2015 Chicago Association of REALTORS® Unfurnished Apartment Lease

IMPORTANT MESSAGE:

The Board of Directors of the Chicago Association of REALTORS® has passed a resolution concerning the acceptance of security deposits (or any other deposits) in lease transactions within the City of Chicago.

It is the policy of the Chicago Association of REALTORS® that some provisions within the Chicago Residential Landlord Tenant Ordinance (CRLTO) are difficult if not impossible for owners of rental properties and agents acting on their behalf to comply with as it subjects the landlord to extraordinary penalties for even the most innocent of errors. Specifically, the mishandling of security deposits or interest payments on those deposits automatically provides penalties in the amount of:

• Two times the security deposit + the return of the original value of the initial security deposit + the properly calculated interest + "reasonable" plaintiff's attorney's fees.

We strongly recommend owners and their agents of ANY residential property including condominiums to consult with an attorney prior to accepting any deposits.

NOTES:

- This lease is date sensitive and is up to date with local, county and state law for 2015. Do not use for subsequent calendar years. The lease will be updated annually.
- The attached lease is in a fillable PDF format to aid in its use.
- The lease must be used in its entirety. The lease including REQUIRED attachments is 21 pages.
- Fill in each blank. If not applicable use "N/A" or in the case of a security deposit use "None".
- Spaces are provided if you as an owner or owners agents insist upon the taking a security deposit.

- **3.** The Rent. Tenant shall pay the Monthly Rent to Lessor or Lessor's agent on the first day of each month as set forth herein.
- **4. Late Fee.** The Monthly Rent shall be automatically increased \$10, plus 5% of the amount by which the Monthly Rent exceeds \$500, as additional rent, if received by Lessor after the 5th of the month for which it is due.
- **5. Returned Bank Items.** If any check or other bank instrument tendered for payment of any tenant obligation hereunder is returned for insufficient funds, Tenant shall pay Lessor a \$_____ fee as additional rent. Lessor shall further have the right to demand that any such returned item be replaced by a cashier's check or money order. If Tenant tenders more than two checks or bank drafts during the term of this Lease which are returned for insufficient funds, Lessor shall have the right to demand that all future obligations hereunder be paid by cashier's check or money order.
- **6. Possession.** Lessor shall deliver possession of the Apartment to Tenant on the Beginning Date of the Lease. If Lessor is unable to deliver possession to Tenant on such date, this Lease shall remain in full force and effect except that the Monthly Rent shall be abated pro rata until possession is delivered, unless Tenant elects to maintain an action for possession of the Apartment or, upon written notice to Lessor, elects to terminate this Lease.
- 7. Security Deposit. (If applicable). Lessor has accepted the Security Deposit to insure Tenant's specific performance of each and every agreement, covenant, rule and obligation contained in this Lease. Lessor shall have the right, but not the obligation, to use the Security Deposit in whole or part, as a setoff against any default, either in payment of rent or other breach, which results in any loss to Lessor. If Tenant has complied with all obligations under this Lease, Lessor shall, within 45 days after Tenant vacates the Apartment, refund the Security Deposit. The Security Deposit shall be held in a Federally Insured interest bearing account in a bank, savings and loan association, or other financial institution located in the State of Illinois. - **8.** Use of Apartment. The Apartment shall be occupied exclusively for residential purposes by Tenant and the other persons specifically listed in the Application and any

children which may be born to or in the legal custody of Tenant during the Lease term. Unless agreed to in writing by the Lessor, no person not listed in the Application may occupy the Apartment for more than a single two week period, during any single year of the Lease term. Neither Tenant nor any person in legal occupancy of the Apartment with the Tenant shall perform nor permit any practice which could cause damage to the reputation of the building or Lessor, be injurious thereto, illegal, immoral, or increase the rate of insurance on the property. At no time during the Term of this Lease shall more persons reside in the Apartment than would be permitted by the applicable building and/or zoning codes for the City of Chicago.

