, suspension, cable stayed, post-tensioned segmental concrete, high-rise structures, and large steel trusses.~~

~~d. Type of Work 5.4: Bridge Load Rating. This type of work involves the process of determining the live load capacity of a structure.~~

~~2.4. Qualification Requirements. Types of work Groups 5.1, 5.2, 5.3, and 5.4: Bridge Inspection. This type of work requires The consultant must have at least one professional engineer registered with the Florida State Board of Professional Engineers, having experience appropriate to the sub-category requested. The consultant must also employ and list sufficient certified bridge inspectors, divers, and other technical personnel as required to perform the activities normally associated with each sub-category.~~

~~(e)(f) Group 6. Traffic Engineering and Operations Studies. This type of work group includes is defined as the performance of studies of existing traffic problems within an urban area; and the determination of the most effective way to improve traffic flow and safety through the application of traffic engineering techniques and other corrective measures. It includes street and signal inventories; intersection and crossing diagrams; highway lighting information at nighttime high accident locations; and analysis of accident reports, traffic counts, travel times, parking practices, and laws and ordinances affecting transportation. This type of work group is limited to generalized description and schematic layouts of the proposed improvements, including right of way requirements, and generally does not include the preparation of construction plans and the writing of specifications for traffic system projects. Due to the broad nature of this type of work the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on the consultant's level of experience.~~

~~1. This group includes the following sub-categories of qualification:~~

~~a. Type of Work 6.1: 1-Group 6.1: Traffic Engineering Studies. This type category of work is defined as the study of operational problems and the determination of traffic operational improvements for efficiency and safety. This work group includes studies for the following: signing, marking, and signal inventories; traffic counts; intersection and collision diagrams; signal warrant and intersection analysis; and travel time and delay studies. Many of the traffic engineering studies require knowledge and experience with traffic engineering computer programs such as SOAP, PASSER, and TRANSYT.~~

This type of work group requires the consultant to make specific recommendations to improve the operational efficiency at a particular location.

b. Type of Work 6.2: ~~2-Group 6.2:~~ Traffic Signal Timing.

This type category of work is defined as the timing of traffic signals to improve traffic flow and safety. Department approved traffic engineering computerized timing programs shall be used. This type of work includes data collection, intersection analysis and documentation, section analysis and documentation, timing implementation and fine tuning, and timing evaluation.

c. Type of Work 6.3: ~~3-Group 6.3:~~ Intelligent Transportation Traffic Control Systems Analysis, Design, and Implementation. This type category of work is defined as the use of electrical engineering, electronics engineering, computer science, and traffic engineering to analyze, design, and implement real-time intelligent transportation traffic control systems. This includes system performance and cost analysis, system hardware and software design, development of management plans, system installation and operation, system testing and debugging, system documentation, and the training of operations personnel.

2.4- Qualification Requirements.

a. Type of Work 6.1: ~~Group 6.1:~~ Traffic Engineering Studies. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated traffic studies experience.

b. Type of Work 6.2: ~~Group 6.2:~~ Traffic Signal Timing. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated traffic signal timing experience in the application and interpretation of traffic flow and signal timing models. ~~The consultant also must employ and list sufficient personnel having experience using traffic engineering software applications, loading timings into field equipment, and loading databases into central computers for retiming.~~

c. Type of Work 6.3: ~~Group 6.3:~~ Intelligent Transportation Traffic Control Systems Analysis, Design and Implementation. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated experience in activities associated with intelligent transportation traffic control systems. Restrictions to the type of intelligent transportation traffic control systems work may apply depending on the consultant's demonstrated proficiency or documented experience in one or more of the following defined technical skill areas:

(I) Intelligent Transportation Traffic Systems Analysis and Design. This type of work requires ~~Engineering/Technical staff with~~ experience in the production of competently engineered design, and preparation of construction plans and specifications for traffic control systems, freeway operations systems, dynamic message sign systems, closed circuit television camera systems, detection systems, and automatic

vehicle identification systems work. The consultant must also demonstrate experience with traffic engineering software applications, freeway control software, and ~~with~~ computerized timing programs.

(II) Intelligent Transportation Traffic Engineering Systems Implementation. This type of work requires ~~Engineering/Technical staff having~~ documented experience with realtime traffic control systems, system installation and testing, and knowledge of Construction Engineering Inspection (CEI) requirements for intelligent transportation signal construction projects.

(III) Intelligent Transportation Traffic Engineering Systems Communications. This type of work requires ~~Engineering/Technical staff with~~ documented experience proficiency in electronic engineering of system hardware, digital system design, specifications, and utilization. The applicant must show experience in electrical engineering of power and communications, including power distribution, standby power supply, lightning protection, hardware interconnect, fiber optic networks, wireless communications networks, local area networks, wide area networks, Internet communications, data recording, data transmission, modulating, and multiplexing techniques.

(IV) Intelligent Transportation Traffic Engineering Systems Software Development. This type of work requires documented experience in software development, specifically with intelligent transportation systems traffic engineering applications, and computer science (realtime process control software systems, including realtime executive I/O processing and priority interrupt based processing). The applicant must also show experience with system software testing and debugging, data base software, graphical user interfaces, system documentation, and training of operations personnel.

(f)(g) Group 7. Traffic Operations Design. This type of work group is defined as the production of competently engineered designs, and preparation of construction plans and/or specifications for a variety of traffic operations type work. ~~Due to the broad nature of this type of work the Department has developed the following sub categories. Applicants may be qualified only in certain of these sub categories based on the applicant's level of experience.~~

a. Type of Work 7.1: ~~1-Group 7.1:~~ Signing, Pavement Marking, and Channelization. This type of work includes designing, preparing construction plans, and writing specifications for signing, pavement marking, and channelization. Such work involves structural support and foundation calculations, and requires a basic knowledge of traffic engineering studies.

b. Type of Work 7.2: ~~2-Group 7.2:~~ Lighting. This type of work includes designing, preparing construction plans, and writing specifications for roadway lighting improvements. Such work involves lighting calculations, ~~and~~ pole location,

foundation design, electrical circuit calculations, power supply and power distribution, and requires a basic knowledge of traffic engineering studies.

c. Type of Work 7.3: ~~Group 7.3:~~ Signalization. This type of work includes designing, preparing construction plans, and writing specifications for traffic signalization. Such work involves capacity calculations, signal operating plan development, timing calculations, equipment location, pole and foundation designs, etc., and requires a basic knowledge of traffic engineering studies and traffic signal retiming.

#### 2.4. Qualification Requirements.

a. Type of Work 7.1: ~~Group 7.1:~~ Signing, Pavement Marking, and Channelization. This type of work requires a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated experience in this category of work.

b. Type of Work 7.2: ~~Group 7.2:~~ Lighting. This type of work requires the consultant to demonstrate experience in the areas of illumination and electrical engineering, as well as to employ a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated lighting plans design and production experience.

c. Type of Work 7.3: ~~Group 7.3:~~ Signalization. This type of work requires the consultant to demonstrate experience in the area of electrical engineering, as well as to employ a professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated experience in the design and production of traffic signalization plans.

(g)(h) Group 8. Surveying and Mapping Surveys. This type of work group includes land and boundary surveying and mapping, as defined in Rule Chapter 61G17-6, F.A.C., other types of surveys required for the land acquisition, design, and construction of transportation engineering projects.

1. This group includes the following sub-categories of qualification:

a. Type of Work 8.1: Control Surveying. This type of work provides horizontal and/or vertical data to a specified standard for all Department projects.

b. Type of Work 8.2: Design, Right of Way, and Construction Surveying. This type of work includes boundary surveys, right of way surveys, as-built surveys, construction layout surveys, topographic surveys, hydrographic surveys, quantity surveys, record surveys, mean high water line surveys, and special purpose surveys.

c. Type of Work 8.3: Photogrammetric Mapping. This type of work includes surveys and the preparation of maps using photogrammetric methods.

d. Type of Work 8.4: Right of Way Mapping. This type of work includes the production of right of way related maps, as well as the preparation of legal descriptions and sketches of legal descriptions based on information supported by the applicable surveys or maps defined in the preceding types of work, title searches, and other documents.

2. Qualification Requirements: To qualify to perform surveying and mapping services as defined above, the consultant must employ at least one professional surveyor and mapper, registered with the Florida Board of Professional Surveyors and Mappers, having at least one year of documented post registration experience in the specific type of work for which qualification is requested. The consultant must also employ at least two additional technical personnel, each having at least one year of documented experience in the specific type of work for which qualification is requested. In addition, the consultant must submit a written statement of intent to use equipment and software meeting the accuracy, formatting, and other requirements defined in Department policies, procedures, manuals, or handbooks, related to the type(s) of work for which qualification is sought.

1. Group 8.1: Land and Right of Way Survey. This type of work includes determining the perimeter of a parcel or tract of land by establishing or reestablishing corners, monuments, and boundary lines for the purpose of describing; locating fixed improvements; platting or subdividing a parcel; and surveying of a strip or area of land used or proposed to be used for the construction and maintenance of a transportation facility.

2. Group 8.2: Design survey. This type of work includes preparing control surveys providing horizontal or vertical position data for the support or control of subordinate surveys or for mapping; construction layout surveys for measurements to control elevation, horizontal position and dimensions and configuration prior to or while construction is in progress; topographic surveys of the natural and selected man-made features of a part of the earth's surface by remote sensing and/or ground measurements to determine horizontal and vertical spacial relations of tracts of land; or hydrographic surveys to determine data relating to bodies of water which may consist of the determination of depth of water and configuration of the bottom at particular points; directions and force of current; heights, times and water stages; and location of fixed objects for survey and navigation purposes.

3. Qualification Requirements. Groups 8.1 and 8.2: Surveys. This group requires at least one land surveyor, registered with the Florida State Board of Land Surveyors, having at least one year of land surveying experience acting in responsible charge. The consultant must employ and list sufficient staff to undertake the requirements normally associated with this type of work, and must document the availability of proper equipment to perform this work.

(h)(i) Group 9. Soil Exploration, Material Testing, and Foundations. Due to the broad nature of this type of work, the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on their level of experience and ability to provide required equipment.

1. This group includes the following sub-categories of qualification:

a. Type of Work 9.1: 1. Group 9.1: Soil Exploration. This type of work includes acquisition and reporting of subsurface material, hydrological, and environmental information to be used for the planning, design, construction, and performance of transportation facilities. The methodology involved includes on-site investigations by performing borings, Standard Penetration tests, Cone Penetration tests, and rock coring; the use of specialized test equipment, such as the field vane, pressuremeter, or dilatometer; and the use of geophysical methods. Also included is the field classification of materials and acquisition of soil and rock samples.

b. Type of Work 9.2: 2. Group 9.2: Geotechnical Classification Lab Exploration Testing. This type of work includes conducting tests on soil and rock according to Department approved specifications for the purpose of classifying materials and identifying their physical properties. The methodology involved includes testing moisture content, grain size, Atterberg limits, compaction, and Limerock Bearing Ratio (LBR) tests permeability, consolidation, unconfined compression, direct shear, and triaxial.

c. Type of Work 9.3: 3. Group 9.3: Highway Materials Testing. This type of work includes sampling and testing various materials and reporting results and recommendations. Work will be performed at mines, quarries, mills, refineries, processors, producers, fabricators, constructors, laboratories, and project construction sites; some of which will be outside the State of Florida. Materials to be tested include, but are not limited to, aggregates; concrete products; cements and additives, including water, epoxies, and curing compounds; bituminous materials, mixtures, additives, and joint fillers; metals; galvanizing, rubber, paints, and other coatings; and soils and limerock.

d. Type of Work 9.4: 4. Group 9.4: Foundation Studies. This type of work includes producing reports which include selection of the type (footings, piles, drilled shafts, etc.) and depth of foundation for bridges and other structures; bearing capacity and the predicted settlement of the selected foundation; slope stability; surcharge or stage construction time schedules for construction over soft ground; pile load tests; soil treatment; stabilization; and direction of field instrumentation installation, including the interpretation of data obtained and other foundation studies using the applicable FDOT Standard Specifications for Road and Bridge Construction, FDOT Soils and Foundation Manual procedures, and Federal Highway Administration guidelines and checklist.

e. Type of Work 9.5: Geotechnical Specialty Lab Testing. This type of work includes conducting tests on soil and rock according to Department approved specifications for the purpose of identifying their physical properties. The methodology involved includes testing permeability, consolidation, unconfined compression, direct shear, splitting tensile, and triaxial.

2.5. Qualification Requirements. a. For all sub-categories this work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having demonstrated experience in the activities normally associated with the category(ies) under consideration.

a. Type of Work 9.1: b. Group 9.1: Soil Exploration. The consultant must document the availability of equipment (in-house or subcontracted) necessary to perform the work. Documentation of availability includes equipment listings for explorations subcontractors who will be used on Department DOT projects. It should be noted that the qualified consultant shall be solely responsible for any and all explorations work, whether performed by the consultant or its his subcontractor.

b. Type of Work 9.2: e. Group 9.2: Geotechnical Classification Lab Exploration Testing. The consultant must have at least one technician with a minimum of two years of experience in geotechnical testing and LBR Technician qualification under the Department's Construction Training Qualification Program (in-house) the equipment and qualified staff necessary to perform the work.

c. Type of Work 9.3: d. Group 9.3: Highway Materials Testing. Among the consultant's personnel, at least one individual The consultant must possess have (in-house) the equipment and qualified, certified staff necessary to perform the work. Certification requirements include at least one FDOT Limerock Bearing Ratio (LBR) Technician qualification certification, one individual must possess FDOT Asphalt Plant Level I qualification Technician certification, one individual must possess Concrete Field testing Technician Level I qualification under the Department's Construction Training Qualification Program American Concrete Institute (ACI) concrete testing certification, and one individual must possess nuclear gauge operator certification as provided by a gauge manufacturer. In addition, the consultant must have (in-house) at least the following test equipment: oven, balances, sieves, mechanical shaker, colorimetric kit, compression testing machine, moisture curing room or tanks, slump cone, air meters, gravity apparatus, thermometers, pycnometer, pulverizing apparatus, jaw crusher apparatus, splitter or quartering device, Los Angeles machine, flowmeter, water bath, vacuum extractor, muffle furnace, compaction hammer, molds LBR loading devices with penetration piston, soak tanks, superpave gyatory apparatus, and ignition furnace. Procedures for certification of FDOT Limerock Bearing Ratio Technicians are provided in FDOT Limerock Bearing Ratio Technician Certification Study Guide, 1986, and procedures for certification of FDOT Asphalt Plant Technicians are provided in the FDOT Asphalt Technician Manual, 1992. These two manuals are hereby incorporated by reference herein.

e. Type of Work 9.5: Geotechnical Specialty Lab Testing. The consultant must have at least one staff member with at least four years of experience performing the tests, or an

equivalent bachelor's degree. In addition, the consultant must have (in-house) at least the following test equipment: oven, balances, permeameter, consolidation load device, load frame, direct shear machine, triaxial panel, and a triaxial cell.

