

# CHRISTMAS 09

Dearest Parents + Carers

I can't quite believe I'm writing this so soon as it feels like the term only began last week!

Such is the busy pace of life in our vibrant community that time literally seems to fly. It has been as ever, a very rewarding and immensely enjoyable term as you will see from this Christmas newsletter.

There have been some outstanding achievements from the individual, year 11's Kaycee DeBelen becoming Newham's new Young Mayor, to whole school, where we have just won **Alliance School of the Year Award 2009** for the sixth form work with London Citizens. Not to mention the myriad of trips that adds to our school curriculum.

The theme for the year is 'By Endurance we Conquer' and I have been struck, more so than ever, how hard working a term it has been for the students and the staff of the school driving our greatest expectations into reality. So it only seems right now to publicly thank them for all their phenomenal efforts and achievements.

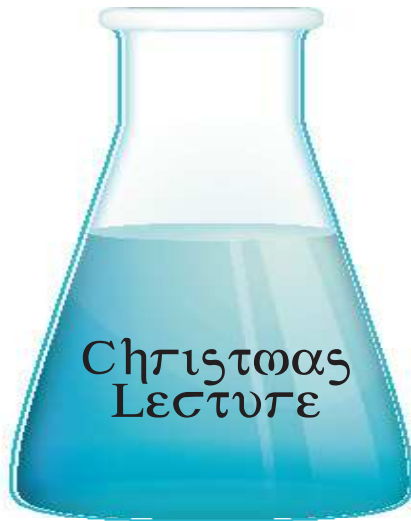

We have been focusing this half term on the real meaning of Christmas with the girls and they as ever have been working hard, with the staff, to raise money for those in need. The charities they chose this year are: 'Brentwood Catholic Children Society', 'The British Heart Foundation', 'Cancer research UK' and 'Community Links.' As I write this, to date, they have already raised £3228 with much more still to come in . . . Well done all!

As you may know Mr Stephen Foster the Headteacher of St Bonaventure's is leaving this Christmas. We wish Stephen all the very best with sincere gratitude for his years of service to the joint sixth form and the boys of St Bonaventure's.

It leaves me just to wish you all a very happy and holy Christmas and a festive New Year!

Yours in service

Mark Johnson

Twenty Six students from Science class 8 Eigenmann went to a Christmas lecture rehearsal at the Royal Institution in central London.

Accompanied by Mr Baker and Ms Kantharia students enjoyed a talk on plant-to plant communication, given by the eminent Ecologist Professor Sue Hartley. The lecture, entitled '*300 Million Year War*', focused on the evolution of plant defences against herbivore attack.

Students were keen to answer questions and take part in role plays, even coming to Sue Hartley's aid at lightening speed when she struggled with her times table! Students looked smart and their behaviour was exemplary.

A truly enjoyable and memorable afternoon was had by all.

# HEADLINES

Our congratulations go to Kaycee De Belen of 11 MacCarthur who has been elected Young Mayor of Newham. A fantastic achievement!

£££

**209.48**

was raised  
for the  
Poppy  
Appeal

Students have been busy raising money for their Christmas charities from wearing their pyjamas to baking cakes.

Mrs Pettenuzzo kindly baked a wraft of delicious cakes for staff that went before the end of break time!!

Staff generously indulged their sweet teeth to the tune of £100.46. The money will be going to Community links who will be helping families in need this Christmas.

# ANTI-BULLYING WEEK

## Laugh at it and you're part of it!

September 2009 saw the resurrection of the anti-bullying alliance as the **Anti-Bullying Committee**- a group of 6th formers and Miss Chavda working with teachers and students on a common goal to raise awareness and stamp out bullying.

The focus for Anti-Bullying Week this year was 'Cyberbullying', an issue on the rise as technology continues to develop. More and more young people are suffering from aggression, intimidation and threats through texts, emails and social networks, often being made a target in their own homes. Bullies are using mobile phones, the internet and other technologies to target their victims anonymously which is making it increasingly difficult to catch them and leaving victims feeling like there is nothing that can be done. This is certainly not the case.

