ABOUT THE MANUAL

The Dealer Registry Procedure Manual has been designed to aid your dealership while performing the duties of a dealer in accord with Connecticut statutes and regulations. This manual will serve as a quick reference for your procedures in relation to Dealers Issuing/Transfer Agent. It will also provide your dealership with information regarding dealers & repairers policies, emissions, inspection, supplies, security and what types of transactions may be performed by your dealership. The manual will assist you in processing registrations for the following classifications of vehicles: passenger, combination, commercial, camper, camp trailer, and motorcycle. We have also added a section, which briefly reviews State Sales Tax Laws. We have tried to make this manual as clear and concise as possible. We hope it is of great use to your dealership when processing such transactions.

3. Submit all three (3) copies of the transmittal sheet along with a self-addressed envelope, stamped. The validated pink copy will be returned to the dealership when all registrations are completed. VEHICLE PROPERLY REGISTERED

A vehicle *is registered* in the State of Connecticut when a dealer *issues the Yellow Temporary Registration Marker Plate and Temporary Registration Certificate-K160A*. The dealer is issuing the registration for the Commissioner of Motor Vehicles, with a temporary certificate.

When a marker plate or Yellow Temporary Registration Certificate is assigned to a vehicle and the vehicle leaves the dealership with a marker plate on it, the *documents must be submitted to the Motor Vehicle Department* for processing to the permanent records. There may be cases where the customer is dissatisfied and returns the vehicle before you have submitted the application and related documents to the Motor Vehicle Department, *the vehicle was registered*, therefore, the *documents must be submitted to the Motor Vehicle Department whether you take the vehicle back or not*.

10. NEW ISSUE ONLY: A mailing label with the registrant's name and address is to be submitted with each new registration. If the registrant is a lease company unless the mailing labels addressed to the lessee.

WARNING: Failure to submit motor vehicle documents to the Department can result in the dealership losing its privilege to act as an agent.

CONNECTICUT INSURANCE CARD (C.G.S. 14-12b)

A current Connecticut Automobile Identification Card is required before a registration can be issued by your dealer. (With the exception of camp trailer)

Before issuing registrations, dealers must obtain from the buyer a Connecticut Insurance Card which covers the vehicle being registered. This card must be submitted with the registration application.

The effective date of the card must be the same or before the issue date of the Temporary Registration Certificate (K-160A) issued by the dealer.

A Temporary Card is valid for 60 days from the effective date.

A Permanent Card is valid for 1 year from the effective date unless otherwise noted on the card.

COURTESY DELIVERY

A 60 Day Temporary Registration Certificate or a 60 Day Transfer Certificate may be issued on a "Courtesy Delivery" from an out of state dealer only if a lease company is the registrant/owner.

1. The Application for Registration and Title (H-13) form will be prepared as usual using the actual selling dealer's name (do not use your dealership name or dealer number).
2. A Power of Attorney Form from the selling dealer to your dealership will sign the Application for Registration of a Motor Vehicle and Certificate of Title (H-13) and a representative from your dealership will sign the Application for Registration of a Motor Vehicle and Certificate of Title (H-13) for the selling dealer.
3. The Temporary Registration Certificate (K-160A) will show your dealership only.

PROVIDING INFORMATION TO LAW ENFORCEMENT AGENCIES

Dealers must file their dealers' portion of the Temporary Registration Certificate (K-160A) and retain each certificate copy for the two-year record-keeping requirement. This file must be readily available to provide the name and address of the registrant assigned a given temporary registration certificate number or marker plate, together with a description of the vehicle registered when an authorized DMV representative or any police department requires such information.

ADDRESS

Dealers must be able to provide the name and address of the registrant to whom a set of number plates were assigned for a period of 60 days following the date of issue. A Post Office Box is not acceptable.

ISSUANCE OF PASSENGER REGISTRATIONS TO A MINOR (C.G.S. 14-14)

A licensed dealer may issue a passenger registration to a minor ONLY, if a Certificate of Parental Consent (2-D) is properly executed and accompanies the paperwork submitted to the Department.

Any issuance of a passenger registration to a minor without a Certificate of Parental Consent (2-d) will continue to be addressed administratively.

UNDER SUSPENSION/ PROPERTY TAX OVERDUE

A dealer cannot issue a registration if the applicant has not signed the temporary certificate thereby declaring that his right to register has not been suspended and that all property tax due to any town, city, or taxing district for vehicles previously registered in his name have been paid.