- **9. Tenant Maintenance Obligations.** Tenant shall maintain the Apartment in a clean, presentable and safe condition at all times and in accordance with all health, safety and building code regulations. At the termination of this Lease and upon surrender of the Apartment, all fixtures, appliances and personal property of Lessor shall be in the same condition as they were on the Beginning Date, normal wear and tear excepted. Lessor may at its sole option use all or part of the Security Deposit to repair and/or replace any damage to Lessor's property caused either directly by Tenant or by Tenant's negligence.
- 10. Sublease and Assignment. Tenant shall neither sublease nor assign this Lease without the prior written consent of the Lessor, which shall not be unreasonably withheld. Lessor may require Tenant to enter a formal written sublease or assignment agreement. Any sublease or assignment of this Lease shall not release Tenant from the Tenant's obligation hereunder, until:

- 13. Right of Access to Show Apartment to Prospective Tenants and Purchasers. Lessor shall have the right to show the Apartment to all prospective Tenants and purchasers, and any of Lessor's other invitees, in accordance with local statutes and/or ordinances. Tenant shall not interfere with Lessor's efforts to lease the Apartment or sell the property, and Tenant shall be liable for any damages caused by breach of this provision.
- **14. Holding Over.** Tenant shall be liable for double the Monthly Rent in the event that Tenant retains possession of all or any part of the Apartment after the Ending Date of this Lease, and Lessor may at its sole option, upon written notice to Tenant, create a month to month tenancy between Lessor and Tenant under the same terms and conditions of this Lease, except that Tenant shall be liable for all damages sustained by Lessor, plus costs, and legal fees as allowed by court rules, statutes or ordinances.
- **15. Heat and Water.** If heat is included in the Monthly Rent, Lessor will provide heat at no additional cost to the Tenant during the winter months, at a level prescribed by statute or local ordinance. - **18. Notices.** Any legal notice or demand may be served by tendering it to any person thirteen years old or older residing on or in possession of the Apartment; or by certified mail addressed to the Tenant, return receipt requested; or by posting it upon the Apartment door, if no authorized person under the Lease is in possession of the Apartment.

- 19. Damage or Destruction. If the Apartment or any part of the property is destroyed or damaged to an extent that makes the Apartment uninhabitable, this Lease may be terminated in accordance with applicable statutes or ordinances. In such an event, Lessor does not undertake any covenant to repair or restore the Apartment to a habitable condition.
- **20. Tenant's Personal Property.** Except as provided by applicable law, Lessor shall not be responsible for the loss of any of the Tenant's personal property in the Apartment or any part of the building. Tenant shall obtain insurance sufficient to cover all potential losses.
- 21. Lessor's Title. Tenant shall commit no act which could in any way encumber Lessor's title to the property of which the Apartment forms a part. In the event that Tenant does create any encumbrance against the title, it shall be cured within five days after demand by Lessor. Any encumbrance created by Tenant shall constitute a material breach of this Lease. Tenant shall be liable to Lessor for all costs, damages and legal fees incurred as a result of any breach of this provision, to the extent permitted by statute or local ordinance or, in the absence thereof, as incurred by Lessor.
- **22.** Legal Expenses. Tenant shall be liable for all legal fees and costs incurred by Lessor as a result of Lessor's efforts to enforce any provision of this Lease, to the extent permitted by court rules, statute or local ordinance or, in the absence thereof, as incurred by Lessor.
- 23. Litigation Escrow. In the event that Tenant withholds rent in excess of that allowed by statutes or local ordinance, and Lessor institutes a lawsuit in Forcible Entry and Detainer to regain possession of the Apartment, or in contract to enforce any provision of this Lease, Tenant shall place such excess rent with the Clerk of Circuit Court, pending disposition of the lawsuit.
- **24. Surrender of Possession**. Tenant shall surrender possession of the Apartment and return the keys to the Lessor or Lessor's agent, immediately upon expiration of this Lease, or upon termination due to Tenant's breach.
- **25.** Subordination of Lease/Estoppel. This Lease is subordinate to all mortgages upon the property of which the Apartment forms a part, either in place at the time of Lease execution, or which may be placed upon the property at any time during the term of this Lease. Tenant shall execute any estoppel letter required by any mortgage lender or purchaser of the property, relative to the affirmation of Tenant's Lease status.
- **26. Eminent Domain.** If all or part of the Apartment or the property of which the Apartment forms a part is condemned, expropriated or otherwise regulated by any governmental authority in a manner which would prevent lawful occupancy, this Lease shall be terminated.
- **27. Heirs and Assigns.** All of the promises, covenants and agreements and conditions contained herein shall be binding upon and inure to the benefit of the heirs, executors, administrators, successors and assigns of Lessor and Tenant.
- **28.** Acceptance of Rent after Tenant Breach. Rent accepted by Lessor after Tenant breach will be retained for use and occupancy of the Apartment and shall not serve to extinguish Lessor's rights or remedies hereunto relative to any lawsuit that may be filed or in progress at the time of the Tenant breach.
- **29. Time of the Essence.** Time is of the essence for the payment of rent and the performance of each and every covenant, term, agreement and condition of this Lease, and Tenant shall be held in strict compliance with same.
- **30. Severability.** In the event that any provision, paragraph, rule or covenant contained in this Lease is deemed invalid or unenforceable, all remaining portions of this Lease shall survive and be construed in their entirety.
- 31. Lessor's Remedies. All rights and remedies granted to Lessor hereunder shall be deemed distinct, separate and cumulative and the exercise of one or more thereof shall not waive, extinguish or preclude the exercise of any other right or remedy, unless same is specifically prohibited by court rules, statute or local ordinance. Tenant shall be required to comply strictly with all provisions, covenants and agreements hereunder, and no waiver shall be implied from Lessor's failure to exercise any of its rights or remedies.
- **32. No Additional Energy Draining Devices.** Tenant is prohibited from installing any appliance or device to draw electricity, gas, or any other form of energy from any part of the property other than the Apartment. Tenant shall further not install any devices which are not deemed ordinary household appliances or fixtures.

