## School Facilities

### Summary of Most Recent Site Inspection

**County Community School received a rating of 100% on the most recent site inspection using the State of California Facility Inspection Tool. This indicates an overall rating of "Exemplary". An Exemplary rating indicates that a school meets all standards of good repair.**

### Repairs Needed

The District Maintenance and Operations Department continuously utilizes its resources to keep up with vandalism and all repairs to ensure the health and safety of our students.

### Corrective Actions Taken or Planned

School buildings and classrooms are cleaned and maintained on a regular basis by the school's custodians and the district maintenance department. The custodians and Principal walk through the restrooms during the day to assure that they are sanitary and in proper working condition. The Principal walks the site daily to look for hazards and, if found, they are addressed immediately.

# School Accountability Report Card

## Reported Using Data from the 2010–11 School Year

*Published During 2011–12*

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

## I. Data and Access

Ed-Data Partnership Web Site

Ed-Data is a partnership of the CDE, EdSource, and the Fiscal Crisis and Management Assistance Team (FCMAT) that provides extensive financial, demographic, and performance information about California's public kindergarten through grade twelve school districts and schools.

### DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### III. School Climate

#### School Safety Plan (School Year 2010–11)

We have a school safety and security plan that covers school rules, student supervision, visitor policies, evacuation plans, site safety, emergency procedures and disaster preparedness. We review this plan annually with the staff. Opportunity students (students who take a special service program for disadvantaged students) attend Ione Jr. High School and Jackson Jr. High School and have their own safety plans.

#### Suspensions and Expulsions

Level	Total Expenditures Per Pupil	Expenditures Per Pupil (Supplemental / Restricted)	Expenditures Per Pupil (Basic / Unrestricted)	Average Teacher Salary
School Site	\$5,451.00	-0-	\$5,451.00	\$48,606.33

Note: Cells shaded in black do not require data.

**Supplemental/Restricted** expenditures come from money whose use is controlled by law or by a donor. Money that is designated for specific purposes by the district or governing board is not considered restricted. **Basic/unrestricted** expenditures are from money whose use, except for general guidelines, is not controlled by law or by a donor.

For detailed information on school expenditures for all districts in California, see the *CDE Current Expense of Education & Per-pupil Spending* Web page at <http://www.cde.ca.gov/ds/fd/ec/>. For information on teacher salaries for all districts in California, see the *CDE Certificated Salaries & Benefits* Web page at <http://www.cde.ca.gov/ds/fd/cs/>. To look up expenditures and salaries for a specific school district, see the Ed-Data Web site at: <http://www.ed-data.org>.

### Types of Services Funded (Fiscal Year 2010–11)

**Due to the current California fiscal crisis and the categorical funding sweep of 2009, we have no extra programs funded from state and/or federal categorical programs.**

**The State of California is the primary source of funding for Amador County Unified Schools. The district receives general funds for basic operation based on average daily attendance figures (ADA). All student absences, regardless of reason, result in lost funding to the district and therefore, to the individual school site. Excessive absences can seriously affect school site budgets. General fund expenditures include salaries, benefits, books, supplies, equipment purchases, maintenance and repair of**

facilities and equipment, transportation costs and utilities. The principal and school staff decide how to best use a portion of the general fund money for site specific purposes. State and federal programs may designate certain funds for specific purposes.

## IX. Student Performance

### Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- **California Standards Tests (CSTs)**, which include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven.
- **California Modified Assessment (CMA)**, an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in

grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.

- **California Alternate Performance Assessment (CAPA)**, includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, see the CDE STAR Results Web site at <http://star.cde.ca.gov>.

### California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics to compute AYP designations required by the federal ESEA, also known as NCLB.

For detailed information regarding CAHSEE results, see the CDE CAHSEE Web site at <http://cahsee.cde.ca.gov/>.

This table displays by grade level the percent of students meeting the fitness standards for the most recent testing period. For detailed information regarding this test, and comparisons of a school’s test results to the district and state, see the CDE *PFT* Web page at <http://www.cde.ca.gov/ta/tg/pf/>.

## X. Accountability

### Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE *API Web page* at <http://www.cde.ca.gov/ta/ac/ap/>.

### Academic Performance Index Ranks – Three-Year Comparison

This table displays the school’s statewide and similar schools’ API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state.

The **similar schools API rank** reflects how a school compares to 100 statistically matched “similar schools.” A similar schools rank of 1 means that the school’s academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school’s academic performance is better than at least 90 of the 100 similar schools.

API Rank	2008	2009	2010

### Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state’s standards-based assessments in ELA and mathematics
- Percent proficient on the state’s standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

For detailed information about AYP, including participation rates and percent proficient results by student group, see the CDE AYP Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

### Adequate Yearly Progress Overall and by Criteria (School Year 2010–11)

<b>AYP Criteria</b>	<b>School</b>	<b>District</b>
<b>Made AYP Overall</b>	No	No
<b>Met Participation Rate - English-Language Arts</b>	Yes	Yes

<b>Met Percent Proficient - English-Language Arts</b>	No	No
<b>Met Percent Proficient - Mathematics</b>	No	No
<b>Met API Criteria</b>	No	No
<b>Met Graduation Rate</b>	N/A	N/A

### Federal Intervention Program (School Year 2011–12)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE *PI Status Determinations Web* page: <http://www.cde.ca.gov/ta/ac/ay/tidetermine.asp>.

## XI. School Completion and Postsecondary Preparation

### Admission Requirements for California’s Public Universities

#### University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work.

For general admissions requirements, please visit the *UC Admissions Information Web* page at <http://www.universityofcalifornia.edu/admissions/>. (Outside source)

#### California State University

Eligibility for admission to the California State University (CSU) is determined by three factors:

- Specific high school courses
- Grades in specified courses and test scores
- Graduation from high school

Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information see the *CSU Web page at <http://www.calstate.edu/admission/admission.shtml>*. (Outside source)