VANITY/ LOW NUMBER PROCEDURES

If a customer had a vanity/number plate in their name before, they would not be required to pay the vanity plate fee (varies depending on type of plate) to regain the plate unless the time frame since the date of sub-reg or expiration had exceeded twelve months. If a customer had canceled out their registration they would not be required to pay the vanity plate fee again unless the time frame has exceeded twelve months from the date of cancellation.

Any transfer of a vanity or low number plate cannot be processed unless the transfer is to be made to an immediate family member. Immediate family consists of: mother, father, husband, wife, daughter, son, brother, sister. This exemption would also apply to any vanity or low number plate being re-assigned from a leasing company to a lessee or from a lessee to a lease company.

When transferring a vanity/low plate from an individual to a lease company the following procedures should be followed:

1. Complete a Temporary Registration Certificate (K-160A) with the marker number being transferred, the vehicle identification number of the previous vehicle, the new vehicle information and owner information.
2. Complete the Application for Registration of A Motor Vehicle and Certificate of Title (H-13). When a vanity plate is released from an individual to a lease company it is considered a "new re-issue".
3. The registration is considered a new transaction; therefore, a new expiration date and fees are to be collected (\$5.00 safety plate fee not included). The equity in the individual's registration may not be transferred to the new registration. The proper registration expiration sticker will be sent to the registrant from the Dealer Processing Unit.
4. The vanity/low number plate fee is not collected.

LONG ISLAND SOUND PROCEDURE

Long Island Sound, passenger, combination, commercial, camp trailer, or camper plates may be issued from the Dealer Unit for vehicles, which have been issued a 60 Day Yellow Temporary Registration. The plates will be selected from the series in stock and mailed directly to the registrant.

DEALER PROCEDURE:

TRANSFER COMBINATION WITH INCREASE IN WEIGHT

In order to process a transfer combination registration with an increase of weight, you must have the registrant's previous registration information (i.e., light/gross weight).

STEP 1: Locate the previous GVWR, fee factor and expiration date on the previous registration.

Note: If the fee factor and GVWR do not match there may have been an increase or decrease in weight. The customer is to be credited the highest fee factor paid in a registration renewal period.

STEP 2: Locate the proper column on the "COMBINATION FEE CHART FOR COMPUTING ADDITIONAL WEIGHT" by how many months are left on the registration.

STEP 3: Find the previous GVWR fee and the new GVWR fee in the column, which reflects the amount of months left on the registration.

STEP 4: Subtract the old fee from the new fee. This amount will be the fee that will be charged in addition to the \$20.00 vehicle transfer fee.

EXAMPLE: A combination vehicle registered in July of 2004 with a GVWR of 4,000 lbs. The fee factor will be \$105.80. There are exactly 24 months in this registration.

In September of 2004 a vehicle transfer occurs. The new vehicle has a GVWR of 3,400 lbs. The fee factor will remain the same, (\$105.80), but a vehicle transfer fee of \$20.00 will be charged.

In December of 2004 another vehicle transfer occurs. The new vehicle has a GVWR of 4,600 lbs. The registration has 19 months left and shows a fee factor of \$105.80. Since there is an increase in weight, subtract the old fee factor (\$105.80) from the new (\$119.72). The additional fee will be \$16.10 for the additional weight and a \$20.00 transfer fee.

TRAILERS BEING REGISTERED OUT OF STATE

Many customers who purchase trailers from dealerships or individuals may choose to register their trailer out of state. Many states have different title laws and requirements, the customer may be refused registration in another state because they do not hold title to a trailer. The statute below will assist these customers in registering trailers which have weight less than three thousand pounds:

Sec. 14-166. Exempt vehicles. (a) The acquisition of a certificate of title shall not be required and the issuance of a certificate of title by the Commissioner of Motor Vehicles shall not be required for the following: (1) A vehicle owned by the United States, unless it is registered in this state; (2) a vehicle owned by a manufacturer or dealer and held for sale, even though incidentally moved on the highway or used for purposes of testing or demonstration; or a vehicle used by a manufacturer solely for testing; (3) a vehicle owned by a nonresident of this state and not required by law to be registered in this state; (4) a vehicle regularly engaged in the interstate transportation of persons or property for which a currently effective certificate of title has been issued in another state; (5) a vehicle moved solely by animal power; (6) an implement of husbandry; (7) special mobile equipment; (8) a self-propelled wheel chair or invalid tricycle; (9) any trailer having a gross weight not in excess of three thousand pounds; (10) any vehicle for which a temporary registration has been issued pursuant to section 14-12 for the purpose of permitting a nonresident owner who purchases a vehicle in Connecticut to transport such vehicle to such owner's home state; (11) a motor vehicle owned by the state or any town, city or borough within the state; (12) a motor vehicle registered temporarily for inspection purposes pursuant to section 14-12. The acquisition of a certificate of title for any vehicle manufactured prior to 1981 shall not be required. The commissioner, in his discretion, may issue such certificate of title for such a vehicle. (b) Part III of this chapter does not apply to: (1) A vehicle moved solely by animal power; (2) an implement of husbandry; (3) special mobile equipment; (4) a self-propelled wheel chair or invalid tricycle; (5) any trailer having a gross weight not in excess of three thousand pounds.

HOMEMADE TRAILERS

CONNECTICUT INSURANCE COVERAGE ON LEASE VEHICLES

A Connecticut Insurance Card must be presented in the lessee's name or lessor's name (under Sec. 38-363(f)) along with all documents necessary for registration.

When processing a transaction for a lease company the Lease Company may provide the blanket policy number. This does not exempt the lessee from providing proper coverage.

SALES TAX/ LEASE VEHICLES

Any lease or rented vehicle must have a ten-digit Connecticut sales tax registration number (resale number) in SECTION 6 on the Application for Registration of a Motor Vehicle and Certificate of Title (H-13).

Any lease or rental vehicle, where the lessee is a nonprofit organization, must also have a tax exemption number on the Application for Registration and Title (H-13).

The Tax Department has also stated it is permissible for a leasing company and a car dealership to use the same tax number as long as the name is the same.

MISCELLANEOUS INFORMATION FOR DEALERS ISSUING TEMPORARY REGISTRATION TO LEASE VEHICLE

In addition to all other regulations for issuing of Temporary Registration Certificate (K-160A) the following must be adhered to by all dealerships:

- The lease contract must have an option to purchase with the lessee having the right to possession
- The dealership must retain copies of all records of the sale to the Lease Company as well as the lease contract in a separate file for leasing companies.

IMPORTANT: Before a Temporary Registration Certificate (K-160a) is issued to a lease company/your dealership must contact the Leasing Department at (860)263-5049 and confirm the lease company has a valid license and blanket insurance on file with the DMV.

PROOF OF OWNERSHIP

Connecticut became a title state on July 1, 1959. Vehicles that are exempt from our title law are listed under Section 14-166 of the Connecticut General Statutes.

NEW VEHICLES

- A New Vehicle defined: A new vehicle must have a "Manufacturer's Statement of Origin" (MSO) or "Certificate of Origin" (CO) properly assigned and must be on banknote security paper.

IMPORTANT: A "Certificate of Origin" or "Manufacturer's Statement of Origin" must be in the name of the franchised dealer as on file with the Department of Motor Vehicles. The Department does not recognize DBA's as a legal name. (Per C.G.S. 14-168)

- Lienholder: Any lienholder shown on the reverse side of the Certificate of Origin or Manufacturers Statement of Origin must also be listed on the owner's Application for Registration of a Motor and Certificate of Title (H-13).
- The Certificate of Origin or Manufacturers Statement of Origin must be examined closely to detect any discrepancies between the vehicle information (make, year, identification number) on the MSO or CO and the Application for Registration and Title (H-13).

USED CONNECTICUT VEHICLE

- A Connecticut title must accompany an application for Registration of a Motor Vehicle and Certificate of Title (H-13) must be properly assigned. If the back of the title is filled a Supplemental Assignment of Ownership (Q-1) may accompany the title when applying for registration.

NOTE: Title Assignments must show a chain of ownership. If any assignments are missing the vehicle may not be registered until the proper assignment is completed.

- If the vehicle is financed, a lien holder must be shown on the owner's Application for Registration (H-13).
- The documents must be examined closely to detect any discrepancies between the vehicle information (make, year, and identification number) on the prior title certificate and the application for Registration and Title (H-13). The prior title number must be recorded on the H-13 form.
- The Application for Duplicate Certificate of Title (H6B) may be used when the outstanding Connecticut title is lost, stolen or mutilated, This form is also used as a transfer of ownership when the owner's title certificate has not yet been processed.

