Estimate the annual dollar value of the benefit from the proposed amendment (total statewide value):

Necessary Criteria – Answer <i>YES</i> , <i>NO</i> , or <i>UNKNOWN</i> to the following statements:	(YES, NO, or UNKNOWN)
The proposed building standard does not conflict with, overlap, or duplicate other building standards.	
The proposed building standard is within the parameters established by enabling legislation and is not expressly within the exclusive jurisdiction of another agency.	
The public interest requires the adoption of the proposed building standard.	
The proposed building standard is not unreasonable, arbitrary, unfair, or capricious, in whole or in part.	
The cost to the public is reasonable, based on the overall benefit to be derived from the proposed building standard.	
The proposed building standard is not unnecessarily ambiguous or vague, in whole or in part.	
Applicable national specifications, published standards, and model codes have been incorporated herein, where appropriate.