~~(i)(4)~~ Group 10. Construction Engineering Inspection. This type of work group involves the monitoring and inspection of the work required under various construction contracts. This type of work includes coordinating with other public agencies, utilities, and affected property owners. ~~A registered professional engineer is required to act in the capacity of resident engineer under the supervision of a representative of the Department. Other technical support personnel will be required as necessary depending on the nature, extent and complexity of the work under contract. Due to the nature of this type of work, the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on their level of professional experience and the number of experienced technical support personnel.~~

a. Type of Work 10.1: ~~1. Group 10.1:~~ Roadway Construction Engineering Inspection. This type of work includes the administration and inspection of single or multiple construction contracts on rural, municipal, urban, and interstate facilities; including necessary minor bridges as defined in Type of Work 3.1 ~~Group 4.1.~~

b. Type of Work 10.2: ~~2. Group 10.2:~~ Major Bridge Construction Engineering Inspection. This type of work includes the administration and inspection of single or multiple construction contracts involving the construction of major bridges as defined in Types of Work Groups 4.2, 4.3, and 4.4.

c. Type of Work 10.3: ~~3. Group 10.3:~~ Construction Materials Inspection. This type of work includes conducting inspections and investigations of various highway materials or products, together with the proper recording, analysis, and reporting of results and recommendations. The work will be performed at mines, quarries, mills, refineries, processors, producers, fabricators, constructors, and project construction sites; some of which will be outside the State of Florida.

#### 2.4. Qualification Requirements.

a. Type of Work 10.1: ~~Group 10.1:~~ Roadway Construction Engineering Inspection. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having at least two years of responsible charge experience as a project engineer on a roadway construction inspection project.

b. Type of Work 10.2: ~~Group 10.2:~~ Major Bridge Construction Engineering Inspection. This type of work requires a minimum of three professional engineers, registered with the Florida State Board of Professional Engineers. One of these engineers must have at least five years demonstrated major bridge construction inspection experience.

c. Type of Work 10.3: ~~Group 10.3:~~ Construction Materials Inspection. This type of work requires a minimum of one professional engineer, registered with the Florida State Board of Professional Engineers, having at least three years of responsible experience in bridge or roadway construction inspection.

~~(i)(4)~~ Group 11. ~~41:~~ Engineering Contract Administration and Management.

1. Type of Work: ~~Group 11:~~ Engineering Contract Administration and Management. This type of work is defined as the administration and management of engineering activities. Consultants applying for qualification in this type of work must be determined qualified in a number of categories under this rule chapter. Examples of assignments made to a consultant qualified for this type of work are:

a. Engineering analysis of transportation facility deficiencies; and the preparation of an engineering scope of services and manhour estimate to correct those deficiencies.

b. Project schedule development for planning, environmental, design, and construction engineering inspection activities.

c. Review and analysis of professional engineering issues contained in statements of qualification and technical proposals submitted by consultants competing for professional contracts.

d. ~~Conducting~~ Scope of Service meetings with professional consultants.

e. Preparation of contractual agreements for professional services in accordance with Department policies and procedures.

f. Supervision and management of engineering consultants on individual projects, responding to their technical questions, and reviewing their work in progress and completed work.

g. Representing the Department during professional service negotiations with consultants, utilities, and other entities.

h. Other professional engineering activities associated with the acquisition and management of professional consulting services.

2. Qualification Requirements. ~~Group 11:~~ Engineering Contract Administration and Management. To be determined qualified for this type of work, a consultant must be qualified by the Department in the following Groups and Types of Work under this rule chapter: Group 3, Types of Work Groups 4.1, and 4.2, and Group 6.1, Group 7, and Type of Work Group 10.1. Firms ~~deemed determined~~ qualified in these groups and requesting qualification for Group 11 will be ~~deemed determined~~ qualified without a requirement to submit additional qualification documentation or materials.

(l) ~~Group 12. Right of Way Surveying and Mapping. Due to the nature of this work, the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on the level of their experience and availability of personnel.~~

~~1. Group 12.1: Right of Way Map Preparation. This type of work includes the production of competently prepared right of way maps which must conform to Rule Chapter 61G17-6, F.A.C., pursuant to Section 472.027, Florida Statutes. Included in this type of work is the alignment of the proposed facility, sectional ties, depiction of the parent tract, identification of property ownership lines, complete parcel definition by distances and bearings, parcel identification numbers and tabulation of areas including those required for the facility and the remainder.~~

~~2. Group 12.2: Legal Description Preparation. This type of work includes the production of competently prepared legal descriptions based upon right of way maps information. Descriptions must conform to Rule Chapter 61G17-6, FAC., pursuant to Section 472.027, Florida Statutes.~~

~~3. Qualification Requirements for Groups 12.1 and 12.2: Right of Way Surveying and Mapping. These Groups require at least one professional land surveyor, registered with the Florida State Board of Land Surveyors and a minimum of two technical personnel, all having demonstrated experience in the applicable category of work.~~

~~(k)(m) Group 13. Planning. This type of work group involves is defined as the determination of future actions necessary to address the need for transportation facilities and services. The work effort may involve planning both short range (up to 10 years) and long range (more than 10 years) time periods, and may involve any or all typical activities of planning, including but not limited to development and refinement of processes and procedures; development and analysis of policies, goals, and objectives; data collection and analysis; issue analysis; development and use of forecasting and other models; analysis of transportation/land use relationships; assessing the impact that planning transportation improvements may have on private property; establishment of standards and performance criteria; forecasts of transportation and transportation – related data; determination and analysis of alternatives; multimodal/intermodal tradeoff analysis; analysis of alternatives; multimodal/intermodal tradeoff analysis; development of recommended plans and courses of action; financial feasibility; assessment of the impacts of growth management requirements on transportation; and public participation and coordination with other planning processes and plans. Due to the nature of the type of work, the Department has developed the following sub-categories. Consultants may be restricted to certain of these sub-categories based on their level of experience.~~

~~1. This group includes the following subcategories of qualification:~~

~~a.1. Type of Work Group 13.1: Reserved.~~

~~b.2. Type of Work Group 13.2: Reserved.~~

~~c.3. Type of Work Group 13.3: Policy Planning. This type of work involves deals with transportation and transportation – related planning activities in the broadest or most general way. Included in this sub-category are development and refinement of statewide transportation plans or plan components, and activities involving the impacts and implications of policies, legislative legislation issues, processes, and standards on a wide variety of subjects, including: transportation facilities and services; land use; the environment; the private sector; and the public. Planning in this sub-category usually occurs at levels where difficult trade-offs in the use and allocation of resources must be made and where many people will be affected in important but often subtle ways. Hence, the ability to use judgement, both political and technical/professional, is very important, as is the ability to effectively communicate using a variety of media.~~

~~d.4. Type of Work Group 13.4: Systems Planning. This type of work deals with planning for entire systems (one or several modes) of transportation covering an entire geographic area. Included in this sub-category are activities involving the systematic analysis of future demand for transportation facilities and services, leading to recommendations for addressing that demand. Typical activities include: data collection and analysis, including analysis of transportation/land use relationships; estimation, forecasting, and assignment of travel demand, including modeling the characteristics and use of transportation systems; mode split and multimodal tradeoff analysis; impact analysis; evaluation and decision making; cost analysis and financial feasibility; and modal coordination and management. Although recommendations as to the type, number, and approximate location of transportation facilities are to be made, this sub-category does not include determination of the precise location or design of facilities or systems.~~

~~e.5. Type of Work Group 13.5: Subarea/Corridor Planning. This type of work deals with planning for entire or portions of systems (one or several modes) of transportation covering a portion of a geographic area. Included in this sub-category are activities involving the systematic analysis of future demand for transportation facilities and services, leading to recommendations for addressing that demand. Typical activities, usually performed at a more detailed level than with systems planning, include data collection and analysis, as well as including: analysis of transportation/land use relationships; estimation, forecasting, and assignment of travel demand, including modeling the characteristics and use of transportation systems; mode split and multimodal tradeoff analysis; impact analysis; evaluation and decision making; cost analysis; and financial feasibility; and modal coordination and management. Although recommendations as to the type, number, and approximate location of transportation facilities~~

are to be made, this sub-category does not include determination of the precise location or design of facilities or systems.

~~f.6. Type of Work Group~~ 13.6: Land Planning/Engineering. This work involves planning and engineering in support of assessing the impacts that proposed transportation improvements may have on private property. Included in this sub-category are activities involving site analysis for compliance with comprehensive plans, local ordinances, and appraisers' cost to cure; ~~reviewing- Review~~ and ~~providing provide~~ engineering opinions of site plans for feasibility and conformance with applicable codes and regulations; ~~assessing- Assess~~ the impact to drainage and environment; and ~~preparing Prepare~~ site plan and studies which may encompass parking layout, vehicle use areas, and general site consideration in conformance with applicable codes, laws, and regulations.

~~g. Type of Work~~ 13.7: Transportation Statistics. This type of work involves data collection, analysis, editing, processing, and reporting to support planning, design, and maintenance of the transportation network. This type of work also involves the construction, replacement, or repair of traffic monitoring equipment including sensors (either installed in, or along the roadway) and associated equipment and appurtenances. The construction of traffic monitoring sites may include design, preparing construction plans, writing specifications, and construction engineering supervision. Special traffic counts may also be performed under this activity to support production and development activities and special needs.

#### ~~2.7. Qualification Requirements~~

a. ~~Type of Work Group~~ 13.1: Reserved.

b. ~~Type of Work Group~~ 13.2: Reserved.

c. ~~Type of Work Group~~ 13.3: Policy Planning. This type of work requires at least one professional engineer, registered with the Florida State Board of Professional Engineers, having training and experience in areas directly related to policy planning; or at least one professional engineer, registered with the Florida State Board of Professional Engineers, with at least one employed planner having training and experience in areas directly related to policy planning; or at least one planner, certified with the American Institute of Certified Planners, having training and experience in areas directly related to policy planning.

d. ~~Type of Work Group~~ 13.4: Systems Planning. #### 14-75.004 Consultant Competitive Selection Process.

Selection of professional consultants by the Department shall be in accordance with the provisions enumerated below.

##### (1) Notice.

(a) Except when there is a public emergency certified by the Secretary of Transportation, the Department shall provide notice whenever it requires professional services for a project, the basic construction cost of which is estimated by the Department to be more than the threshold amount in Section 287.017, Florida Statutes, for category five or when the fee for professional services for a fixed capital outlay study or planning activity exceeds the threshold amount provided in Section 287.017, Florida Statutes, for category two. The Department will provide the foregoing notice at its Internet address (<http://www.dot.state.fl.us/>) and, until March 1, 1998, will also publish the foregoing notice in the *Florida Administrative Weekly*. A project may include the following:

1. Professional services associated with a specifically identified project. A grouping of minor professional service assignments specifically identified in the project advertisement, each assignment of \$150,000 or less, with a maximum contract price of \$750,000; or a grouping of construction engineering inspection assignments specifically identified in the project advertisement, each assignment of \$250,000 or less, with a maximum contract price of \$1,000,000.

2. A grouping of professional service assignments for substantially similar activities where the grouping of assignments provides advantage to the Department because of the geographic proximity of the existing or proposed transportation facilities involved, or use of shared resources for multiple projects, or to allow multiple use of a single design concept. A districtwide or statewide miscellaneous minor professional service contract for a specified period of time, initially not to exceed two years, with a maximum contract price of \$750,000, in which individual minor project assignments, of no more than \$150,000 each, may be given for professional services as needed for work assignments required on a priority basis because of work program deadlines, work program schedule changes, or the necessity of complementary professional services to assist Department forces concurrently involved in other professional service assignments; or because project schedules or deadlines make it impractical to advertise the work assignment. The contract may allow extensions of the contract time if the original contract time expires and the maximum contract amount has not been reached. However, the total contract time, including all extensions, shall not exceed five years. The contract shall not be renewed, nor shall the maximum contract amount be increased over \$750,000. Projects shall not be divided for the purpose of circumventing the dollar limit on assignments.

3. Miscellaneous minor professional services, performed on a task assignment basis. The total contract fee may not exceed \$1,500,000 and individual assignments may not exceed \$300,000. However, these limits may be exceeded with unplanned cost increases. A districtwide or statewide miscellaneous minor construction engineering inspection contract for a specified period of time, initially not to exceed two years, with a maximum contract price of \$1,000,000, in which individual minor project assignments, of no more than \$250,000 each, may be given for professional services as needed for work assignments required on a priority basis because of work program deadlines, work program schedule changes, or the necessity of complementary professional services to assist Department forces concurrently involved in other professional service assignments; or because project schedules or deadlines make it impractical to advertise the work assignment. The contract may allow extensions of the contract time if the original contract time expires and the maximum contract amount has not been reached. However, the total contract time, including all extensions, shall not exceed

five years. The contract may not be renewed, nor shall the maximum contract amount be increased over \$1,000,000. Projects shall not be divided for the purpose of circumventing the dollar limit on assignments.

4. A grouping of specifically identified major professional service assignments for substantially similar construction, rehabilitation, or renovation activities with a maximum contract price of \$3,000,000; where the grouping of assignments provides economic advantage to the Department because of the geographic proximity of the existing or proposed transportation facilities involved, or allows simultaneous use of shared manpower on multiple assignments by the consultant, or maximizes the simultaneous use on multiple assignments of the consultant's available offices or field facilities, or to allow multiple use of a single design concept. The maximum contract price of \$3,000,000 may be exceeded with prior written approval of the Secretary of the Department of Transportation when two or more of the above criteria are met and it is economically advantageous or otherwise serves the best interests of the Department.

4.5. Professional services of a general consultant, which include the administration, support, and management of engineering, architectural, surveying, planning, or right of way acquisition and appraisal activities. These activities may involve a number of different projects in the work program. The contract time; shall not exceed five years, unless extended to complete assignments previously authorized.

