

GRAIN LEATHER GLOVES

Endura® Grain Fitter Gloves

Gunn-cut styling, features select grain palms, fingertips, index finger and knuckle strap to protect against scrapes and abrasion, while cotton backs are elasticized for snug fit and breathable comfort. Protective safety cuff for easy on and off. Complete with an absorbent cotton palm liner absorbs sweat allowing increased wear and comfort.

- Cowgrain
- Palm Lined
- Safety Cuff

Part Number SUG76B Sizes: Mens/Ladies GLOVE 2

Endura® Grain Fitter Gloves

Endura® gloves are made from smooth top-grain leather for durability, dexterity, plus oil and water resistance. Cowgrain styles are a heavier weight and are very durable, whereas grain pigskin gloves are noted for their breathability and how well they return to their original softness after becoming wet. Summer styles have an absorbent cottonpalm liner.

- Cowgrain
- Economy Patch Palm
- Palm Lined
- Safety Cuff

Part Number SUG76YBDQ Sizes: S-XL GLOVE 3

Endura® Driver and Roper Gloves

Endura® cowhide gloves provide comfortable, dependable hand protection. They are naturally durable, offer good dexterity and water repellency. Drivers and Roper styles provide a snug fit and a good sense of touch.

- American Style Drivers Glove
- Unlined

Part Number SUG378A Sizes: S-XL GLOVE 6-L

Endura® Driver and Roper Gloves

Endura® cowhide gloves provide comfortable, dependable hand protection. They are naturally durable, offer good dexterity and water repellency. Drivers and Roper styles provide a snug fit and a good sense of touch.

- Canadian Style Ropers Glove
- Adjustable Snap Back
- Unlined

Part Number SUG378C Sizes: S-XL GLOVE 31

Endura® Goatskin Driver Gloves

Goatskin is often referred to as nature's strongest leather. It has very high tensile strength and abrasion-resistant properties, but has excellent softness and is lightweight. Because of this high strength-to-weight ratio our Endura® Goatskin gloves are much tougher and more durable than their suppleness leads you to think.

- Goatskin Driver
- Keystone Thumb

Part Number SUG378GKTA Sizes: S-XL

SPLIT LEATHER GLOVES

Gun-cut Split Fitter Gloves

The gun-cut pattern removes most seams out of the wear area and around to the back of the hand. All styles have full leather palms and index fingers, plus reinforced leather finger tips and knuckle straps for extra protection. All summer styles have cotton-lined palms for comfort and sweat absorption.

- Standard quality
- Safety cuff

Part Number **SUG66B** Sizes: **Men's Large** **GLOVE 4**

Teammate™, Winter Split-Leather Fully Lined Fitter Gloves

The winter version of Superior's Teammate™ split-fitter gloves lets you enjoy the warmth of a heavier glove - without the bulkiness. Gloves are gun-cut style, featuring split-leather palms and knuckle straps, as well as all-split thumbs and fingertips, for the best protection from scrapes and abrasion. Heavy cotton-twill backs with elastic for snug fit, and 2.5" rubberized band-top cuff for wrist protection and easy on and off. Available with 3M Thinsulate™ offering greater warmth without the bulk.

- Black selected split Leather
- Fully Thinsulate™ lined
- Safety cuff

Part Number **SUG66BFTL** Sizes: **Men's Large**

Sidekick® Premium Sidesplit Fitter Gloves Lined with Dyneema®

Gunn-cut pattern glove combines 1.4 mm premium side-split leather, selected for its durability, with 9 oz. cotton twill to create a glove that stands up to the toughest jobs, and features a 10-gauge, seamless string-knit Dyneema® liner for significantly better cut protection. Super-strong Kevlar® thread is used for seam integrity. Elasticized at back of wrist for snug fit.

- Premium Sidekick Fitters Glove
- Fully Lined with Dyneema®
- ASTM Cut Level 2

Part Number **SUG69BDYFL** Sizes: **Men's Large**

CrewMate™ Double Palm Fitter Gloves

For the toughest, most abrasive jobs, have a pair of our best-selling Crewmate™ fitters gloves on your side. With an extra layer of heavyweight Tri-tan leather on the palm, thumb and index finger, you can easily handle the unexpected. Gloves are reinforced in all critical areas to give extra protection against abrasion, puncture and cut; knuckle straps protect against knocks. Back of gloves are cotton with elastic at wrists. Rubberized safety cuffs complete the package.