 - 3) File suit against the landlord for damages and injunctive relief.

Major Defects

 If the landlord fails to maintain the property in compliance with the Code and the failure renders the premises not reasonably fit and habitable, the tenant may request in writing that the landlord make repairs within 14 days. If after 14 days repairs are not made, the tenant may immediately terminate the lease. Tenant must deliver possession and move out in 30 days or tenant's notice is considered withdrawn. (eff. 1-1-92)

FAILURE TO PROVIDE ESSENTIAL SERVICES (HEAT, RUNNING OR HOT WATER, ELECTRICITY, GAS OR PLUMBING) {MUN. CODE CH. 5-12-110(f)}

- If, contrary to the Lease, an essential service is not provided, or if the landlord fails to maintain the building in material compliance with the Code to such an extent that such failure constitutes an immediate danger to the health and safety of the tenant, and the tenant or tenant's family or guests are not responsible for such failure, after giving written notice, the tenant may do ONE of the following:
 - Procure substitute service, and upon presenting paid receipts to the landlord, deduct the cost from the rent; OR
 - File suit against the landlord and recover damages based on the reduced value of the dwelling unit; OR
 - Procure substitute housing and be excused from paying rent for that period. The tenant also may recover from the landlord the cost of

- substitute housing up to an amount equal to the monthly rent for each month or portion thereof; OR
- 4) Request that the landlord correct the failure within 24 hours and if the landlord fails to do so, withhold the monthly rent an amount that reasonably reflects the reduced value of its premises. Rent withholding cannot start until after the 24 hours expires and applies only to days past the 24-hour waiting period: OR (eff. 1-1-92)
- 5) Request that the landlord correct the failure within 72 hours and if the landlord fails to do so, terminate the rental agreement. If the rental agreement is terminated, the tenant must deliver possession and move out within 30 days or the notice of termination is considered withdrawn. (eff. 1-1-92)

NOTE: Remedies 4) and 5) may not be used if the failure is due to the utility provider's failure to provide service. For the purposes of this section only, the notice a tenant provides must be in writing, delivered to the address the landlord has given the tenant as an address to which notices should be sent. If the landlord does not inform the tenant of an address, the tenant may deliver written notice to the last known address of the landlord or by any other reasonable means designed in good faith to provide written notice to the landlord (eff. 1-1-92)

FIRE OR CASUALTY DAMAGE (MUN. CH 5-12-110 9G))

- If a fire damages the unit to an extent that it is in material noncompliance with the Code and the tenant, tenant's family or guests are not responsible for the fire or accident, the tenant may:
- Move out immediately, but if this is done, the tenant must provide written notice to the landlord of the intention to terminate within 14 days after moving out.
- 2) The tenant may stay in the unit, if it is legal, but if the tenant stays and cannot use a portion of the unit because of damage, the rent may be reduced to reflect the reduced value of the unit.
- 3) If the tenant stays, and the landlord fails to diligently carry out the work, the tenant may notify the landlord, in writing, within 14 days after the tenant becomes aware that the work is not being diligently carried out, of the tenant's intention to terminate the rental agreement and move out.