During the week the Anti-Bullying Committee set up a '**words of support**' wall where students and teachers were invited to share positive messages for victims of bullying. The end result was a magnificent collection of advice and support which will be on display soon for you all to see. The school was also a sea of blue as students and teachers united to '**Beat the Bullying Blues**'. Scarves, tights, hair accessories and cardigans painted the school with a stroke of blue as everyone came together in a stand against bullying.

Despite our great efforts, bullying and cyberbullying continue to ruin lives. Don't try and deal with it on your own- make sure you talk to someone about it

And remember-laugh at it and you're part of it.

**THE ABC**

### London Citizenship Project

Over this half term, the 6<sup>th</sup> Form having been working with London Citizenship, a branch of TELCO. The project allowed each separate form group across the Centre to formulate ideas to support the young people of Newham through Citizenship.

Ideas generated from the 6<sup>th</sup> Form include a 24 hour library, Work Experience and Partnerships with Local Businesses and ideas to improve Public Transport. The project culminates with students from the Centre presenting their ideas to five other East London Schools on Thursday 17<sup>th</sup> December.

In recognition of this work and wider work within the two main schools, we are delighted to inform students and parents that St Angela's and St Bonaventure's 6<sup>th</sup> Form have been awarded **London's Award Winning Leading Citizenship Schools 2009**.

# Cadbury WORLD

In September, Mr Cox and Ms McWalter accompanied 23 year 11 students on a visit to Cadbury World in Birmingham.

The purpose was to carry out research for their GSCE Business studies coursework.

When we got to Cadbury World, the first thing we did was have a lesson from Cadbury's education coordinator. The lesson was all about Cadbury's marketing and was very interesting and informative.

The students emerged with useful notes for their coursework, ready for the most important part of the day, the tour round the factory and of course, the free chocolate! Final stop was the gift shop to buy chocolate for family, friends and of course, ourselves.

Now comes the hard part- doing the coursework!!

## MUSIC NEWS

600 KS3 students have learnt how to play guitar this term with the view to move onto the electric and bass guitar. The focus is on the skill of performing. They have to sing and play at the same time to get the whole band experience.

## CHAMBER CONCERT - 26th November 2009

To showcase the talent of our musicians, the Music Department held their first Chamber Concert of the year. Over forty students performed on a variety of instruments, ranging from violin, piano, voice, guitar, drums, flute to saxophone.

Standout performances were by Sara Sadek-Attalla and Emma Barrett (Year 8), Serena Patel (Year 12) and the Guitar ensemble (Amber Byrne, Adele Coy, Teresa Trim and Ronalyn Nanong)

# Tilbury Power Station

Budding scientists in year 10 donned hard hats and high visibility jackets for a tour around Tilbury coal burning power station. They also got the chance to test the water in the surrounding wet lands for the effect of the power station - including a spot of fishing for invertebrates - one group even caught a water scorpion!

This term has seen our football teams out in full force. Having both the Essex County Schools and the English Schools Tournaments over the course of the term means the girls have been very busy! In the Essex cup both the Under 13s and 14s made it in to round three. Both teams played extremely well in their matches and only lost by a slim margin. The under 16s didn't make it past the first round but played with enthusiasm and skill. Again showing their talent and team work, the Under 13s also made it to round three of the English School's Tournament.

Our biggest success, however, came closer to home when the Year 8 and 9 5-a-side team won both their heat and the final of the Newham Schools Sports Association Football Tournament. They played a number of schools from across the borough and beat Sarah Bonnell in the final deciding match. The other year groups are still due to play their 5-a-side tournaments and we look

## TRIP TO PARIS

*24 hours in Paris- can it really be done? A group of year 10 and 11 pupils have put themselves to the test and braved an early start (12:00am) and the cold weather for a whistle-stop tour of the French capital.*

*By 9:00am we were up the Eiffel Tower enjoying the view. A packed schedule meant that there was no time to rest; the day included a boat trip along the Seine, Notre Dame, the Tuileries, Sacre Coeur and the Champs Elysees.*

*A very tiring day but we all agreed it was well worth it - we all want to go back for one more Gaufre au chocolat!*

An opportunity to celebrate and promote languages in within the school community.

