

DONATION FORM

The **Emily Fund** is now a charity registered under the "Income Tax Act" (85723-761-RR0001). This means we can now issue income tax receipts for all donations. The fund raises money to purchase insulin pumps for children and youths suffering from type one diabetes. The current cost of a pump is \$6,500 - \$7,000. As enough money is raised to purchase each pump, it will be donated to the Diabetes Clinic, IWK Health Centre who will ensure it goes to a qualified recipient who would not otherwise be able to receive it. **Every gift is so important.** We appreciate every helping hand.

Emily Clarke

The fund is named after Emily Clarke whose grandfather, the late Bill Jesso, started a fund to purchase her a pump. Emily was diagnosed with type one diabetes at the age of four. Today she enjoys a normal life thanks to the pump, which is the size of a pager. It controls her insulin intake so that she does not need to take numerous daily injections.

Your Emily Fund gift will help children and youth living with diabetes....

Mr. Mrs. Ms. Miss Dr.