SUBLEASES (MUN. CODE CH. 5-12-120)

- The landlord must accept a reasonable subtenant offered by the tenant without charging additional fees.
- If a tenant moves prior to the end of the rental agreement, the landlord must make a good faith effort to find a new tenant at a fair rent.
- If the landlord is unsuccessful in re-renting the unit, the tenant remains liable for the rent under the rental agreement as well as the landlord's cost of advertising.

WHAT HAPPENS IF A TENANT PAYS RENT LATE? {MUN. CODE CH. 5-12-140 (h)}

 If the tenant fails to pay rent on time, the landlord may charge a late fee of \$10.00 per month on rents under \$500 plus 5 percent per month on that part of the rent that exceeds \$500.00 (i.e. for a \$450 monthly rent the late fee is \$10, for a \$700 monthly rent the late fee is \$10 plus 5% of \$200.00 or \$20.00 total) (eff. 1-1-92)

WHAT HAPPENS IF A TENANT PAYS RENT DUE AFTER THE EXPIRATION OF THE TIME PERIOD SET FORTH IN A TEMINATION NOTICE? {MUN. CODE CH. 5-12-140 (g) CH. 5-12-130(g)}

 If the landlord accepts the rent due knowing that there is a default in payment, the tenant may stay.

LANDLORD REMEDIES (MUN. CODE CH. 5-12-130)

- If the tenant fails to pay rent, the landlord, after giving five days written notice to the tenant, may terminate the rental agreement.
- If the tenant fails to comply with the Code or the rental agreement, the landlord, after giving 10 days written notice to the tenant, may terminate the rental agreement if tenant fails to correct the violation.
- If the tenant fails to comply with the Code or the rental agreement, the landlord may request in writing that the tenant comply as promptly as conditions permit in the case of emergency, or within 14 days. If the breach is not corrected in the time period specified, the landlord may enter the dwelling unit and have the necessary work done. In this case, the tenant shall be responsible for all costs of repairs.

LOCKOUTS (MUN. CODE CH. 5-12-160)

This section applies to every residential rental unit in Chicago. There are no exceptions.

- It is illegal for a landlord to lock out a tenant, or change locks, or remove
 the doors of a rental unit, or cut off heat, utility or water service or to do
 anything which interferes with the tenant's use of the apartment.
- All lockouts are illegal and the Police Department is responsible for enforcement against such illegal activity (eff. 1-1-92)(Police Special Order 93-12)
- The landlord shall be fined \$200 to \$500 for each day the lockout occurs or continues.
- The tenant may sue the landlord to recover possession of the unit and twice the actual damages sustained or two months' rent, whichever is greater

PROHIBITION ON RETALIATORY CONDUCT BY LANDLORD (MUN. CODE CH. 5-12-150)

 A tenant has the right to complain or testify in good faith about their tenancy to governmental agencies or officials, police, media, community groups, tenant unions or the landlord. A landlord is prohibited from retaliating by terminating or threatening to terminate a tenancy, increasing rent, decreasing services, bringing or threatening to bring an eviction action, or refusing to renew a lease agreement.

ATTORNEY'S FEES {MUN. CODE CH. 5-12-180}

 Except in eviction actions, the prevailing plaintiff in any action arising from the application of this Ordinance shall be entitled to recover all court costs and reasonable attorney's fees. (eff. 1-1-92)

Chicago's Residential Landlord and Tenant Ordinance Summary

RATE OF INTEREST ON SECURITY DEPOSITS

An amendment to the Chicago Residential Landlord and Tenant Ordinance requires this separate summary – which describes the rights, obligations, and remedies, and the new rate of security deposit interest, and the rate for each of the prior two years – to be attached to each written rental agreement, or be given to tenants who have an oral agreement. (Effective June 30, 1997)