- Outside double palm
- rubberized safety cuff

Part Number **SUG66BRR** Sizes: **Men's Large**

Guncut Split Fitter Gloves

Teammate split fitters stand up to heavy duty and rugged wear. Good protection from cuts, scrapes and abrasions. The guncut pattern removes most seams out of the wear area and around to the back of the hand. All styles have full leather palms and index fingers, plus reinforced leather finger tips and knuckle straps for extra protection. Cotton lined palms for comfort and sweat absorption.

- Standard quality
- Patch palm
- Safety cuff

Part Number **SUG66Q** Sizes: **Men's Large**

DEXTERITY SERIES WORK GLOVES

Dexterity NT Nitrile-Dipped Gloves

The tough nitrile-dipped coating on DEXTERITY NT gloves gives superior abrasion, cut and puncture resistance. The combination of the unique 100% cotton seamless-knit shell and the ergonomically designed curved hand and finger shape gives this glove unsurpassed comfort and dexterity.

- Nitrile Dipped, Seamless Cotton Knit
- 15 Gauge Shell, Knit with THT
- CFIA Approved

Part Number SUGS15NT Sizes: 6-11

Dexterity PVC Dipped Work Gloves

The tough PVC coating on DEXTERITY NT gloves gives superior abrasion resistance, and excellent wet grip. The combination of the 100% Nylon seamless knit shell and the ergonomically designed curved hand and finger shape gives this glove unsurpassed comfort and dexterity.

- Black PVC Foamed Dipped
- Nylon Knit
- 13 Gauge Shell

Part Number SUGS13BPVC Sizes: 6-11

PowerGrab® Latex-Dipped Gloves

PowerGrab® is a tough, durable, multi-use glove that will get the job done. The PowerGrab® has a unique rough-crinkle finish for superior wet and dry grip. There are other similar-priced seamless-shell, latex-dipped gloves on the market, but none are as flexible and ergonomically shaped as the PowerGrab®.

- Powergrab®
- Latex on a Seamless String Knit Shell

Part Number SUGS10LX Sizes: 6-10

Dexterity Foam-Nitrile-Coated Nylon Gloves

The tough flexible foam-nitrile coating on DEXTERITY NT gloves gives superior abrasion, cut and puncture resistance. The combination of the 100% nylon, 13-gauge seamless-knit shell and the ergonomically designed curved hand and finger shape gives this glove unsurpassed comfort and dexterity. Ideal for handling oily metal parts.

- Black Nitrile Foam Dipped
- Nylon Knit, 13 Gauge Shell

Part Number SUGS13BFNT Sizes: 6-10

Superior Touch 13-Gauge Nylon Gloves w/Polyurethane Palm

Superior-Touch polyurethane gloves give unparalleled touch sensitivity and dexterity. The non-linting filament-nylon, seamless-knit shell combined with the low particulate shedding properties of the polyurethane coating makes this glove suitable for fine assembly work in industries where product contamination is an issue.

- Economy Grey Seamless Knit Nylon Liner
- Grey PU Palm Coated

Part Number SUGS13GPUQ Sizes: 7-10

Dexterity™NT Foam-Dipped Work Gloves

Excellent oil grip and bare-hand feel are what set our Dexterity™ NT gloves apart from ordinary nitrile-dipped gloves. Fine-gauge, 100% nylon, seamless-knit shell is non-linting and breathable. Shell is dipped into foamed nitrile over an ergonomically shaped hand form, giving this glove unsurpassed comfort and dexterity.

- Foam-Nitrile-Dipped, 13 Gauge
- Nylon-Knit Shell
- CFIA Approved for Food Handling

Part Number SUGS13FNT Sizes: 5-11

DYNEEMA® CUT RESISTANT GLOVES

Superior-Touch Gloves made with Dyneema®

You couldn't ask for a better fit if these gloves were custom made. Made with stronger-than-steel, 13-gauge Dyneema®, to protect you from sharp steel, blades, or glass. Sure-Grip® PVC dots for increased grip and better wear than polyurethane or nitrile-coated gloves.