6. Professional services provided to the Department on a continuing basis with no time limitation except that the contract shall provide a termination clause. Continuing contracts for professional services shall be restricted in use to services for projects which construction costs do not exceed \$500,000 each, or for each study activity when the fee for such professional service does not exceed \$25,000, or for work of a specified nature as outlined in the contract.

(b) The notice shall contain time frames for submittal of a letter of response, a general description of the project, including where a detailed description may be obtained, the Department DOT district and county where the project is located, a list of the major types of work, an indication as to whether the project is considered a minor project for qualification purposes, for which prequalification is required, and a description of the means by which interested consultants can apply for consideration. Projects that do not conform to the prequalified types of work shall be advertised requesting any interested consultant to submit a Letter of Qualification. The qualifications required to be shown in a Letter of Qualification shall be determined by the Department and listed in the Advertisement. Consultants responding to Letter of Qualification advertisements for such non-standard types of work do not need to possess previous qualification be prequalified.

(2) Response to Advertisement and Selection.

(a) Professional consultants who desire work with the Department shall timely submit a maximum of a two page letter of response, or a letter of qualification, to the Department whenever they feel qualified to perform projects for which notice has been provided in accordance with subsection (1)(a). To be considered for selection, the letter of response or letter of qualification must be received by the date specified in the advertisement and will include a list of all affiliates as defined in Section 337.165(1)(a), Florida Statutes. Only one letter of response/qualification will be considered from any consultant firm.

(b) After receipt of a letter of response, or letter of qualification, the Department shall review the submittal and verify that the consultant(s) possesses current qualification with the Department is prequalified or qualified to perform the major type(s) of work specified in the advertisement. In order to be considered for selection, any consultant which does is not possess current qualification prequalified to perform the major type(s) of work specified in the advertisement shall submit a complete Request for Qualification Package, technical and administrative application including the required overhead audit (if applicable), for prequalification on or before the date letters of response are due. A prequalified consultant may use another consultant to meet the requirements of the major type(s) of work for which it is not currently prequalified. However, the qualification status of the consultant will be valid for that project only. The consultant will be required to resubmit the necessary application for qualifications for subsequent projects in that type of work. The Department will not be obligated to delay any part of the consultant selection process or the execution of a contract for a consultant who has not been qualified for the major types of work or who cannot provide the required documentation prior to the process of final selection.

(c) If fewer than three consultants respond to the advertisement, the Department shall readvertise, or alternatively shall review its list of firms prequalified for the major type(s) of work advertised, and select no fewer than ten prequalified firms (or all prequalified firms if fewer than 10 are prequalified) deemed to be the most highly qualified, based on qualification data on file, DBE/MBE status, past performance grades, location, and volume of work previously awarded. The Department shall then contact each of the listed consultants and conduct similar discussions concerning the project, until it has at least three consultants interested in the project.

(d)(e) When the fee for professional services is less than the threshold amount provided in Section 287.017, Florida Statutes, for category two, or when the Department's estimated basic construction cost is less than the threshold amount provided by Section 287.017, Florida Statutes, for category five, the Department may request, review, and approve certify

in writing to the file the technical qualifications of the selected consultant if the consultant is not currently prequalified in the requested type of work.

(c) Selection of consultants will be in accordance with Section 287.055, Florida Statutes.

(3) Selection.

(a) The following procedures shall be utilized by the Department in the procurement of professional services:

1. Regarding the proposed project, the Department shall evaluate the letter of response or letter of qualification received from each consultant along with such factors as qualifications data on file, whether the firm is certified or utilizes other consultants certified by the Department as a Disadvantaged Business Enterprise (DBE) pursuant to Rule Chapter 14-78, Florida Administrative Code, and 14 C.F.R., Part 23, or by the Minority Business Advocacy and Assistance Office as a Minority Business Enterprise (MBE), past performance grades on file, consultant location, volume of work previously awarded by the Department and distribution of work among qualified consultants. The Department shall select no fewer than three consultants and shall then conduct discussions with these three consultants, and may require technical proposals and public presentations regarding their qualifications, approach to the project, availability of adequate personnel, and ability to timely furnish the required service. If fewer than three consultants respond to the advertisement, the Department shall readvertise, or alternatively shall review its list of firms prequalified for the major type(s) of work advertised, and select no fewer than ten prequalified firms (or all prequalified firms if fewer than 10 are prequalified) deemed to be the most highly qualified, based on qualification data on file, DBE/MBE status, past performance grades, location and volume of work previously awarded. The Department shall then contact each of the listed consultants and conduct similar discussions concerning the project, until it has at least three consultants interested in the project.

2. The Department shall rank, in order of preference, no fewer than three consultants deemed to be most highly qualified to perform the required services after considering such factors as the technical proposal, technical plan (including, wherever appropriate, submission of estimated hours required in sufficient detail to ensure the consultant understands the scope of services); overall management procedures, including quality control plan and resource allocation; commitment to meet time and budget requirements; location; recent, current, and projected workloads of the firms; and certification as a DBE or MBE. The Department strives for an equitable distribution of contracts among qualified firms; provided such distribution does not violate the principle of selection of the most highly qualified firms. The Department shall provide notice of the results of the Department's selection in accordance with subsection (1)(a).

3. The Department shall initiate negotiations with the number one ranked consultant. The negotiation shall include consideration of the scope and complexity of services required. The parties shall negotiate a price that the Department determines is fair, competitive, and reasonable for the services to be performed. In making such determination, the Department shall conduct a detailed analysis of the estimated number of hours by job classification to be expended on the project, direct labor rates, overhead rate, operating margin, expenses and any other costs directly attributable to the project, as detailed in an audit package and fee proposal furnished by the consultant at the request of the Department and according to its instructions.

4. Should the Department be unable to negotiate a satisfactory contract with the consultant at a price the Department determines to be fair, competitive, and reasonable; negotiations with that firm shall be formally terminated. The Department shall then undertake negotiations with the next ranked firm.

5. Should the Department be unable to negotiate a satisfactory contract with any of the initially selected firms, the Department shall either select additional firms from the letters of response or letters of qualification in order of their competence and qualification and continue negotiations in accordance with this subsection until an agreement is reached or initiate a new selection process in accordance with these rules.

6. Prior to execution of a contract by both parties, the consultant shall submit a certificate of insurance which evidences professional liability insurance coverage, or submit an irrevocable letter of credit established pursuant to Chapter 675 and Section 337.106, Florida Statutes. The submission must establish coverage in the amounts required by the contract.

7. The Department may enter into Supplemental Agreement(s) during the term of the contract to add additional services, costs or time, if the intent of the original contract is not changed.

8. If, during the term of the contract, the Consultant or Department must terminate the contract for any reason, the Department shall determine whether the rankings from the original selection process, taken as a whole, still have validity with respect to the unfinished work, and if so shall begin negotiations to complete the remaining services with the next ranked consultant and continue to proceed as though the original selection process had not been interrupted; except that if the Department determines that any previously ranked consultant's qualifications or other selection factors as noted in Rule Section 14-75.004(3) have changed so that its rank should be changed, the Department shall assign a new rank or reject said consultant and continue to proceed as though the original selection process had not been interrupted. If the Department determines that the rankings produced by the original selection

process are no longer appropriate for the remaining consultants, it shall initiate a new selection process according to these rules.

(b) For all professional service contracts over \$60,000, the Department shall require the firms to execute a truth in negotiation certificate stating that wage rates and other factual unit costs supporting the compensation are accurate, complete, and current at the time of contracting. Any professional service contract under which such a certificate is required shall contain a provision that the original contract price and any additions thereto shall be adjusted to exclude any significant sums by which the Department determines the contract price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such contract adjustments shall be made within one year following the end of the contract.

14-75.0051 Suspension or Revocation, Denial, or Suspension of Qualification.

(1) The Department will, for good cause, deny or may suspend the qualification of any professional consultant, or other provider of service, to render services to the Department. A denial or suspension for good cause pursuant to this rule shall remove the person or firm from consideration for award of professional service contracts for a particular type of work for a period not to exceed three years. Such good cause shall include paragraphs (a) through (e) below: or revoke for good cause any Notice of Qualification. Such good cause shall include the following:

(a) One of the circumstances specified under Section 337.105(1)(a) through (i), Florida Statutes. The Department determines that a consultant has willfully made a false, deceptive, or fraudulent statement in the application for qualification, in any proposal, or in any hearing.

(b) The consultant defaulted on any Department contract, or the contract of any other governmental entity. Loss or suspension of current license or registration as regulated by the State of Florida;

(c) The consultant becomes insolvent or is declared bankrupt;

(d) The consultant failed to timely furnish all contract documents required by the contract specifications, or special provisions, to be provided after the Department's offer of final payment, employs or otherwise provides compensation to any employee or officer of the Department;

(e) The consultant has an unsatisfactory work performance grade average. A consultant must maintain a final grade of 70 to remain qualified with the Department to provide services in each type of work. A composite final average grade between 60 and 69 for schedule, management, and each quality

grade will result in the consultant being suspended from the qualified list for three months for each type of work graded within this range. A composite final average grade below 60 for schedule, management, and each quality grade will result in the consultant being suspended from the qualified list for six months for each type of work graded within this range. willfully offers an employee or officer of the Department any pecuniary or other benefit with the intent to influence the employee or officer's official action or judgment, or

(f) Any other substantial reason established by the factual circumstances. The consultant receives a Professional Consultant Work Performance Final Grade below 70.

(g) Failure to achieve the proposed participation by certified DBE or MBE subconsultants without acceptable justification.

(h) Failure to notify the Department of departure from the firm of personnel used to prequalify the firm in any type of work;

(i) History of debarment or suspension from consideration for work with any other governmental entity, or

(j) Loss of professional liability insurance.

(2) For any of the reasons provided in Section 14-75.0051(1), other than receipt of an unsatisfactory work performance grade, the Department will deny or suspend a consultant's qualification for a period of time based upon the seriousness of the deficiency. Factors to be considered in determining the length of the suspension or denial include, but shall not be limited to, the following:

(a) Impact on project design or construction schedules;

(b) Frequency or number of occurrences;

(c) Impact on the Department, financial or otherwise;

(d) Potential for repetition;

(e) Length of bar or suspension from consideration of work by another governmental entity; and

(f) Severity or length of noncompliance with the requirements for qualification found in Rule Chapter 14-75.

(3) The Department shall deny or revoke the Notice of Qualification to bid of any consultant, and its affiliates, for a period of 36 months, pursuant to Section 337.165, Florida Statutes, when it is determined that the consultant has, subsequent to January 1, 1978, been convicted of a contract crime within the jurisdiction of any state or federal court.

(4) Procedure. Any decision by the Department to suspend, revoke, or deny a consultant's qualification Notice of the Department's intended action will be provided to the consultant in accordance with Rule 28-106.111, F.A.C. The Department's action will become final, unless a timely petition for a hearing is filed in accordance with Rules 28-106.104, 28-106.201, and 28-106.301, F.A.C., within 21 days after receipt of the Department's notice. Where a consultant's qualification has been denied or revoked for conviction of a contract crime, a hearing shall be held within 30 days of the receipt of the request for hearing if the request for hearing is

filed within 10 days of the Department's notice of intent. All requests for hearing shall be in writing and shall be in order to be timely, the petition must be filed with the Department's Clerk of Agency Proceedings, 605 Suwannee Street, MS 58, Haydon Burns Building, Tallahassee, Florida 32399-0458, within 21 days after receipt of the Department's notice, in accordance with Rule 28-106.111, F.A.C. A request for hearing is filed when it is delivered to, and received by, the Clerk of Agency Proceedings at the above address, and accordingly is not timely filed unless it is received by the Clerk of Agency Proceedings within the appropriate time period.

(a) Reapplication or Reinstatement. A consultant whose qualification has been denied or revoked for conviction of a contract crime may petition for reapplication or reinstatement at any time after denial or revocation.

1. The petition for reapplication or reinstatement shall be in writing and shall be filed with the Clerk of Agency Proceedings, Department of Transportation, 605 Suwannee Street, MS 58, Haydon Burns Building, Tallahassee, Florida 32399-0458, and shall include:

- a. The name and address of the party making the request;
- b. A statement of the specific grounds upon which the petition is based and the proposed terms and conditions upon which reapplication or reinstatement is sought;
- c. A list of all witnesses and exhibits to be presented; and
- d. A statement whether the consultant requests that the hearing be held by the Division of Administrative Hearings.

2. Upon the filing of a petition for reapplication or reinstatement, the Department shall:

- a. Conduct a hearing within 30 days after receipt of the petition, unless otherwise stipulated by the parties, or
- b. Notify the Division of Administrative Hearings within five days after receipt of the petition for scheduling of the hearing in accordance with Sections 337.165(2)(d) and 120.57, Florida Statutes.

3. If the petition for reapplication or reinstatement is denied, the consultant may not petition for a subsequent hearing for a period of nine months following the date of the order of denial or revocation.

4. If the petition for reinstatement is granted, the consultant shall file a current Request for Qualification with the Contractual Services Office, 605 Suwannee Street, MS 20, Haydon Burns Building, Tallahassee, Florida 32399-0450, before the reinstatement shall become effective.

(b) Notification of Contract Crime. A consultant who is qualified with the Department, or who has a letter of response or qualification, or who has a request for qualification pending before the Department pursuant to this Rule Chapter, shall notify the Department within 30 days after conviction of a contract crime applicable to it or to any of its affiliates or to any officers, directors, executives, shareholders active in management, employees or agents of it or any of its affiliates. The notification shall be forwarded to the Department of

Transportation, Contractual Services Office, 605 Suwannee Street, MS 20, Haydon Burns Building, Tallahassee, Florida 32399-0450.

~~(4) The suspension or revocation of any Notice of Qualification shall not affect obligations under any preexisting contracts.~~

14-75.0052 Professional Consultant Work Performance Evaluation System.

(1) The consultant's work performance on each professional service contract must be evaluated by the Department's project manager. A minimum of one interim evaluation shall be conducted ~~made~~ for all contracts with a duration of 18 months or more ~~duration~~. A final evaluation shall be conducted ~~made~~ for all contracts within 30 days of the approval of the final invoice for the basic services. A work performance grade for each major type of work shall be based on an evaluation of Schedule, Management, and Quality. The project manager shall assign the Quality Grade to any ~~administratively or technically~~ qualified consultant named in the agreement for each major type of work they perform. The Department's contracted consultant shall also receive a Schedule, Management, and Quality Grade in the same type of work as any technically qualified consultant.

(2) Each interim grade shall be based upon an evaluation of the consultant's work performance for the period of time since a previous interim evaluation was made. The Final Grade shall reflect the overall contract performance for the entire contract period. Interim grades shall be entered in the Department's Professional Services Information System until replaced by the final grade.