Municipal Code Chapters 5-12-080, 5-12-081 and 5-12-170

- A landlord must give a tenant a receipt for a security deposit that includes the owner's name, the date it was received and a description of the dwelling unit. The
 receipt must be signed by the person accepting the security deposit.
- A landlord must pay interest each year on security deposits (eff. 11-6-86) and prepaid rent (eff. 1-1-92) held more than six months.
- The rate of interest that a landlord must pay is set each year by the City Comptroller (eff. 7-1-97)
- Before a landlord can deduct expenses for damages from the security deposit, the landlord must provide the tenant with an itemized statement of the damages
 within 30 days of the date the tenant vacates the dwelling unit.
- Within 45 days of the date the tenant vacates the dwelling unit, a landlord must return all security deposit and required interest, if any, minus unpaid rent and expenses for damages.
- In the event of a fire, a landlord must return all security deposit and interest, if any, minus unpaid rent and expenses for damages, within seven days from the date that the tenant provides notice of termination of the rental agreement (eff. 1-1-92).

Under Chapter 5-12 of the Municipal Code of Chicago Sections 5-12-081 and 5-12-082, the City Comptroller shall calculate and announce on the first business day of each year, the rate of interest to be paid on security deposits. Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have **lead-based** paint? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- · How lead gets into the body
- · About health effects of lead
- · What you can do to protect your family
- · Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or leadbased paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

 Read EPA's pamphlet, The Lead-Safe Certified Guide to Renovate Right, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or stateapproved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- · Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children avoid fatty (or high fat) foods and eat nutritious meals high in iron and calcium.
- Remove shoes or wipe soil off shoes before entering your house.

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

 Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

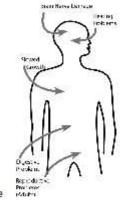

- Nervous system and kidney damage
- Learning disabilities, attention deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- · Poor muscle coordination
- · Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- · Increased chance of high blood pressure during pregnancy
- · Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- · Memory and concentration problems
- Muscle and joint pain

Check Your Family for Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federallyowned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

5

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Deteriorating lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. Lead-based paint may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 40 micrograms per square foot (µg/ft²) and higher for floors, including carpeted floors
- 250 µg/ft² and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

¹ "Lead-based paint" is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm), or more than 0.5% by weight.

² "Lead-containing paint" is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- A lead-based paint inspection tells you if your home has leadbased paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - · Portable x-ray fluorescence (XRF) machine
 - · Lab tests of paint samples
- A risk assessment tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
 - Sample dust near painted surfaces and sample bare soil in the yard
 - Get lab tests of paint, dust, and soil samples
- A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

Checking Your Home for Lead, continued

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call 1-800-424-LEAD (5323) for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8399.

What You Can Do Now to Protect Your Family

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or stateapproved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children avoid fatty (or high fat) foods and eat nutritious meals high in iron and calcium. Children with good diets absorb less lead.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

 In addition to day-to-day cleaning and good nutrition, you can temporarily reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover leadcontaminated soil. These actions are not permanent solutions and will need ongoing attention.

- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or statecertified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement professional. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 40 micrograms per square foot (µg/ft²) for floors, including carpeted floors
- 250 µg/ft² for interior windows sills
- 400 μg/ft2 for window troughs

For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 14 and 15), or visit epa.gov/lead, or call 1-800-424-LEAD. Renovating, Remodeling, or Repairing (RRP) a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, The Lead-Safe Certified Guide to Renovate Right

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- Contain the work area. The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- Avoid renovation methods that generate large amounts of lead-contaminated dust. Some methods generate so much leadcontaminated dust that their use is prohibited. They are:
 - · Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment and
 - Using a heat gun at temperatures greater than 1100°F
- Clean up thoroughly. The work area should be cleaned up daily.
 When all the work is done, the area must be cleaned up using special cleaning methods.
- Dispose of waste properly. Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects visit epa.gov/getleadsafe, or read The Lead-Safe Certified Guide to Renovate Right.

Other Sources of Lead

While paint, dust, and soil are the most common sources of lead, other lead sources also exist:

- Drinking water. Your home might have plumbing with lead or lead solder. You cannot see, smell, or taste lead, and boiling your water will not get rid of lead. If you think your plumbing might contain lead:
 - Use only cold water for drinking and cooking.
 - Run water for 15 to 30 seconds before drinking it, especially if you have not used your water for a few hours.