On Thursday 27th November 2009, members of our school's very own debating society received the chance to participate in a mock council of the European Union held at the Locarno Rooms of the Foreign and Commonwealth Office. At the event, Melita Gorewal, Eleanor Angwin and Jessica Ete of St Angela's School were chosen to represent Slovakia in EU-styled discussions and about three of the issues prioritised by the current

French Presidency: GMO and Food Safety, Climate Change and Immigration and the Integration of Migrants.

The first of the talks was chaired by Lord Kinnock, a former leader of the Labour Party (as parents may remember). Whilst the outing revealed no specific 'winners'; as one might come to expect from a debating-related trip, it was most definitely an interesting experience in which all students involved could

learn more about the point of view of the individual countries they represented, as well as the workings of the European Union.

# everything

In a joint project between the TLC and CSC, 30 students spent a day with performance poet Neal Zetter as part of this year's National Poetry Day celebrations. As well as listening to him perform his poems, the girls were encouraged to join in during the performances. At the end of the day, students took part in a poetry slam; reading out the poems they had written during the day.

There was an opportunity for year 8 students to listen to a talk by acclaimed children's writer Julia Golding. Much fun was had as she involved the girls in a talk about the background research behind her latest book "Wolf Cry". The students learned about the Vikings as well as the writing and publishing process.

starts with reading

# KS3 & 4 Induction

## YEAR 7

On a crisp Autumn morning at the beginning of a new academic year, our new year 7 students joined our St. Angela's family.

"When we came we were put into our form rooms and got to know our form tutors. This is where they told us all about what it was like being at St. Angela's! During the week we made new friends, got to know where our classes were and learnt new things from the Ursuline prayer to how to behave in lessons. On the final afternoon of our induction, Mr Johnson presented us with our certificates - we were now St. Angela's girls!

By the end of the week, we felt relieved and more secure about what life would be like at St. Angela's."

**Aisha Lawal, Karlin Sylvain and Michaela Ofori, Year 7**

## YEAR 10

On Year 10 induction day, we all arrived at Brescia Hall not really knowing what to expect. Mr Johnson spoke to us and introduced the day. Then Ms. Boyd did a session on the *7 Habits of an Effective Teenager*. She talked to us about our brain and how it works. We also did a quiz about it. This told us whether we were effective or defective! We then returned to our tutor groups and had two sixth formers come to our class. This was part of our *Target Setting, Target Getting* session. They talked to us about year 10, how it was for them and the grades they got at the end of year 11. They talked about how they didn't get the same opportunities at their school as we have here. They also told us to take year 10 seriously as it is hard to catch up with coursework missed in year 11. They advised us to get as much done in year 10 as possible.

Our next task was The Apprentice: Treasure Trail. We were split into groups and went around the school looking for all of the places where we would find answers to the questions that we were given. We all split up to maximise our time. Our group won! Our prize was a big packet of sweets which we all shared with our class.

Then our tutor took us through a PowerPoint called *Who do you think you are?* This helped us to learn a little more about ourselves as individuals as well as a tutor group. Finally after lunch we had a *Heartmath* session where we learnt about how to stay calm and de-stress with breathing exercises. We also had a short yoga session which taught us how to sit properly and how to have good posture. Overall, it was a good day!

**Sophia Nantale**

# RE DEPARTMENT

Mr McCarthy and Miss Vassiliou took the 54 sixth form students from the years 12 and 13 Theology and Philosophy class to an art exhibition, 'The Sacred made real' in the National Gallery.

The students were able to look at statues and images of the suffering of Christ, a lot of which were lifelike and highlighted the true purpose of Jesus' mission. The pupils were outstanding in their conduct and very reflective.

In the afternoon the pupils were given the chance to explore Trafalgar Square and the surrounding area. We were fortunate enough to see an outdoor exhibition called *The Ghost Forest* showing the fallen trees from Ghana highlighting the impact of environmental damage to the world today. Many of our students were shocked at this site as a lot of them have family from Ghana.

**Ms Vassiliou**

26 year 9 pupils went to Aylesford Priory to understand what it feels like to be on a pilgrimage. Upon arrival, the girls had their very first experience - it was bitterly cold. We put ourselves in the shoes of the early pilgrims who would have walked to Aylsford and created little skits depicting their arrival at the Priory after having braved the elements. We then walked around the rosary walk where we said our rosary and prayed. Following a much needed tea break, we made clay models using pilgrimage key words. The girls moulded very interesting sculptures depicting LOVE, PRAYER, and FORGIVENESS etc. Finally the girls got to visit the shops!

