

Work Opportunity Tax Credit ES77 Database Instructions

The Work Opportunity Tax Credit (WOTC) ES77 conditional certification data entry panel allows appropriate staff to electronically enter conditional certifications for eligible job seekers who conditionally meet the qualifications for specific WOTC target groups. Once the information is obtained and entered into the ES77 conditional certification data entry panel, the conditional certification is electronically submitted to the Texas Workforce Commission (TWC). Within three to five business days, TWC prints and mails the conditional certification with a cover letter and a blank IRS Form 8850 to the job seeker.

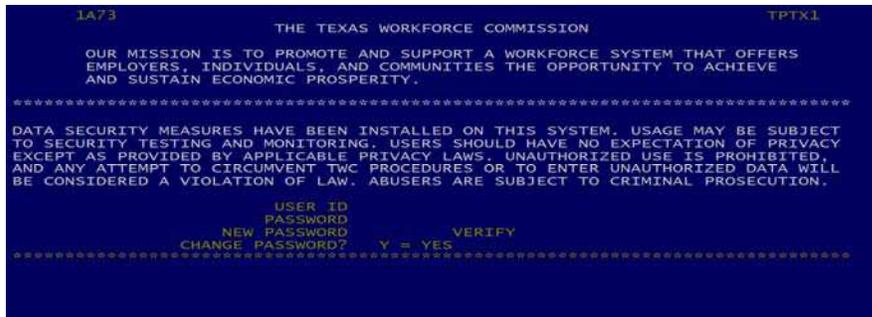

Logging in:

- From your desktop, select TWC's BlueZone *Session1* icon to open the TWC Mainframe system.
- Type *TPTX1* (not case sensitive) and press *Enter*.

- Enter your TWC User ID (the cursor will automatically advance to the password field).

Note: To access the ES77 database, all users must log in using their individually assigned User ID and password. Contact your RACF administrator if you need a User ID and password.

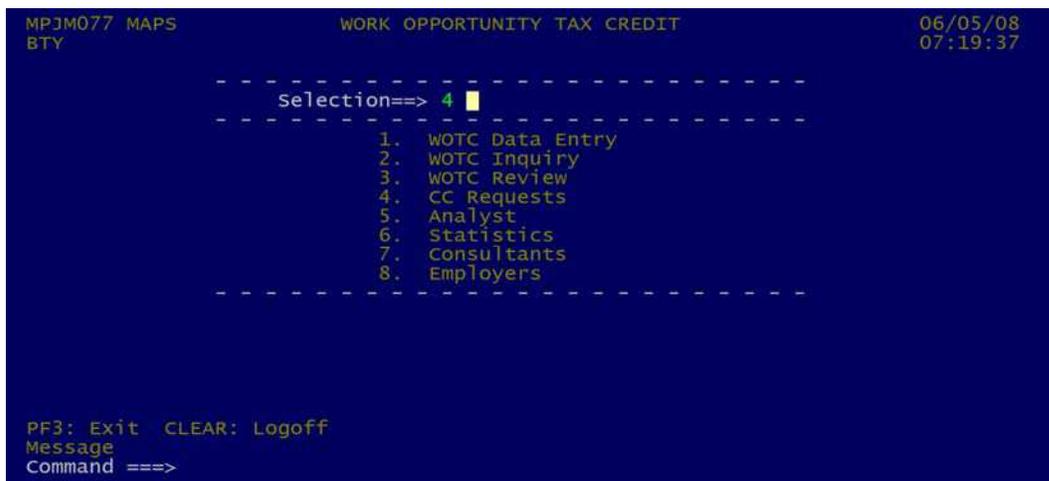

- Type in your password and press *Enter* to open the *Application Selection* screen.

Accessing the ES77 conditional certification data entry panel:

- While holding down the **Shift** key, press the **Tab** key twice to move your cursor to the bottom of the **Application Selection** screen.
- Type **ES77** (not case sensitive) and press **Enter**.

- The ES77 **Work Opportunity Tax Credit** main menu screen will display. There are several items on the main menu; however, the only option that is applicable and accessible for Texas Workforce Center staff is selection **4 – CC Requests**.
- At **Selection**, type **4** and press **Enter**.

- On the next menu screen, type *1* and press *Enter*.