(3) Each professional service contract evaluation shall be based on an evaluation of contract performance using the following grading system for Schedule, Management, and Quality, except for Groups 10.1 and 10.2, Construction Engineering and Inspection, ~~which shall be developed using a similar grading system and procedure.~~

(a) The Schedule Grade. The schedule grade shall provide an indication of the consultant's compliance with performance ~~in meeting the contract schedule. The consultant is graded by selecting one of the following four tests and assigning a specific grade, within the assigned range, for the test selected:~~

Test	Score
<del>1. Consistently met or bettered the approved schedule dates.</del>	92-100
<del>2. Some failure to meet scheduled dates but no adverse impact on overall project and future projects' schedule has resulted.</del>	70-91
<del>3. Adverse impact on the project schedule has resulted due to slow progress.</del>	60-69

4. Consistent problems with meeting scheduled dates resulting in an adverse impact on the timely completion of the project and scheduled future projects. 0-59

(b) The Management Grade. The management grade shall provide an indication of the consultant's managerial knowledge and ability to manage all necessary resources to deliver a high quality product while remaining within all contract time limits. The consultant is graded by assigning a specific score within an assigned range for the following five tests then adding these five specific scores to establish the total management grade:

Test	Score
1. Effectiveness of the consultant in implementing the intent and scope of the contracted services as determined from the completeness of scheduled submittals.	0-20
2. Effective application of the Department's criteria, standards and procedures (federal if applicable).	0-20
3. Effectiveness of consultant's project manager and staff to work with all involved project personnel including DOT staff, other consultants and citizens.	0-30
4. Effectiveness of the consultant in keeping to a minimum the unnecessary involvement of DOT staff.	0-20
5. Effectiveness of the consultant's management of this contract and budget, including achieving proposed DBE or MBE participation.	0-10
<b>TOTAL</b>	<b>0-100</b>

(c) The Quality Grade. The quality grade shall provide an indication of the consultant's attention and concern to the established quality control plan and a quality product. A quality grade is prepared, at as a minimum, for each major type of work as advertised. The quality grade for each type of work shall consider a minimum of four quality tests with a standard score range assigned to each test. The maximum grade for the summation of all quality tests for an individual quality grade is 100%.

(4) For all professional service contracts that result in the preparation of construction plans, a construction plan quality evaluation will be made by the Department's Resident Engineer within 30 days after final acceptance of the construction project. This Constructability Grade shall provide an indication of the design consultant's ability to develop practical, accurate, complete, and cost effective construction plans. The Department's CEI project manager or resident engineer shall assign a grade on the design consultant's plan quality. The consultant is graded by selecting one of the following five tests and assigning a specific grade, within the assigned range, for the test selected. The Department's evaluator shall use the design contract number, WPA Number and State Project numbers and sign the document. This Constructability Grade will be reviewed when considering the consultant for future project selection.

Test	Grade
(a) The construction plans were free of error and omissions, requiring no correction assistance from the consultant. No difficulty was experienced in reading and understanding the construction plans. Neither plan corrections or plans reading resulted in any construction delays.	90-100
(b) Some minor problems with the construction plans but no construction delays resulted. Minor problems in reading the construction plans but no construction delays resulted.	80-89
(c) Some problems developed with errors and omissions on the construction plans. The consultant was required for a few meetings to resolve conflicts. The consultant was timely in its responses and the required meetings did not result in any construction delays. The construction plans required some thought to interpret.	70-79
(d) Quite a few problems developed with errors and omissions on the construction plans. The consultant was required for a few meetings to resolve conflicts and redesign certain areas. The consultant was timely in its responses but need for plan corrections caused construction delays. The construction plans required more interpretation than average.	60-69
(e) An extreme number of problems developed with the construction plans. The consultant was required for many meetings to resolve conflicts and redesign many areas. The consultant was not timely in its responses and this and the need for plan corrections caused construction delays. The construction plans were difficult to read, and this caused confusion and delays also.	0-59

(5) Additional interim consultant work performance evaluations can be submitted by the Department's project manager as needed. Items to be considered for submitting additional interim evaluations are:

- (a) Examples of extremely outstanding performance;:-
- (b) Examples of extremely poor performance;:-
- (c) Completion of critical phases of work, such as preliminary design, submittal of draft environmental documents and reports, 30%, 60%, and 90% submittals, etc.; and
- (d) Requests from the consultant based on possible improved performance when its ~~their~~ most recent grade was low.

(6) Evaluation Processing. The Department's project manager will submit the completed consultant performance grade, interim or final, to the Professional Services Administrator/Contractual Services Office (PSA/CSO) for entry into the Professional Services Information System. The grades will be stored in the data base for five years for

~~departmental use in future qualification and the selection processes.~~ All final grades will be retained in the system for five years, and may be referred to by the Department for use in future qualification selection matters then deleted. Each interim grade shall be replaced by the succeeding interim grade and eventually by the final grade for each contract. A performance grade is established for each major type of work by averaging the schedule, management, and quality grade. An average grade of 70 or more for each type of work is considered satisfactory.

(7) Within 10 days after the Professional Services Administrator/Contractual Services Office PSA/CSO receives the completed grades, a copy of the performance grades with a cover letter shall be provided to the consultant's project manager and officer who executed the agreement, as well as to any other consultant who was named in the agreement and was assigned a Quality Grade for work it performed.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT IS: Captain Alan S. Richard, Coordinator, Office of Boating Safety and Waterway Management, 620 South Meridian Street, Tallahassee, Florida 32399-1600

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

68D-24.002 Definitions.

The definitions provided in rule 68D-23.103, F.A.C. shall also apply to chapter 68D-24, F.A.C. When used in these rules, the following words shall have the indicated meanings unless the context clearly indicates otherwise:

~~(1) Slow Speed Minimum Wake and Slow Down Minimum Wake indicate a boating restricted area which has been established to protect the safety of the public. Slow Speed Minimum Wake and Slow Down Minimum Wake means that a vessel must be fully off plane and completely settled into the water. It may not proceed at a speed greater than that speed which is reasonable and prudent to avoid the creation of an excessive wake or other hazardous condition under the existing circumstances.~~

A vessel that is:

~~(a) operating on a plane is not proceeding at slow speed minimum wake;~~

~~(b) in the process of coming off plane and settling into the water or coming up onto plane is not proceeding at slow speed minimum wake;~~

~~(c) operating at a speed that creates a wake which unreasonably or unnecessarily endangers other vessels is not proceeding at slow speed minimum wake;~~

~~(d) completely off plane and which has fully settled into the water and is proceeding without wake or with minimum wake is proceeding at slow speed minimum wake.~~

Slow speed minimum wake is the preferred term. Slow Down Minimum Wake may continue to be used except when such a restricted area is contiguous to an Idle Speed No Wake boating restricted area.

(2) Idle Speed No Wake indicates a boating restricted area which has been established to protect the safety of the public. Idle Speed No Wake means that a vessel cannot proceed at a speed greater than that speed which is necessary to maintain steerageway.

(3) "Miles per hour" means speed made good over the bottom measured in statute miles.

(4) "Wake" means all changes in the vertical height of the water's surface caused by the passage of a vessel including, but not limited to, a vessel's bow wave, stern wake, and propeller wash.

(5) "Holiday" means:

(a) New Year's Day.

(b) ~~Birth~~day of Martin Luther King, Jr., the third Monday in January.

(c) Memorial Day.

(d) Independence Day, the Fourth of July.

(e) Labor Day.

(f) Columbus Day.

(g) Veterans' Day, November 11.

(h) Thanksgiving Day.

(i) Friday after Thanksgiving.

(j) Christmas Day.

(k) ~~If any of these holidays falls on Saturday, the preceding Friday shall be observed as a holiday. If any of these holidays falls on Sunday, the following Monday shall be observed as a holiday.~~

68D-24.108 Charlotte County Boating Restricted Areas.

(1) For the purpose of regulating the speed and operation of vessel traffic on and adjacent to the Intracoastal Waterway in Charlotte County, Florida, the following Boating Restricted Areas ~~are~~ Area is established:

(a) 1. Cape Haze – A Slow Speed Minimum Wake boating restricted area zone from shoreline to shoreline, in and adjacent to the Intracoastal Waterway, from a line drawn east/west across the waterway 4,982 feet south east of platted Lot Number 6 within the Cape Haze Subdivision, Section 3, Township 42S, Range 20E, in Charlotte County, Florida, to a line drawn perpendicular to the centerline of the waterway 2,552 feet northwest of said Lot, as depicted in drawing A.

2. RULE TITLE: St. Johns County Boating Restricted Areas

RULE NO.: 68D-24.155

PURPOSE AND EFFECT: St. Johns County has requested this office to establish boating safety zones along the Florida Intracoastal Waterway as it makes its way through St. Johns County. The wakes from passing vessels have caused vessel damage, and continues to present a danger to vessels being launched or recovered at public boat ramps in the area. This boat ramp is also utilized by emergency vessels. This rulemaking action was requested by St. Johns County. The local office of the Florida Fish and Wildlife Conservation Commission has concurred with this action. United States Army Corps of Engineers and the United States Coast Guard.

SUBJECT AREA TO BE ADDRESSED: The enactment of a Slow Speed Minimum Wake zone in and adjacent to the Intracoastal Waterway, in St. Johns County, in the vicinity of Devil's Elbow Fish Camp, for a distance of 500' north (29°45.070"N, 81°14.963"W) and 500' south (29°45.206"N, 81°14.992"W) of the Devil's Elbow Fish Camp, within the Florida Intracoastal Waterway (ICW). St. Johns County is authorized to install and maintain appropriate regulatory markers as directed by the Division of Law Enforcement within the boating restricted areas and shall install and maintain "Resume Normal Safe Operation" markers at the north and south boundaries of the boating restricted areas.

SPECIFIC AUTHORITY: 327.04, 327.46 FS.

LAW IMPLEMENTED: 327.46 FS.

IF REQUESTED AND NOT DEEMED UNNECESSARY BY THE AGENCY HEAD, A RULE DEVELOPMENT WORKSHOP WILL BE SCHEDULED FOR A LATER DATE TO BE ANNOUNCED IN THE FLORIDA ADMINISTRATIVE WEEKLY.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE DEVELOPMENT IS: Ms. Tara Alford, Office of Boating Safety and Waterway Management, Division of Law Enforcement, 620 South Meridian Street, Tallahassee, Florida 32399-1600, (850)488-5600, Extension 169

THE PRELIMINARY TEXT OF THE PROPOSED RULE DEVELOPMENT IS:

68D-24.155 St. Johns County Boating Restricted Areas.

(1) For the purpose of regulating the speed and operation of vessel traffic on and adjacent to the Florida Intracoastal Waterway in St. Johns County, Florida, the following boating restricted areas are established:

(a)1. through 5. No change.

6. Devils Elbow Fish Camp – A Slow Speed Minimum Wake zone from 500' north of Devils Elbow Fish Camp to 500' south of Devil's Elbow Camp of the Florida Intracoastal Waterway to the shoreline of the Florida Intracoastal Waterway (ICW), as depicted in drawing F.

(b) through (2) No change.

Drawings A through E No change.

Drawing F has not yet been developed.

DOCKET NO. 010105-GU

RULE TITLE: Meter Accuracy at Installation

RULE NO.: 25-7.063

PURPOSE AND EFFECT: The purpose of the amendment is to improve meter accuracy. The effect will be to have a more cost efficient test to determine the accuracy of new meters at the time they are installed and to reduce the limits that meters may be fast or slow to one percent.

It was also determined that of the meters that failed to meet accuracy limits most had suffered apparent damage. That is why the proposed rule requires an operator to perform a random test of 10 percent of any meter shipment that arrives with apparent damage.

SUMMARY: This rule change prohibits the installation of a meter that has been tested and found to be more than 1 percent slow rather than the 2 percent slow and further removes the requirement for investor-owned gas utilities to perform a random test of 10 percent of all new meters. The proposed rule requires that if damage is apparent on any shipment of new meters, a 10 percent sampling must be performed to assure the damage has not detrimentally changed the meter accuracy of the shipment as a whole.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: None.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

SPECIFIC AUTHORITY: 366.05(1) FS.

LAW IMPLEMENTED: 366.05(1) FS.

WRITTEN COMMENTS OR SUGGESTIONS ON THE PROPOSED RULE MAY BE SUBMITTED TO THE FPSC, DIVISION OF RECORDS AND REPORTING, WITHIN 21 DAYS OF THE DATE OF THIS NOTICE FOR INCLUSION IN THE RECORD OF THE PROCEEDING.

IF REQUESTED WITHIN 21 DAYS OF THE DATE OF THIS NOTICE, A HEARING WILL BE SCHEDULED AND ANNOUNCED IN THE FAW.

THE PERSON TO BE CONTACTED REGARDING THE PROPOSED RULE IS: Director of Appeals, Florida Public Service Commission, 2540 Shumard Oak Blvd., Tallahassee, Florida 32399-0862, (850)413-6245

THE FULL TEXT OF THE PROPOSED RULE IS:

25-7.063 Meter Accuracy at Installation.

(1) A new gas meter shall be within plus or minus 1 ~~not more than one percent of accuracy to be (1%) fast and not more than two percent (2%) slow when~~ installed for customer use. Manufacturers' test data may be used if there is no indication of damage to the meters resulting from the shipping process. If damage is apparent, in order for the manufacturers' test data to be used, a random representative sample of not less than a minimum of ten 10 percent (40%) of the new meters in the damaged shipment shall be have been tested and found to be insure they are within accuracy limits. If any meter of the sample is found not to be within accuracy limits, the entire shipment must be tested, and where necessary, the meters adjusted to within the plus or minus 1 percent accuracy limits.

(2) Every meter removed from service when opened for repairs shall be adjusted to be not more than ~~one 1~~ percent ~~(1%) fast and not more than two or 1 percent (2%) slow~~ before being reset. ~~and if~~ If not opened for repairs, the meter may be reset without adjustment if found to be not more than ~~1 two~~ percent ~~(2%) in error~~ fast or not more than 1 percent slow provided the meter is otherwise in good condition.

(3)~~(2)~~ No meter may shall be installed unless it has been tested within the previous 12 months and found to be within the accuracy-limits ~~prescribed in (1) of established by this rule,~~ within a period no longer than twelve (12) months previous to the date of installation.

25-12.005 Codes and Standards Adopted.