**Ms. Afonso**

In November, 60 Year 9 girls were extremely fortunate to go on a pilgrimage to Westminster Cathedral to visit the relics of St Therese of Lisieux. It was a very special event. The girls themselves commented on how close to God they felt during this most holy of journeys. As Catholics it had particular significance for us, as the pilgrimage was also an indulgence. Whilst meditating and praying before the relics, as pilgrims, we experienced an overwhelming sense of calm and each individual who participated on this sacred journey is highly unlikely to forget this once in a lifetime experience.

**Ms. Kerridge**

# MENTORING MATTERS

This year the mentoring programme involves 92 6th form students. Their role is to mentor year 11 students, KS3 students or assist as a form mentor. All students have been provided with information booklets which contain tracking forms and target setting sheets along with other information to assist them in mentoring students.

The role of the mentors is to assist, encourage and support students to achieve their academic and personal goals.

40 Students new to the mentoring programme were provided with training by Dr Barrie Kennard over a weekend during the start of October. Dr Barrie Kennard from Cardiff University is an industry expert in his field and is involved in delivering mentoring and leadership sessions to business and other establishments around the world. The students thoroughly enjoyed the days. They learnt how to judge people's reactions, body language and improve their own level of communication. All of the above will greatly assist them in helping their mentee's succeed further.

To launch the event Yr 11 students had a 'meet and greet' session with their mentors in the TLC. Everybody enjoyed the food and refreshments that were provided. Form mentors met with their respective form teachers in a breakfast meeting to launch their programme.

*"Mentoring is a brain to pick, an ear to listen, and a push in the right direction"*

At the beginning of term a group of students and staff went to see this popular stage show. Some of the students had earlier in the year participated in an African dance workshop by Irie dance Theatre. So this was a chance for those students to see professional dancers performing the characteristics of African dance and music. A fantastic time was had by all.

## WHAT IS CHRISTMAS?

Christmas, also known as the Feast of the Nativity, literally means "Christ Mass." The feast celebrates Jesus' birth and the Incarnation of the Son of God on December 25.

# BADMINTON

Three Squads of Year 8 and 9 pupils and one squad of Year 11 pupils headed to Sarah Bonnell School for the first stage of the National School's Competition, which included teams from across the borough on Friday 20th November. St Angela's outshone the opposition in each match of both doubles and singles; squad one excelled and brought praise from other teachers and the competition organisers. All squads showed great skill and aptitude throughout the competition. St Angela's squad one Year 8 and 9 and squad one year 11 both made it through to round two of the competition to be held in February 2010 which will see us competing with schools from across all London Boroughs.

Well done girls!  
Good Luck in Round 2!

Miss Lebby

## On adore le cinema **français!**

In November, students studying French in years 12 and 13, attended a viewing of the wonderful film, *Le scaphandre et le papillon*.

Sharing the wonderful world of the ex editor of Elle magazine, Jean Dominique Bauby, hit hard by a massive stroke known as Lock-In Syndrome. Despite the serious nature of the subject, the film was also funny, quirky and full of love and hope. Many thanks to Stratford Picture House for offering us great foreign film vewing locally. Merci Beaucoup!

# PEAK DISTRICT

On a chilly October morning, the time came for our intrepid A2 Geographers to pack their bags and hit the peaks. No skis were required as our destination was not Chamonix or Aspen, but the heady heights of Britain's own Peak District National Park. Our home was to be Eyam, the famous plague village and we would be staying at the house of the town's brutal judge, now a youth hostel overlooking the village from on high.

Our students were on a mission to investigate human and physical processes, with four days of activities planned in the local area. Naturally this meant our students would be sporting the latest threads including a catwalk of pink wellies that would put the fashion houses of Milan to shame; but enough about our boys! The early mornings were greeted with hearty breakfasts to ensure plenty of energy for the day ahead.

Day 1 saw students conducting an investigation into rural service provision, visiting a number of settlements and conducting land-use surveys. Each day our geographers worked late into the evening, showing commitment and maturity previously unseen. Next morning and Day 2 was a washout on the River Derwent as the rivers investigation being carried out took second place to a gentle dip for a few of our more eager beavers. Who would have thought site C (nicknamed Slippy Stones) would make for difficult data collection?!

