

Thiel College
Meal Plan Selection
Fall 2012

Thiel College, through its food service provider AVI FoodSystems, offers a selection of four meal plans to its resident students. All four plans carry the same cost per semester; the difference is in how many dining hall meals are available vs. flexible dining points available. As fewer meals in the dining hall are chosen, the dining points balance increases. Take some time to consider which plan will work best for you and your lifestyle. To choose a plan other than the TC Basic, you must have first completed all financial arrangement requirements with the Financial Services Office. The College reserves the right to revert a student to the TC Basic plan if the student is delinquent in his/her financial obligations. Meal plans chosen for Fall Semester automatically carry-over to Spring Semester, to stay on same plan from fall **DO NOTHING.**

Dining points may be used to purchase food and soft drinks at the Bistro, in vending machines in the Academic Center, or for additional meal purchases at the dining hall. Dining points are assigned to a student account at the beginning of a semester, and expire on the last day of each semester.

The selection of an alternate plan must occur by September 7, 2012 for the Fall 2012 semester.