- Dyneema® Glove
- White

Part Number SUGS13DY
SUGS13DYD

Sizes:XS-XXL
Available in a Dotted Version

Cut-Resistant Palm-Coated Gloves made with Dyneema®

Dyneema® is 15-times stronger than steel on an equal weight basis and twice as strong as Kevlar®. It is also a lint-free, continuous-filament yarn. With their high coefficient of friction polyurethane palm coating and glove body with Dyneema®, these gloves give an unparalleled cut resistance for a glove of such high dexterity and flexibility.

- Polyurethane Palm Coating
- White with Dyneema®

Part Number SUGS13XPU
SUGS13XGPU

Sizes:6-12
Available in Grey

Cut-Resistant Foam Nitrile Palm Gloves made with Dyneema®

Dyneema® is 15 times stronger than steel on an equal weight basis and twice as strong as Kevlar®. It is also a lint free, continuous filament yarn. With their high coefficient of friction Nitrile palm coating and glove body with Dyneema®, these gloves give an unparalleled cut resistance for a glove of such high dexterity and flexibility.

- Black foamed nitrile palm
- Cut Resistant
- Grey Glove with Dyneema®

Part Number SUGS13SXGBFN Sizes:6-11

Cut-Resistant Palm-Coated Superior Touch Gloves made with Dyneema®

Dyneema® is 15-times stronger than steel on an equal-weight basis and twice as strong as Kevlar®. It is also a lint-free, continuous-filament yarn. With their high coefficient of friction polyurethane palm coating and Dyneema glove body, these gloves give an unparalleled cut resistance for a glove of such high dexterity and flexibility.

- Cut Resistant
- Grey Glove with Dyneema®

Part Number SUGS13SXGNT Sizes:7-11

Superior-Touch™ Extreme Cut-Resistant Foamed Nitrile Gloves made with Dyneema®

When high-tech fibres are added to composite yarns, the results are impressive. Fibreglass on its own is brittle, and while it scores well in some aspects of cut-resistance, does not in itself stand up well to direct cut. However, when combined with Dyneema®, brittleness is no longer an issue. The air bubbles in the nitrile palm-coating work to increase grip in oily conditions by displacing the oil on the surface of materials like metal and glass.

- Foamed Nitrile Palm Coat on a 13 Gauge Shell
- Made from a blend of Nylon, Fibreglass and Dyneema®

Part Number SUGS13FGFNT Sizes:7-12

Superior Touch, Extreme Cut-Resistant Fibreglass/Nylon Glove made with Dyneema® and Polyurethane Palm-Coated

When high-tech fibres are added to composite yarns, the results are impressive. Fibreglass on its own is brittle, and while it scores well in some aspects of cut-resistance, does not in itself stand up well to direct cut. However, when combined with Dyneema®, brittleness is no longer an issue, as the fibreglass is now strengthened and supported by the surrounding material.

- Superior Touch Polyurethane Palm Coated Glove
- 13 Gauge Fibreglass/Nylon String Knit Glove with Dyneema®

Part Number SUGS13FGPU Sizes:7-10

KEVLAR GLOVES

Kevlar® Cut-&-Slash-Resistant Glove

Our 'Action' leather gloves have become the industry standard for heavy-duty cut resistance and durability. We combine our own abrasion-resistant Tri-tan side-split leather with the excellent comfort and cut resistance of a seamless-knit Kevlar® glove.

- Kevlar® String Knit Glove
- Split Leather Palms
- Kevlar® Sewn

Part Number SUGSKLP Sizes: XS-XL

Emerald CX Series

Introducing the newest additions to our Emerald CX Line, using our own Kevlar®-stainless-Steel composite yarn blended with polyester to achieve great cut resistance, while at the same time improving comfort and reducing price. These gloves are an ideal glove for moderate cut applications.

