EXPATAX

TERMS AND CONDITIONS

Dear Valued Client,

Expatax will prepare your Dutch tax return and/or other professional work as you shall direct from time to time during the life of this agreement.

The steps for exchanging information, providing finished product and payment terms are mentioned below.

- Complete this questionnaire.
- Send this questionnaire together with copies of the required documents to one of the offices listed on the bottom of each page. You can also make an appointment for a personal meeting (in that case, send us the page with your personal details).
- Send us a copy of your identity paper, for example passport or residence permit. Based on new rules as of June 1st 2003 every tax advisor or accountant must identify the client before any work is done.
- If necessary we will arrange a time extension for the tax return. We can use a special ruling with the tax office which allows us to get a time extension for every income tax return until March 1st of the next year. For the tax return for 2004 this will then be March 1st 2006.
- We will prepare your tax return based on the information provided by you. The more information you provide (even if you are not sure if it is relevant) the sooner we can complete your tax return.
- The tax return will be sent to you. You and your partner (if necessary) sign the tax return and then send it to the appropriate tax office. You will also receive a copy of the tax return together with a fiscal report or tax calculation for your own administration.
- After we have sent you the tax return we will send you our invoice.

SPECIFIC TERMS - In the case of compliance engagements (including tax preparation services), you agree to provide us with complete and adequate information as required by law on a timely basis. We will rely on your source documents and other third party source documents in determining the tax and character and treatment of a given transaction. You represent there is adequate substantiation to support deductions for any expenses claimed on this return. We prepare tax returns with the objective of having our clients pay the least possible tax while complying with the law.

We will file extensions as we judge necessary to avoid any reasonable chance of failing to comply with filing deadlines should information needed to complete a return not be received by us with adequate (in our sole judgment) time for careful preparation. Fees for return preparations are based on complexity, i.e. which

forms are necessary. In exceptionally complex returns (not foreseen for this engagement), additional required time and professional risk factors may be charged for, but prior notice must first be given to you by us, before actually incurring such work.

GENERAL TERMS - All work is performed on a best efforts basis, with no guarantee of outcome. We accept no responsibility for any inability or failure to spot any given problem before its occurrence, nor do we assume any financial obligation to you as a result of any future outcome arising from this engagement.