The Minimum Federal Safety Standards and reporting requirements for pipeline facilities and transportation of gas prescribed by the United States Department of Transportation in Parts 191 and 192 of Title 49, Code of Federal Regulations (CFR) as amended through January 1, 2001 ~~October 20, 1998~~, are adopted as part of these rules. Part 199, "Drug and Alcohol Testing" as amended through January 1, 2001 ~~October 20, 1998~~ is adopted to control drug use, by setting standards and requirements to apply to the testing and use of all emergency response personnel under the direct authority or control of a gas utility or pipeline operator, as well as all employees directly or indirectly employed by gas pipeline operators for the purpose of operation and maintenance and all employees directly or indirectly employed by intrastate gas distribution utilities for on-site construction of natural gas transporting pipeline facilities. Part 199 also is adopted to prescribe standards for use of employees who do not meet the requirements of the regulations.

**LAND AND WATER ADJUDICATORY COMMISSION  
Lakewood Ranch Community Development District 2**

**RULE TITLE:** Boundary **RULE NO.:** 42W-1.002

**PURPOSE, EFFECT AND SUMMARY:** The purpose of this proposed rule amendment is to amend the boundaries of the Lakewood Ranch Community Development District 2 ("District"), a community development district (CDD) established in 1995 pursuant to Chapter 190, F.S. The petition to amend the boundaries submitted by the Lakewood Ranch CDD 2 requests that the Florida Land and Water Adjudicatory Commission (the "Commission") amend Florida Administrative Code Chapter 42W-1 by deleting approximately 706 acres (the contraction parcel) from the existing boundaries. After contraction, the proposed amended District will consist of approximately 1,374 acres located in Manatee County, Florida. (The contraction parcel is proposed for inclusion in the boundaries of the proposed Lakewood Ranch CDD 5. The Lakewood Ranch CDD 5 establishment petition is currently pending before the Commission.) The general location of the contraction parcel is depicted in Comp. Ex. A, Att. 2, that was submitted into evidence during the administrative hearing (revises Exhibit 2 originally filed with the petition). As a result of the proposed contraction, 573 fewer single family units will be included within the District. The filing of the petition for contraction by the District Board of Supervisors constitutes consent of the landowners within the District, other than the landowners whose land is proposed to be removed from the District. Additionally, the District has written consent to amend the District from the owners of 100% of the real property to be deleted from the District.

**SUMMARY OF THE ESTIMATE OF ECONOMIC IMPACT:** The statement of estimated regulatory costs (SERC) supports the petition to contract the District. The complete text of the SERC is contained as Exhibit 8 to the petition to contract the District. The scope of the SERC is limited to evaluating the regulatory cost consequences of approving the proposal to contract the District, as well as the petition to establish Lakewood Ranch CDD 5. The requirements for a SERC are found in Section 120.541(2), F.S. A SERC must contain (a) a good faith estimate of the number and types of individuals

likely to be required to comply with the rule or who will be affected; (b) a good faith estimate of the costs to any state and local government entities of implementing and enforcing the proposed rule, and any anticipated affect on state and local revenues; (c) a good faith estimate of the transactional costs likely to be incurred by individuals and entities; (d) an analysis of the impact on small businesses, small counties, and small cities; (e) any additional information that the agency determines may be useful; and (f) any good faith written proposal submitted under paragraph (1)(a) and either a statement adopting the alternative or a statement rejecting the alternative in favor of the proposed rule. Addressing section (a), the principal entities that are likely to be required to comply with the rule include the remaining land owners in the District after contraction, the contraction parcel land owners to be included in the proposed Lakewood Ranch CDD 5, the State of Florida, and Manatee County. In addition, future property owners will be affected by the contraction of the proposed District. Under section (b), the Commission and State of Florida will incur minimal one-time administrative costs. Manatee County will also incur one-time administrative costs which are offset by the required filing fee paid to the County. Adoption of the proposed rule to approve the contraction of the District will not have an adverse impact on State and local revenues. Addressing section (c), the District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. Also, various financing reserves must be provided for, such as a Debt Service and capitalized interest in addition to estimated costs of bond issuance. The District may issue notes, bonds, or other indebtedness to fund its improvement program. The District may also impose an annual special assessment levy for the operations and maintenance of the District. The cost per unit for operations and maintenance in the District, after contraction, is projected to decline. Additionally, the total capital improvement plan for the District, after contraction, is reduced because the community and the master infrastructure to serve the new and smaller District is proportionately reduced. Under section (d), approval of the petition to contract the District will have only incidental or a positive impact on small businesses and will not have any impact on small counties and cities. Manatee County is not a small county as defined. Under section (e), the analysis was based on an application of economic theory with input received from the petitioner's engineer and other professionals associated with the petitioner.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

DATE PROPOSED RULE APPROVED BY AGENCY HEAD: February 21, 2001

DATE NOTICE OF PROPOSED RULE DEVELOPMENT PUBLISHED IN FAW: February 23, 2001

**LAND AND WATER ADJUDICATORY COMMISSION**

**Lakewood Ranch Community Development District 5**

<b>RULE TITLES:</b>	<b>RULE NOS.:</b>
Establishment	42EE-1.001
Boundary	42EE-1.002
Supervisors	42EE-1.003

**PURPOSE, EFFECT AND SUMMARY:** The purpose of this proposed rule is to establish a community development district (CDD), the Lakewood Ranch Community Development District 5 (“District”), pursuant to Chapter 190, F.S. The petition to establish the District, filed by SMR Communities Joint Venture, (Petitioner), requests that the Florida Land and Water Adjudicatory Commission establish by rule the Lakewood Ranch CDD 5. The land area proposed to be served by the District will consist of approximately 1,173 acres. Upon establishment, the proposed Lakewood Ranch CDD 5 will encompass land proposed to be contracted from the Lakewood Ranch CDD 2 and additional land. (The Lakewood Ranch CDD 2 contraction petition is currently pending before the Commission for approval to amend the boundaries to delete 706.62 acres.) All proposed lands in the District are within unincorporated Manatee County and are generally depicted on Exhibit 1 of the petition. There are no parcels located within the external boundaries of the proposed District to be excluded from the District. The proposed development within the District contemplates the construction of 908 single-family residential units, 208 condominium units, a golf course and country club facility, and a sports/fitness complex. The Petitioner has obtained written consent to establish the District from the owners of 100% of the real property located within the proposed District. The District, if established, intends to participate in the construction of certain facilities and services such as roadways, lighting, utilities, drainage, landscaping/lakes/irrigation, security, fire, and parks and recreation on the lands within the District.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST:** The statement of estimated regulatory costs (SERC) supports the petition to establish the District. The complete text of the SERC is contained as Exhibit 7 to the petition to establish the District. The scope of the SERC is limited to evaluating the regulatory cost consequences of approving the proposal to establish the District, as well as evaluating the regulatory cost consequences of contracting the Lakewood Ranch CDD 2 boundaries. The requirements for a SERC are found in Section 120.541(2), F.S. A SERC must contain (a) a good faith estimate of the number and types of individuals likely to be required to comply with the rule or who will be affected; (b) a good faith estimate of the costs to any state and local government entities of implementing and enforcing the proposed rule, and any anticipated affect on state and local revenues; (c) a good faith estimate of the transactional costs likely to be incurred by individuals and entities; (d) an analysis of the impact on small businesses,

small counties, and small cities; (e) any additional information that the agency determines may be useful; and (f) any good faith written proposal submitted under paragraph (1)(a) and either a statement adopting the alternative or a statement rejecting the alternative in favor of the proposed rule. Addressing section (a), the principal entities that are likely to be required to comply with the rule include the land owners of the lands to be included in Lakewood Ranch CDD 5, the State of Florida, and Manatee County. In addition, future property owners will be affected by the establishment of the proposed District. Under section (b), the Commission and State of Florida will incur minimal one-time administrative costs. Manatee County will also incur one-time administrative costs which are offset by the required filing fee paid to the County. Adoption of the proposed rule to approve the establishment of the District will not have an adverse impact on State and local revenues. Addressing section (c), the District may levy non-ad valorem special assessments on properties within its boundaries to finance infrastructure that the District funds and to defray the costs of operating and maintaining the infrastructure and associated community facilities. Also, various financing reserves must be provided for, such as a Debt Service and capitalized interest in addition to estimated costs of bond issuance. The District may issue notes, bonds, or other indebtedness to fund its improvement program. The District may also impose an annual special assessment levy for the operations and maintenance of the District. Under section (d), approval of the petition to establish the District will have only incidental or a positive impact on small businesses and will not have any impact on small counties and cities. Manatee County is not a small county as defined. Under section (e), the analysis was based on an application of economic theory with input received from the petitioner’s engineer and other professionals associated with the petitioner.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

61G8-17.0034 Continuing Education for License Renewal.

(1) For purposes of these rules continuing education means instructional courses approved by the Board pursuant to Rule 61G8-17.0042 and offered by Board approved continuing education providers registered pursuant to Rule 61G8-17.0041, F.A.C.

(2)(1) All licensed professionals governed by Chapter 470, Florida Statutes, shall be required to successfully complete obtain Board approved continuing education (HIV/AIDS, Communicable Diseases, Professional Education) courses from a provider or providers registered pursuant to Rule 61G8-17.0041, F.A.C. at the time the course is taken, as defined under Chapters 455 and 470, F.S., and this rule chapter, which contributes to increasing or enhancing the license holder's professional skills or which enables the license holder to keep abreast of changes that affect the practice of embalming, funeral directing, or direct disposal.

(3) In Addition, five (5) hours of continuing education credit may be obtained by attending one full day or eight (8) hours, whichever is more, of a regular meeting of the Board of Funeral Directors and Embalmers and compliance with the following:

(a) The licensee must sign in with the Executive Director of the Board, or designee, before the meeting day begins.

(b) The licensee must remain in continuous attendance.

(c) The licensee must sign out with the Executive Director of the Board, or designee, at the end of the meeting day or at such other earlier time as affirmatively authorized by the Board.

(d) A licensee may receive credit only if he/she is not appearing before the board as the subject of disciplinary action at that meeting.

(e) No licensee may use more than (5) hours of continuing education pursuant to this section for the purpose of completing the continuing educational requirements for each biennial renewal.

(4)(2) No license shall be renewed unless the licensee submits confirmation on a form provided by the Department that the licensee has completed the required continuing education hours together with completion of a single board approved course on communicable diseases, including and HIV/AIDS, which course shall contain the subject area requirements set out in Rule 61G8-17.0042(3)(e), F.A.C. Courses approved in communicable diseases shall meet the requirements of sections 455.2226, 470.015, 470.018 and 470.0201, Florida Statutes.

(a) Funeral Directors and Embalmers shall complete twelve (12) hours of continuing education.

(b) Registered Direct Disposers shall complete three (3) contact hours of continuing education.

(c) One (1) hour equals a minimum of fifty (50) minutes and a maximum of sixty (60) minutes of classroom or individualized course of instruction.

(f)(d) No persons who was initially licensed with half or less of the renewal period in the second year of a the biennium remaining prior to renewal shall be required only to pass an approved course attend continuing education programs as a condition to renewing the initial license, except that the programs on communicable diseases including and HIV/AIDS are required as required in section 455.2226, F.S., as a condition for initial renewal.

(5)(3) Failure to meet the continuing education requirements shall render the license/registration ineligible for renewal and the license/registration shall become delinquent revert to inactive status at the end of the biennium.

(4) During the license renewal period of Ninety (90) days prior to the end of the biennium, the Department shall send to each license/registration holder at the last address of record, a notice for renewal. Failure to receive any notification during this period does not relieve the continuing education requirements or waive the license expiration date. The application for renewal shall include a statement in which the licensee shall declare that during the biennium preceding renewal, he or she completed the required hours of approved continuing education.

(5) Each licensee shall be responsible for maintaining the documentation as may be necessary to prove his or her compliance with the continuing education requirements, including the course on communicable diseases including and HIV/AIDS, during the current renewal period and the immediately preceding one, and shall provide such documentation to the Department upon request pursuant to subsection (6) of this rule.

~~(6) The Department shall audit at random a number of licensees as necessary to ensure that these continuing education requirements are met. Falsification of attendance record, or failure, when audited to provide proof of completion of the required number of hours for license renewal, shall be grounds for disciplinary action as provided in 61G8-30.001, F.A.C. If the Board determines not to accept any program attended for credit on the grounds that said program does not meet the requirements of 61G8-17.0041 or 61G8-17.0042, F.A.C., the licensee shall have a 90-day grace period from said determination during which to complete the deficient hours.~~

RULE CHAPTER TITLE: Temporary Cash Assistance      RULE CHAPTER NO.: 65A-4

RULE TITLE: Calculation of Assistance Time Limits      RULE NO.: 65A-4.202

PURPOSE AND EFFECT: The proposed rule amendment implements the requirements of s. 414.105(3), F.S., as amended by the 2000 Florida Legislature, related to the ability of participants to earn months of temporary cash assistance (TCA) eligibility for participation in mental health or substance abuse treatment. The rule will provide for a participant to earn extended months of TCA eligibility for each month of participation in, and successful completion of a substance abuse or mental health treatment program for up to a maximum of 12 additional months.

SUMMARY: The rule provides for a TCA recipient to earn one month of extended TCA eligibility for each month of participation in and successful completion of mental health or substance abuse treatment. The treatment credit is limited to a one-time only award of up to 12 additional months of TCA eligibility during the participant's 48-month lifetime limit. It also designates the regional workforce board (RWB) designee as the responsible entity for certification of participation; verifying with the treatment provider the successful completion of treatment; and, for providing notification to the department of the number of earned months of eligibility. Additionally, it provides for the impact of earned months on hardship exemptions and for forms incorporated by reference to address legislative changes.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COST: None.

Any person who wishes to provide information regarding the statement of estimated regulatory costs, or to provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

THE FULL TEXT OF THE PROPOSED RULE IS:

65A-4.202 Calculation of Assistance Time Limits.

(1) No change.

(2) Mental Health and Substance Abuse Treatment Impact. Participants who are not exempt from temporary cash assistance (TCA) work requirements may earn one month, for up to a maximum of 12 additional months, of TCA eligibility for each month of participation in which the individual fully complies with the requirements of the mental health or substance abuse treatment program. The earned treatment credit can only be awarded upon successful completion of treatment and is limited to one-time only during the individual's 48-month lifetime limit on receipt of TCA.

