"Therapeutic Metaphors for Children and the Child Within"

10 Seats available

StoryPlay® >>>

...is a multi-cultural, resiliency-based, *in-directive* Play Therapy model that draws upon the natural inner resources, skills, and strengths of each child, adolescent, adult or family member to generate healing, growth, and change. StoryPlay® Therapy is founded upon the principles of Milton H. Erickson, Indigenous teachings, and the innovative approaches of healer and therapist Dr. Joyce Mills. With the power and spirit of therapeutic storytelling and play at its center, each element of the StoryPlay® approach provides participants with play therapy, hands-on, creative tools for working with difficult or traumatized clients using their favored treatment modality or philosophy; to include sand tray, music, expressive arts, etc. Additionally, the approaches encompassed within the StoryPlay® model can be applied in a variety of settings; i.e., individual, family, group, classroom, and hospital.

"Experiencing training with StoryPlay® Facilitator Stephanie Holloway will open the windows to your heart and create new pathways to your work. Stephanie's gifts of experience and insightful care are evident to all who know her...especially me."