- Leather Palm
- Wraparound Pattern
- CX Blend of Stainless Steel
- Kevlar® Stainless Steel Composite Yarn Blended with Polyester
- ASTM Cut Level 3

Part Number SUGSKWCPLP Sizes: XS-XL

Black Widow Grip, Micropore Kevlar® Palm-Coated

Our design utilizes the latest developments in 'micropore' technology by infusing the nitrile coating with millions of tiny pores. In simple terms, these pores displace oils and liquids when pressed against smooth surfaces, and create a kind of suction that further increases grip. Best of all, the pores do not allow oil to saturate the nitrile coating as with a foamed-nitrile glove, keeping hands dry.

- Dexterity™ Series
- 13 Gauge Kevlar® Glove with Micropore Nitrile Grip Palm Coating

Part Number SUGS13KPNT Sizes: 7-11

Emerald CX Kevlar®/Stainless Steel Composite Glove with PU Coating

Emerald CX gloves are knit with an engineered blend of Kevlar® and stainless steel, because two super-strong materials are definitely better than one! They reach an impressive CE Cut-level 5/ASTM Level 4. And, the comfort and dexterity of these gloves is surprising, considering the fact that you're wearing a quarter mile of steel on your hands. Grey polyurethane palm coating provides excellent grip. PU is a thermoplastic polymer of urethane that's soft, with excellent stretch properties. And while it has poor resistance to hot water (it's not recommend for use above 79°C/175°F) it has very low particulate shed, making gloves ideal for assembly work in industries where product contamination is an issue. Emerald CX gloves stand up to 1700 grams of force in lab trials, compared with heavyweight leather gloves that cut at less than 150 grams of force. That translates to ten times the amount of cut protection. Put another way, you'd have to wear ten heavyweight leather gloves to match the cut resistance of our Emerald CX gloves, which of course is neither possible nor comfortable! Emerald CX is where value meets performance: you'd expect to pay a lot more for a glove offering this much.

Part Number SUGS13CXPU Sizes: 6-12

PROTECTIVE WELDING GLOVES

Iron Wolf Welding Gloves

IRON WOLF welding gloves and mitts offer great value. Features include select cowhide splits for comfortable wear, yet rugged enough for tough service. Leather welting in all vulnerable seams and full semi-sock thermal knit cotton lining for comfort and added heat protection. Generous sizing to reduce hand fatigue.

- Deluxe Royal Blue
- Welding Glover
- Kevlar® Sewn

Part Number SUG505BU

HAND PROTECTION

IMPACTO® Anti-vibration Mechanic Style Air Glove®

Used with vibration power tools. Patented Air technology in the palm, thumb and fingers. Adjustable wrist tab with hook and loop closure. Synthetic Ultra Suede leather provides excellent wear and flexibility. Textured patches on the palm and finger tips ensure superior gripping. Mesh back allows hand ventilation.

- Individual air chambers ensure long wear
- Consistent protection where padded
- Durable urethane bladder construction
- Air bladder won't bottom out
- Mechanic's glove style designed for maximum comfort and dexterity
- Meets Anti-Vibration Standard ANSI

Part Number IMPBG408 Sizes Available: Small - XXLarge Sold per pair

IMPACTO® Mechanic's Style Impact Glove

Visco-Elastic Polymer (VEP) palm pad absorbs impact and dissipates shock. Full finger design for complete hand abrasion protection. Synthetic Ultra Suede leather provides excellent wear and flexibility. Anti-slip material on the palm and fingertips ensure superior gripping. Spandex back ensures maximum dexterity. Optimum dexterity and comfort. Machine washable.

Part Number IMPAV408 Sizes Available: Small - XXLarge Sold per pair

IMPACTO® Anti-Impact Glove Liner

Fingerless four way stretch polycotton glove liner has full VEP palm padding (wear under work glove). Visco-Elastic Polymer (VEP) pad absorbs impact and dissipates shock. Used for material handling, light assembly with pneumatic and electric hand tools.

**Part Number IMP501-00 Sizes Available: Small - XLarge
Sold as eaches, left or right hand**

IMPACTO® Impact Glove with Wrist Support

Industrial use, impact and pneumatic tools. Fingerless nylon glove with grain leather and impact absorbing Visco-Elastic polymer padding in the palm and between thumb and index finger. Detachable grain leather wrist support protects wrist from repetitive strain.