Day 3 gave our students plenty to think about. Quarrying is permitted in the national park but the future of this economic activity remains unclear. Students spoke with and asked plenty of tough questions of representatives of both sides of the quarrying argument and really showed an aptitude for decision-making and hypothesising. Fearless as ever, our students wanted nothing more than to see some explosives blowing a hole into the side of the landscape, but alas 'dynamite day' had come days earlier. That evening they took to role-playing instead, presenting some of the most enjoyable group presentations I had seen them do.

Day 4 was time for home and on the way we decided to take the underground. No Central Line for us though, we descended a few hundred metres under the earth to explore a working mine, led all the while by a working miner! Emerging after a fascinating tour, we said our goodbyes and headed for London; exhausted and a bit chilly but with a sense of satisfaction hard to equate to a week in the classroom!

# European Day of Languages

Year 7 students celebrated the annual European Day of Languages with flair this year. We all enjoyed seeing their traditional costumes and dancing the Lambada with Ms Chislett was great fun. Year 10 were also up to the challenge of a fiendishly difficult quiz - well done to the winner, Natalie Wireko in 10 Ashley.

## CONGRATULATIONS TRIXTERZ

Trixterz are a dance group, who have been performing at the school's annual dance show for the last four years. They were invited to perform at The Best of LiveVibe held at the Mermaid Theatre in November. The show consisted of young talented artists in dance and music, performing on a platform with professional artists. Trixterz performed their dance to a rapturous applause and at the end of the night received the trophy for Best Dance act of 2009. Trixterz would like to say thank you to friends and staff who voted for them. Trixterz are Annetre Ayivor, Nicole Nyemi-Tei and Janice A-Davis.

Example of Ruth's work

Ex-student Ruth Babajide visited students from Years 8 and 9. Ruth is now pursuing an exciting career producing bespoke ceramic products for large department stores. Her designs are based largely on her Nigerian culture but with a contemporary twist.

Her visit captivated and enthused the audience and resulted in many of them expressing an interest in a career in art!

### NOTICE FROM TFL

From Saturday 2nd Jan 2010 expired Oyster photocard will no longer be accepted on TfL's buses and Trams. If students do not have a valid Oyster photocard they will need to pay the **FULL ADULT FARE** for their travel

Please allow adequate time for card issuing

## Boris declares City Hall as 200th City safe haven

Students of St Angela's and St Bonaventure's proudly posed for photos with Mayor of London, Boris Johnson as he declared City Hall to be the 200th city safe haven in London. The scheme, which was the brainchild of St Angela's and St Bonaventure's students, has seen tremendous success enabling shop owners to offer their premises as a refuge to a young person in fear of an attack on the capital's streets.

Speaking at the launch of the TELCO Newham CitySafe Partnership on the 30th October, Christina Onaolape, TELCO Leader St Angela's and St Bonaventure's Sixth Form College said:

"The contribution and leadership of young people on CitySafe in Newham is key to its success. I am proud to be a part of this generation of proactive young leaders who have shown courage in being part of the solution to the problem of crime and violence among young people"

## GOOD FOOD SHOW

The Food Technology department organised an educational trip for students taking Food Technology on Friday 15th November. It was a very exciting and stimulating experience as the students got a taste of what the food market was really like. It was a really interesting and appealing day out for all who participated as students got the opportunity to taste things that haven't even been released on the market yet!

Dalanda Williams a student who attended said "It was great! I learnt a lot about different cultures, foods and juices, I will definitely want to come back next year." There were products from different cultures including: Chinese, Japanese, Greek, Italian and a lot more. Overall an unforgettable experience that will stay with students for a long, long time.

**Maureen Ndikum Lum**

# GERMAN EXCHANGE 20TH ANNIVERSARY

The MFL departments of both St Angela's and St Bonaventure's were proud to celebrate the 20th anniversary of our link with the Gymnasium Rittersburg in Kaiserslautern, Germany. Year 12 students were pleased to welcome their exchange partners and all enjoyed a week packed full of fun activities, including a theatre trip and a visit to Brighton. The week culminated in a party on the friary lawn with special guests including the Deputy Mayor, governors and former exchange participants. All schools are looking forward to another successful 20 years of partnership.