NOTE: The H6B may only be utilized in conjunction with temporary registration certificates (new or transfers) when it has been validated by the Department of Motor Vehicles.

USED OUT OF STATE VEHICLE

- If an out of state vehicle is being registered a title from the previous state must accompany the Application for Registration of a Motor Vehicles and Certificate of title (H-13), except in the case of vehicles which are exempt from the title requirements of that particular state (10 year old law, etc). In place of that title a valid out of state registration must be secured from the previous owner.
- Lien holder: If the vehicle is financed, a lien holder must be shown on the owner's Application for Registration of a Motor Vehicle and Certificate of Origin (H-13)

- The documents must be examined closely to detect any discrepancies between the vehicle information (make, year, and identification number) on prior Title Certificate and the application for Registration and Title (H-13). The prior title number must be recorded on the H-13 form.
- A VIN Verification and emission report must accompany the Application for Registration of a Motor Vehicle and Certificate of Title (H-13).

TITLES WHICH REFLECT A LIEN

If a titled vehicle reflects a lien, and the dealer has arranged to payoff the lien, an Assignment and Authorization for Payoff (H-12) MUST be used, accompanied by the outstanding title certificate, with the evidence that the lien has been satisfied. This form must show the notarized signature of the title owner.

AUTHORIZATION FOR PAYOFF (H-12)

If your dealership takes a vehicle in trade and it is a CONNECTICUT titled vehicle and you are unable to obtain the title from the lien holder, an Authorization for Pay-off (H-12) may be used in lieu of the title. Section 5 of the Authorization for Pay-off must be completed and a release of lien must be submitted with the transaction.

CT SECURE POWER OF ATTORNEY FOR VEHICLE MILEAGE DISCLOSURE AND CERTIFICATION (H-117)

The CT Secure Power of Attorney for Vehicle mileage Disclosure and Certification (H-117) is utilized to meet the Federal Requirements for odometer disclosure when the title is in possession of lien holder. The H-117 is only used as a disclosure of mileage it is not to be used as an ownership transfer document.

The following procedures will assist your dealership personnel to ensure the proper paperwork is completed:

If a vehicle is traded into your dealership and the title is in the possession of the lien-holder, the following documents must be completed:

If a Connecticut titled vehicle

- H-117 – Have the owner complete Part A and the dealer complete Part C
- H6B – Application for Duplicate Title (if Connecticut vehicle)
- H-12 – Authorization for Payoff by licensed dealer (Sections 1-4 to be completed)

If an out of state titled vehicle

- H-117 – Have owner complete Part A and dealer should complete Part C
- H-12 – Assignment and Authorization for Payoff by licensed dealer (Section 1-4 completed)

Two situations may now occur with this vehicle when it is ready to be sold and should be handled as follow:

SITUATION 1 – Trade-in vehicle being sold by dealer, title document is now in possession of dealership- lien holder has released title.

If Connecticut title vehicle

- H-117 – Part C must be completed by dealer

The following documents (in addition to all other documents necessary for registration) will be submitted to DMV for registration purposes:

1. If Connecticut titled vehicle – H-117 with Parts A & C completed
2. H-12 Authorization for Payoff by licensed dealer (Section 1-4 completed)
3. Any other assignments.

If out of state title vehicle

- H-117 – Part C must be completed by dealer

The following documents (in addition to all other documents necessary for registration) will be submitted to DMV for registration purposes:

1. H-117 with Parts A & C completed
2. The out of state title signed off by lien holder. The first assignment would be completed with the exception of the original sellers signature as this was already completed on the H-12 previously. DO NOT record “see H-12” in the first assignment
3. H-12 Authorization for Payoff by licensed dealer (Section 1-4 completed).
4. Any other assignments.

Situation 2 – Trade in vehicle is being sold by dealer but the lien holder was unable to forward the original Connecticut title. (If the vehicle is an out of state titled vehicle either the original out of state title or a duplicate of the out of state title must be presented)

If Connecticut title vehicle

- H-117 – Parts A, B (to be completed by dealer and the new owner) and Part C must be completed

The following documents (in addition to all other documents necessary for registration) must be submitted to DMV for registration purposes to the new owner:

1. H6B Application for Duplicate Title
2. H-117 with Parts A, B and C completed
3. Lien Release from lien holder
4. H-12 Authorization of Payoff (if a Connecticut title not submitted)
5. Any other assignments