Call your local health department or water supplier to find out about testing your water, or visit epa.gov/lead for EPA's lead in drinking water information.

- Lead smelters or other industries that release lead into the air.
- Your Job. If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- Hobbies that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- Old toys and furniture may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in lead crystal or lead-glazed pottery or porcelain may contain lead.
- Folk remedies, such as "greta" and "azarcon," used to treat an upset stomach.

- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards.

Bed bugs can be found in homes, apartments, hotels, schools, dormitories, shelters, offices and other places. This brochure provides information on bed bugs and what you should do if you have or suspect you have a bed bug infestation in your apartment. It also describes your rights and responsibilities as a tenant.

Why is this brochure being provided to me?

In 2013, the City of Chicago passed an ordinance to help address the growing problem of bed bugs. This ordinance provides that landlords and tenants share the responsibility in preventing and controlling bed bug infestations. Further, the ordinance requires that landlords provide an informational brochure on bed bugs to tenants. This informational brochure, developed by the Chicago Department of Public Health, is intended to meet this requirement.

What are bed bugs?

Bed bugs are small, flat, wingless insects. They feed on blood and can be a nuisance for individuals. They are named for their tendency to live on mattresses or other parts of a bed

"Adult bad bug actual size.

What do bed bugs look like?

Adult bed bugs are roughly the size, shape and color of an apple seed: 1/4 of an inch in length and light

or reddish-brown in color. Immature forms of bed bugs are smaller and lighter in color. Eggs are tiny and white. You should be able to see the adult form with your naked eye, but may need a magnifying glass to see the immature forms or eggs. Please refer to the website listed at the end of this brochure for pictures of bed bugs.

Where do bed bugs live?

Bed bugs can be found anywhere people sleep, sit or lay down. They can be found on mattresses and box springs, especially near the piping, seams and tags, and in cracks and crevices of head boards and bed frames. They can also be found in other furniture. especially in the seams and zippers of chairs and couches, in the folds of curtains, in drawer joints, in electrical outlets, behind picture frames and in other tight spaces.

How can bed bugs get into an apartment?

Bed bugs can get into an apartment by hitching a ride on mattresses or other bedding, furniture, clothing and baggage. Once in an apartment, they can crawl from one room to another, or get into an adjacent apartment by crawling through small cracks or holes in walls or ceilings or under doors. Because bed bugs do not have wings, they cannot fly into or around your apartment.

What can I do to prevent bed bugs from getting into my apartment?

Bed bugs can be found most anywhere, so ALWAYS be aware of your surroundings. Always check furniture and bedding, especially those bought secondhand, for signs of bed bugs be-

fore you buy them. NEVER bring items that someone else has disposed of into your apartment, as these items may be infested with bed bugs. When returning home from travel within or from outside the U.S., ALWAYS inspect your luggage carefully for signs of bed bugs before you bring the luggage into your apartment.

What else can I do to prevent a bed bug infestation?

Reduce clutter, especially in bedrooms. Store unused items in sealed containers or plastic bags. Wash and dry bedding often. Check beds and furniture for signs of bed bugs. Purchase mattress and box spring covers.

Do bed bugs transmit disease?

No, bed bugs are not known to transmit disease.

Are there other health concerns related to bed bugs?

Yes. Their bites, like those of other insects, may cause an allergic reaction with swelling, redness and itching. Their presence may cause people to be anxious and lose sleep.

How do I know if I have a bed bug infestation in my apartment?

Though bites may be an indicator of a bed bug infestation, they are generally a poor one as not all people will react to bed bug bites or the bites may be due to other reasons. The best indication of an infestation is to look for physical signs of bed bugs such as live or dead bed bugs, eggs or eggshells or tiny dark spots or reddish stains on mattresses or other places where bed bugs live.

What should I do if I suspect there are bed bugs in my apartment? Under this ordinance, tenants MUST call their landlord immediately then follow-up in writing. Tenants SHOULD NOT try to get rid of the bed bugs by applying chemicals, "bug bombs" or pesticides as these do not work and could make you, your family or neighbors sick. Once a tenant has notified the landlord, wait for additional instructions from the landlord and pest management professional. Prompt notification and treatment will help prevent the further spread of bed bugs.