**Part Number IMP704-20 Sizes Available: XSmall - XLarge
Sold as eaches, left or right hand**

FOOT PROTECTION

IMPACTO® Metatarsal Protector

Attaches to safety footwear. Extremely durable lightweight polycarbonate material. Protects the metatarsal area of the foot. Designed and tested to compliment steel cap footwear. The lip of the METGUARD sits on top of the steel cap at load point and is secured with existing laces or straps. It helps protect the workers' upper foot by deflecting and dispersing the impact of falling loads. Fits all safety shoes and boots with optional attachment straps to secure to non-lace up footwear and rubber boots.

Part Number IMPMETGUARD™ One Size Only Sold per pair

KNEE PADS

IMPACTO® Foam Kneepad

Form fitting, durable molded Co-polymer padding with breathable CoolMax® lining. Ribbed kneeling surface helps prevent slipping. Elastic strap with hook and loop closure. Made with PVC-Free materials.

GLOVES

HYFLEX®

- Foam Nitrile Coated, Knit Nylon Liner, Light Duty
- Excellent grip in light oil applications by channeling the oil away from the glove surface
- Foam coating is resistant to snags and abrasions
- Highest level of comfort and protection

Part Number ANS11-800 **Sizes:** 6-11

POWERFLEX®

- Latex Coated, Poly/Cotton Knit Liner, Crinkle Finish
- Superior wet and dry grip
- Combination of cut, abrasion and puncture resistance
- Fully coated thumb provides added protection in this high-risk area
- Uncoated back allows air to circulate which keeps hands cooler and drier
- Ergonomically designed, unbelievable comfort

Part Number ANS80-100 **Sizes:** 6-10

CHEMI-PRO®

- Cotton flock lining absorbs perspiration and increases worker comfort
- Added grip on wet or dry surfaces
- Protection against a wide range of chemicals
- Longer than most standard gloves for added forearm protection
- Extra ruggedness and durability

Part Number ANS224 **Sizes:** 7-10

GOLDKNIT®

- 100% Kevlar® String Knit
- Protection from sharp edges of metals, ceramics, glass and other materials
- Reversible
- Launderable
- Blue PVC dots on 2 sides

Part Number ANS70-330 **Sizes:** 6-9

200 SERIES

- Natural Latex, Unsupported, Cotton Flock Lined, Medium-Duty
- Improved grip on wet or dry objects
- Increased snag, puncture, abrasions and cut resistance
- High degree of tensile strength
- Excellent sensitivity
- Added wrist and forearm protection

Part Number ANS297 **Sizes:** 7-10

BARRIER®

- Flat-Film, Hand-Specific
- Flexible, comfortable fit
- Comfortable to wear, especially for extended periods
- Winged-thumb, hand-specific design provides greater dexterity
- Seam-fusion technology provides a secure seal against chemicals
- Reduced hand fatigue

Part Number ANS2-100 **Sizes:** 6-11

VIKING BUSHWACKER ERGONOMIC SAFETY WORK BOOT

- New Ergonomic Snug Fit design for extra comfort and rollover protection
 - New orthotic comfort insoles
 - Highest standard of resistances to ACIDS, ANIMAL FATS, FISH OILS, KETONES as well as a 97% retention of abrasive, tensile and chemical resistance strength after 70 HOURS of exposure to CEMENT
 - CSA Green Tree CSA Z95-02 Chainsaw protection
 - Chainsaw CE Class 3* resistant protection with layered construction of rubber, textile and ballistic nylon
 - Handcrafted 100% waterproof, ozone resistant natural rubber
 - Achilles tendon and ankle protection
 - Heavy duty cotton canvas lining
 - Oil, chemical and slip resistant nitrile lug sole adaptable for ice studs
 - Steel shank and air cushioned heel pockets
 - Great for re-bar and concrete laying
 - 420 Denier Nylon rip-stop collar with safety reflective stripe and black lace tie
- Part Number VIKVW58-1 Sizes Available: 5 - 15**