## The World Gymnastics Championships October 2009

Thirty pupils and three members of staff travelled to the O2 to watch the men's qualifying round of the World Gymnastics Championships. This was the first time the event had been held in the UK for over ten years and the setting could not be better! Our group took their place only five rows from the front with a great view of all the apparatus! The competition got off to a great start with the gymnasts completing their routines with strength and skill. There was a great atmosphere in the O2 where we joined in with several Mexican waves! One of the highlights was when Ms Jarvis spotted Great Britain gymnast Louis Smith as a spectator and persuaded him to have his photo taken with the group! He then sat behind us to cheer on his British team mates including Dan Keatings who later went on to gain second place in the individual competition. We really enjoyed our day and cannot wait to try our new moves at gym club!

Amy Watson  
7 Wharton

A group of year 7 and 8 students from Dance Club had the chance to go to a private viewing of 'Michael Jackson's This Is It'. The girls enjoyed the footage from his planned O2 concert.....they were swaying and singing in the aisles and applauding performances given by M.J. The footage was amazing and it truly would have been a good concert.

# COSTA RICA

Last academic year, nine 6th form students set off on the adventure of a lifetime that they had been preparing since 2007! After much fundraising they were finally on their way to Costa Rica and Nicaragua for 3 and a half weeks with two teachers and a World Challenge guide to keep an eye on them.

First stop, San Jose (At this point everyone knew the way to San Jose!) The group spent a few days here stocking up on cooking supplies, fuel, booking accommodation and transport for the rest of the trip. Once prepared, we moved to Monteverde in the cloud forest for some acclimatisation trekking, where we saw some clouds and zip wiring, which was an amazing experience. From there we moved on to Arenal where we stayed at the foot of an active volcano that was constantly belching smoke and threatening to erupt.

Once we were fully acclimatised and used to heat and humidity, we moved to the village of Arenal and spent 4 days renovating a medical clinic in a remote village. From there, we needed to stock up on food once more before our main four day trek in the Santa Rosa National Park.

After such an exhausting trek it was time for some R and R. We headed to the island of Ometepe in Nicaragua and spent a few days swimming in waterfalls and playing on the beach. It was a well deserved rest. One more stop before home - Granada!

An incredible learning experience.

# ICT Flash Club

Christmas is when we make animated E-Cards with Year 7 students, to share with all the people we love and care for.

To support students with their project we have been running a Flash club led by Mr Yadirgi using Macromedia Flash MX. This club has been running for the last four weeks and you will have had a chance to see the best Christmas E-Cards displayed around the school on the Plasma screens.

MERRY CHRISTMAS - ICT DEPARTMENT

## Shobana Jeyasingh Dance Workshop

The GCSE Year 10 and AS Dance classes had the opportunity to participate in a dance workshop with the Shobana Jeyasingh Dance Company. The dancers explored *FAULTLINE* choreographed by Shobana Jeyasingh, which is a *Set Work* for their respective courses. The day started with a contemporary dance warm up with and an introduction to the South Asian Indian classical dance, Bharata Natyam. The students performed footwork and hand gestures, representing a lotus flower and bird. They then explored the different stimuli for the dance itself, which was based on gang culture, the book 'Londonstani' and music by Robin Rimbaud. The creative tasks enabled the dancers to develop their choreographic and performance skills. The day culminated in a group performance which will be performed at the schools dance show. The groups will also use *Faultline* as the starting point for coursework in Solo Composition for the yr 10 GCSE dancers and Performance in a Duo for the AS dancers.

**O sweet Child of  
Bethlehem,  
grant that we may share with all  
our hearts  
in this profound mystery of Christmas.  
Put into the hearts of men and women this  
peace  
for which they sometimes seek so desperately  
and which you alone can give to them.  
Help them to know one another better,  
and to live as brothers and sisters,  
children of the same Father.  
Reveal to them also your beauty, holiness and  
purity.  
Awaken in their hearts  
love and gratitude for your infinite  
goodness.  
Join them all together in your love.  
And give us your heavenly peace.  
Amen.  
Pope John XXIII**
