

The Chesapeake Region Chapter of the
Community Associations Institute (CAI) is hosting

Aging in America ARE YOU READY FOR BOOMER SHOCK?

A Must-Attend for Managers & Board Members and Homeowners!

Hear from a panel of experts including the author
of "Boomer Shock," Ellen Hirsch de Haan, Esq.

2011 is the year Baby Boomers will begin retiring and
the demographic face of America will change. These
prospective changes have given rise to a general concern about the
social, economic and physical "health" of our nation's population.

Community associations should
be equally concerned about how
these changes will affect the
social and economic health of
their associations.

This program is intended to get
community association boards,
managers and professionals to
think about—perhaps even worry
about—the inevitable, and then

to actively prepare for it. This
CAI/CRC program will provide
attendees with the resources
to help communities begin the
process and establish a plan of
action.

General Session—Panel of Presenters

Ellen Hirsch de Haan, Esq.
Becker & Poliakoff, P.A.

The anticipated demographic changes in our population have given rise to a general concern about the social, economic, and physical 'health' of our nation's population. Although none of these changes may be new to community associations, when they affect or involve an aging population, they take on new dimensions that challenge association leaders to envision entirely new models, new approaches and new solutions. Ms. de Haan believes that these shouldn't be insurmountable and that in recognizing the situation and working on those new approaches now, we will help associations prepare for what's ahead.

Michael LaChance

Legislative Liaison, Maryland Department of Aging

"Aging in Place"—Transportation and housing to meet the needs of the growing, aging population. Mr. LaChance has worked in the field of aging services for over three decades. He will share the state's "game plan" for addressing the anticipated shortage of senior-oriented housing and transportation in the years to come.

PFC Holly Burnham & Lila Bore