Should I dispose of bedding, clothing or other materials that may be infested?

Disposing of these items is probably not necessary unless directed by a pest management professional. If there are items that do need to be disposed of, do so carefully by sealing them in plastic bags so as to not spread bed bugs further. The ordinance prohibits the recycling of any bed bug infested materials and requires that any bed bug infested materials be totally enclosed in a plastic bag and labeled as being infested with bed bugs when disposed.

What should I do with any linens or clothes that may be infested?

- Wash all linen and other infested materials (including dothing) in hot water, then after drying the clothes, keep them in the dryer and dry for an additional 20 minutes on the highest setting.
- Put un-washable or "dry clean only" materials in the dryer on the highest setting for at least 20 minutes.
- If you have to launder in a common area of the building or at a laundromat, make sure all items are enclosed in a bag before leaving your apartment to prevent the further spread of bed bugs.
- Once all these materials are laundered and dried, seal them in clean bags so bed bugs can't re-infest them.

What are my responsibilities as a tenant under this ordinance?

Tenants have two main responsibilities under this ordinance:

- 1) Notify your landlord within 5 days of suspecting a bed bug infestation;
- Cooperate with the landlord by adhering to the following:

- . Don't interfere with an inspection or with a treatment.
- · Grant access to your apartment for an inspection or a treatment.
- Make the necessary preparations, as instructed by your landlord or a pest management professional, prior to an inspection or a treatment.
- Dispose of any items that a pest management professional has determined can not be treated or cleaned.
- Enclose in a plastic bag any personal property that will be moved through any common area of the building, or stored in any other location.

Are there any exemptions to these tenant responsibilities?

Yes. The ordinance exempts tenants who live in an assisted living or shared housing establishment, or similar living arrangement, where the establishment is required to provide the tenant assistance with activities of daily living or mandatory services. In such cases, the landlord is responsible for making the necessary preparations and removing or disposing of any personal property.

What penalties can a tenant face for not complying with these requirements?

The ordinance allows the city to issue fines to tenants for not complying with these requirements. Fines can go as high as \$2,000 for a third offense. Landlords can not fine tenants.

What are my rights as a tenant under this ordinance?

Landlords can't retaliate against a tenant if the tenant:

- Complains of a bed bug infestation to a governmental agency elected representative or public official charged with responsibility for enforcement of a building, housing, health or similar code.
- Complains of a bed bug infestation to a community organization or to the news-media.
- Seeks the assistance of a community organization or the news-media to remedy a bed bug infestation.
- Asks the landlord to provide pest control measures.
- Testifies in court concerning any bed bug infestation.

What are my landlord's responsibilities under this ordinance?

Landlords have three main responsibilities under this ordinance:

- Educate tenants about bed bugs by providing this brochure when tenants sign a new or renew an existing lease or other rental agreement:
- Notify tenants prior to any inspection or treatment of their apartment for bed bugs and provide instructions for preparing the apartment.
- Get rid of the beg bug infestation by providing pest control services by a pest management professional and paying for this service.

How much time does a landlord have to provide a pest

The ordinance allows landlords up to 10 days to have a pest management professional come to inspect your apartment.

Does the ordinance require any specific type of inspection or treatment?

If bed bugs are in an apartment, there is a chance they may be found in additional apartments in that same building, especially those closest to the apartment with the bed bugs. As a result, the apartments on either side and directly above and below the apartment with the bed bugs need to be inspected and if necessary, treated. Treatment will only occur if bed bugs are found.

Do these requirements apply to condominiums or cooperative building:

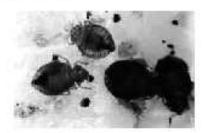

Yes, but only to units that are being rented.

What penalties can a landlord face for not complying with these requirements?

The ordinance allows the city to issue fines to landlords for not complying with these requirements. Fines can go as high as \$2,000 for a third offense.

What should I do if my landlord is not responsive?

If you suspect there are bed bugs in your apartment, call your landlord immediately and follow-up in writing. Give your landlord up to 10 days to have a pest management professional come to inspect your apartment. If your landlord is not responsive, call 311 and file a complaint.