(3) Treatment Certification. The regional workforce board (RWB) designee must track monthly verification of participation and obtain certification of successful completion of treatment from the treatment program provider by using the CF-ES 2299, Substance Abuse and Mental Health (SAMH) Treatment Verification, Oct 00, incorporated by reference. Section C of the CF-ES 2299 must be completed by the SAMH provider to indicate the months the participant fully complied with treatment and to certify successful completion. The RWB designee must forward the CF-ES 2299 to the department to request verification that the participant received TCA during the indicated months of treatment.

(4) Verification of Earned Months: Upon receipt of the CF-ES 2299, the Economic Self-Sufficiency (ESS) Specialist must verify that the participant received TCA for each month of treatment indicated in section C and notify the RWB designee and the individual of the additional months of TCA eligibility available.

(5) Impact on Hardship Exemption. If available, the earned months of eligibility are to be used to extend the receipt of TCA prior to requesting a hardship exemption. Participants will still be eligible to apply for a hardship exemption after any earned months have been applied.

(6) Copies of forms CF-ES 2090 and CF-ES 2299 may be obtained from the Department of Children and Family Services, Economic Self-Sufficiency Office, 1317 Winewood Boulevard, Building 3, Room 423, Tallahassee, Florida 32399-0700.

65C-26.003 Allocation Methodology.

(1) Funds will be proportionately allocated to the regions based on child care capacity of the following child care arrangements in each of the regions:

- (a) Licensed child care facilities;
- (b) Specialized child care facilities for the care of mildly-ill children;
- (c) Licensed and registered family day care homes;
- (d) Large family child care homes.

(2) Before November 30 of each State fiscal year the administrator of the T.E.A.C.H. Scholarship Program designated by the Florida Children’s forum will identify under-utilization of funds in any of the four regions. **NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rules, in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 27, No. 2, the January 12, 2001 issue of the Florida Administrative Weekly:

Subsection (11) in Rule 40E-63.091 has been changed so that when adopted it will read: "The documents listed in subsections (1) through (10) are hereby incorporated by reference, are published by the District and are available on the District's website (sfwmd.gov) or from the District at 3301 Gun Club Road, West Palm Beach, FL 33406, (561)686-8800, upon request."

The change was made because the website address as published was incorrect.

The first sentence of subsection (2) in Rule 40E-63.110 has been changed so that when adopted it will read: "Any landowner in the EAA, as described in Rule 40E-63.104(2), F.A.C., (Boundaries) may submit evidence to the District demonstrating that the water discharged from their property does not use the Works of the District within the Everglades, and request District staff to make a written determination that the requirements of this Chapter do not apply to their property."

This is a technical change, being made for consistency and grammar.

The proposed rule amendments to Rule 40E-63.223 have been withdrawn in response to written comments received from interested parties.

RULE NO.: 64C-7.008  
 RULE TITLE: Objection to Prenatal and Infant (Postnatal) Risk Screening

**NOTICE OF CHANGE**

Notice is hereby given that the following changes have been made to the proposed rule in accordance with subparagraph 120.54(3)(d)1., F.S., published in Vol. 26, No. 49, December 8, 2000, issue of the Florida Administrative Weekly. Changes are being made in response to comments received from the staff of the Joint Administrative Procedures Committee.

(Text of proposed rule changes)

64C-7.008 Objection to Prenatal and Infant (Postnatal) Risk Screening.

(1) The provider shall request a pregnant woman who objects to prenatal risk screening, after the purpose of the screening has been fully explained, to indicate her objection in writing on the screening instrument, and to sign the instrument. The screening instrument to be used is the Healthy Start Prenatal Risk Screening Instrument, DOH Form 3134, 6/00 (English version), or DOH Form 3134 H, 6/00 (Creole version), or DOH Form 3134 S, 6/00 (Spanish version), which are incorporated by reference. Copies of the Healthy Start Prenatal Risk Screening Instrument can be obtained by writing to: the Office of Maternal and Child Health, Bin A-13 (HSFFM), 4052 Bald Cypress Way, Tallahassee, FL 32399-1723. If the woman refuses to sign the instrument, this refusal shall be indicated on the patient's signature line. The provider is to complete the demographic items (name, address, phone number and type of provider) in the provider section and sign and date the form.

(2) The provider shall request any parent or guardian who objects to infant (postnatal) risk screening of their child or ward, after the purpose of the screening has been fully explained, to indicate the objection in writing on the screening instrument, and to sign the instrument. The screening instrument to be used is the Healthy Start Infant (Postnatal) Risk Screening Instrument, DOH Form 3135, 6/00 (English version), or DOH Form 3135 H, 6/00 (Creole version), or DOH Form 3135 S, 6/00 (Spanish version), which are incorporated by reference. Copies of the Healthy Start Infant (Postnatal) Risk Screening Instrument can be obtained by writing to: the Office of Maternal and Child Health, Bin A-13 (HSFFM), 4052 Bald Cypress Way, Tallahassee, FL 32399-1723. If the parent or guardian refuses to sign the instrument, this refusal shall be indicated on the patient's signature line. The provider is to complete the demographic items (name, address, phone number and type of provider) in the provider section and sign and date the form.

(3) Prenatal and infant (postnatal) risk screening shall not be conducted if the affected pregnant woman, parent, or guardian objects to the screening.

**Section IV  
 Emergency Rules**

**WATER MANAGEMENT DISTRICTS**

**Suwannee River Water Management District**

RULE TITLE: RULE NO.:  
 Temporary 90-Day Moratorium on the Issuance and Processing of Water Use Permits for Withdrawals of Springs and Certain Waterbodies within the District 40BER01-1

**REASONS FOR FINDING AN IMMEDIATE DANGER TO THE PUBLIC HEALTH, SAFETY OR WELFARE:** The District is in a current extreme drought condition. Current water levels in the Suwannee River and its tributaries are at historic low levels, and hydrologic conditions are below historic normal or typical annual minimum levels. The Aucilla, Alapaha and the Withlacoochee Rivers are also experiencing the lowest recorded stream levels in history. Withdrawals from sources directly connected to these water bodies are considered to have a direct impact to the environmental condition of the resources. Most of the existing flow in the Santa Fe and

Suwannee River is from ground water contributions discharging directly from springs. Low flows within the springs have caused concentration of nitrates to be higher and have resulted in eutrophic conditions. Some spring runs are experiencing algae blooms and diminished fish and aquatic life and others are perceived to be threatened. Due to the drought conditions, additional withdrawal may have adverse impacts on existing legal users.

**REASONS FOR CONCLUDING THAT THE PROCEDURE USED IS FAIR UNDER THE CIRCUMSTANCES:** The springs and rivers addressed in this emergency rule are a unique water resource of the Suwannee River Water Management District and the State of Florida. Due to the extreme drought condition and record low water levels, an emergency rule is necessary to preserve the quantity and quality of existing flow from certain surfacewaters and springs within the District. Additional withdrawals permitted pursuant to chapter 40B-2, Florida Administrative Code, will increase the adverse impacts until river levels are at or exceed the two year frequency low level.

**SUMMARY OF THE RULE:** Emergency Rule 40BER01-1 suspends the issuance and processing of existing and future applications for the withdrawal of water from certain waterbodies during the pendency of the emergency rule.

**THE PERSON TO BE CONTACTED REGARDING THE EMERGENCY RULE IS:** David Still, P.E., 9225 CR 49, Live Oak, FL 32060, (904)362-1001

**THE FULL TEXT OF THE EMERGENCY RULE IS:**

40BER01-1 Temporary 90-Day Moratorium on the Issuance and Processing of Water Use Permits for Withdrawals of Springs and Certain Waterbodies within the District.  
Suwannee River Water Management District declares a 90-day moratorium on all existing and future applications for the withdrawal of water from all springs and surfacewaters of the Suwannee, Sante Fe, Aucilla, Alapaha and the Withlacoochee Rivers within the District until District amends Chapter 40B-2, Florida Administrative Code, to provide adequate protection for said water resources.

## Section V Petitions and Dispositions Regarding Rule Variance or Waiver

### DEPARTMENT OF TRANSPORTATION

NOTICE IS HEREBY GIVEN that the Florida Department of Transportation has received a Petition for Variance and/or Waiver from Petitioner, Precision Traffic Counting, Inc., d/b/a Buckholz Traffic, on February 15, 2001.

Petitioner requests a waiver whereby the Department would suspend the remaining period of revocation ordered pursuant to Rule 14-22.012, Florida Administrative Code. The aforementioned rule provides for the suspension, revocation, or denial of a contractor's qualification to bid for good cause, as that term is defined in Section 337.16(2), Florida Statutes, thereby prohibiting the contractor from bidding on any Department contract for which pre-qualification is required. In addition, Rule 14-22.012, Florida Administrative Code, provides for a determination of non-responsibility to bid on any other construction or maintenance contract and from acting as a material supplier, subcontractor, or consultant on any Department contract or project during the period of suspension, revocation, or denial.

A copy of the Petition for Variance and/or Waiver, DOT Case No.: 01-027, may be obtained by written request from the Clerk of Agency Proceedings, 605 Suwannee Street, MS 58, Tallahassee, Florida 32399-0458.

### DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

The Department of Business and Professional Regulation hereby gives notice that it has denied a Petition for Variance or Waiver. The Petition for Variance or Waiver was filed on September 25, 2000, by Elena Moure-Domecq, Esquire, on behalf of Petitioner Orlando Grandal. The Petitioner was seeking a variance or waiver from Rule 61-6.004, F.A.C.,

which implements Section 455.271(6), F.S., relating to delinquent licenses becoming null and void. The Petition was first published on November 22, 2000.

The Final Order denying the Petition is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Business and Professional Regulation, 1940 North Monroe Street, Tallahassee, Florida 32399-0750.

Requests for inspection or copies of the Petition or the Final Order denying the Petition should be made to the Agency Clerk at the above address, with specific reference to VW 2000-011.

The Florida Real Estate Commission hereby gives notice that it has denied a Petition for Waiver. The Petition was filed on November 9, 2000, by Jack L. McRay, Esquire, on behalf of Petitioners Maurice Gelina and Associates, Inc. and Maurice R. Gelina. The petition was first published on December 8, 2000. The Petitioners were seeking a waiver from Rule 61J2-5.014, F.A.C., relating to the registration of corporations.

The Final Order denying the Petition is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Florida Real Estate Commission, 400 West Robinson Street, Hurston Building – North Tower, Suite N308, Orlando, Florida 32801. Requests for inspection or copies should be made to the above address.

### DEPARTMENT OF ENVIRONMENTAL PROTECTION

The Department of Environmental Protection has taken action on a petition for variance received from Environmental Consulting & Technology, Inc., on October 10, 2000. Notice of receipt of this petition was published in the Florida Administrative Weekly on November 3, 2000. No public comment was received. The petition requested a variance from the zone of discharge prohibition for discharges through wells under Rule 62-522.300(3) of the Florida Administrative Code in order to use an in-situ remedial process, ferric sulfate and sodium hydroxide, for biodegradation of emulsified oil at the Petroleum Products Corporation facility located at 3130 S. W. 19th Street, Pembroke Pines, Florida. On January 18, 2001, the Department granted a variance to Environmental Consulting & Technology, Inc., in a final order, OGC File No.: 00-1922. The final order granted a variance from the zone of discharge prohibition, and contained conditions. The conditions require that the use of the product at the site must be through a Department-approved remedial action plan or other Department-enforceable document, and that such approval shall not be solely by a delegated program; that the discharge must be through a Class V, Group 4 underground injection control well which meets all applicable requirements of Chapter 62-528 of the Florida Administrative Code; that the extent of the zone of discharge for iron and sulfate is a 100-foot

radius from the point of discharge for a duration of five years from last injection; that the injection of the product shall be at such a rate and volume that no undesirable migration occurs of the product, its by-products, or the contaminants already present in the aquifer; and that the Department-approved remedial action plan shall address appropriate ground water monitoring requirements associated with the use of the remediation product based on site-specific hydrogeology and conditions.

For a copy of the final order write or call Cynthia Christen, Department of Environmental Protection, MS 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, telephone (850)921-9610.

The Department of Environmental Protection has taken action on a petition for variance received from the Department of the Air Force on October 20, 2000. Notice of receipt of this petition was published in the Florida Administrative Weekly on November 17, 2000. No public comment was received. The petition requested a variance from the zone of discharge prohibition for discharges through wells under Rule 62-522.300(3) of the Florida Administrative Code in order to use an in-situ remedial process in a pilot study to evaluate the effectiveness in remediation of ground water at Operable Unit 30 of the former Homestead Air Force Base, and specifically to allow a zone of discharge for pH, total dissolved solids, iron, chloride, manganese, chromium, nickel molybdenum, vanadium, and thallium within a 50-foot radius from the point of discharge for a duration of 365 days. On December 26, 2000, the Department granted a variance to the Department of the Air Force in a final order, OGC File No.: 00-2035. The final order granted a variance from the zone of discharge prohibition, and contained conditions. The conditions require that the use of the product must be through a Department-approved remedial action plan or other Department-enforceable document, and that such approval shall not be solely by a delegated program; that the discharge must be through a Class V, Group 4 underground injection control well which meets all applicable requirements of Chapter 62-528 of the Florida Administrative Code; that the extent of the zone of discharge for pH, total dissolved solids, iron, chloride, manganese, chromium, nickel, molybdenum, vanadium, and thallium shall be a 50-foot radius from the point of injection; that the injection of the product shall be at such a rate and volume that no undesirable migration occurs of the product, its by-products, or the contaminants already present in the aquifer; and that the Department-approved remedial action plan shall address appropriate ground water monitoring requirements associated with the use of the remediation product based on site-specific hydrogeology and conditions.

For a copy of the final order write or call: Cynthia Christen, Department of Environmental Protection, MS 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, telephone (850)921-9610.

The Department of Environmental Protection has taken action on two petitions for variance received from HSA Engineers & Scientists, Inc., on November 30, 2000. Notice of receipt of these petitions was published in the Florida Administrative Weekly on December 22, 2000. No public comment was received. The petitions each requested a variance from the zone of discharge prohibition for discharges through wells under Rule 62-522.300(2)(a) of the Florida Administrative Code for the use of molasses and potassium lactate to clean up sites contaminated with chlorinated solvents, and other petroleum products. Specifically the petitions requested a zone of discharge for pH, color, chloride, and total dissolved solids may be exceeded in a small area of a fifty-foot radius from the point of discharge for a duration of 280 days. On February 5, 2001, the Department granted both variances to HSA Engineers & Scientists, Inc., in two final orders, OGC File Nos.: 00-2226 (for molasses) and 00-2227 (for potassium lactate). The conditions require that the use of the products must be through a Department-approved remedial action plan or other Department-enforceable document, and that such approval shall not be solely by a delegated program; that the discharge must be through a Class V, Group 4 underground injection control well which meets all applicable requirements of Chapter 62-528 of the Florida Administrative Code; that the zone of discharge for pH, color, chloride and total dissolved solids is a 50-foot radius from the point of injection for up to 280 days from last injection; that the injection of the products shall be at such a rate and volume that no undesirable migration occurs of the products, their by-products, or the contaminants already present in the aquifer; and that the Department-approved remedial action plans shall address appropriate ground water monitoring requirements associated with the use of the remediation products based on site-specific hydrogeology and conditions.