VIKING BLACK TUSK LEATHER UPPER/RUBBER BOTTOM BOOT

- Handcrafted 100% waterproof, with full grain leather upper and natural rubber bottom
 - Chainsaw CE class 3* resistant protection built into tongue and front of the boot
 - Oil, chemical and slip resistant nitrile lug sole adaptable for ice studs
 - Heavy duty 100% cotton canvas lining
 - Achilles tendon and metatarsal protection steel shank
 - Made in Canada
- Part Number VIKVW78-1 Sizes Available 5 - 15**

VIKING MINER 49ER PROFESSIONAL MINING BOOT

- Achilles tendon and ankle protection
 - Ergonomic snug fit design for comfort and roll-over protection
 - Handcrafted 100% waterproof ozone resistant natural rubber
 - Heavy duty cotton canvas lining
 - Steel shank and air cushioned sole pockets
 - Oil and chemical resistant nitrile lug sole
 - Removable comfort felt insole
- Part Number VIKVW49 Sizes Available: 6 - 14**

VIKING ARCTIC PU BOOT

- Built for -50°C, rated to -40°C. Ultimate cold weather protection! No liner required!
 - Made of an extra thick microfoam Polyurethane compound that's warmer, lighter & longer wearing
 - Extra wide toe, vamp and shaft for a more comfortable fit with or without socks
 - Resistant to mineral, animal, and vegetable oil and fats, blood, disinfectants, manure, solvents, motor oil, and petroleum based chemicals
 - 15" tall; Ergonomical sole design for easy walking
 - Anti-bacterial and abrasion resistant lining
 - Shock resistance heel * anti-slip, self cleaning sole
 - Washable, moisture absorbing, cold insulating and slip-resistant insoles
 - Advanced Soft PU Compound
- Part Number VIKVW89 Sizes Available: 6 - 14**

VIKING JOURNEYMAN PVC BOOT

- Scientifically formulated premium PVC compound
 - Heavy Duty polyflex compounded self cleaning sole
 - Superior tensile strength and tear resistance
 - Excellent durability and comfort
 - Generous wide fit
 - Good safety work boot for use in excavation, construction, road and field work.
- Part Number VIKVW2-1 Sizes Available: 6 - 14**

VIKING NITRI-DEX SAFETY PVC BOOT

- CSA/ANSI Class 1 Steel Toe & Plate
 - 17.5% Nitrile/PVC compounding on sole and shaft provides exceptional resistance to fuel, motor oil and a broad range of chemicals - prevents fuel, oil and chemicals from migrating into the boots.
 - Excellent boots for use on oil rigs, factories, construction and road work
 - Superior puncture, tear, abrasion and wear resistance
 - Removable insole
- Part Number VIKVW4-1 Sizes Available 6 - 14**

DISPOSABLE COVERALLS

North Gen "FR" Series Disposable Coverall

The North Gen "FR" Coverall is made from a unique combination of nonwoven fabrics and meets with CE Type 5 & 6 protection which means that it is resistant to noxious dust, oil & chemical splashes and also antistatic to meet with EN1149-1. The North Gen "FR" Coverall is also now Flame Retardant to NFPA701 and EN533 Index 1. The fabric is breathable and therefore very comfortable to wear - even for long periods of time. The North Gen "FR" Coverall is ideal for a wide range of applications and has been designed to be both practical and comfortable with a 2-way zip, elastic waist and a generous cut.

Part Number	Description	Size:
NTH25596	Flame retardant coverall, green	S-4XL

North Gen "AIR" Series Disposable Coverall

The North Gen "AIR" coverall is made from a new revolutionary fabric which is soft and breathable. It offers superior resistance to noxious dust and splash in accordance with CE type 5 and 6. It is low lint and therefore ideal for use in a wide range of applications where the wearer needs protection and the environment must not be contaminated with fibers from the garment. North Gen "AIR" is vented and breathable therefore very comfortable to wear - even for long periods of time.