If out of state title vehicle

- H-117 – Parts A, B (to be completed by dealer and the new owner) and Part C must be completed

The following documents (in addition to all other necessary documents for registration) must be submitted to DMV for registration purposes:

1. H-117 with Parts A, B and C must be completed
2. Lien Release from lien holder
3. Duplicate of the out of state title
4. H-12 Authorization of Payoff by licensed dealer (Section 1-4)
5. Any other assignments

OWNERSHIP

The Department will only accept Applications for Registration and Title (H-13) filled out in the three following basic forms, as applicable to the particular set of circumstances:

1. SINGLE OWNERSHIP: Example: Jones, John
2. JOINT OWNERSHIP: Example: Jones, John OR Jones, Bob

NOTE: In the case of joint ownership, the signature of all owners should appear on the original Application for Registration and Certificate of Title. ONLY one signature is required on all documents thereafter (I.e., assignment of ownership on title).

3. COMMON OWNERSHIP: Example: Jones, John AND Jones, Bob

NOTE: In the case of common ownership, all transactions dealing with a motor vehicle registered and titled using the conjunction AND both signatures will be required.

ESTATE SALES

When the titled owner of a vehicle is deceased, authorization from the Probate court is required in the form of a Probate Certificate or a transfer of personal property without probate proceedings. If the vehicle is being sold, the individual appointed by the Probate court must transfer ownership on the title.

APPLICATION FOR DUPLICATE TITLE (H6B)

An Application for Duplicate Title (H6B) may be used when the Connecticut Title is lost, stolen, mutilated or destroyed.

This form must:

- Show the notarized signature of the last title owner(s)
- If lien, evidence of lien satisfaction must accompany this application

When the owner has lost his title and wishes to sell the vehicle, he also completes the ownership transfer section on Application for Duplicate Title (H6B). If sold to a Connecticut dealer, the dealer must complete the dealer certification section when reselling the vehicle.

NOTE: The Application of Duplicate Title (H6B) may be used to sell the vehicle only after the dealer has obtained authorization from the Department of Motor Vehicles. This may be done by completing a "Request for title Information" (H-26) with your local branch office.

IMPORTANT: A 60 Day Temporary Registration Certificate (new or transfer) must NOT be issued until authorization from the Department of Motor Vehicles. This may be done by completing a "Request for Title Information" (H-26) with your local branch office. If the Application for Duplicate Title (H-6B) is being submitted in lieu of a title with an Application for Registration issued in compliance with C.G.S. 14-

12, the dealer will not be required to pay the \$25.00 duplicate title fee. Failure to comply with this procedure is a violation of DMV Procedures and Policies and may result in suspension of registration privileges.

OBTAINING A DUPLICATE TITLE OVER THE COUNTER BY A CONNECTICUT LICENSED DEALER

All licensed dealers are authorized to obtain a duplicate title over the counter at local branch office. Listed below are the correct procedures to follow:

1. Only an automated (must indicate a title number of 20 million or above) title system record duplicate title can be issued over the counter to a Connecticut licensed dealer.
2. Only the owner, lienholder, or Connecticut licensed dealer identified in Section Two of the application will be permitted to pick up the duplicate title.
3. The Connecticut Dealer must present the following when applying for a duplicate title over the counter:
 - a. Application for Duplicate Title (H6-B)
 - b. An invoice indicating that the dealership either took the vehicle in trade or purchased it from the title owner
 - c. Dealer Supplemental ID Card
 - d. Lien release (if applicable, if there is a lien on the vehicle a release of lien must accompany the application for the duplicate)

NOTE: The Application for Duplicate Title (H6-B) must be completed in detail. This includes the odometer disclosure section of the H6-B form as well as all applicable signatures, notarized and printed names. The reason the duplicate title is being applied for must also be indicated (lost, stolen, destroyed, and mutilated).

4. Duplicate titles that are branded SALVAGED or FLOOD will only be given to the titled owner.

REPOSSSESSION ON

If the vehicle being sold is a repossessed vehicle, an Affidavit of Repossession (H-30) executed by repossessing lien holder must accompany the Certificate of Title.

The repossessing lien holder must reassign ownership to the purchaser on a Supplemental Assignment of Ownership (Q-1).

NOTE: If the lien holder does not appear on a Connecticut Certificate of Title, the lien holder must provide a copy of the original lien instrument and execute an affidavit of repossession (H-30). The lien holder must assign ownership to the purchaser on a Supplemental Assignment of Ownership (Q-1).