For a copy of the final orders write or call Cynthia Christen, Department of Environmental Protection, MS 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, telephone (850)921-9610.

The Department of Environmental Protection has taken action on a petition for variance received from BioWorld Biotechnology, Inc., on December 8, 2000. Notice of receipt of this petition was published in the Florida Administrative Weekly on December 29, 2000. No public comment was received. The petition requested a variance from the zone of discharge prohibition for discharges through wells under Rule 62-522.300(3) of the Florida Administrative Code in order to use an in-situ remedial process, Cogen V Plus, for

biodegradation of petroleum hydrocarbons, chlorinated and non-chlorinated hydrocarbons and pesticides in soil and ground water. On February 8, 2001, the Department granted a variance to BioWorld Biotechnology, Inc., in a final order, OGC File No.: 00-2283. The final order granted a variance from the zone of discharge prohibition, and contained conditions. The conditions require that the use of the product must be through a Department-approved remedial action plan or other Department-enforceable document, and that such approval shall not be solely by a delegated program; that the discharge must be through a Class V, Group 4 underground injection control well which meets all applicable requirements of Chapter 62-528 of the Florida Administrative Code; that the extent of the zone of discharge for pH, iron, copper, sulfate, nitrate, nitrite, total dissolved solids, and ammonia is a 35-foot radius from the point of discharge for a duration of 365 days from last injection; that the injection of the product shall be at such a rate and volume that no undesirable migration occurs of the product, its by-products, or the contaminants already present in the aquifer; and that the Department-approved remedial action plan shall address appropriate ground water monitoring requirements associated with the use of the remediation product based on site-specific hydrogeology and conditions, including for sites with pesticide contamination, monitoring for intermediate products from the breakdown of pesticides.

For a copy of the final order write or call: Cynthia Christen, Department of Environmental Protection, MS 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, telephone (850)921-9610.

The Department of Environmental Protection has taken action on a petition for variance received from Partners for a Better Environment, Inc., on December 14, 2000. Notice of receipt of this petition was published in the Florida Administrative Weekly on January 5, 2001. No public comment was received. The petition requested a variance from the zone of discharge prohibition for discharges through wells under Rule 62-522.300(3) of the Florida Administrative Code in order to use an in-situ remedial process, STI Technology, for biodegradation of petroleum hydrocarbons, chlorinated hydrocarbons, and other suitable contaminants in soil and ground water. On February 8, 2001, the Department granted a variance to Partners for a Better Environment, Inc., in a final order, OGC File No.: 00-2311. The final order granted a variance from the zone of discharge prohibition, and contained conditions. The conditions require that the use of the product must be through a Department-approved remedial action plan or other Department-enforceable document, and that such approval shall not be solely by a delegated program; that the discharge must be through a Class V, Group 4 underground injection control well which meets all applicable requirements of Chapter 62-528 of the Florida Administrative Code; that the

extent of the zone of discharge for pH, iron, aluminum, chloride, total nitrogen (nitrate and nitrite), and ammonia is a 35-foot radius from the point of discharge for a duration of 365 days from last injection; that the injection of the product shall be at such a rate and volume that no undesirable migration occurs of the product, its by-products, or the contaminants already present in the aquifer; and that the Department-approved remedial action plan shall address appropriate ground water monitoring requirements associated with the use of the remediation product based on site-specific hydrogeology and conditions.

For a copy of the final order write or call: Cynthia Christen, Department of Environmental Protection, MS 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, telephone (850)921-9610.

NOTICE IS HEREBY GIVEN that the Florida Department of Environmental Protection received, on February 8, 2001, a petition from Enviro-Logical Solutions, Inc., seeking a variance under Section 120.542 of the Florida Statutes from the prohibition from a zone of discharge under rule 62-522.300(3), Florida Administrative Code, for the use of hydrogen peroxide to clean up sites that are contaminated with petroleum. The petition has been assigned File No.: 01-0238-29-UC.

Copies may be received from, and written comments submitted to, Department of Environmental Protection, Underground Injection Control Section, Mail Station 3530, 2600 Blair Stone Road, Twin Towers Office Building, Tallahassee, Florida 3299-2400; Attn: Cathy McCarty. Comments must be received no later than 14 days from the date of publication of this notice.

The Department of Environmental Protection gives notice of its intent to grant a variance, DEP Variance No. 44-0128498-002, to Cabot Properties, Inc., c/o Wisdom Associates, Inc., 517 Camden Avenue, Stuart, Florida 34994, to obtain a waiver of the provisions of Rule 62-312.430(2), Florida Administrative Code, which prohibits the Department from authorizing fuel storage or pumping facilities located on over-water structures within Outstanding Florida Waters in Monroe County. The project is located in Boot Key Harbor, Monroe County, Section 17, Township 66 South, Range 32 East, Class III Outstanding Florida Waters. The application is available for public inspection from 8:00 a.m. – 5:00 p.m., Monday through Friday except for legal holidays, at the Department of Environmental Protection, 2796 Overseas Highway, Suite 221, Marathon, Florida 33050.

The Department will issue the variance unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, Florida Statutes (F.S.), before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

Mediation is not available.

A person whose substantial interests are affected by the Department's action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Because the administrative hearing process is designed to determine final agency action on the application, the filing of a petition for an administrative hearing may result in a modification or denial of the application for variance. If a sufficient petition for an administrative hearing or request for an extension of time to file a petition is timely filed, this variance automatically becomes only proposed agency action, subject to the result of the administrative review process. Accordingly, the applicant is advised not to commence construction or other activities under this variance until the deadlines noted below for filing a petition for an administrative hearing or request for an extension of time have expired.

Under Rule 62-110.106(4), Florida Administrative Code (F.A.C.), a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon. If a request is filed late, the Department may still grant it upon a motion by the requesting party showing that the failure to file a request for an extension of time before the deadline was the result of excusable neglect.

In the event that a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have the right to petition to intervene in the proceeding. Any intervention will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, FAC.

In accordance with Rules 28-106.111(2) and 62-110.106(3)(a)(4), F.A.C., petitions for an administrative hearing by the applicant or any other party must be filed within 21 days of receipt of this written notice. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 21 days of publication of the notice or within 21 days of receipt of the written notice, whichever occurs first.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing

within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S.

A petition that disputes the material facts on which the Department's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action; and
- (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action;
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C. Under Sections 120.569(2)(c) and (d), F.S., a petition for administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This action is final and effective on the date filed with the Clerk of the Department unless a petition is filed in accordance with the above. Upon the timely filing of a petition this order will not be effective until further order of the Department.

NOTICE IS HEREBY GIVEN that the Florida Department of Environmental Protection received, on February 7, 2001, a petition from Mulberry Phosphates, Inc., and a petition from Piney Point Phosphates, Inc., seeking a variance from the financial responsibility requirements under Rule 62-673 of the Florida Administrative Code, and the closure requirements under Rule 62-673.650 of the Florida Administrative Code. The petitions have been assigned OGC case numbers 01-0257 and 01-0258 respectively.

Copies may be received from, and written comments submitted to: Department of Environmental Protection, Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard,

Tallahassee, Florida 32399-3000; Attn: Francine M. Folkes. Comments must be received no later than 14 days from the date of publication of this notice.

NOTICE IS HEREBY GIVEN that the Florida Department of Environmental Protection received on January 12, 2001, a petition from Florida Power and Light Company (FPL) for a variance pursuant to Subsection 120.542(2), F.S. from the toxicity characteristic requirements of the definition of hazardous waste in 40 CFR 261.24(b) (as adopted by reference in Rule 62-730.030(1), F.A.C.), and recognition of the exclusion provided in 40 CFR 261.4(b)(6) (as adopted by reference in Rule 62-730.030(1), F.A.C.) for waste containing chromium which is exclusively (or nearly exclusively) trivalent (as opposed to hexavalent.) The petition has been assigned OGC case number 01-0280 and is initially for the boiler chemical cleanout waste (BCCW) generated at the Riviera Power Plant Boiler Unit #3 located at 200-300 Broadway, Riviera Beach, Florida, and at the Port Everglades Plant Boiler Units #2 and #4 located at 8100 Eisenhower Blvd., Fort Lauderdale, Florida. (FPL plans to add to and update the petition periodically until BCCW from all boiler units at all power plants are covered by the exclusion.)

Copies may be received from, and written comments submitted to: Department of Environmental Protection, Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida, Attn: Agusta Posner. Comments must be received no later than 14 days from the date of publication of this notice.

The Department of Environmental Protection gives notice of its intent to grant a variance (File No. 0158893-003-EV) to the U.S. Army Corps. of Engineers, from 62-4.244(5)(c), F.A.C. to allow a temporary mixing zone for turbidity at a nearshore beach disposal site, extending 150 meters offshore and up to 500 meters down current from the point of discharge. The variance is associated with Permit No. 362809579 and the associated Joint Coastal Permit Modification No. 0158893-002-JC, to dredge approximately 180,000 cubic yards of beach quality and non-beach quality sand from Matanzas Pass, otherwise known as Fort Myers Beach Pass. Non-beach quality material (greater than 10% but less than 20% fines) from this dredging will be placed in the nearshore area (below mean low water) along Ft. Myers Beach. Given the higher content of fine material and the direct discharge into these waters, the permittee has determined that turbidity levels in excess of 29 NTUs above background would be expected to occur occasionally at the edge of the standard 150 meter mixing zone. Non-beach quality material will be placed below MLW, between DNR Range monuments R-178 and R-184. The activity is located in Section 24, Township 16 South,

Range 23 East; and in Section 19, Township 46 South, Range 24 East, within the Gulf of Mexico, Class III waters of the State of Florida.

A person whose substantial interests are affected by the Department's proposed action may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Because the administrative hearing process is designed to redetermine final agency action on the application, the filing of a petition for an administrative hearing may result in a modification of the variance or even a denial of the application. Under Rule 62-110.106(4), Florida Administrative Code, a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon. If a request is filed late, the Department may still grant it upon a motion by the requesting party showing that the failure to file a request for an extension of time before the deadline was the result of excusable neglect.

In the event that a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have the right to petition to intervene in the proceeding. Any intervention will be only at the discretion of the presiding judge upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

In accordance with Rules 28-106.111(2) and 62-110.106(3)(a)(1), F.A.C., petitions for an administrative hearing by the applicant must be filed within 21 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 21 days of publication of the notice or within 21 days of receipt of the written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who has asked the Department for notice of agency action may file a petition within 21 days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing

within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S.

In accordance with Rule 28-106.201, F.A.C., a petition that disputes the material facts on which the Department's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination; (c) A statement of when and how the petitioner received notice of the agency decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate; (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action; and (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C. Under Sections 120.569(2)(c) and (d), F.S., a petition for administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This intent to grant variance constitutes an order of the Department. The applicant has the right to seek judicial review of the order under Section 120.68, F.S., by the filing of a notice of appeal under rule 9.110 of the Florida Rules of Appellate Procedure with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000; and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when the final order is filed with the Clerk of the Department. The applicant, or any party within the meaning of Section 373.114(1)(a), F.S., may also seek appellate review of this order before the Land and Water Adjudicatory Commission under Section 373.114(1), F.S. Requests for review before the Land and Water Adjudicatory Commission must be filed with the Secretary of the Commission and served on the Department within 20 days from the date when the final order is filed with the Clerk of the Department.

The application is available for public inspection during normal business hours, 8:00 a.m. – 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, Office of Beaches and Coastal Systems, 5050 West Tennessee Street, Building B, Tallahassee, Florida 32304-9201.

The Department of Environmental Protection gives Notice of Its Intent to Issue a Variance (File No. VE-36-0128783-001), to CSX Realty Development, L.L.C. (Boca Bay), c/o Jay LaVia, Esq., Landers & Parsons, P.A., Post Office Box 271, Tallahassee, FL 32302-0271, from Rule 62-312.080(7), Florida Administrative Code (F.A.C.), for authorization to construct two flushing culverts in Charlotte Harbor, Class II Waters Conditionally Approved for Shellfish Harvesting. The granting of a Variance does not guarantee the issuance of a permit. The Department file on this matter is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Environmental Protection, 7451 Golf Course Boulevard, Punta Gorda, FL 33982.

A person whose substantial interests are affected by the Department's proposed decision may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), Florida Statutes, must be filed within twenty-one days of publication of the notice or within twenty-one days of receipt of the written notice, whichever occurs first. Under Section 120.60(3), Florida Statutes, however, any person who has asked the Department for notice of agency action may file a petition within twenty-one days of receipt of such notice, regardless of the date of publication. The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition or request for enlargement of time within twenty-one days of receipt of notice shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, Florida Statutes. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, Florida Administrative Code. A petition that disputes the material facts on which the Department's action is based must contain the following information:

- (a) The name, address, and telephone number of each petitioner; the name, address, and telephone number of the petitioner's representative, if any; the Department case identification number and the county in which the subject matter or activity is located;
- (b) A statement of how and when each petitioner received notice of the Department action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department action;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A statement of facts that the petitioner contends warrant reversal or modification of the Department action;
- (f) A concise statement of the ultimate facts alleged, as well as the rules and statutes which entitle the petitioner to relief; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wants the Department to take.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above. Mediation under Section 120.573, Florida Statutes, is not available for this proceeding.

## Section VII Notices of Petitions and Dispositions Regarding Declaratory Statements

### DEPARTMENT OF COMMUNITY AFFAIRS

NOTICE IS HEREBY GIVEN that the Petition for Declaratory Statement received on September 7, 2000, from the Division of State Fire Marshal was withdrawn on October 19, 2000. Notice of receipt of this petition, which was assigned the number DCA00-DEC-276, appeared in the September 22, 2000 edition of the Florida Administrative Weekly.

A copy of the withdrawal may be obtained by writing: Paula P. Ford, Agency Clerk, Department of Community Affairs, 2555 Shumard Oak Boulevard, Tallahassee, Florida 32399-2100.

