EDMONTON

Electrical Design Services for Fire Alarm Upgrades - RFP 2012-0128

Due: 2:00 p.m., September 18, 2012

Owner: University of Alberta, 3rd Floor, Material Management Building, 116 St. and 85 Ave., Edmonton, AB T6G 2R3. Phone: (780) 492-2250; Fax: (780) 492-0607. Contact: Brian Deines. Email: brian.deines@ualberta.ca

Details: The University of Alberta (the University) is inviting electrical design consultants with demonstrated experience in design of fire alarm upgrade projects that involve multiple facilities in a cascading operational mode. The U of A is in initial stages of the Physical Activity and Wellness Centre (PAW) construction program. This project has direct impact on the adjacent facilities which has resulted in a need for a design of a one building fire alarm system solution which will include the following: Van Vliet Centre, Clare Drake Arena, Universiade Pavilion, Physical Education East, University Hall as well as provide direct interface with the new PAW facility. The upgraded fire alarm systems for all facilities are to follow University design guidelines for fire alarm system and include connection and operation to the University mass notification system. The University has a trade's team (Life Safety) that will be actively involved in the review of the design of the project and participate in site inspections during construction as well as the final verification process.

VERMILION

Gymnasium Heating and Ventilation Upgrade - Sol. No. 2013-01-3308-FOM-12IMP0004-002

Due: 1:00 p.m., September 19, 2012

Owner: Lakeland College, Capital Projects, 5707 College Dr., Vermilion, AB T9X 1K5. Phone: (780) 871-5763. Attn: Jeff Dustow. Email: jeff.dustow@lakelandcollege.ca

Details: Gymnasium heating and ventilation upgrade: The Vermilion recreation facility phase 1 was constructed in 1978. The gymnasium space is presently heated with ceiling mounted makeup air units and the units have surpassed a useful life span. The scope of this project is to remove the existing systems and upgrade to a new design.

Proposals received by: Owner

Doc's from: Alberta Purchasing Connection (www.purchasingconnection.ca).

CALGARY

Request for Proposal - Rooftop HVAC Unit and Roof Replacements - 12-1687

Due: 4:00 p.m., September 20, 2012

Owner: City of Calgary, Finance & Supply #8140, 2nd Floor, Building U, 677 - 25 Ave. SE, Calgary, AB T2G 4K8. Phone: (403) 268-4333; Fax: (403) 268-5523. Contact: Dean Kolundzic. Email: dean.kolundzic@calgary.ca

Details: Disconnection and removal of existing roof top units and supply and install of new roof top units; Re-installation to include re-connection to existing gas, power, automation and duct distribution systems; Additions and modifications to the ductwork, heating piping and automation systems; Removal of existing roofing systems and supply and install of new roofing systems. This opportunity is extended only to those parties that are prequalified for prime contractor status by The City of Calgary in the category(s) of General Contractors for Buildings/Facilities.

Proposals received by: Owner

Doc's from: MERX Private Tenders No. PR251837. Contractors must register with MERX Private Tenders. Visit calgary.ca/bids for more information.

EDMONTON

Flood Mitigation Project at the Petrolia Substation - Sol. No. 202213

Due: 2:01 p.m., September 27, 2012

Owner: EPCOR, 2000, 10423 - 101 St., Edmonton, AB T5H 0E8. Phone: (780) 412-4088. Attn: Terry Hajjar. Email: Thajjar@Epcor.com

Details: The basement at Owner's Petrolia Substation floods during heavy rain or snow melting. Over time, cracks have developed in the walls of the Petrolia Substation and therefore during and or shortly after spring thaw and heavy rainfalls, water enters the basement and pools on the basement floor. This increases the humidity in the basement which results in equipment corroding and moisture accumulating in the electrical panels. The purpose of this project is to resolve these issues.

YELLOWKNIFE, NT

Letter of Interest and Qualification - Roaster Deconstruction at Giant Mine, Yellowknife - Sol. No. EW699-130732

Due: 2:00 p.m., October 3, 2012

Owner: Public Works and Government Services Canada, (Northern Contaminated Site Program) Room 1650, 635 - 8 Ave. SW, Calgary, AB T2P 3M3. Phone: (403) 292-4450; Fax: (403) 292-5786. Attn: Margaret L. Twomey.

Details: Letter of Interest and Qualification - On behalf of Aboriginal Affairs and Northern Development Canada, Public Works and Government Services Canada is initiating a process to pre-qualify design-deconstruct proponents for the deconstruction of all structures within a "Project Work Area" at Giant Mine, Yellowknife, Northwest Territories (Giant Mine Site). The "Project Work Area" is defined as the Roaster Complex and the immediately surrounding area that will accommodate deconstruction activities. The Roaster Complex is considered to represent a risk to human health and safety if left unabated; and as such, is to be deconstructed as part of a Giant Mine site stability plan. The Roaster Complex contains significant quantities of hazardous materials, the most notably being arsenic/arsenic trioxide (abi-product of the ore roasting during the gold extraction process). The Project requires the design and execution for multiple disciplines, in stages or phases carefully coordinated to ensure protection of the workers, public and the environment. Extremely hazardous building materials and environments will require specialized equipment and decontamination processes during deconstruction. Deconstruction waste will require packaging, handling and storage until permanent on site disposal locations are designed and constructed under a separate Giant Mine Site project. This Letter of Interest and Qualification (LOIQ) document provides necessary information and submission requirements for Proponent qualification. Interested proponents must submit all necessary information for pre-qualification in accordance with the requirements stipulated in this LOIQ document. Only those proponents considered by PWGSC to meet the pre-qualification requirements as defined in this document will be eligible to submit a proposal for this project in the Phase Two Request for Proposal (RFP) process.

EDMONTON

Pre-Qualification of Engineering Consultants for Drainage Design and Construction - "Standing Open Call" - 916346

Due: 4:00 p.m., December 21, 2012

Owner: City of Edmonton, Materials Management, 800 Chancery Hall, # 3 Sir Winston Churchill Square, Edmonton, AB T5J 2C3. Phone: (780) 496-8877; Fax: (780) 496-5015. Attn: Alexandria Watterworth. Email: alexandria.watterworth@edmonton.ca. Plans Desk: (780) 496-8899.

Details: "Standing Open Call" - The City of Edmonton invites the submission of a Statement of Qualifications from interested engineering consultants for the provision of Prime/Lead Consultant Services for the City's Drainage Design and Construction Projects for the period starting March 2010 for a period of up to 6 years. This Prequalification is a Standing Open Call which allows interested consultants to submit a Statements of Qualifications at any time. The City will accept Statement of Qualifications submitted after the Closing Date for future Drainage Design and Construction Project Engineering Consulting Service requirements, however in order to be considered for the initial ensuing (issued between March and September 2010) Request For Proposals (RFP) Statement of Qualifications should be received on or before the Closing Date. The purpose of this Pre-Qualification is to develop a Drainage Design and Construction Pre-Qualified Consultant List of Prime / Lead Consultants that are capable of providing the City with external expertise for the following Project based and Discipline based categories of Drainage Design and Construction Engineering Services.