ODOMETER STATEMENT

Effective May 1, 1989, the "Federal Truth in Mileage Act" required odometer disclosure information on all documents transferring ownership. Each title, at the time it is issued to the transferee, must contain the mileage disclosed by the transferor.

In addition all dealers must submit a "Federal Odometer Statement" to the transferee, and retain a copy of this statement for five years, along with copies of any disclosure statements they receive.

WITHDRAWAL

If a customer does not take delivery of a motor vehicle, and the title and registration paperwork has already been filed with the Department of Motor Vehicles, a "Withdrawal Statement" (H-71) must be signed by the owner, the lien holder (if any), and the dealer. The submitted proof of ownership for the vehicle will then be returned for your use in reselling the vehicle. This statement should be submitted as soon as possible after the vehicle is registered. All registration and title fees are forfeited.

If the owner's Certificate of Title has been processed and mailed, the title must be returned to our Department with the "Withdrawal Statement".

When processing a withdrawal for a new issue the permanent marker plate must be cancelled or transferred to the replacement vehicle. When processing a withdrawal on a transfer registration the marker plate must be transferred back to the previous vehicle or transferred to a replacement vehicle. Documentation will be requested for all withdrawal statements.

A WITHDRAWAL CANNOT BE PROCESSED ON VEHICLE WHICH HAS LEFT THE DEALERSHIP.

CORRECTION AFTER TITLE ISSUANCE

Error Corrections after title issuance are processed differently than error corrections processed prior to title issuance. After title issuance all errors are required to be processed as ownership transfers. These transactions are not dealer transactions (dealer section is not to be completed on the H-13) the dealer is only acting as the agent for these transactions. Example of common errors: Loan agreements not matching the current registration and title, the lease company's name isn't the name the lease company wanted i.e. Nissan Infinity LT vs. NILT Inc., the customer wanted to add or drop a name on the new vehicle. These errors cannot be corrected by going back to the original application; once it has been completed and processed a new registration and title have to be applied for. The Mail Operations Unit, not the Dealer Unit, processes these transactions. The documents needed to process these transactions are as follows:

- Application form H-13 must be completed in full. (see attached sample)
 - Odometer Reading: must be the current mileage
 - Seller: must be the name listed on the current title
 - Dealer section: must not be completed
 - New or Used: must be "used" **
- Outstanding certificate of title properly assigned from seller (the name that appears on the front of the title) to buyer (how the vehicle should be registered and titles.)
- A current Connecticut Insurance Card in the name of the applicants(s).
- Photocopies of the current applicant's driver's license.
- The proper fees for a record transfer, title, and lien fees (if applicable.)
- A power of attorney is needed if the lien holder or dealer is signing paperwork for applicant, accompanied by that person's photo ID.
- A photocopy of the current registration.

Please mail these transactions to: Department of Motor Vehicles
60 State St.
Wethersfield, CT 06109
Attn: Karen or Michele, Mail Operations

If you have any questions regarding this type of transaction please contact Karen or Michele @ 860 263-5150.

** In order to keep the vehicle listed as "New" a letter from the dealer on dealer letterhead must be submitted within six months from the title issuance date. The letter must state that the lien holder/lease company has requested a new title because it was registered and titled incorrectly.

The exemption applies to the following types of vehicles:

- All motor vehicles whose model years are four years old and newer will be EXEMPT from emissions inspection requirements for up to four years. The model years eligible for an emissions exemption will change on the first of January each year.
- Any qualified NEW vehicle applying for registration in Connecticut (manufacturer's certificate of origin) will receive an emissions exemption for four (4) years from the DATE THE VEHICLE IS REGISTERED. A fee of \$40.00 is payable to the State of Connecticut upon registration.
- Any qualified USED vehicle with an OUT –OF –STATE title applying for registration in Connecticut will receive a four (4) year emissions exemption calculated by adding four (4) years to the MODEL YEAR (to establish the year of emissions expiration) and then utilizing the date of registration to establish the month/day of the emissions expiration. A fee of \$40.00 is payable to the State of Connecticut upon registration.

EMISSIONS TESTING ON VEHICLES NOT QUALIFIED FOR EXEMPTION PROGRAM

Vehicles that do not qualify for the emissions exemption program and do not have a compliant emission test record must be emission tested by an authorized agent.

To check whether a vehicle has a compliant record you may inquire at www.ctemissions.com with the vehicle identification number.