Part Number	Description	Size:
NTH85596	Vented disposable coverall, white	S-4XL

North Gen "PRO" Series Disposable Coverall

The North Gen "Pro" Coverall is made from a unique combination of nonwoven fabrics and meets with CE Type 5 & 6 protection which means that it is resistant to noxious dust and splash. The fabric is breathable and therefore very comfortable to wear - even for long periods of time. The North Gen "Pro" Coverall is ideal for a wide range of applications and has been designed to be both practical and comfortable with a 2-way zip, storm flap and a generous cut.

Part Number	Description	Size:
NTH35596	Disposable coverall, blue	S-4XL

RAINSUITS AND TRAFFIC RAINWEAR

401 Tornado Rainsuit/411 Tornado Fire Retardant Suit

This popular rainsuit is constructed from PVC/Polyester/PVC with a .35mm thickness, offering the user reliable quality and value. The jacket comes with storm flap, dome snaps, two patch pockets, corduroy collar, detachable hood with drawstrings, cape back and underarm vents, cuff take-up snaps, non-conductive fasteners, and ultrasonically reinforced welded seams. The pants feature non-conductive fasteners, fly front, adjustable suspenders, adjustable waist snaps, and ankle take-up snaps. Available in complete suit or separate jackets and pants in both hi-viz orange and yellow. The 401 Tornado is suitable for construction sites, farms, municipal workers, and most jobs in foul weather. Fire retardant suit is also available.

401 Tornado Traffic Rainwear

This suit with 360° of reflective tape offers the same features as the 401 Tornado. Material is PVC/Polyester/PVC with a thickness of .35mm. It is specially designed to meet the needs of those working on a traffic work site or construction site. Applications include security, police, municipal workers, airport workers, or any job application where increased visibility is a must for safety. The suit features a reflective "X" on the back, two vertical stripes on the chest, a 360° waist band on jacket, and bands around both arms and legs. Jacket features storm flaps, dome snaps, two patch pockets, corduroy collar, and detachable hood with drawstrings. Bib overall pants come with fly front, adjustable suspenders, and adjustable waist snaps.

TRAFFIC PARKAS & JACKETS

Traffic Parkas

These high intensity traffic parkas increase the visibility of workers on any job site. The water repellent outer shell makes this an excellent parka for inclement weather and cold winters. The parkas are made of 100% polyester and have an inner black lining with diamond-shaped quilting. Material is 300 denier and the lining is 200 grams. Jacket features front storm flap with 5 snaps and a two-way zipper, set-in long sleeves with an inner knitted wrist storm cuff, 2 flap waist pockets, inside left and right chest pockets with velcro closures, one lower mobile phone pocket with velcro closure, and a hood that rolls into the collar and features a drawstring with plastic bell knob stopper. Parka also features 360° reflectability, 2 stripes down the chest, an X on the back, 2 bands around the waist and a reflective band around the arms. Ideal wear for construction workers, police and traffic authorities, municipal or government workers, security personnel, airport workers, or any job site that requires high visibility clothing. Available for custom embroidery. Packaged 10/Case.

COLD WEATHER GEAR

Winter Parkas

Our 100% cotton woven canvas parkas will keep you warm in winter. They are generously sized and have reinforced seam work to allow for long-term durability. They are lined with 100% black cotton flannel with polyester filling and the nylon quilted lining on the bottom of inner parka allows for easy sitting. The canvas is 250grams (10 oz. per square yard) and the lining is 220grams (8.8oz). Our parkas also feature a full zippered front closure with top and bottom button down straps and storm flap, side pockets with 2-way zipper, allowing access to cell phone, keys, wallet, etc, inner left jacket pocket with storm flap, and 2 outside patch pockets with flap and snap with two-way access from top or side. Sleeves feature 4" inside knitted storm cuff with nylon lining to prevent build up from snow and a left sleeve storage pocket with flap and snap for pencils/pens or cell phone. An extended 3.5" tab on neck of hood allows for extra room for hard hats. Suitable for all outdoor construction work, security personnel, municipality workers, farming, mining industry, or any outdoor jobsite during colder weather. Packaged 10/Case.

APRONS AND SLEEVES

PVC/Polyester Apron and Sleeves

This apron is an ideal choice for industrial applications and long-term wear. Apron is PVC/Polyester/PVC with a material thickness of .35mm (fire retardant apron is .45mm thick). Features include rustproof, heat sealed grommets with ties and seamless edges that prevent build up of bacteria and residue. Suitable for lab work, industrial work, food processors, and janitorial work. Apron is 36" x 48". Sleeves are 18" and feature elastic cuffs.

