

## CUSTOM ORDER RELEASE FORM

### Instructions:

**Step 1:** Provide us with as much information as possible by filling out the following form and sketch your drawing on the final page. If you are unsure about any questions below, please give our expert sales associates a call for clarification or simply leave the answer blank.

### Step 2:

**For aftermarket related radiators:** Fax (704.799.1191) or scan and email (sales@crracing.com) this form to our aftermarket specialist. You may also call 704.799.0955 for help with completing this form.

**For racing related radiators:** Fax (317.328.4691) or scan and email (sales@crracing.com) this form to our racing specialist. You may also call 317.293.4100 for help with completing this form.

**Step 3:** Within 10 working days after submitting your sketch, you will receive a detailed CAD drawing completed by our engineering department. Your sales representative will also provide you with a price estimate at that time. From here, you will be able to make any additional adjustments before agreeing to a final design (Any major changes or additional adjustments could affect your price estimate).

**Step 4:** To begin manufacturing, a 50% deposit must be made. You will not be charged the full amount until the custom order has been shipped. If you are using a credit card, the card will not be charged until the shipping date.

**Step 5:** Once we have received your final signed approval on the drawing, your custom radiator will be scheduled to be built. The normal manufacturing process takes up to 10 work days. Your sales representative will be in contact with you during this time to confirm your shipping method and date of shipping.

Please remember that your specific project may take less or may take more time than normal depending on the complexity of the design, whether specialty components need to be manufactured or purchased, and the time of year and our current workload. Our sales representatives will be able to estimate the timing of your special project.

**Step 6:** Install your new product and enjoy the quality cooling performance your car deserves! Please feel free to contact us regarding any installation questions.