When a vehicle is tested by an authorized agent the test information will be automatically updated to the DMV files. The On-Line System will make an inquiry through the DMV system to confirm whether or not the vehicle is compliant. If a message is received back that the vehicle is not compliant a test must be performed on the vehicle before it can be registered.

SALES TAX/ CAR DEALERS

When a new vehicle (Certificate of Origin only) or used car is sold by a car dealer the car dealer must:

1. Have a sales tax permit issued by Department of Revenue Services
2. Be licensed with the Department Motor Vehicles
3. Fully complete the "For Sales by Licensed Only" Section on the Application for Registration and Certificate of Title (H-13).
4. The dealer must be franchised to sell that car. (NEW VEHICLE ONLY)
5. If sales tax is collected by the dealer; the dealer is responsible for reporting this to the Department of Revenue Services.

VEHICLE BEING REGISTERED TO CAR DEALER

If a car dealer is registering a vehicle to themselves a 6% tax should be collected at DMV based on the average retail value.

CHARITABLE & RELIGIOUS ORGANIZATIONS AND CLERGY

Please contact the Department of Revenue Services regarding the above subject for the proper procedures.

FEDERAL, STATE, LOCAL MUNICIPALITIES & POLITICAL SUBDIVISIONS

Connecticut General Statutes provides for an exemption on all purchases of tangible personal property by Federal, State or any Political Subdivision.

There are no additional requirements, other than to confirm the identity of the transferee. This exemption qualifies on name only.

MILITARY PERSONNEL

Military Personnel which are station in Connecticut

Connecticut General Statutes provide for a reduced rate of 4.5% sales tax of the gross receipt when purchased as a retail sale of any motor vehicle to any person who is a member of the armed forces of the United States and is on full-time active duty in Connecticut, but whose permanent residence is in another state.

The vehicle must be registered solely in the military personnel's name. The exemption is intended to include military academy and coast guard cadets.

NOTE: The reduction in the sales tax is not applicable to personnel who are called to active duty for a portion of a year, such as National Guardsmen or Reservists.

*Military Personnel which are stationed outside of Connecticut and are not a permanent resident of Connecticut****

An exemption is provided for certain Connecticut military personnel. The military personnel must be stationed outside the State of Connecticut when registering the vehicle at DMV.

The military personnel must be the sole registered owner and the vehicle must have been purchased out-of-state. Two statements are required:

- a) A statement from military personnel's commanding officer, giving present location and the anticipated date of discharge is not for at least six months, and
- b) A statement from the military personnel stating that the vehicle is not intended to be used in Connecticut unless on authorized leave.

*** A vehicle purchased in Connecticut by a Military Member whose home of record is Connecticut is taxable at a rate of 6% of the purchase price.

COURTESY DELIVERY (DROP SHIPMENT) ON MOTOR VEHICLES

Connecticut General Statues defines a drop shipment as: The delivery in this state of tangible personal property by an owner or former owner thereof, if the delivery is to a consumer pursuant to a retail sale made by a retailer not engaged in business in the State of Connecticut, is a retail sale in this state by a person making the delivery.

If a vehicle is sold by a Connecticut dealer for an out of state dealer the Connecticut dealer must report the sale as part of their gross receipts and collect the tax.

NOTE: Credit for sales tax paid out of state based on the out of state invoice should not be granted.

TRADE-INS

Connecticut General Statutes provide for a trade-in allowance on the sale of a motor vehicle or vessel where a motor vehicle or vessel is traded in and a trade-in allowance is given by a licensed motor vehicle dealer, a retailer of vessels, respectively, shall be measured by the amount of the difference between the sales price and the trade-in allowance, provided such purchaser or transferee owns the motor vehicle or vessel for which a trade-in allowance is give. Trade-in property must be of the sale type to qualify for reduction (i.e., motor vehicle for motor vehicle, vessel for vessel. No substitutions are acceptable).

MOTOR VEHICLE TRADE-IN ON VESSEL

If a motor vehicle dealer sells a vessel using a vehicle as a trade-in allowance to the registrant, the DMV will register the vessel and forward a copy of the Application for Vessel Registration & Certificate of Number or Decal (B-148) to the Department of Revenue Services/Audit Division. This statute provides for an allowance when a motor vehicle is traded in for a motor vehicle and a vessel is traded-in for vessel. Therefore, the tax is due on the gross purchase price (without the trade-in allowance).