To verify conditional certification eligibility, disabled veterans must provide:

- Form DD-214, which verifies active military service; and
- a U.S. Department of Veterans Affairs rating letter verifying that the job seeker has a service-connected disability rating of at least 10 percent.

The above documentation must be in hand prior to continuing with the WOTC conditional certification.

On the job seeker's DD-214, locate **box 12, Record of Service**. The **Record of Service** will list the year first, then the month, then the day.

Enter all dates as the two-digit month, two-digit day, and two-digit year. The slashes are already displayed in the fields and on the screen.

Field Instructions

E/Dte Enter the date located on **line a** of **box 12** of the DD-214. This is the date the job seeker entered active duty.

R/Dte Enter the date located on **line b** of **box 12** of the DD-214. This is the date the job seeker separated from active duty.

Branch Enter the branch of service located in **box 2** of the DD-214. (A = Army, C = Coast Guard, F = Air Force, M = Marines, N = Navy)

DD214 Enter an **X** to indicate that a copy of the job seeker's DD-214 is on file for this conditional certification.

Rating Letter Enter an **X** to indicate that a copy of the job seeker's rating letter is on file for this conditional certification.

UI Do not enter any information in this field for a disabled veteran conditional certification.

Note: An **X** must be entered in both the **DD214** and **Rating Letter** fields for the disabled veteran conditional certification to be issued.

Press **PF5** to save and submit the conditional certification request to TWC for printing and mailing to the job seeker.

To verify conditional certification eligibility, vocational rehabilitation referrals must provide an Individualized Plan of Employment (IPE). This documentation must be in hand prior to continuing with the WOTC conditional certification.

On the job seeker's IPE, locate:

- the date the IPE was opened or activated;
- the date the IPE was closed, if applicable; and
- the last date the job seeker received vocational rehabilitation services.

Enter all dates as the two-digit month, two-digit day, and two-digit year. The slashes are already displayed in the fields and on the screen.

Field Instructions

A/Dte Enter the date the IPE was opened or activated.

C/Dte Enter the date the IPE was closed.

LS/Dt Enter the date the job seeker last received a vocational rehabilitation service.

IPE Docs Enter an **X** to indicate that a copy of the job seeker's IPE is on file for this conditional certification.

Note: An ***A/Dte***, ***C/Dte***, or ***LS/Dt*** must be entered for the vocational rehabilitation referral conditional certification to be issued. If the date entered is more than two years from the date the conditional certification is being issued, the applicant will NOT qualify for the vocational rehabilitation referrals target group.

To verify conditional certification eligibility, disconnected youth must provide:

- age verification documentation (e.g., driver license, etc.);
- a wages earned statement reflecting less than \$2,827.50. Appropriate staff can verify wages using the Wage Record Interchange System (see Attachment 1 for instructions); and
- a completed ETA Form 9154, Youth Self-Attestation Form, which is provided by appropriate staff and is available at http://www.doleta.gov/business/incentives/opptax/PDF/Youth_Self_Attestation_Form.pdf.

The above documentation must be in hand prior to continuing with the WOTC conditional certification.

Field Instructions

DOB Enter the job seeker's date of birth as the two-digit month, two-digit day, and two-digit year. The slashes are already displayed in the field and on the screen. The job seeker must be between 16 and 24 years of age.

Wages Enter a *Y* if the job seeker's wages earned do not exceed \$2,827.50.

SA Enter a *Y* if the job seeker has completed and signed ETA Form 9154, Youth Self-Attestation Form.

All three fields must be completed as shown above for a disconnected youth conditional certification to be issued.

Press **PF5** to save and submit the conditional certification request to TWC for printing and mailing to the job seeker.

PF Key Function

PF3: Exit Exits the user from the screen and returns to the previous menu.

PF5: Add Used twice for each conditional certification being requested.

1st time—activates a target group column based on the type of conditional certification selected in the *DV/UV*, *Target Group*, or *DY* fields.

2nd time—saves the conditional certification request and submits it to TWC for printing and mailing.

PF11: Refresh Clears the screen and returns the user to the *SSN* field.

PF12: Reset Serves various functions based on how the user's keyboard is mapped. May serve a "print screen" function or a "refresh" function.

Once the user has pressed **PF5** to save and submit the conditional certification, the cursor will return to the *SSN* field for the data entry of another conditional certification. If the user is not requesting another conditional certification, press **PF3** to exit and return to the previous menu. **PF3** will continue to exit back to the initial logon screen.