Part Number	AID440060	PVC/Polyester Apron
	AID440040	PVC/Polyester Sleeves
	AID440070	PVC/Polyester Fire Retardant, Chemical Resistant Heavy-Duty Apron
	AID440075	PVC/Polyester Fire Retardant, Chemical Resistant Heavy-Duty Apron with Reinforced Mid-Patch
	AID440050	PVC/Polyester Fire Retardant, Chemical Resistant Heavy-Duty Sleeves

PROTECTIVE CLOTHING

Nitrile Apron with Reinforced Mid-Patch

This apron is suitable for heavy-duty industrial applications and extremely abrasive environments and offers excellent protection against punctures. Apron is made of nitrile with a thickness of .50mm (+/- 0.02mm) for the apron and .80mm (+/- 0.02mm) for the belly patch. Reinforced mid-patch is designed for food processors to offer increased durability. Apron is 35" x 48".

Part Number	AID440180	Nitrile with a reinforced mid-patch
	AID440050	PVC/Polyester Sleeves

Blue Vinyl Apron and Sleeves

This vinyl apron provides low cost protection for light duty work, food processing services, and cleaning. Made of a premium grade vinyl, the material has a thickness of .20mm. Features include rustproof, heat sealed grommets with industrial strength ties and seamless edges that prevent build up of bacteria and residue. Apron is 45" x 36". Sleeves are 18" and feature elastic cuffs.

Part Number	AID440080	Apron
	AID440020	Sleeves

Denim Apron

The denim apron is designed for use in general industrial applications. The durable cotton material provides protection against abrasive surfaces and dirt. The lightweight material is comfortable for long-term wear during the work shift. The full apron features multiple utility pockets that allow for tools, gloves, cell phone, marking pens, etc. Half apron features 3 pockets.

Part Number	AID440170	Full Apron
	AID440120	Half Apron

FOOT PROTECTION

Wilkuro Toe-Caps

Accept no imitations, look for the original Wilkuro® brand safety toes. Relied upon by Fortune 500 companies, Wilkuro's slip resistant safety overshoes have been continuously quality tested since 1985. Proudly made in North America.

Wilkuro Safety Toes provides excellent occasional toe protection at an affordable price. The Wilkuro Safety Toe is an alternative to steel toe shoes for:

- casual or temporary workers
- salespeople
- executives
- or any other person who enters an area where toe protection is required.

Where there is a potential for toe injury the desire for comfort and convenience of wearing regular footwear Wilkuro Safety Toes are the answer.

Wilkuro Safety Toes are a time-tested and proven steel toe shoe solution, which is ideal in any environment where there is risk of accidental toe damage or where steel toe shoe cap is required.

Designed to fit comfortably over soft-toed shoes, including runners and even low-heeled dress shoes*, Wilkuro Safety Toes are an excellent alternative to steel toe safety shoes.

Order them for casual or temporary workers, visitors to a plant, sales persons, executives or clerical staff.

Unlike standard steel-toed safety shoes, they can be passed from person to person without hygiene concerns.

The switch to PVC ultimately replaces the use of 100 per cent vulcanized rubber boots. Wilkuro has continuously and comprehensively tested its products to meet and exceed required international safety standards. Market and quality testing has shown the new PVC overshoe to provide a stronger, more durable and slip-resistant Wilkuro Safety Toe, which is also acid, oil and animal fat resistant.

According to Operations Manager, George Kuropas, "PVC is capable of coming into contact with a variety of chemicals without undergoing any significant changes in composition or properties. It remains strong and durable, even under changing temperatures and conditions. This resilience will allow Wilkuro Safety Toes to consistently function for extended periods of time." He added, "Out of 135 standard chemicals tested, the Wilkuro PVC overshoe consistently outperformed comparable rubber overshoes. PVC achieved excellent or good scores for chemical resistance in 92 instances compared to 48 instances for rubber—a 192 per cent improvement."