### DEPARTMENT OF CORRECTIONS

NOTICE IS HEREBY GIVEN that the Department of Corrections has issued a response to a Petition to Initiate Rulemaking from Willie Lee Harper. The Petitioner requested that the Department of Corrections amend or repeal Rule 33-602.302, Florida Administrative Code, to exclude possession by one inmate of legal documents belonging to another inmate. The Petitioner asserts that the rule constitutes an invalid exercise of delegated legislative authority and precludes inmates from assisting each other in the preparation of legal documents.

The Department denied Inmate Harper's Petition to Initiate Rulemaking on the grounds that the argument presented is a rule challenge not properly brought by an inmate. Additionally, the petitioner's position is without merit, since inmates may obtain staff permission to possess legal documents belonging to another inmate. Furthermore, they may obtain assistance in the preparation of legal documents by law clerks and other

inmates without the need for those persons to have possession of the documents. Valid security concerns justify the current rule.

A copy of the Order may be obtained from: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

NOTICE IS HEREBY GIVEN that the Department of Corrections has issued a response to a Petition to Initiate Rulemaking from Willie Lee Harper. The Petitioner requested that the Department of Corrections amend Rules 33-601.803 and 33-601.811, Florida Administrative Code, to allow inmates in close management the same privileges permitted inmates in general population with respect to the canteen, visits, radios, tape players, television and electronic entertainment devices.

The Department denied Inmate Harper's Petition to Initiate Rulemaking on the grounds that adoption of the proposed amendment is not justified. An inmate is placed in close management as the result of behavior that threatens institutional order and security necessitating housing in a secured setting. In this setting, limits are imposed upon items, such as those the Petitioner wishes to have made available to close management inmates, that may be considered a threat to the safety and security of staff and other inmates. These privileges are made available only when the behavior of the inmate improves. No basis to justify amendment of the rules exist.

A copy of the Order may be obtained from: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

NOTICE IS HEREBY GIVEN that the State of Florida, Department of Corrections, received a Petition to Initiate Rulemaking on February 13, 2001 from Douglas Jackson. Petitioner is seeking amendment of Chapter 33, Florida Administrative Code, to require the Department to include uniform rules relating to the storage of prisoners' legal materials.

A copy of the Petition may be obtained by writing: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

NOTICE IS HEREBY GIVEN that the State of Florida, Department of Corrections, received a Petition to Initiate Rulemaking on February 13, 2001 from Douglas Jackson. Petitioner is seeking amendment of Rule 33-501.301, Florida Administrative Code, to require the Department to allow open access to law libraries by general population inmates without the need for inmates to submit an inmate request.

A copy of the Petition may be obtained by writing: Giselle Lylen Rivera, Assistant General Counsel, Department of Corrections, 2601 Blair Stone Road, Tallahassee, Florida 32399-2500.

**DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION**

NOTICE IS HEREBY GIVEN that the Department of Business and Professional Regulation has issued a Declaratory Statement disposing of the Petition for Declaratory Statement filed on November 28, 2000, by Bob L. Harris, Esquire, on behalf of Petitioner N.Y.C. FAME Management Group, Inc. The Petition was first published on December 22, 2000. The Petitioner is seeking the Department's interpretation of Part VII of Chapter 468, Florida Statutes, as it applies to the Petitioner. The following is a summary of the Declaratory Statement which was issued on February 6, 2001: Under the facts as stated in the Petition, licensure as a talent agency under Part VII of Chapter 468, Florida Statutes, is not required.

A copy of the Declaratory Statement is available for public inspection during normal business hours, 8:00 a.m. – 5:00 p.m., Monday through Friday, except legal holidays, at the Department of Business and Professional Regulation, 1940 North Monroe Street, Tallahassee, Florida 32399-0750. Requests for inspection or copies should be made to the Agency Clerk at the above address, with specific reference to DS 2000-023 and Final Order number BPR-2001-00467.

NOTICE IS HEREBY GIVEN that on November 17, 2000 the Electrical Contractors' Licensing Board issued a Declaratory Statement on a petition received from Paul C. Bishop, d/b/a The Bishop Group, Inc.

The Board determined that pursuant to Rule 61G6-7.001, Florida Administrative Code, because fiber is a component of the electrical system, the installation of air blown fiber would require a limited energy license.

A copy of the Petition and Final Order #BPR-2001-00401 may be obtained by writing: Anthony Spivey, Electrical Contractors' Licensing Board, Department of Business and Professional Regulation, Northwood Centre, 1940 N. Monroe Street, Tallahassee, Florida 32399.

**NOTICE TO CONSTRUCTION MANAGERS**

The University of Florida on and behalf of the Board of Regents, a public corporation of the State of Florida, announces that construction management services will be required for the project listed below:

Project No.: BR-189, Project and Location: Proton Therapy Facility at the University of Florida Shands Jacksonville Medical Center. The project consists of The Proton Therapy Facility is programmed to be an 89,800 gross square foot health care facility with two floors dedicated to proton beam patient treatment plus an additional floor for medical research. The estimated construction cost is \$21,573,000.00.

The contract for construction management services will consist of two phases. Phase one is pre-construction services, for which the construction manager will be paid a fixed fee. Phase one services include value engineering, constructability analyses, development of a cost model, estimating and the development of a Guaranteed Maximum Price (GMP) at 50% Construction Document phase. If the GMP is accepted, phase two, the construction phase, will be implemented. In phase two of the contract, the construction manager becomes the single point of responsibility for performance of the construction of the project and shall publicly bid trade contracts, ensuring the inclusion of Minority Business Enterprises (MBEs). Failure to negotiate an acceptable fixed fee for phase one of the contract, or to arrive at an acceptable GMP within the time provided in the agreement may result in the termination of the construction manager's contract. Selection of finalists for interviews will be made on the basis of construction manager qualifications, including experience and ability; past experience; bonding capacity; record-keeping/administrative ability, critical path scheduling expertise; cost estimating; cost control ability; quality control capability; qualification of the firm's personnel, staff and consultants; and ability to meet the minority business enterprise participation requirements. Finalists will be provided with a copy of the building program and the latest documentation prepared by the project architect/engineer, a description of the final interview requirements and a copy of the standard State University System's construction management agreement. The Selection Committee may reject all proposals and stop the selection process at any time. The construction manager shall have no ownership, entrepreneurial or financial affiliation with the selected architect/engineer involved with this project.

Firms desiring to provide construction management services for the project shall submit a letter of application and a completed Board of Regents "Construction Manager Qualifications Supplement." Proposals must not exceed 80 pages, including the Construction Manager Qualifications Supplement and letter of application. Pages must be numbered consecutively. Submittals which do not comply with these requirements or do not include the requested data will not be considered. No submittal material will be returned. All applicants must be licensed to practice as general contractors in the State of Florida at the time of application. Corporations must be registered to operate in the State of Florida by the Department of State, Division of Corporations, at the time of application. As required by Section 287.133, Florida Statutes, a construction management firm may not submit a proposal for

this project if it is on the convicted vendor list for a public entity crime committed within the past 36 months. REQUEST FOR PROPOSAL NO. 00-180  
OPERATION AND MAINTENANCE SERVICES OF  
TRI-RAIL'S COMMUTER RAIL SYSTEM

Tri-County Commuter Rail Authority (Tri-Rail), an agency of the State of Florida, operates a 71 mile commuter railroad with eighteen (18) stations in Miami-Dade, Broward and Palm Beach Counties.

THE PURPOSE: Of this Request for Proposal (RFP) is to enter into an Agreement with a qualified Contractor to provide the operation of Tri-Rail's commuter rail train service, including the maintenance of all rolling stock, stations and facilities. Tri-Rail currently operates 28 trains on weekdays, 14 trains on Saturday, and 12 trains on Sunday, to eighteen (18) stations with a fleet of ten (10) diesel locomotives, fifteen (15) bi-level coaches and eleven (11) bi-level cab cars. Tri-Rail currently maintains its fleet at a facility on the south end of the system at the shared use Hialeah Rail Yard and at a dedicated layover facility in West Palm Beach.

A REQUEST FOR DOCUMENTS: Should be directed to: Mr. Robert Becker, Tri-Rail, 800 N. W. 33rd Street, Suite 100, Pompano Beach, Florida 33064, (954)788-7909. The cost of the solicitation document is Five Hundred Dollars (\$500.00) non-refundable. Checks or money orders made payable to Tri-Rail should be forwarded to Mr. Becker at the address above. Solicitation documents will be available on or about February 27, 2001.

A PRE-PROPOSAL CONFERENCE: Will be held at Tri-Rail's Hialeah Rail Yard facility, 9400 N. W. 37th Avenue, Miami, Florida, March 15, 2001, 10:00 a.m. The purpose of the meeting will be for Tri-Rail to respond to questions from document holders and clarify requirements in an open forum. As part of the Pre-Proposal Conference, Proposers will be given an opportunity to physically inspect portions of the facilities and equipment relating to this project. Attendance is not mandatory but is recommended.

REQUESTS FOR CLARIFICATION: Regarding this RFP must be submitted to Tri-Rail no less than ten calendar (10) days before the proposal due date.

RECEIPT OF SEALED PROPOSALS: All proposals must be received in a sealed envelope no later than 5:00 p.m., May 3, 2001, at the Tri-Rail office, Pompano Beach. All envelopes must bear the Tri-Rail provided label that clearly indicates the PROPOSER'S NAME, RFP NUMBER AND TITLE, AND PROPOSAL DUE DATE.

Tri-Rail reserves the right to postpone, to accept, or reject any and all proposals in whole or in part. All Proposers must certify that they are not on the State of Florida Comptroller General's List of Ineligible Bidders. All proposals must remain in effect for One Hundred Eighty (180) days from the RFP submission due date.

TERM: The contract term shall be for a period of five (5) years commencing on January 7, 2002.

DBE PARTICIPATION: Tri-Rail solicits and encourages Disadvantaged Business Enterprise (DBE) participation. DBEs will be afforded full consideration of their responses and will not be subject to discrimination. Tri-Rail's DBE program goal is 13% of total contract expenditures.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

NOTICE OF AVAILABILITY

FLORIDA FINDING OF NO SIGNIFICANT IMPACT COLLECTION FACILITIES (ELIMINATE SEPTIC TANKS)

The Florida Department of Environmental Protection has determined that the Town of Lady Lake proposed Collection System Facilities Project will not have a significant adverse affect on the environment. The potential amount of the loan is estimated at \$1,579,076. The project is expected to qualify for a State Revolving Fund loan composed of federal and state matching funds.

A full copy of the Florida Finding of No Significant Impact can be obtained by writing: Troy Mullis, Bureau of Water Facilities Funding, Department of Environmental Protection, 2600 Blair Stone Road, MS #3505, Tallahassee, Florida 32399-2400.

NOTICE OF INTENT TO ISSUE PROPOSED MODIFICATION OF POWER PLANT CERTIFICATION

The Florida Department of Environmental Protection (Department) hereby provides notice of an intent to modify Power Plant Certification Conditions issued pursuant to the Florida Electrical Power Plant Siting Act, § 403.501, et seq., Florida Statutes. A Proposed Final Order has been prepared in accordance with Rule 62-17.211(4), F.A.C. concerning:

Tampa Electric Power Company  
Big Bend Station, Unit #4  
Request for Modification of Conditions of Certification  
PA 79-12k  
OGC Case No. 01-0265  
Hillsborough County, Florida

On July 16, 1999, Tampa Electric Company (TEC) filed a request to amend the conditions of certification pursuant to Section 403.516(1)(b), Florida Statutes. TEC requested that the conditions be modified to delete a requirement for operating ambient monitors associated with the Big Bend Station after a review of monitoring results as provided for in Condition I.B.5. On December 23, 1999, the Department amended the permit PSD-FL-040 for Big Bend Station to discontinue the requirement for discontinuing SO<sub>2</sub> ambient monitoring.

A copy of the proposed modification order is available from: Hamilton S. Oven, P. E., Administrator, Siting Coordination Office, Department of Environmental Protection, 2600 Blair Stone Road, M.S. #48, Tallahassee, Florida 32399-2400, (850)487-0472.

POINT OF ENTRY

Pursuant to Section 403.516, F.S. and Rule 62-17.211(5), F.A.C., all parties to the certification proceeding have 45 days from the issuance of this notice by mail to such party's last address of record in which to object to the requested modification. Failure of any of the parties to file a response will constitute a waiver of objection to the requested modification.

Any person who is not already a party to the certification proceeding and whose substantial interest is affected by the requested modification has 30 days from the date of publication of the public notice to object in writing. The written objection must be filed (received) in the Office of General Counsel of the Department, 3900 Commonwealth Boulevard, MS #35, Tallahassee, Florida 32399-3000.

If no objections are received, then a Final Order approving the modification shall be issued by the Department. If objections are raised and agreement cannot be subsequently reached, then pursuant to Section 403.516(1)(c), F.S., the applicant may file a petition for modification seeking approval for those portions of the request for modification to which written objections were timely filed.

Mediation is not available in this proceeding.

DEPARTMENT OF HEALTH

The Department of Health will be submitting a new application to receive federal funds under the Title V, Maternal Child Health Block Grant.

If you wish to make any suggestions or provide input for the Federal Fiscal Year 2002 application and report, please call Bob Peck, (850)245-4444, Ext. 2965, by March 23, 2001.

**FISH AND WILDLIFE CONSERVATION  
COMMISSION**

**NOTICE TO COASTAL LOCAL GOVERNMENTS  
DERELICT VESSEL REMOVAL GRANT PROGRAM  
APPLICATION PERIOD**

The Florida Fish and Wildlife Conservation Commission administers a grant program to reimburse coastal local governments for some of the costs of removing derelict vessels from waters of the State. The grant program is open to any county that borders on the Atlantic Ocean or the Gulf of Mexico, and to any municipality located within such a county.

An abandoned vessel becomes a derelict only after all available means to have the rightful owner remove the vessel have failed. An investigation is conducted by the local Florida Fish and Wildlife Conservation office and can involve court orders requiring the removal. In many cases the attempt to identify the owner is unsuccessful and, after proper notice, the vessel is declared derelict. Only after this declaration is the vessel eligible for removal under this grant program.

Applications will be accepted from March 2, 2001 through April 30, 2001. Applications must be postmarked no later than April 30, 2001 or delivered in person by 5:00 p.m., April 30, 2001. Application packages can be obtained by writing, faxing, or e-mailing:
