DISCUSSION

In response to a State, California Emergency Management Agency, Request for Applications to U.S. Attorney grant recipients, the LAPD submitted the attached application for the 2010-2011 PSN Grant Program. The LAPD has been awarded \$42,000 in funds for the period of October 1, 2010 to September 30, 2011.

In 2009, LAPD's Rampart Area, along with representatives from the Offices of the Mayor, City and District Attorneys, Probation, and its community partners Aztecs Rising, El Centro del Pueblo, People Assisting the Homeless, Walden House, and Dream Center/Catholic Charities, launched the Community Re-Entry Outreach Program (CROP), due to the anticipation and consequences of the early release of parolees to an already volatile and gang infested community.

The Rampart collaborative, consisting of Rampart supervisors, will coordinate across all partner non-profit organizations and work collectively with the intervention and prevention programs to focus on additional strategies and enforcement issues that have been identified with respect to the early release of Non-Revocable Parolees (NRP) within the community. The intent of CROP is to 1) Identify prison inmates to be released into the Rampart community; 2) Conduct early outreach to triage their needs; 3) Attempt to place them into programs that will support their needs as they re-enter society; 4) Provide stable conditions of NRP's re-entry into the community from prison; and, 5) Facilitate growth into being productive community members.

The grant will fund overtime for approximately 23 details consisting of Rampart Gang Impact Team supervisors and officers whose focus will be to make physical contact with prison inmates who are released within Rampart Area, conduct gang enforcement roll-backs on inmates who are identified as gang members, conduct outreach to prison inmates to provide them with a list of available services once they are released into Rampart Area, and to reduce gang crime in Rampart Area.

The Honorable Board of Police Commissioners

The total cost associated with the PSN Grant funding for the Department to implement the additional intervention/enforcement strategy is \$42,000. The funds will supplement CROP's current efforts in this area.

Project Narrative

Problem Statement

The City of Los Angeles (City) is the “gang capital” of the nation. There are more than 450 diverse gangs throughout the City and an association of approximately 80,000 gang members. Despite historically low gang crime rates and crime rates overall, certain areas of the City still experience unacceptable levels of gang violence and crime. To prevent escalation of these violent crimes in these areas, the City needs a specialized strategy that maximizes both enforcement resources as well as prevention and intervention resources, through coordination and improved communication, particularly, with incidents involving gang related criminal activity.

Rampart Division, the densest populated geographic area in the City, and MacArthur Park are known for its presence of numerous gangs and extremely violent criminal gang activity. Within the less than seven square miles of Rampart Division, there are 23 documented violent turf gangs. The close proximity of these gangs has proven to lead to violence without any pattern. In Rampart Division, the two most notorious and publicized gangs throughout the nation are the Mara Salvatrucha (MS) and 18th Street gangs. Both gangs were established in Rampart Division.

In 2009 and 2010, the Los Angeles Police Department (LAPD) ranked MS and 18th Street as the second and third top targeted gangs in Los Angeles due to their violent criminal activity. There were over 300 violent crimes associated with MS and over 250 violent crimes associated with 18th Street. The LAPD also ranked MS number one in assaults on police officers. In Los Angeles County (County), 18th Street is considered the largest gang with estimations of 25,000 members and an additional 30,000 gang members worldwide. There are numerous cliques throughout the County, the largest of them being located within Rampart Division.

Applicant: City of Los Angeles/LAPD

Grant Number: _____

Rampart Division has had a steady decline in these violent crimes through continuous cooperation of numerous outside agencies, the Rampart Community and the diligent work of the Rampart police officers. The Project Safe Neighborhoods Grant would assist in the continued reduction of violent crimes in the Rampart Area. In 2009, Rampart Division had documented 1,346 violent crimes, which included homicide, rape, robbery and aggravated assaults. There were 65 shooting victims and 122 documented shots fired incidents. Rampart had 188 firearm seizures and 112 of them related to weapons arrests. In 2010, through June, Rampart Division has had 619 Violent Crimes, including 37 shooting victims and 90 shots fired incidents. In addition, Rampart had 97 firearm seizures and 75 of them related to weapons arrests.

Furthermore, Rampart Division has been concerned with the early release of Non-Revocable Parolees (NRP) within the community, as well as changes to parole and rehabilitation programs. The anticipation and consequences of the early release of these parolees to an already volatile and gang infested community has prompted Rampart Division, along with its community partners, to launch the Community Re-Entry Outreach Program (CROP) in November 2009.

Plan

The Rampart collaborative, consisting of Rampart Law Enforcement Supervisors working collectively with intervention and prevention programs, identified a need for additional strategies and enforcement to assist in the re-entry of NRP and to assist parolees released in the Rampart Community.

The overall intent of CROP is to:

- Identify prison inmates to be released into the Rampart Community.
- Conduct early outreach to triage their needs.

Applicant: City of Los Angeles/LAPD

Grant Number: _____

- Attempt to place them into programs that will support their needs as they re-enter society.
- Provide stable conditions of NRPs re-entering the community from prison.
- Facilitate growth into being productive community members.

Rather than allow NRPs to re-enter the community and be susceptible to the surrounding gang and criminal element, CROP identifies persons to be released and conducts early outreach to triage their needs to place them into programs that will support their needs.

Current members of the Rampart CROP collective consist of the representatives from the Offices of the Mayor, City Attorney, District Attorney, Probation, Aztecs Rising, El Centro del Pueblo, People Assisting the Homeless (PATH), Walden House, Catholic Charities and California Parole. CROP is a new pilot program that community members are also showing an interest in joining. CROP utilizes outreach, triage outsource and alternatives as the foundations of the program. Since gang intervention and prevention go hand in hand with re-entry, existing gang prevention providers are essential to this new program.

Once a month the joint outreach team consisting of Rampart gang Detectives, Aztecs Rising, and California Parole attend the Mid City Parole Orientation Meeting. At this meeting, the team performs the following: 1) interviews persons just released from prison, 2) identifies persons scheduled to be released from prison the next month, 3) conducts a screen to assess needs and offer assistance to persons just released, and 4) attempts to contact and assess the needs of persons scheduled to be released. The Program is voluntary and those persons refusing help from the community are documented for possible future reference.

The outreach joint team reports to the Rampart CROP collective the week following the Mid City Parole Orientation Meeting. This meeting is once-a-month and the

Applicant: City of Los Angeles/LAPD

Grant Number: _____

team briefs the collective on each person to be released and identifies any needs. CROP attempts to identify an organization willing to provide resources, such as housing, job training, or drug rehabilitation. A briefing is also conducted for the individuals who refuse to accept assistance in order to commence closer law enforcement monitoring.

The Rampart Violent Crime Impact Team (VCIT) recently launched the "Parolee Index System," which tracks parolees within the Rampart Division. The Parolee Index System is an excel spreadsheet that tracks parolees based on name, descriptors, Criminal Investigation and Identification (CII) number, California Department of Corrections and Rehabilitation (CDC) number, home address and Reporting District (RD) and parole offense. Armed with this information we can track and monitor crimes that happen in that particular area and check it against the parolees who reside in that area for enforcement action. The grant award will greatly assist Rampart Gang Detectives and uniformed gang officers with enforcement by allowing officers to conduct more parole and probation compliance checks and monitor repeat offenders in the Rampart area.

The Community Law Enforcement and Recovery (CLEAR) Program specifies and targets the gangs around MacArthur Park. The Rampart Special Problems Unit (SPU) and the Career Criminal Unit will work with CLEAR to enhance the quality of life issues within the CLEAR zone. The Project Safe Neighborhood Grant funding will further ensure the safety of the community, specifically around MacArthur Park.

Rampart's enforcement collaborative is to reduce the temptation by the surrounding gangs to enjoin the parolee in criminal activity. Rampart will document the guns, gang members, parolees, and arrests in the immediate area of the person requiring assistance. In addition, Rampart will document the decrease in crime in the area where the CROP collective has operated. Those who fall out of the program will be de-briefed. This de-brief will ascertain if the failure was due to the program, certain

Applicant: City of Los Angeles/LAPD

Grant Number: _____

elements of the Program and/or the individuals' requiring the assistance own lack of initiative. Each month an evaluation will take place of each individual who is participating to determine their status. In addition, the Rampart Division Gang Impact Team will: track all individuals (parolees) who are released in the Rampart area; track the briefing sessions; identify and track those who refuse assistance; identify and track the individuals that request assistance; maintain data for those who are referred for specific assistance, and their successes/failures. Based on the culmination of tracked and maintained data, a determination will be made if there is a need to make any improvements to the program, or if necessary, change the strategy to assist the participating individuals to make a successful transition to the community.

During the project performance period, the LAPD will adhere to the following objectives and activities issued by the Department of Justice-Bureau of Justice

Assistance:

OBJECTIVE 1:

To create safer neighborhoods by reducing gun violence, gun crime and sustaining that reduction.

Performance Measures –

- Percentage of targeted PSN sites reporting a reduction over the previous year in the number of homicides with a firearm.
- Percentage of targeted PSN sites reporting a reduction in the number of combined homicides, aggravated assaults, and robberies committed with a firearm.

The LAPD will report on the following data quarterly:

- Number of homicides with a firearm experienced during the current reporting period within the targeted PSN site.

Applicant: City of Los Angeles/LAPD

Grant Number: _____

- Number of combined aggravated assaults, and robberies that are committed with a firearm during the current reporting period within the targeted PSN site.

OBJECTIVE 2:

Reduce the occurrence of violent gang-related incidents through both reactive and proactive efforts supported by enforcement planning coordinated with federal, state, and local law enforcement and informed by data and real-time intelligence.

Performance Measures –

- The percentage of combined homicides, aggravated assaults, and robberies that are gang-related.

The LAPD will report on the following data quarterly for this objective:

- The total number of gang-related homicides that occurred during the current reporting period.
- The total number of gang-related aggravated assaults that occurred during the current reporting period.
- The total number of gang-related robberies that occurred during the current reporting period.
- The total number (gang-related and non gang-related) of homicides, aggravated assaults and robberies that occurred during the current reporting period.

OBJECTIVE 3:

Reduce the occurrence of youth gang-related incidents and increase positive outcomes for youth at high risk for gang involvement through targeted, evidenced-based gang prevention.

Applicant: City of Los Angeles/LAPD

Grant Number: _____

Performance Measures –

- The percentage of youth completing Program requirements.

The LAPD will report on the following data quarterly for this objective:

- The total number of youth participating in the Program during the current reporting period.
- The total number of youth that completed the Program during the current reporting period.
- The total number of youth that exited the Program during the current reporting period without completing the Program.

CROP provides alternatives to individuals released from prison, the community and law enforcement. For the individuals released from prison it demonstrates that the community is interested in their welfare and willing to help. It offers stability, transition and an alternative to criminality even when state funding for these programs is limited. Ultimately, the individual is given the choice by his own community to either accept help or reject it. For those individuals agreeing to accept help, alternatives to prosecution for minor transgressions will be provided by the City Attorney and District Attorney. For gang members who volunteer to enter the program, assistance from law enforcement and the City Attorney's Office will be provided to remove the person from a gang injunction.

Alternatives to the community and law enforcement are multiplied. For the community CROP offers the opportunity and alternatives to persons re-entering the community in a budget austere environment. For law enforcement it provides alternatives to costly prosecution only models. It also provides a pre-emptive model to

shield the community from increased crime by identifying violent offenders unwilling to reform in order to allow closer and early law enforcement monitoring.

**PROJECT SAFE NEIGHBORHOODS PROGRAM
Fiscal Year 2010/2011**

The Los Angeles Police Department (LAPD) budget for the 2010-2011 Project Safe Neighborhoods Grant will be utilized by the Department's Rampart Area, Gang Impact Team (GIT). The grant funding will be utilized in conjunction with the Community Re-Entry Outreach Program (CROP) to satisfy four requirements identified by the GIT Officer in Charge as follows:

- 1) Make physical contact with prison inmates that are released within the Rampart Area.
- 2) Conduct gang enforcement roll-backs on inmates that are identified as gang members¹.
- 3) Conduct outreach to prison inmates and provide them with a list of available services once they are released into the Rampart Area.
- 4) Reduce gang crime in the Rampart Area.

Personnel Services

The LAPD will utilize a total of \$42,000 for personnel services. Specifically, the grant will fund overtime for one sworn supervisor, at the rank of either a Lieutenant I, Sergeant I or II, and six Police Officers III or II, who are assigned to the Rampart Area Gang Impact Team. They will be assigned to details whose primary responsibility will be to perform the four areas outlined above. The grant will fund approximately 23 details. Each detail will include one supervisor calculated at \$80 x 4 hours, totaling \$320, and six police officers calculated at \$63 x 4 hours, totaling \$1,512. The total cost of each detail is \$1,832. The total cost associated with the Project Safe Neighborhoods Grant funding for the Department to implement the intervention/suppression strategy is \$42,000.

¹ Gang members that are on parole or probation and have search conditions. Gang Enforcement Detail (GED) will verify the search conditions and conduct roll-backs to the gang members residence in search of illegal activity.

7. PROGRAM DESCRIPTION

The City of Los Angeles (City) is the "gang capital" of the nation and with more than 450 diverse gangs throughout the City and an association of approximately 80,000 gang members; the City has been entrenched with gang violence. Despite historically low gang crime rates and crime rates overall, certain areas of the City still experience unacceptable levels of gang violence and crime. To prevent escalation of these violent crimes in these areas, the City needs a specialized strategy that maximizes both enforcement resources as well as prevention and intervention resources through coordination and improved communication, particularly with incidents involving gang related criminal activity. Rampart launched the Community Re-Entry Outreach Program (CROP) in 2009.

8. PROBLEM STATEMENT

The Rampart collaborative, consisting of Rampart Law Enforcement Supervisors working collectively with intervention and prevention programs, identified a need for additional strategies and enforcement to assist in the re-entry of Non-Revocable Parolee (NRP) and to assist parolees released in the Rampart community.

The overall intent of CROP is to:

- Identify prison inmates to be released into the Rampart community.
- Conduct early outreach to triage their needs.
- Attempt to place them into programs that will support their needs as they re-enter society.
- Provide stable conditions of NRPs re-entering the community from prison.
- Facilitate growth into being productive community members.

Rather than allow NRPs to re-enter the community and be susceptible to the gang and criminal element surrounding them, CROP identifies persons to be released and conducts early outreach to triage their needs and attempt to place them into programs that will support their needs.

9. OBJECTIVES

CROP provides alternatives to individuals released from prison, the community and law enforcement. For the individuals released from prison it demonstrates that the community is interested in their welfare and willing to help. It offers stability, transition and an alternative to criminality even when state funding for these programs is limited. Ultimately, the individual is given the choice by his own community to either accept help or reject it. For those individuals agreeing to accept help, alternatives to prosecution for minor transgressions will be provided by the City Attorney and District Attorney. For gang members who volunteer to enter the program, assistance from law enforcement and the City Attorney's Office will be provided to remove the person from a gang injunction.

Alternatives to the community and law enforcement are multiplied. For the community CROP offers the opportunity and alternatives to persons re-entering the community in a budget austere environment. For law enforcement it provides alternatives to costly prosecution only models. It also provides a pre-emptive model to shield the community from increased crime by identifying violent offenders unwilling to reform in order to allow closer and early law enforcement monitoring. Additionally, for those persons who refuse assistance, their refusal to accept assistance will be maintained on file. This refusal will then be submitted to the court to ensure criminal filing, refute necessity defenses and increase prison sentences.

Rampart's enforcement collaborative is to reduce the temptation by the surrounding gangs to enjoin the parolee in criminal activity. Rampart will document the guns, gang members, parolees, and arrests in the immediate area of the person requiring assistance. In addition, Rampart will document the decrease in crime in the area where the CROP collective has operated.

Those who fall out of the program will be de-briefed. This de-brief will ascertain if the failure was due to the program, certain elements of the program and/or the individual's requiring the assistance own lack of initiative.

In addition, the Rampart Division Gang Impact Team will: track all individuals (parolees) who are released in the Rampart Area; track the briefing sessions; identify and track those who refuse assistance; identify and track the individuals that request assistance; maintain data for those who are referred for specific assistance, and their successes/failures. Based on the culmination of tracked and maintained data, a determination will be made if there is a need to make any improvements to the program, or if necessary, change the strategy to assist the participating individuals to make a successful transition to the community.

10. ACTIVITIES

The Rampart Violent Crime Impact Team (VCIT) recently launched the "Parolee Index System," which tracks parolees within the Rampart Division. The Parolee Index System is an excel spread sheet that tracks parolees based on name, descriptors, Criminal Investigation and Identification (CII) number, California Department of Corrections and Rehabilitation (CDC) number, the home address and Reporting District (RD) of the parolee. Armed with this information we can track and monitor crimes that happen in that particular area and check it against the parolees who reside in that area for enforcement action. The 2010 Project Safe Neighborhoods Program Grant would greatly assist Rampart Gang Detectives and uniformed gang officers with the enforcement side by allowing them to conduct more parole and probation compliance checks and by monitoring repeat offenders in the Rampart area.

The Community Law Enforcement and Recovery (CLEAR) Program specifies and targets the gangs around MacArthur Park. The new vending unit, Special Problems Unit (SPU) is up and running as well as the Career Criminal Unit. CLEAR works with the units to enhance the quality of life issues within the CLEAR zone. The Project Safe Neighborhoods Grant would ensure the safety of the community, specifically around MacArthur Park.

Rampart Division has had a steady decline in violent crimes through continuous cooperation with numerous outside agencies, the Rampart community and the diligent work of the Rampart officers. The Project Safe Neighborhoods Grant would assist in the continued reduction of violent crimes in the Rampart area. In 2009, Rampart Division documented 1,346 violent crimes, which include homicides, rapes, robberies and aggravated assaults. With that, there were 65 shooting victims and 122 documented shots fired. Rampart had 188 firearm seizures and 112 of them related to weapons arrests. In 2010, through June, Rampart Division has had 619 violent crimes. There has been 37 shooting victims and ninety shots fired. Rampart had 97 firearm seizures—75 of those related to weapons arrests.

This MOU, in and of itself, does not result in the commitment, obligation, or transfer of funds or other financial obligations between the parties hereto. Prior to the disbursement of any grant funds given to the LAPD to fund the operations of any of the parties hereto in connection with the project set forth in this MOU, such party shall enter into a contract with the City of Los Angeles ("City") setting forth the services to be provided by such party and the assurances and obligations of the parties with respect to the use of such grant funds so disbursed.

II. Mission of the CROP

The mission of CROP is to provide alternatives to individuals released from prison, the community, and law enforcement.
